Rau Suggests Warfront Lull Timed By Reds

Termed Chance To Launch Talks

LAKE SUCCESS, Jan. 25 (AP) — India hinted today that the lull on the Korean warfront may be an indication of Chinese Communist readiness at a moment's notice to order a cease-fire, and implored the United Nations to seize upon the lull as an opportunity to launch peace negotiations.

Backed by Britain's Sir Gladwyn Jebb, Sir Benegal N. Rau of India demanded priority consideration by the 60-nation Political Committee of an Asian-Arab bloc proposal calling for an immediate conference of seven nations on the Korean crisis. He said it should take preceding over the U. S. resolution to brand Communist China an aggressor.

Russia Accepts Proposal

Although the 12-nation Arab-Asian proposal as originally presented had made no mention of a cease-fire, Rau said the sponsors had this in mind as the first order of business of the projected seven-nation conference.

Soviet Delegate Semyon K. Tsarapkin said Russia accepted the Asian-Arab proposal. However, he proposed an amendment which would delete a section of the proposal calling upon the U. N. Assembly president to set the time and place of the first session of the proposed seven-nation conference. He proposed that "the conferees" do this. Observers noted this would make the time of the meeting subject to the wishes of Communist China.

Jebb, urging a go-slow policy, said Peiping's newest message on the Korean situation did not reject the principle of cease-fire before negotiations. He said the suggestion of a "limited" cease-fire should at least be a subject for talks, at least as to the length of the truce period.

Nothing To Lose, Jebb Says

Jebb said Peiping now had made it "at least reasonably clear" that the Red Chinese proposal for the withdrawal of foreign troops was meant to include the "so-called Chinese volunteers" in Korea. He said it was likewise made clear that the question of the internal affairs of the Korean people should be a matter for discussion at an eventual conference, "whereas previously it had appeared that Peiping's intention was to leave this question entirely to the Koreans."

There should be no objections, Jebb said, to further sounding out the Peiping regime in an effort to prevent the spread of the Korean war.

Red China Wins Over Nationalists

CAIRO, Egypt, Jan. 25 (AP)—Communist China was chosen by secret ballot over Nationalist China today to sit in a conference of the Universal Postal Union, a specialized agency of the United Nations. The union's executive committee is meeting here to discuss air freight tariffs.

The vote was five for Red China and three for the Nationalists. There were three abstentions and one spoiled ballot. The votes were not identified by nations.

John M. Redding, United States assistant postmaster general, told the delegates the vote was "appeasement and a show of weakness." Earlier, Red China's chief delegate, Su Yu Nung, warned he would represent his government "unless expelled by force," according to a reliable informant.

Actress Joan Fontaine Divorces Producer

SANTA MONICA, Calif., Jan. 25 (AP) — Joan Fontaine, Academy Award winning actress, quickly won a divorce today, testifying that her film producer husband, William Dozier, walked out of her life and didn't come back.

"He walked out of the house Aug. 4, 1949 and failed to return," testified the blonde, 33-year-old actress, in a low, husky voice. "Mr. Dozier said the marriage did not suit him." She charged desertion.

Price Of Hides Set Back; Shoe Price Cuts Seen

WASHINGTON, Jan. 25 (AP)—The Office of Price Stabilization today ordered the price of cattle hides rolled back to the highest level prevailing last November. The cutback was estimated at 15 per cent or more, and was designed "to stabilize retail shoe prices."

Spokesmen for leading shoe manufacturers and retailers predicted the action would help hold shoe prices at their present levels. Officials in the price stabilization office said there is a chance some retailers may voluntarily cut their prices.

Minister Tells Crime Probers Of Bribe Offer

Committee Is Defied By Four Witnesses

NEW ORLEANS, Jan. 25 (AP)—The Senate Crime Investigating Committee heard testimony today that New Orleans gamblers tried to bribe a churchman by offer of a new Sunday school building.

The Rev. Dana Dawson, 33-year-old minister in adjoining Jefferson Parish (county), told the committee that gamblers offered him a new Sunday school building if he would withdraw from suits filed against the gaudy and openly flourishing casinos.

Four Defy Committee

The Methodist pastor was a plaintiff in a series of "padlock" suits filed in state courts in an effort to close down the nightclub gambling palaces on the grounds they violated gambling laws.

The minister said he turned down the offer and the congregation erected their own building at a cost of $80,000.

The churchman testified after four witnesses defied the committee, and Chairman Estes Kefauver, lanky Tennessee Democrat, immediately threatened contempt action.

The four were:

Costello Associate

Carlo Marcello, one of the "principal criminals of the United States," and a co-owner with New York Gambler Frank Costello and "Dandy" Phil Kastel of the plush Beverly Country Club in adjacent Jefferson Parish (county).

Edward M. (St. Louis Red) Allen, identified to the committee by New Orleans Mayor deLesseps Morrison as an ex-convict, lottery, pinball and handbook operator.

Joe Poretto, a partner in a horse racing news service for bookies, who struck Kefauver as "one of the worst characters this committee has had before it."

J. J. Fogarty, partner with Poretto since 1946 in the Daily Sports News published in New Orleans when Poretto and Anthony Marcello—brother of Carlo Marcello—"muscled in" on him.

Pilgrimage Reenacted

CANTERBURY, Eng., Jan. 25 (AP) — Thousands of Christians reenacted today the pilgrimages of medieval times to say a prayer in Canterbury for the triumph of Christianity over Communism.

The pilgrimage has been described as an act of worship to bring people to an awareness of the dangers threatening Christianity today.

Truman Blasts China, Opposes "Rash Action"

Attempts To Mend Rift With Allies

WASHINGTON, Jan. 25 (AP) — President Truman personally branded Red China an aggressor today and told the world that the United States as a whole takes the same stand.

But at the same time he spoke out against "rash or unwise action" and promised full consultation with "all other friendly nations" to decide "what can and should be done about the aggression in Korea."

This was apparently an effort to mend the breach that has been driven between this country and some of its allies — notably Britain and India — by the United Nations controversy over Red China's push into Korea.

Backs Austin's Stand

By implication he assured other countries that the United States has no intention of involving itself, or them, in a bigger Far Eastern conflict.

And, as if to give America's allies further reassurance, he said: "Obviously this is no time for rash or unwise action. This is a time for clear thinking and firmness."

"For my part," Mr. Truman said, "I believe in calling an aggressor an aggressor."

And he said the stand taken by Chief U. S. Delegate Warren Austin in the United Nations — to call the Chinese Reds aggressors, despite misgivings by Britain and others— had "the solid support of the executive, the Congress, and the people of the United States."

Mr. Truman read his statement at the beginning of his weekly news conference.

Names Security Commission

He also announced the appointment of eight members to serve, under the chairmanship of Fleet Adm. Chester W. Nimitz, on a new commission he set up to study the problem of guarding the nation's security "without sacrificing freedoms."

Mr. Truman had nothing new to say about when price and wage controls may be imposed — a step expected in the next few days.

He said, however, that he doesn't agree with Sen. Maybank (D-SC), who has declared that delay in imposing them has brought the country to the brink of disaster. Mr. Truman said he doesn't think the country is anywhere near that point.

VA May Close Some Of Its Contact Offices

WASHINGTON, Jan. 25 (AP)—The Veterans Administration said today a cut in funds may force the closing of some of the 300 offices it maintains in small towns to provide at-home advice and help to veterans.

These offices are known as one-man contact offices, staffed with a contact officer and a stenographer. Those employes wuold be discharged or transferred if the offices are closed.

There are also 141 other contact offices, with larger staffs, which would not be affected.

20 New Defense Agencies Jostle For Alphabet Space

WASHINGTON, Jan. 25 (AP) — Twenty new defense agencies are jostling for alphabet room in this initial-conscious capital.

The DPA, DTA, DMB, DFA and DMA already are lined up right after the A-B-C's.

But even though the Congressional Directory listed 173 separate boards, bureaus, administrations, offices and other divisions of government before the Korean war, the newcomers won't be too hard pressed for distinctive tags.

The Library of Congress gives assurance that the 26-letter English alphabet is capable of almost innumerable combinations. It probably will be a long time before you meet the chief clerk of anything called the YQX.

Some of the new agencies, authorities and boards are booming concerns already. Others scarcely exist except on paper. But some will develop and expand in the months ahead until their abbreviations become familiar to every schoolchild.

Of the 20 new agencies last counted (and there may be more by the time you read this), 19 were fathered by the Defense Production Act.

The twentieth is a grim by-product of the same national emergency. The Federal Civil Defense Administration (FCDA) was established to prepare shelter and emergency aid in the event of an enemy bombing.

Pay-Price Freeze Due Today Despite Eleventh-Hour Hitch

AP WIREPHOTO

Reds Wrong About This Yank

No one was more surprised than Staff Sgt. Oliver Frawley to learn he was a "prisoner" of the Chinese Communists. The Peiping radio reported Frawley was in good health. He was captured by the Reds but freed Nov. 25 and has been getting medical treatment at Valley Forge (Pa.) Hospital. He was visiting his wife and children yesterday when informed the Chinese still were listing him as a prisoner.

Wage Order Draws Fire From Labor

Officials At Odds On Price Rollback Date

WASHINGTON, Jan. 25 (AP)—An eleventh-hour hitch developed tonight in the government's drive for wage-price controls when labor leaders indicated strong opposition to a wage "freeze."

It was not expected to delay issuance of the general freeze order tomorrow, however.

Informants said Wage Stabilizer Cyrus Ching wanted a unanimous vote on wage policy from his nine-man wage board, but that the order might have to go out without complete unanimity. There are three labor representatives on the board.

In another late development, some officials advised newsmen that the widely heralded Jan. 2 date for the rollback on prices was outdated. They refused to say whether the date would be shifted ahead or back.

There was unofficial speculation that the new date might be Jan. 15.

International repercussions also cropped in advance of the projected freeze.

Latin American coffee-producing countries urged the administration to adopt a "flexible" policy on any ceilings clamped on coffee prices. They said adjustments should be permitted for any increases in their production costs.

Moving at a fast clip, the mobilization campaign brought these other actions into focus:

Metals—Plans to put rigid federal controls over steel, copper and aluminum were outlined by Walter C. Skuce of the National Production Authority at a meeting with industry representatives.

Under the plan, the use of the three key defense metals would be controlled by the government much more completely than at present. It was indicated the plan may go into effect about mid-year.

Gasoline—The oil and auto industries agreed that tetra-ethyl lead for anti-knock gasoline must be cut back, but disagreed on how it should be done.

Despite some difficulties, officials said the dual price-wage control order could still be expected within 24 hours.

Qualified informants said prices of nearly all goods and services will be frozen. They estimated that nearly 4,000,000 businesses and about 8,000,000 individual items—including meat and some other foods—will be affected.

Wages and salaries are expected to go under "flexible" controls—most pegged to present levels, but with leeway for some increases.

Chairman Charles E. Wilson and his Defense Mobilization Board unanimously approved plans for the general orders, acting against a background of the highest cost-of-living index in American history.

Ginny Seeks Divorce

SANTA MONICA, Calif., Jan. 25 (AP) — Singer Ginny Simms, 32, sued for a divorce today and asked that her husband, Hyatt Robert Dehn, 42, be restrained from disposing of their community property.

Draft Standards To Be Lowered, Congress Told

WASHINGTON, Jan. 25 (AP) — Draft standards will be cut to take in perhaps 150,000 men now barred for physical and mental reason, a Defense Department official said today.

Reporting this to Congress, Mrs. Anna M. Rosenberg, assistant secretary of defense, told reporters that draft boards may recheck all the 799,000 already rejected for these reasons.

Chairman Vinson (D-Ga) of the House Armed Services Committee remarked that he had heard reports $10,000 a year athletes have been turned down. Mrs. Rosenberg said occupation is not the criterion in passing on a man's ability to serve.

The rush to mobilize also brought these developments:

1. Chairman Johnston (D-SC) of the Senate Civil Service Committee asked the Senate to authorize an investigation by his group of government use of its manpower. He seeks to promote efficiency—"and to hammer out a manpower policy for the government" for the emergency.

Johnston said half the jobs done by military personnel are civilian in nature. Putting civilians in them would save $1,500,000,000 a year, he said, because it costs so much more to maintain a soldier in uniform than to pay a salary.

2. J. S. Nicholas, a Yale University scientist, told the Senate Armed Services Preparedness Subcommittee that many student scientists, doctors, engineers and other pre-professionals were rushing to enlist in order to choose their own branch of the service before being drafted.

The committee heard proposals for wide deferments for these youths to conserve the nation's short supply of scientific manpower; for drafting recently married non-veterans; and college students who do not pass high in the armed services intelligence tests.

Wool Boycott

NEW YORK, Jan. 25 (AP) — Bigelow-Sanford Carpet Company, largest of the nation's carpet and rug manufacturers, said tonight it does not intend to buy any more wool at current prices.

James D. Wise, company president, said Bigelow now is selling carpets at prices based on wool costing $1.40 a pound, although carpet wool now costs about $2.15 a pound.

Ends Life In Car Display Window

HORSEHEADS, N. Y., Jan. 25 (AP) — An automobile salesman ended his life in an auto display window today.

A coroner reported that George T. Shull, 44, ran a hose fgrom the exhaust pipe of a new model into a side window of the car, then sat inside until he was asphyxiated.

Coroner M. E. Pittman issued a verdict of suicide.

"Ike" To Report To Nation Feb. 2

WASHINGTON, Jan. 25 (AP) — America and the world will get a first-hand report from Gen. Dwight D. Eisenhower Friday night, Feb. 2 after his on-the spot check of Western Europe's defense preparations.

Due back in this country Wednesday, the supreme commander of the North Atlantic treaty allies will report first to President Truman and his Cabinet, the treaty organization and the members of the House and Senate in the first two days.

He will follow up with a 15-minute broadcast at 10:45 p. m. (EST) Friday over all major radio networks. His appearance also will be televised.

Mr. Truman, who personally announced Eisenhower's broadcast, said the General also would appear before the Senate and House Armed Services and Foreign Affairs Committees Thursday and Friday.

After shuttling for two weeks by plane among the Western European pact signers, Eisenhower landed in Iceland today, en route home by way of Canada.

Sen. Ellender Blocks Subversive Inquiry

WASHINGTON, Jan. 25 (AP) — Senate action on a proposal for a $75,000 investigation of subversive activities was blocked at least temporarily today in an economy move by Sen. Ellender (D-La).

The Louisiana lawmaker objected when Sen. Hayden (D-Ariz) asked the Senate to approve a resolution authorizing a Senate Judiciary subcommittee to conduct the inquiry.

Under the parliamentary situation the objection of one senator was enough to sidetrack the resolution. It can be brought up again—and undoubtedly will be.

Plot To Murder 4 Los Angeles Judges Nipped

LOS ANGELES, Jan. 25 (AP)—A plot to kill four Los Angeles judges, a former judge and former district attorney has been nipped by a tip, Sheriff Eugene W. Biscailuz announced today.

The sheriff identified the plotter as Arthur Emil Hansen, now in San Quentin Prison after his conviction in 1938 on a charge of killing two attorneys, Irving Hancock and R. J. McLaughlin.

Marked for death, the sheriff said, were Superior Judges Charles W. Fricke, Arthur Crum and Frank G. Swain, Municipal Judge Lewis Drucker, Attorney and ex-Superior Court Judge Isaac Pacht and former District Attorney Buron Fitts.

The sheriff said the plot was uncovered after a tip to Thad Brown, deputy police chief, and investigation disclosed that Hansen had offered a fellow convict $10,000 to commit one of the murders. The victim was not identified.

Hansen, the sheriff said, told the other convict he would take care of the other five—when he was released—and at each killing would leave the print of one finger so that when all were dead, police would have a complete set of the prints of one of his hands.

Fitts disclosed that Hansen has been threatening him for sometime.

Fitts said the judges all tried various criminal and civil actions in connection with the 1938 slayings.

Schools Closed By Strike, Youngsters Learn Via TV

MINNEAPOLIS, Jan. 25 (AP)—The kids got a dose of learnin' in deluxe style today, right off the TV screen.

And instead of Johnny being told to "shut that thing off and study your books," he was persuasively invited to watch to his heart's content.

There will be more tomorrow, and as long as the janitors' strike keeps the public schools closed.

The janitors walked out last Tuesday, demanding raises of $39 to $50 a month. The present scale ranges from $2,370 to $4,140 annually. The Minneapolis board of education, having offered an increase of three per cent, said "no" and dismissed classes.

The temperature stays close to zero in Minneapolis at this season, and mothers were dismayed at the thought of finding something for the children to do. Miss Madeline S. Long, the school's consultant in radio and television education, and station WTCN-TV stepped into the breach.

A series of 15-minute television school room programs was telecast between 9 and 11 a. m. today. There was story telling for the little tots. For the older pupils there were lessons in geography, speech, science, arithmetic, music, art, vocabulary building and homemaking. Teachers made idle by the strike volunteered to conduct the television classes.

Allied Vessels Silence Enemy Guns At Inchon

Planes Smash Two Highway Convoys

TOKYO, Fiday, Jan. 26 (AP)—Allied hunter-killer patrols with fixed bayonets and tanks advanced today to within 19 miles of Seoul despite increasing enemy pressure.

They boldly hunted for the apparently pulled-back Chinese Communist army. At last reports, they were within two miles of Suwon which is 17 miles below the Red-held South Korean capital.

By land, sea and air, Allied forces were stepping up the pressure on Red forces south of the 38th parallel throughout Korea.

Thursday the U. S. heavy cruiser St. Paul and two Canadian destroyers, the Cayuga and Nootka, shelled Seoul's port of Inchon and silenced a Communist battery which fired on them from Wolmi island. Wolmi is just off Inchon.

In the air, Allied planes smashed at two enemy highway convoys, totalling 250 vehicles, north of Seoul before dawn today.

Results were not disclosed.

Reds Promise "Bloody Nose"

A U. S. Eighth Army briefing officer said that U. N. patrols stabbing north around Suwon at one point drove off an enemy force with bayonets.

At another point, Allied tanks fought Reds dug in on a hill four miles southwest of Suwon. The tanks forced the enemy to withdraw.

One Allied unit heard cymbals, whistles and bugles—in the past the signal for a Communist attack. But the enemy force did not attack.

Gen. MacArthur, the United Nations commander, said in a pre-birthday interview that the Chinese Reds in Korea now were hindered by extended supply lines.

"We're going to give the Chinese a bloody nose somewhere in the south," MacArthur declared.

On the ground only one Allied patrol reported action. It clashed with a pocket of Reds near Yoju, 40 miles southeast of Seoul, and killed 15 of the enemy.

The U. S. Eighth Army reported 3,000 Chinese and Korean Reds were digging in 11 miles northwest of Yoju. Contact apparently had not yet been made with this force.

Patrol Enters Hoengsong

For the second day in a row, a tank-led Allied patrol rumbled ten miles north from Wonju on the central front. It entered the village of Hoengsong, 33 miles south of the 38th parallel boundary of South Korea, against no opposition.

Hoengsong is 55 miles due east of Seoul. It represents the northernmost Allied thrust since United Nations troops abandoned the South Korean capital of Seoul on Jan. 4.

Allied troops first reoccupied the town Wednesday then pulled back south Wednesday night.

In Thursday's chief air action, Allied bombers wrecked the rail hub town of Chunchon, 30 miles northwest of Hoengsong and about eight miles south of the 38th parallel.

5 Die, 4 Injured In Arsenal Fire

DOVER, N. J., Jan. 25 (AP) — A flash fire in a smokeless powder drying house at Picatinny Arsenal killed five workers today and injured four others.

The arsenal public information office said only nine men were in the small building when the fire broke out about 3:30 p. m. (EST).

The burned building was one of many small powder houses scattered through the sprawling arsenal just outside this city. They are used primarily for research and development of all types of ammunition.

No other buildings were affected and there was no explosion after the fire, the public information office said.

The New Jersey Bell Telephone Company reported it received emergency phone calls for fire fighting aid and for a priest shortly after the blaze broke out.

Col. J. P. Harris, commanding officer of the arsenal, immediately appointed a board of officers to investigate the cause of the fire.

The rush to mobilize also brought these developments:

1. Chairman Johnston (D-SC) of the Senate Civil Service Committee asked the Senate to authorize an investigation by his group of government use of its manpower. He seeks to promote efficiency—"and to hammer out a manpower policy for the government" for the emergency.

Johnston said half the jobs done by military personnel are civilian in nature. Putting civilians in them would save $1,500,000,000 a year, he said, because it costs so much more to maintain a soldier in uniform than to pay a salary.

2. J. S. Nicholas, a Yale University scientist, told the Senate Armed Services Preparedness Subcommittee that many student scientists, doctors, engineers and other pre-professionals were rushing to enlist in order to choose their own branch of the service before being drafted.

The committee heard proposals for wide deferments for these youths to conserve the nation's short supply of scientific manpower; for drafting recently married non-veterans; and college students who do not pass high in the armed services intelligence tests.

Wool Boycott

NEW YORK, Jan. 25 (AP) — Bigelow-Sanford Carpet Company, largest of the nation's carpet and rug manufacturers, said tonight it does not intend to buy any more wool at current prices.

James D. Wise, company president, said Bigelow now is selling carpets at prices based on wool costing $1.40 a pound, although carpet wool now costs about $2.15 a pound.

Ends Life In Car Display Window

HORSEHEADS, N. Y., Jan. 25 (AP) — An automobile salesman ended his life in an auto display window today.

A coroner reported that George T. Shull, 44, ran a hose fgrom the exhaust pipe of a new model into a side window of the car, then sat inside until he was asphyxiated.

Coroner M. E. Pittman issued a verdict of suicide.

"Ike" To Report To Nation Feb. 2

WASHINGTON, Jan. 25 (AP) — America and the world will get a first-hand report from Gen. Dwight D. Eisenhower Friday night, Feb. 2 after his on-the spot check of Western Europe's defense preparations.

Due back in this country Wednesday, the supreme commander of the North Atlantic treaty allies will report first to President Truman and his Cabinet, the treaty organization and the members of the House and Senate in the first two days.

He will follow up with a 15-minute broadcast at 10:45 p. m. (EST) Friday over all major radio networks. His appearance also will be televised.

Mr. Truman, who personally announced Eisenhower's broadcast, said the General also would appear before the Senate and House Armed Services and Foreign Affairs Committees Thursday and Friday.

After shuttling for two weeks by plane among the Western European pact signers, Eisenhower landed in Iceland today, en route home by way of Canada.

Sen. Ellender Blocks Subversive Inquiry

WASHINGTON, Jan. 25 (AP) — Senate action on a proposal for a $75,000 investigation of subversive activities was blocked at least temporarily today in an economy move by Sen. Ellender (D-La).

The Louisiana lawmaker objected when Sen. Hayden (D-Ariz) asked the Senate to approve a resolution authorizing a Senate Judiciary subcommittee to conduct the inquiry.

Under the parliamentary situation the objection of one senator was enough to sidetrack the resolution. It can be brought up again—and undoubtedly will be.

Plot To Murder 4 Los Angeles Judges Nipped

LOS ANGELES, Jan. 25 (AP)—A plot to kill four Los Angeles judges, a former judge and former district attorney has been nipped by a tip, Sheriff Eugene W. Biscailuz announced today.

The sheriff identified the plotter as Arthur Emil Hansen, now in San Quentin Prison after his conviction in 1938 on a charge of killing two attorneys, Irving Hancock and R. J. McLaughlin.

Marked for death, the sheriff said, were Superior Judges Charles W. Fricke, Arthur Crum and Frank G. Swain, Municipal Judge Lewis Drucker, Attorney and ex-Superior Court Judge Isaac Pacht and former District Attorney Buron Fitts.

The sheriff said the plot was uncovered after a tip to Thad Brown, deputy police chief, and investigation disclosed that Hansen had offered a fellow convict $10,000 to commit one of the murders. The victim was not identified.

Hansen, the sheriff said, told the other convict he would take care of the other five—when he was released—and at each killing would leave the print of one finger so that when all were dead, police would have a complete set of the prints of one of his hands.

Fitts disclosed that Hansen has been threatening him for sometime.

Fitts said the judges all tried various criminal and civil actions in connection with the 1938 slayings.

Schools Closed By Strike, Youngsters Learn Via TV

MINNEAPOLIS, Jan. 25 (AP)—The kids got a dose of learnin' in deluxe style today, right off the TV screen.

And instead of Johnny being told to "shut that thing off and study your books," he was persuasively invited to watch to his heart's content.

There will be more tomorrow, and as long as the janitors' strike keeps the public schools closed.

The janitors walked out last Tuesday, demanding raises of $39 to $50 a month. The present scale ranges from $2,370 to $4,140 annually. The Minneapolis board of education, having offered an increase of three per cent, said "no" and dismissed classes.

The temperature stays close to zero in Minneapolis at this season, and mothers were dismayed at the thought of finding something for the children to do. Miss Madeline S. Long, the school's consultant in radio and television education, and station WTCN-TV stepped into the breach.

A series of 15-minute television school room programs was telecast between 9 and 11 a. m. today. There was story telling for the little tots. For the older pupils there were lessons in geography, speech, science, arithmetic, music, art, vocabulary building and homemaking. Teachers made idle by the strike volunteered to conduct the television classes.

Wage Order Draws Fire From Labor

Officials At Odds On Price Rollback Date

WASHINGTON, Jan. 25 (AP)—An eleventh-hour hitch developed tonight in the government's drive for wage-price controls when labor leaders indicated strong opposition to a wage "freeze."

It was not expected to delay issuance of the general freeze order tomorrow, however.

Informants said Wage Stabilizer Cyrus Ching wanted a unanimous vote on wage policy from his nine-man wage board, but that the order might have to go out without complete unanimity. There are three labor representatives on the board.

In another late development, some officials advised newsmen that the widely heralded Jan. 2 date for the rollback on prices was outdated. They refused to say whether the date would be shifted ahead or back.

There was unofficial speculation that the new date might be Jan. 15.

International repercussions also cropped in advance of the projected freeze.

Latin American coffee-producing countries urged the administration to adopt a "flexible" policy on any ceilings clamped on coffee prices. They said adjustments should be permitted for any increases in their production costs.

Moving at a fast clip, the mobilization campaign brought these other actions into focus:

Metals—Plans to put rigid federal controls over steel, copper and aluminum were outlined by Walter C. Skuce of the National Production Authority at a meeting with industry representatives.

Under the plan, the use of the three key defense metals would be controlled by the government much more completely than at present. It was indicated the plan may go into effect about mid-year.

Gasoline—The oil and auto industries agreed that tetra-ethyl lead for anti-knock gasoline must be cut back, but disagreed on how it should be done.

Despite some difficulties, officials said the dual price-wage control order could still be expected within 24 hours.

Qualified informants said prices of nearly all goods and services will be frozen. They estimated that nearly 4,000,000 businesses and about 8,000,000 individual items—including meat and some other foods—will be affected.

Wages and salaries are expected to go under "flexible" controls—most pegged to present levels, but with leeway for some increases.

Chairman Charles E. Wilson and his Defense Mobilization Board unanimously approved plans for the general orders, acting against a background of the highest cost-of-living index in American history.

Allied Vessels Silence Enemy Guns At Inchon

Planes Smash Two Highway Convoys

TOKYO, Fiday, Jan. 26 (AP)—Allied hunter-killer patrols with fixed bayonets and tanks advanced today to within 19 miles of Seoul despite increasing enemy pressure.

They boldly hunted for the apparently pulled-back Chinese Communist army. At last reports, they were within two miles of Suwon which is 17 miles below the Red-held South Korean capital.

By land, sea and air, Allied forces were stepping up the pressure on Red forces south of the 38th parallel throughout Korea.

Thursday the U. S. heavy cruiser St. Paul and two Canadian destroyers, the Cayuga and Nootka, shelled Seoul's port of Inchon and silenced a Communist battery which fired on them from Wolmi island. Wolmi is just off Inchon.

In the air, Allied planes smashed at two enemy highway convoys, totalling 250 vehicles, north of Seoul before dawn today.

Results were not disclosed.

Reds Promise "Bloody Nose"

A U. S. Eighth Army briefing officer said that U. N. patrols stabbing north around Suwon at one point drove off an enemy force with bayonets.

At another point, Allied tanks fought Reds dug in on a hill four miles southwest of Suwon. The tanks forced the enemy to withdraw.

One Allied unit heard cymbals, whistles and bugles—in the past the signal for a Communist attack. But the enemy force did not attack.

Gen. MacArthur, the United Nations commander, said in a pre-birthday interview that the Chinese Reds in Korea now were hindered by extended supply lines.

"We're going to give the Chinese a bloody nose somewhere in the south," MacArthur declared.

On the ground only one Allied patrol reported action. It clashed with a pocket of Reds near Yoju, 40 miles southeast of Seoul, and killed 15 of the enemy.

The U. S. Eighth Army reported 3,000 Chinese and Korean Reds were digging in 11 miles northwest of Yoju. Contact apparently had not yet been made with this force.

Patrol Enters Hoengsong

For the second day in a row, a tank-led Allied patrol rumbled ten miles north from Wonju on the central front. It entered the village of Hoengsong, 33 miles south of the 38th parallel boundary of South Korea, against no opposition.

Hoengsong is 55 miles due east of Seoul. It represents the northernmost Allied thrust since United Nations troops abandoned the South Korean capital of Seoul on Jan. 4.

Allied troops first reoccupied the town Wednesday then pulled back south Wednesday night.

In Thursday's chief air action, Allied bombers wrecked the rail hub town of Chunchon, 30 miles northwest of Hoengsong and about eight miles south of the 38th parallel.

5 Die, 4 Injured In Arsenal Fire

DOVER, N. J., Jan. 25 (AP) — A flash fire in a smokeless powder drying house at Picatinny Arsenal killed five workers today and injured four others.

The arsenal public information office said only nine men were in the small building when the fire broke out about 3:30 p. m. (EST).

The burned building was one of many small powder houses scattered through the sprawling arsenal just outside this city. They are used primarily for research and development of all types of ammunition.

No other buildings were affected and there was no explosion after the fire, the public information office said.

The New Jersey Bell Telephone Company reported it received emergency phone calls for fire fighting aid and for a priest shortly after the blaze broke out.

Col. J. P. Harris, commanding officer of the arsenal, immediately appointed a board of officers to investigate the cause of the fire.

Assault Charge Faces Man Who Wounded Rockne

WICHITA, Kas., Jan. 25 (AP)—Joe Novacek, used car dealer, was charged today with assault with intent to kill William D. Rockne, son of the late Knute Rockne, famed Notre Dame coach.

Rockne, 35, signed the assault complaint in his hospital room.

Rockne's physician said he is not yet past the critical stage but, barring complications, will recover. Rockne's mother, who flew here from South Bend, Ind., sees him daily.

Deputy County Attorney Robert Morrison said discrepancies between the stories of Novacek and Rockne led to Novacek's prosecution.

Arraigned in city court, the 33-year-old Wichitan was released under $1,000 bond until preliminary hearing Feb. 9. Conviction, Morrison said, could mean imprisonment for not more than ten years.

Morrison said Novacek has changed his account of the shooting some since first questioned but still contends he shot Rockne after he had forced entry to the Novacek home late Saturday night.

Morrison said Rockne tells that he had been drinking with three men in a tavern and he went to the Novacek home twice "because he had been told he could buy liquor there after 11 p. m., when liquor stores close."

Workers Walk Out At Four Pittsburgh Area Breweries

PITTSBURGH, Jan. 25 (AP)—Some 1,200 plant workers walked out today at four major breweries in the Pittsburgh district.

Scattered pickets appeared at the Duquesne Brewing Company's South Side plant but union officials said the picketing was unauthorized.

Other breweries affected by the walkout of plant workers are Pittsburgh Brewing Company, Fort Pitt at Sharpsburg and Jeannette, and Eberhard and Ober, North Side.

The plant workers are members of Local 22, CIO International Brewers Union.

Union officials reported the "work stoppage is not a strike," adding:

"The men are just staying off the job while we try to negotiate a wage increase."

Hoffman And McShane Head Md. ESA Office

BALTIMORE, Jan. 25 (AP)—Hugo Hoffman, campaign manager for George P. Mahoney in last summer's Democratic primary, and Edgar McShane, a member of Sen. O'Conor's staff in Washington, today were named district consultants in charge of a new price stabilization office in Baltimore.

The district office here is to be under a regional office at Richmond. The Baltimore branch will administer price stabilization affairs in Maryland.

Battle Joined Over University's Power To Issue Building Bonds

ANNAPOLIS, Md., Jan. 25 (AP) — The battle over the University of Maryland's power to erect its own buildings and pay for them on a self-liquidating basis was joined today.

Sen. Crothers (D-Cecil) submitted a measure to amend the 1950 University Building Authority Act, under which bonds have never been issued. Some legal experts have held that the present law is of doubtful constitutionality because of technicalities. No other state agency has that power.

Crothers' bill would amend the act to change the questioned clauses and thus erase any constitutional doubts.

But there is another bill before the Senate to cancel altogether the power of the university to issue its own construction bonds.

It was introduced yesterday by Sen. Hoff (R-Carroll), who led the unsuccessful fight last year to block what was then familiarly referred to as the "Byrd building bill," after Dr. H. C. Byrd, president of the University of Maryland.

After brief sessions, both houses voted to adjourn until Monday night.

One of the 28 pieces of legislation introduced at today's session would allow transfer of race meetings from one track to another only in case of an emergency or if "unusual conditions" arise.

The bill, by Delegate Robinson (D-Balto 4th), would also limit any one track owner to 25 days of racing a year. The present maximum is 50 days.

Delegate Jackson (D-Baltimore County) introduced a measure to allow the blind and the aged to appeal to the circuit courts, and to the court of appeals, if necessary, if the State Department of Welfare turns down their request for public assistance.

It would also allow county welfare boards to appeal the department's decisions.

Suspect Arrested In Baltimore Holdup

BALTIMORE, Jan. 25 (AP)—Detectives tonight announced the arrest of a suspect and the recovery of more than half the money taken in today's $2,000 holdup of a West Baltimore savings association.

Acting on a tip, the detectives picked up a 26-year-old (negro) laborer, found a cash box containing $1,280 and located a loaded automatic pistol, two blackjacks and some rope.

Today's robbery was staged by four negroes armed with automatic pistols. Shortly after the holdup, police and FBI agents arrested four men in the area, but they were released after several hours of questioning.

The armed holdup was at the Occident Savings and Loan Association, just west of the downtown business district. Four employes were business district.

Republicans Eye '52 With Mixture Of Gloom And Hope

WASHINGTON, Jan. 25 (AP)—Republicans eyed the 1952 elections today with a mixture of gloom and hope—gloom that high taxes might curtail campaign funds and hope that "fighting candidates" will be chosen to head the GOP ticket.

That was the tenor of comments from early arrivals for tomorrow's Republican National Committee meeting. Resolutions are expected to be adopted to set up committees to recommend the time and place for the 1952 national presidential nominating convention.

There was some talk of Sen. Taft of Ohio and Gen. Dwight D. Eisenhower as likely choices for top place on the GOP ticket next year. But most members said it was too early to discuss candidate prospects.

Marshall Says UMT Could Prevent War

WASHINGTON, Jan. 25 (INS)—Defense Secretary Marshall declared tonight that universal military training launched through a blanket draft of 18-year-olds can make war "highly improbable."

Marshall said "near tragedy" developed in Korea because of lack of such a program, and suggested that universal training could have prevented both world wars.

Marshall delivered his strong speech before the Women's Patriotic Conference in Washington, in an effort to answer what he referred to as "many protests" concerning the proposed blanket draft of 18-year-olds.

Poached eggs on croutons instead of the usual toast will appeal to children as a breakfast dish.

The Railroads RESPECT...
The Union Leaders seek to
REPUDIATE...
this agreement!

What is the TRUTH?

At various stages in the present dispute with the brotherhoods of railroad operating employees

... the railroads agreed to arbitrate. The union leaders refused.

... the railroads accepted the recommendations of President Truman's Emergency Board. The union leaders refused.

... the railroads accepted the White House proposal of August 19, 1950. The union leaders refused.

Finally an Agreement was signed at the White House on December 21, 1950. Now the union leaders seek to repudiate the Agreement.

The railroads stand ready to put the terms of this Agreement into effect immediately, with back pay at the rates and dates indicated.

The Agreement is given in full below.

MEMORANDUM OF AGREEMENT

Washington, D. C.
December 21, 1950

1. Establish 40 hour week for yardmen with increase of 23 cents effective October 1, 1950, and additional 2 cents effective January 1, 1951.

2. Set aside 40 hour week agreement until January 1, 1952, and establish 6 day work week for yardmen. Effective with the first pay roll period after 30 days from the date of execution of the formal agreement, yardmen required by the carrier to work on the 7th day to be paid overtime rates except engineers who shall receive straight time rates for the 7th day. This does not create guarantees where they do not now exist. On and after October 1, 1951, three months' notice to be given of desire to go on 40 hour week. Provide for consideration of availability of manpower and 4 cents per hour if and when the 40 hour week actually becomes effective.

3. Settle rules for 40 hour week and 6 day week.

4. Grant yard conductors and brakemen other rules such as daily earnings minimum, car retarder operators and footboard yardmasters as recommended by Emergency Board No. 81.

5. Settle following rules:
Initial Terminal Delay (Conductors and Trainmen)
Interdivisional Runs
Pooling Cabooses (Conductors and Trainmen)
Reporting for Duty
More than One Class of Service
Switching Limits
Air Hose (Conductors and Trainmen)
Western Differential and Double Header and Tonnage Limitation (Conductors and Trainmen, all Territories)

6. Road men to receive 5 cents per hour increase effective October 1, 1950, and additional 5 cents per hour increase effective January 1, 1951.

7. Quarterly adjustment of wages on basis of cost of living index (1 point to equal 1¢ per hour. First adjustment April 1, 1951. Base to be 176).

8. Agreement embodying principles applicable to yardmasters to be entered into for benefit of yardmasters.

9. Effective October 1, 1950, the basic hours of dining car stewards shall be reduced from 225 to 205 hours per month; no penalty overtime to accrue until 240 hours have been worked, the hours between 205 and 240 to be paid for at the pro rata rate.

Effective February 1, 1951, overtime at time and one-half shall accrue after 220 hours have been worked. The basic monthly salary to be paid for the 205-hour month shall be the same as that now paid for the 225-hour month. Except that four dollars and ten cents ($4.10) shall be added to the present monthly rate effective January 1, 1951.

10. In consideration of above, this agreement to be effective until October 1, 1953, and thereafter until changed or modified under provisions of Railway Labor Act. Moratorium on proposals for changes in wages or rules until October 1, 1953, as follows:

No proposals for changes in rates of pay, rules or working conditions will be initiated or progressed by the employees against any carrier or by any carrier against its employees, parties hereto, within a period of three years from October 1, 1950, except such proposals for changes in rules or working conditions which may have been initiated prior to June 1, 1950. Provided, however, that if as the result of government wage stabilization policy, workers generally have been permitted to receive so-called annual improvement increases, the parties may meet with Doctor Steelman on or after July 1, 1952, to discuss whether or not further wage adjustments for employees covered by this agreement are justified, in addition to increases received under the cost of living formula. At the request of either party for such a meeting Doctor Steelman shall fix the time and place for such meeting. Doctor Steelman and the parties may secure information from the wage stabilization authorities or other government agencies. If the parties are unable to agree at such conferences whether or not further wage adjustments are justified they shall ask the President of the United States to appoint a referee who shall sit with them and consider all pertinent information, and decide promptly whether further wage increases are justified and, if so, what such increases should be, and the effective date thereof. The carrier representatives shall have one vote, the employee representatives shall have one vote and the referee shall have one vote.**

11. If the parties cannot agree on details of agreement or rules they shall be submitted to John R. Steelman for final decision.

The usual protections for arbitraries, miscellaneous rates, special allowances, and existing money differentials above existing standard daily rates will be included in the formal agreement.

**The foregoing will not debar management and committees on individual railroads from mutually agreeing upon changes in rates, rules and working conditions of employees covered by this agreement.

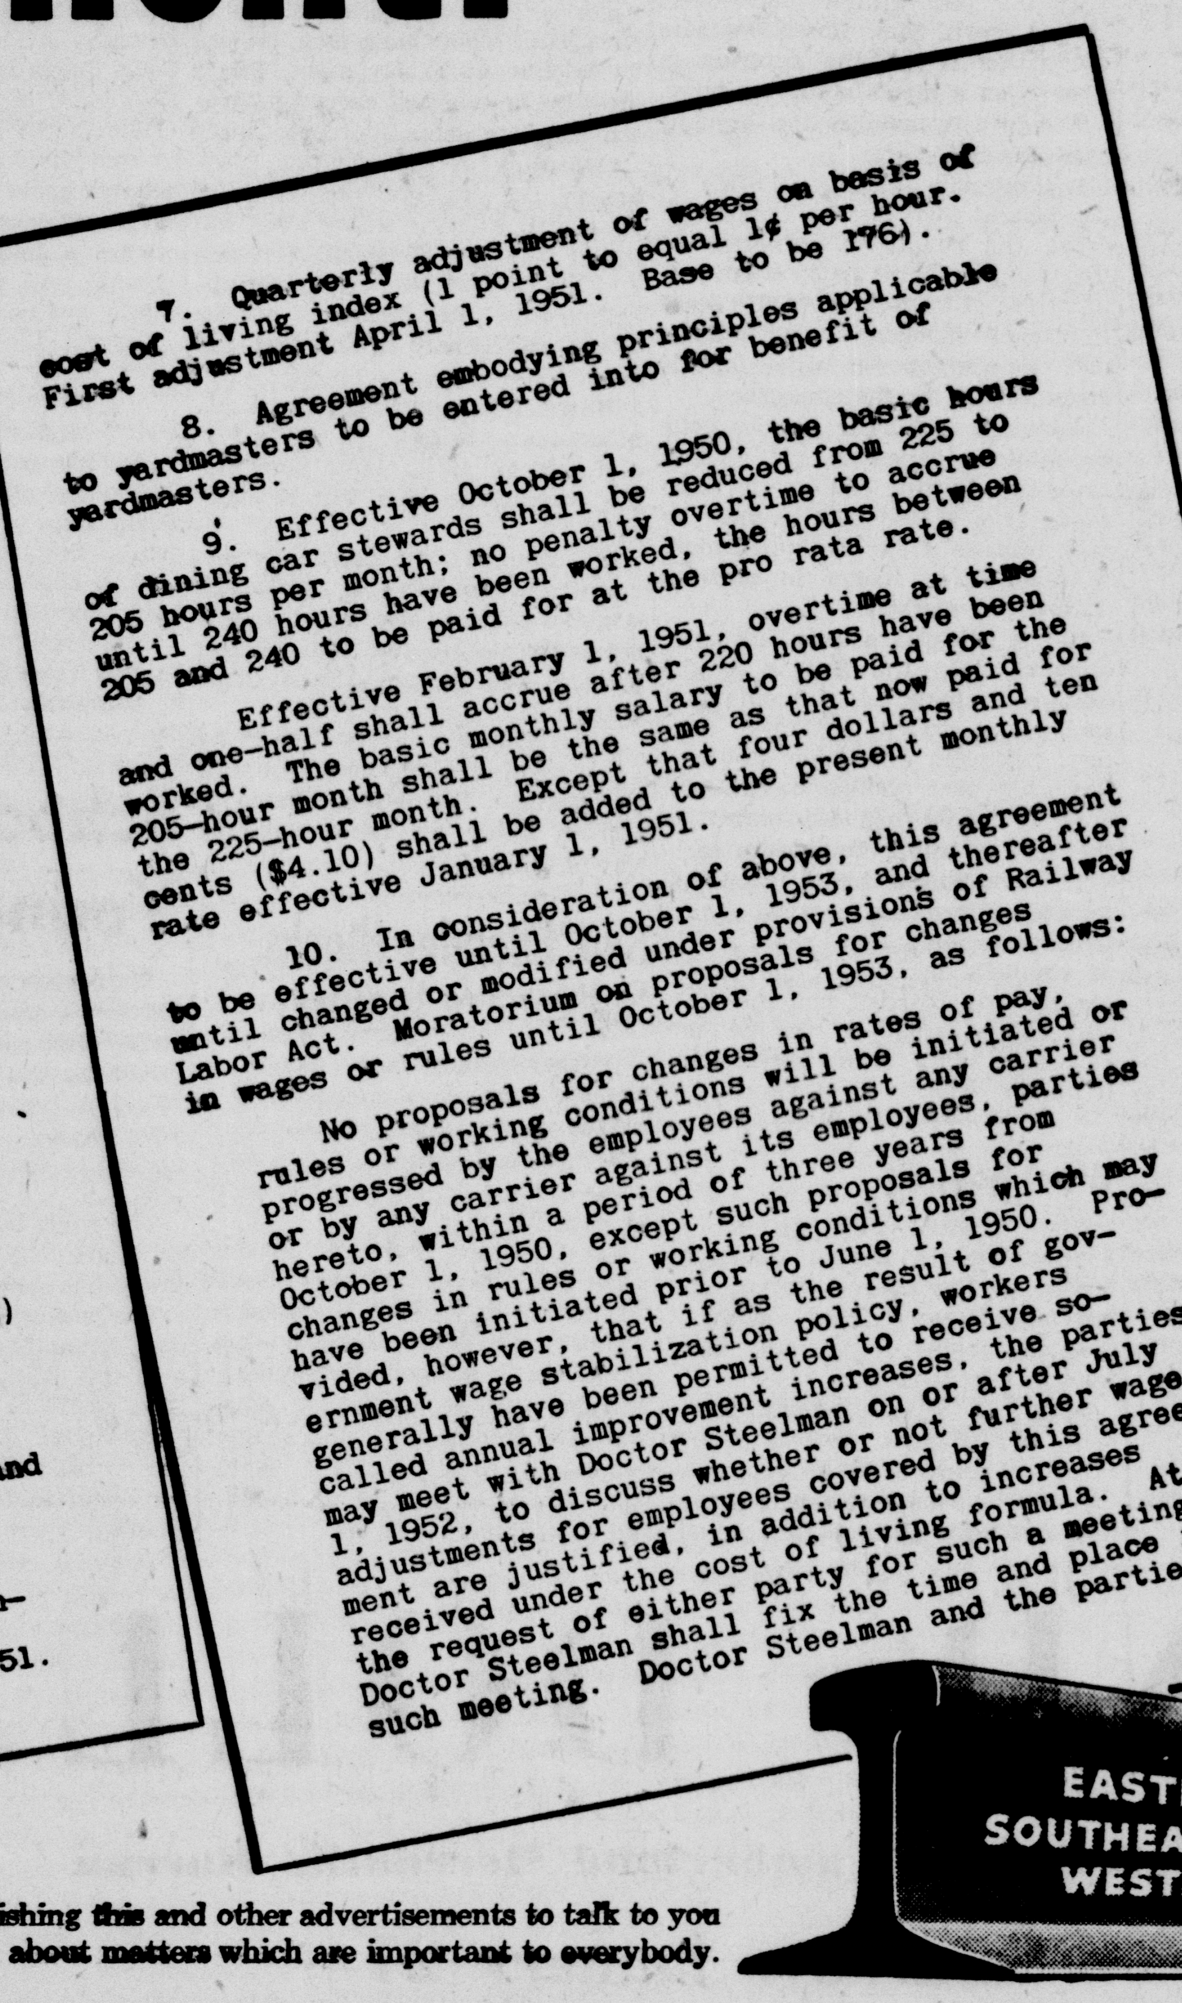
Air Hose (Conductors and Trainmen)
Western Differential and Double Header and Tonnage Limitation (Conductors and Trainmen, all Territories)

6. Road men to receive 5 cents per hour increase effective October 1, 1950, and additional 5 cents per hour increase effective January 1, 1951.



7. Quarterly adjustment of wages on basis of cost of living index (1 point to equal 1¢ per hour. First adjustment April 1, 1951. Base to be 176).

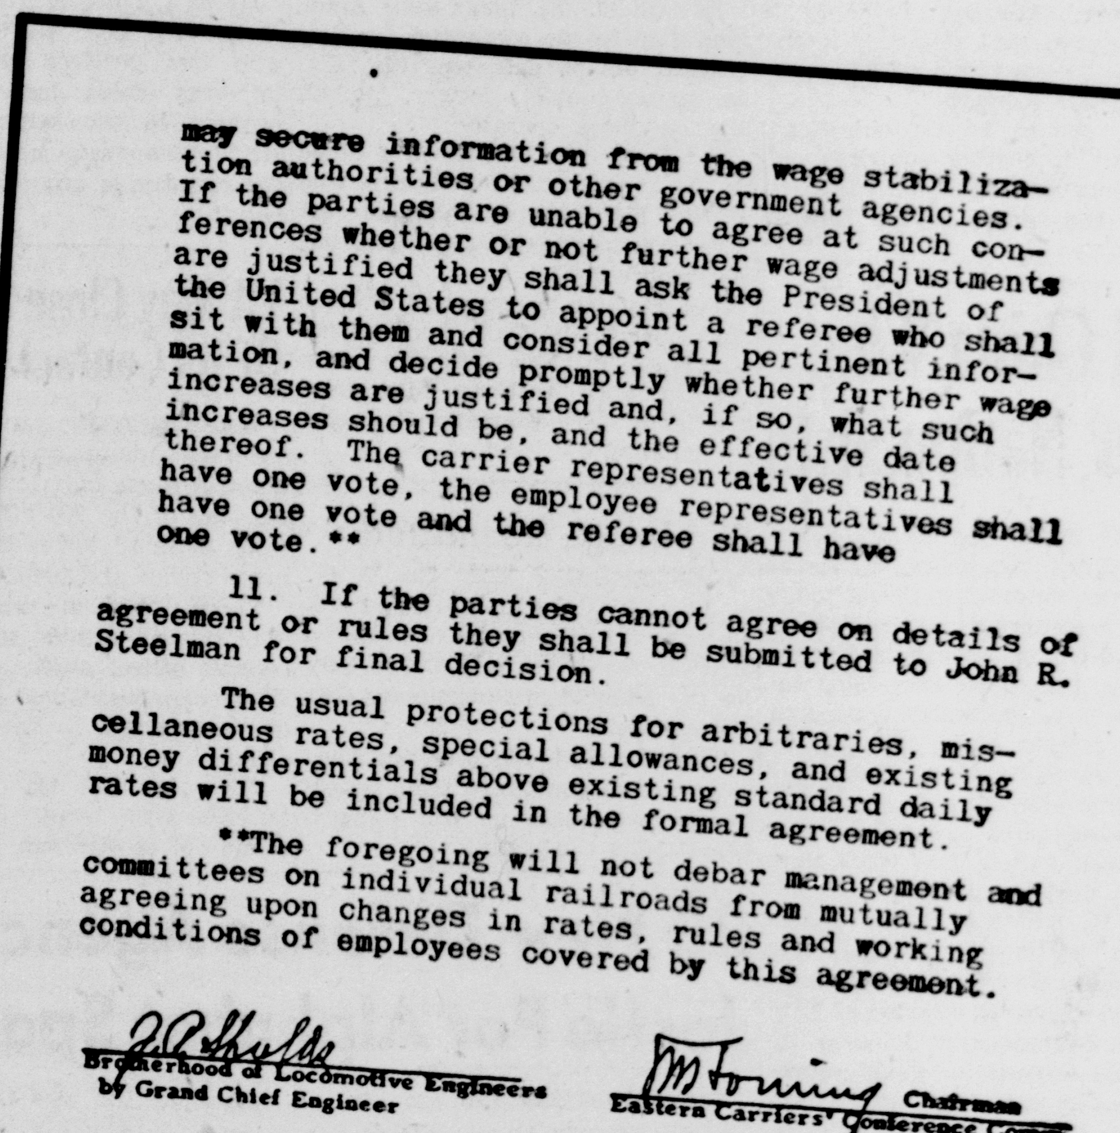
8. Agreement embodying principles applicable to yardmasters to be entered into for benefit of yardmasters.

9. Effective October 1, 1950, the basic hours of dining car stewards shall be reduced from 225 to 205 hours per month; no penalty overtime to accrue until 240 hours have been worked, the hours between 205 and 240 to be paid for at the pro rata rate.

Effective February 1, 1951, overtime at time and one-half shall accrue after 220 hours have been worked. The basic monthly salary to be paid for the 205-hour month shall be the same as that now paid for the 225-hour month. Except that four dollars and ten cents ($4.10) shall be added to the present monthly rate effective January 1, 1951.

10. In consideration of above, this agreement to be effective until October 1, 1953, and thereafter until changed or modified under provisions of Railway Labor Act. Moratorium on proposals for changes in wages or rules until October 1, 1953, as follows:

No proposals for changes in rates of pay, rules or working conditions will be initiated or progressed by the employees against any carrier or by any carrier against its employees, parties hereto, within a period of three years from October 1, 1950, except such proposals for changes in rules or working conditions which may have been initiated prior to June 1, 1950. Provided, however, that if as the result of government wage stabilization policy, workers generally have been permitted to receive so-called annual improvement increases, the parties may meet with Doctor Steelman on or after July 1, 1952, to discuss whether or not further wage adjustments for employees covered by this agreement are justified, in addition to increases received under the cost of living formula. At the request of either party for such a meeting Doctor Steelman shall fix the time and place for such meeting. Doctor Steelman and the parties



may secure information from the wage stabilization authorities or other government agencies. If the parties are unable to agree at such conferences whether or not further wage adjustments are justified they shall ask the President of the United States to appoint a referee who shall sit with them and consider all pertinent information, and decide promptly whether further wage increases are justified and, if so, what such increases should be, and the effective date thereof. The carrier representatives shall have one vote, the employee representatives shall have one vote and the referee shall have one vote.**

11. If the parties cannot agree on details of agreement or rules they shall be submitted to John R. Steelman for final decision.

The usual protections for arbitraries, miscellaneous rates, special allowances, and existing money differentials above existing standard daily rates will be included in the formal agreement.

**The foregoing will not debar management and committees on individual railroads from mutually agreeing upon changes in rates, rules and working conditions of employees covered by this agreement.

Perfect And Improving

General Ridgway did violence to the textbooks when he described the military situation on the central front in Korea. He said it was "perfect and getting better all the time." But only a Chinese Communist would take issue with his grammar. It sounded good to Americans, who would be happy to see perfection improved upon.

It is apparent, despite the tight censorship, that his statement was not pure optimism. U. S. forces are still holding the line they fell back on when they gave up Seoul. They have been aggressively feeling out the enemy by constant patrolling, which should be assurance that a new push would not take them by surprise. They have used reconnaissance in force to inflict punishing losses while keeping their own casualties light.

That is enough to show that the U. S. command is making full use of its superior weapons and superior transport. Another part is the war of attrition that has been carried on unceasingly by the Far East Air Force. The claim of 60,000 Chinese and North Koreans killed or wounded since November 24 may be somewhat exaggerated. But it is certain that the enemy has suffered heavily.

But the situation could change again. The increasing number of Russian-built jets in the Korean skies may be a portent. With air support the Chinese Communist armies would be a much greater threat than they are now. As of today the situation may be getting better than perfect but it could grow worse.

Grandparents enjoy a most enviable position. When they pick up the cuddly grandchild only to have him cry, kick and fuss, they can hand him back to his parents.

Russia Drives Wedge

Russia's handling of the recent American, British and French notes on possible four-power talks shows striking variations. The notes Moscow was answering were much alike. The American note, though not provocative, was probably the firmest of the three. The British note was somewhat more polite. The French communication was definitely conciliatory.

To the American note, Russia has thus far sent no reply at all.

To the British note, Moscow's reply was moderate in length and tone, merely reiterating without special emphasis what has been said in previous notes.

To the French, Russia's reply was long—and full of dark, vaguely menacing hints.

Although the Russian replies were the latest in a long exchange concerning details of a proposed four-power conference, they show no interest in such a conference. Instead, they are devoted to answering Western charges and inventing counter-charges. Apparently Russia has lost interest in discussions since the Western powers proposed broadening the talks to include other subjects than German rearmament. But she has not lost interest in making propaganda to pin the war guilt for any Bolshevik aggression on its eventual victims.

And it is notable that she has replied to firmness with silence, to formality with formality, and to a conciliatory attitude with a tone of intimidation. The prime purpose of Russia's dissimilar treatment of the three notes is clear. She is trying to drive a wedge between France, Britain and the United States.

Betting dollars to doughnuts once meant sure-fire winning odds. But the length of those odds is shrinking.

The Heart Of Malik

Jacob A. Malik, Soviet delegate to the UN, has been laid up with a heart ailment. Some Americans will regard this as propaganda for the dubious theory that Malik has a heart.

But, inhuman as his performance in the UN Security Council sometimes seems, Malik is a human being. If he is cut, he bleeds. If he goes without food, he is hungry. And if he tries to act as if he had no heart, his flesh and blood crack under the strain.

There are other causes of heart diseases, of course. But one of the important causes is the hypertension that is caused by asking flesh and blood to be as emotionless and tireless as a machine.

The Communist dogma and practice of conflict and intimidation, is imposed discipline that allows for no human flexibility, is cruelly hard on hearts. Under such a system the men who get to the top and stay there are those whose makeup is deficient in normal human feeling, the ones who have no heart.

Malik, by his illness, gives indication that he has more heart than a highranking Communist can afford. It might surprise him to be told that communism, America's deadly enemy, is his as well.

Polar Ice Cap To Blame?

An article in a recent Reader's Digest is rather discouraging for ice skating enthusiasts in the central latitudes. It cited evidence to support that group of geographers which says the temperate zone is getting warmer and the frigid zone less frigid. New York City has the kind of winters now that Washington formerly had, it is contended. Montreal's last few winters have been like New York's several generations ago.

The fact is that the polar ice cap is slowly receding again. Maybe another warm cycle is coming along.

If so, the changes are discernible only over many years, and wouldn't make much difference to anyone but a skater or a skier. Winter temperatures in a wide belt across the central part of the nation are highly "critical" where ice and snow are concerned. Let the average temperature be a degree or two higher than usaul, and there goes most of the skating.

Skating is so much fun that even a little of it is worth looking out for.

Eyes To Match Dresses

What won't the women do next? A late notion is to change the eye-color to match the ensemble. This is done through contact lenses, colored to suit. By paying merely $1,000 a woman can have eyes of four or five different hues

How this will add to the disconcertment of the hapless male, who already has troubles enough! He takes a fancy to a blue-eyed blonde, and at the next moment of gazing soulfully into her eyes finds that they have become green or black. The shock might even cause him to lose his line of conversation.

HOW TO KEEP WELL

By Dr. Theodore R. Van Dellen

To the limit of space, questions pertaining to the prevention of disease will be answered. Personal replies will be made under proper limitations, when return stamped envelope is enclosed. Dr. Van Dellen will not make diagnosis or prescribe for individual diseases.

The Antihistaminics and Colds

THE antihistaminics are rapidly joining the ranks of a long list of drugs that fail to cure the common cold. The ballyhoo is over and in the interim many reports have appeared in medical journals to nullify the extravagant claims made for these chemicals.

Many of the early studies were poorly controlled; too much reliance was placed on the individual's ability to diagnose his own cold. This is not said to belittle anyone, but even a skilled physician has difficulty in determining whether or not a few sneezes or a scratchy sensation in the back of the throat mean that a cold is in the making. Consequently, anything that is taken at this stage may help because there is a good possibility that the condition will proceed no further Moreover, many of us have had the experience of going to bed at night, believing that we are coming down with a cold, only to waken the next morning fit as a fiddle.

The research that disproved the value of the antihistaminics utilized tablets and capsules. For every individual who was given an antihistimanic to treat his cold an equal number received a placebo, a similar appearing tablet or capsule containing sugar instead of the antihistaminic. These carefully controlled studies were conducted by various investigators at the schools of medicine at Cornell, Western Reserve, and the Universities of Illinois and Minnesota as well as at West Point and the Naval Training center at Great Lakes.

The results were somewhat the same. The takers of the sugar capsules and pills were just as enthusiastic as the others and reported an equal number of good effects; in some instances, they were better with the placebos. At West Point cures within 24 hours were reported by 16 per cent of the young men in military service who were given antihistaminics orally; the same occurred in 27 per cent of those receiving the sugar products. At the University of Minnesota, students were handed a box of medicine with written instructions to take one dose every four hours until the cold was "cured" or the 10 doses of medicine were used up. Various antihistaminics were employed and some were mixed with Vitamin C. But in many of the boxes, placebos were substituted unbeknown to the students. When the data were tallied the results were the same; one preparation worked just as well as the other, including the sugar tablets.

•—•—•

At Western Reserve, even more daring experiments were performed. Volunteers were inoculated with the cold producing virus to make certain that the cold was "caught" at the earliest possible moment. Several types of experiments were made, each utilizing the antihistaminics and the sugar tablets. With some, the products were administered before the inoculations and for several days thereafter. The outcome revealed that the number of well established colds in the groups receiving the antihistaminic drugs and the placebos were equal.

At the present time we have no cure for a cold. It is possible to relieve symptoms and prevent complications with penicillin, chloromycetin, auremycin, and terramycin. Isolation, adequate diet, fluids, and good health habits also are helpful. Bed rest still is best of all and has stood the test of time.

REPLY

No but chronic leukemia can be considered a cousin of Hodgkin's disease inasmuch as both involve the lymph glands.

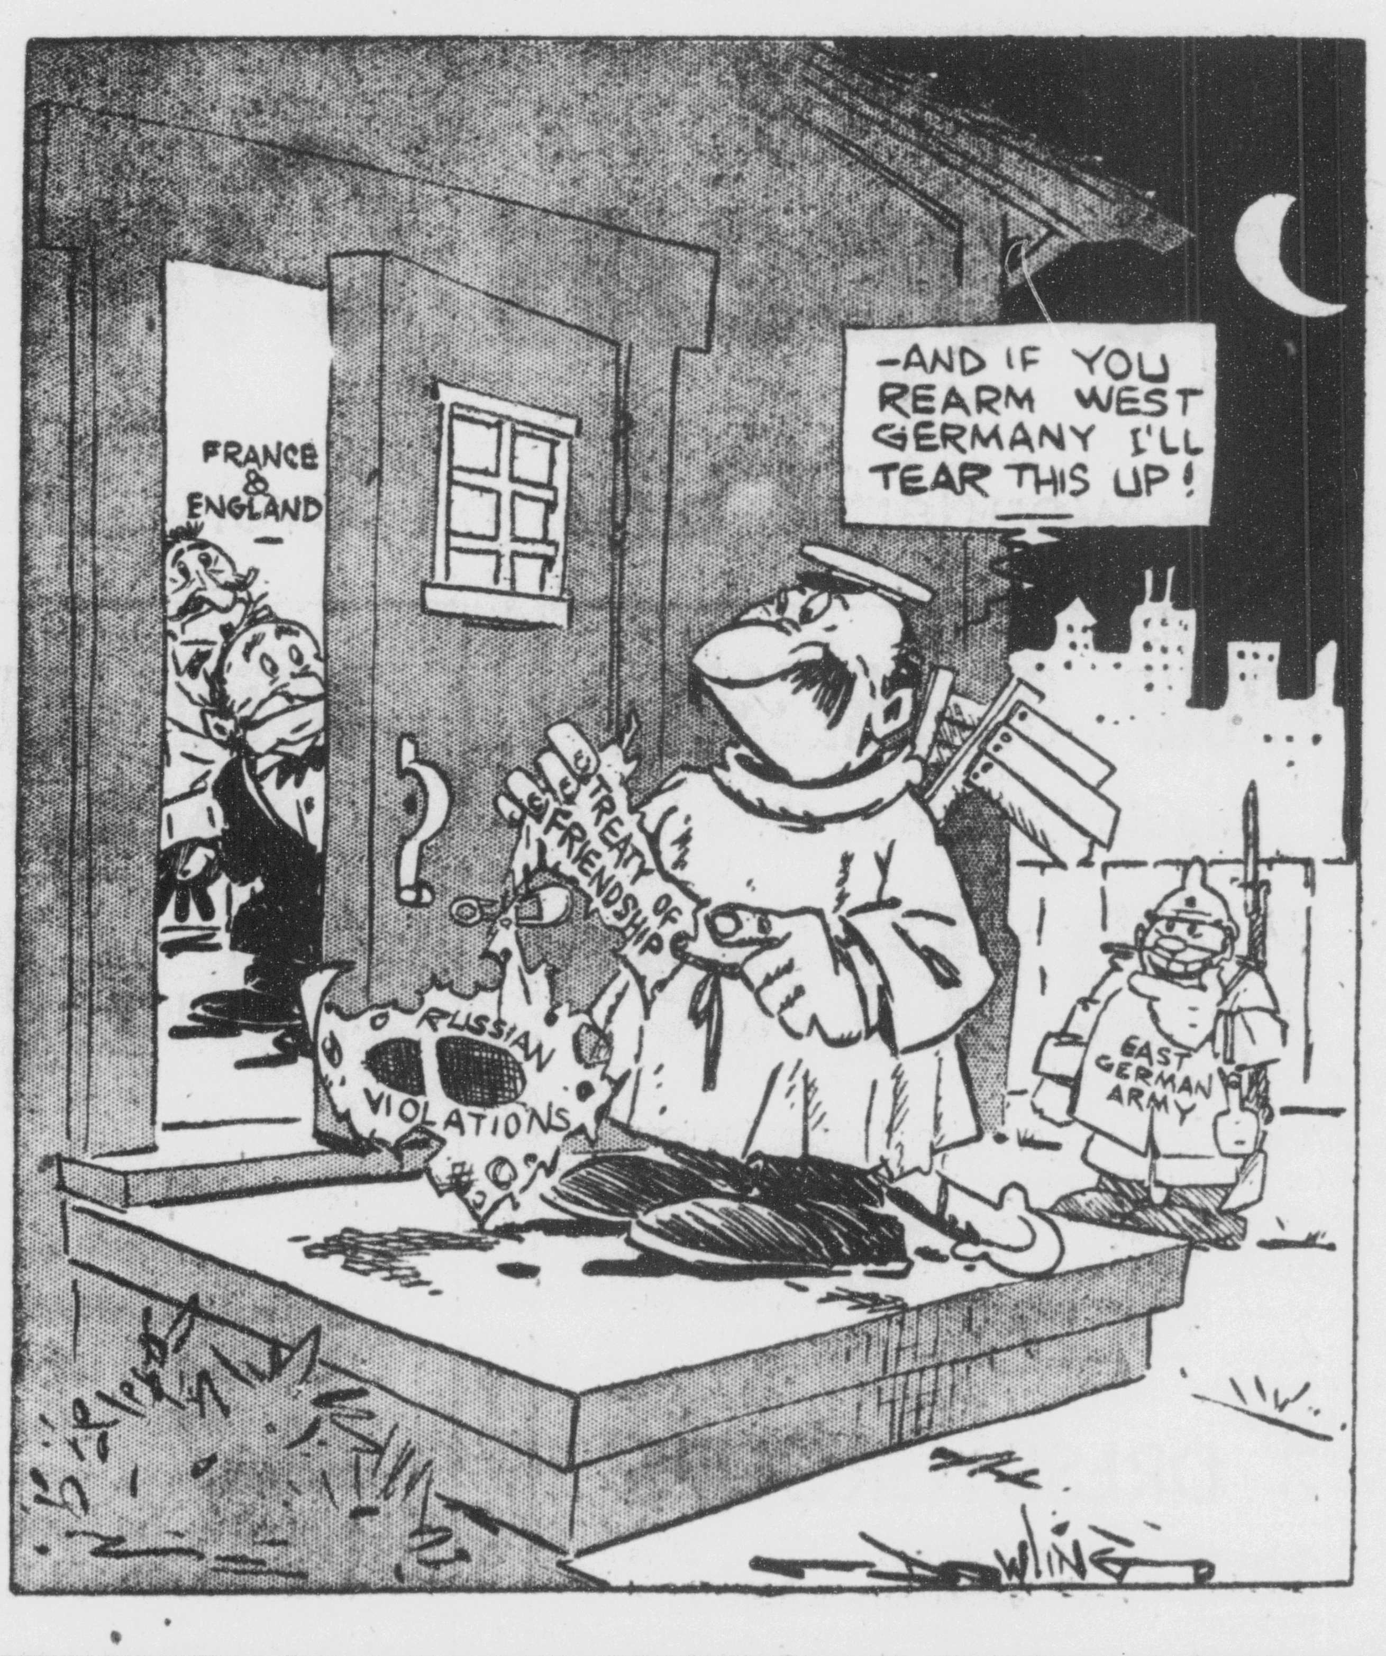
H. J. L. writes: What other disease besides mumps makes the jaws swell?

REPLY

The partoid glands often become inflamed and swollen in local infections of the area as well as in general diseases such as typhoid fever, after injury, and subsequent to operation of the intestinal and urinary tracts. Obstruction of the salivary ducts can do the same. Mumps is a specific inflammation of these glands, caused by virus infection. A distinction is made because of the contagious nature of mumps and the fact that this disease confers everlasting immunity whereas other disorders do not.

LATE DEVELOPMENTS IN THE WAR OF NERVES



U. S. Initiative Can Clear Up "Cease Fire" Meaning

By DAVID LAWRENCE

WASHINGTON, Jan. 25 — The time for American initiative in the United Nations so as to raise the dignity of that organization would seem to have arrived.

All the maneuvers of the Communists thus far—to which some gullible governments abroad have succumbed — appear to place the United States in the position of being unwilling to "negotiate" with Red China and hence as obstructing a "cease fire" or a so-called "peace conference."

The United States should always be ready to talk peace, and the only weakness today in the Department of State's position is its reluctance to state to the whole world the conditions of peace which it favors. The whole complexion of things would be altered if, as a substitute for the resolution declaring Red China an aggressor, there were a new resolution setting forth specifically the terms under which the fighting could be brought to an end. The terms might follow these lines:

Suggested Terms

1. Immediate withdrawal by Red China and the puppet North Korean regime of all their troops to the Yalu River.

2. The United Nations forces, as the world authority, to take over the entire Republic of Korea and make arrangements for the holding of elections to supplement the administrative and legislative machinery of the Korean Republic.

3. Appointment of a commission to investigate the resistance to United Nations forces carried on by Red China and to place the blame for the aggression by the North Korean regime last June.

4. Appointment of a commission to investigate conditions inside China to determine to what extent the present Peiping government owes its military supremacy to the assistance given it by Soviet Russia.

5. Appointment of a commission to call for free elections in China uncoerced by the military forces of either the Nationalists or the Communists.

6. When a democratic government has been duly established in China, consideration to be given to the admission of its representatives to the UN.

Such proposals or peace terms would be, if adopted, the policy of the United Nations. This would restore the dignity of the United Nations and revive the sagging faith of the American people in the sincerity of the Nehru government in India and in other governments which have brazenly deserted the basic principles of the United Nations charter to condone aggression and to refuse help to those nations which, like the United States, have supplied military forces to fight aggression.

Would Clarify U. S. Position

These terms, moreover, would put the Communist regime of Red China in its place and show the Chinese people that the American government wants to see them permanently represented in the UN but by a government that is worthy of recognition and one that does not owe its control solely to military force or dictatorship but to free elections.

The UN sent its forces into Korea last June to resist aggression. The palpably craven statement of Prime Minister Nehru that Red China should have been recognized when it tried to bludgeon its way into the UN and that UN forces should have stopped at the 38th Parallel and paid homage to the aggressors is one of the most astonishing utterances made to date in the name of international solidarity and peace. What the Indian Prime Minister is doing is to encourage pacifism, which has usually led to bloodshed. For, when aggressors are condoned or appeased, they always grow more arrogant and drag the world into the very war which the appeasers sought to avoid.

India has lost prestige in the family of nations because she is unwilling to resist aggression. The Arab nations are trifling with American friendship. These nations should not be expected to receive the military or moral support of the UN any longer unless the UN is to be just a conference group, which formally repudiates its collective security policies and opens the way to a series of offensive and defensive alliances by groups of nations acting outside the UN machinery.

The sooner the United States brings about a showdown in the UN on the terms of peace in Korea, the quicker there will be a clearing of the air as to whether the "cease fire" device is to be just a cleverly manipulated surrender by the UN to Red China or an expression of the determination of the UN to see to it that aggression not only is not rewarded but actually is punished.

Sen. Robertson Counsels Wisely Senatorial Worshipers; Russians Mass-Producing Faster Jet Planes; Johnston, Di Salle Want Price Freeze Soon

Says DREW PEARSON

WASHINGTON—Every Wednesday morning, a handful of senators gathers quietly in the Senate dining room for prayer and worship. They try to keep this meeting secret between themselves and their Maker, and the words they speak usually are more poignant and straight-from-the-heart than their speeches on the Senate floor. Such were the remarks last week of Virginia's Democratic Sen. A. Willis Robertson.

"A cynic has described the Old Testament as being a history of wars wrapped up in a prayer for peace," Robertson told the little band of senatorial worshipers. Then he outlined the wars that have raged over tiny Palestine, the cradle of Christianity.

Robertson thoughtfully added: "History teaches and science confirms that human nature in all races and in all ages has been very much the same, with a percentage of good people and a percentage of evil ones. History likewise teaches us that no nation has ever achieved lasting peace by superiority of arms . . .

"The Jews of the First Century wanted and expected a Messiah who would by force release them from bondage.

"In the present emergency," Robertson continued, "democratic nations may be able to assemble sufficient force to defeat the Communists on the battlefield. But such a victory would not settle the fundamental conflict between truth and error, between good and evil.

"Peace will, in my humble opinion, continue to escape the chancellories of the world until it finds a home in the hearts of men," counseled the Senator from Virginia.

Byrnes and Acheson — Ex-Secretary of State Jimmie Byrnes, now governor of South Carolina, has assured Dean Acheson he will support him 100 per cent in his campaign to send six divisions of American troops to Europe this year. Byrnes passed along this news to Acheson through a North Carolinian, Undersecretary Webb, when Webb went to South Carolina to attend Byrnes's inauguration. Webb told Byrnes he would be welcome in Washington for consultations with Acheson on foreign policy.

RUSSIAN JET PLANES—General Vandenberg, Air Force Chief of Staff, is worried about the high quality of Russian jet fighters now in action over Korea. Despite the news headlines telling of American air victories, Vandenberg has a report on his desk indicating that the Russian MIG-15 and LA-17 fighters are highly maneuverable. What's even more disturbing is that the Russians are now getting into mass production of an even faster jet—the TU-10.

AUSTERITY FOR BRASS HATS?—Secretary of Defense Marshall has suggested that we are spoiling our G.I.'s with too much transportation, recreation, and costly coddling. However, why not let the army's austerity program begin with the brass hats—including their private airplanes and limousines.

KU KLUX KLAN — Maj. Gen. George Van Horn Moseley, U. S. Army Retired, appealed to the Georgia Parole Board to release Emory Burke, leader of super-Ku Klux Klanism, the Columbians. In contrast, South Carolina's new governor, Jimmy Byrnes, has taken a forthright stand against the Klan while the Georgia Legislature has legislatively ripped the hoods from all Klansmen.

SHAKESPEARE TO THE RESCUE—Archie Alexander, live-wire assistant secretary of the Army, tried to recall a Biblical quotation which he said he wanted to use in a speech. Scouring the Pentagon, he couldn't find one Protestant Bible in the entire building. He even tried the office of Maj. Gen. Roy Parker, Army Chief of Chaplains, but after a frantic search, a red-faced underling explained that General Parker was out and had taken his Bible with him. Finally Alexander found a Bible on top of the desk of Gen J. Lawton Collins, Army Chief of Staff, but this turned out to be a Catholic Bible and didn't contain the quote Alexander had in mind. The harassed assistant secretary finally decided to quote Shakespeare instead.

FAMILY FEUD — Mobilization Boss Charlie Wilson really wanted to get rid of Price Administrator Mike Di Salle, not Economic Stabilization Director Alan Valentine. However, Di Salle was in too solid with President Truman, so Valentine got bounced instead. Angrily, Valentine wrote three sizzling letters to Truman but tore up each of them before writing his mild letter of resignation. Meanwhile, Wilson is still calling Di Salle incompetent behind his back.

Rigid Controls

An important meeting on economic policy was held last week across the street from the White House, and, with the blessing of the President, these decisions were made.

1. A really tough program of price, wage, and scarce material controls will be instituted. Defense Mozilizer Charlie Wilson is afraid the defense program will be destroyed by inflation and production as usual, therefore wants strict controls soon.

2. First will be the price freeze. New economic policy-maker Eric Johnston and Price Administrator Mike Di Salle hope to get the order out immediately. Lights are burning in the price agency right now. This will be followed by specific price orders, and price rollbacks, in key cost-of-living and defense items. This is a victory for Mike Di Salle.

3. Action in the price field will pave the way for a wage freeze to prevent a round of wage increases this spring.

NOTE—Voluntary appeals against production-as-usual are not working, and orders limiting scarce materials and technical manpower are in the works. Nonessential production, especially in electronics, construction, and motor vehicles, will be curtailed.

Ex-Sen. Frank Myers of Pennsylvania, Democrat, is planning to run against Sen. Ed Martin, Pennsylvania Republican . . . Senate GOP Secretary Mark Trice built a blazing fire in his office fireplace the other day though the temperature outside was nearly 80. Reason: He was burning a stack of secret Republican papers. MATTER OF FACT

By JOSEPH And STEWART ALSOP

The Chance of Peace

WASHINGTON

THE chance of peace, now ever-diminishing, entirely depends upon willingness to face facts. The first fact to face is that in going all-out to rebuild the defenses of the Western world, the United States and its allies are doing now what ought to have been done two years ago. The second fact to face is that the Kremlin has a deep interest in forestalling this Western rearmament, and is actually moving to do so.

The nature and possible motives of the Soviet Union's extensive preparations for new aggressions in Europe and Asia have been examined in two previous reports in this space. Two points stand out from the broad pattern of menace.

First, although Asia is now the most acutely inflamed area, the real danger is in Europe. Even if no settlement is reached in Korea, even if Indo-China falls to the Chinese Communists, it will still be possible to avoid a third world war. But if the Kremlin moves in Europe either a third world war, or a total surrender to Soviet imperialism, will then become inevitable. Thus the really significant event of the last six months has been the Kremlin's preparation to move in Europe.

Second, this danger has not been created by American hostility to the Chinese Communists, however "unwise" this may seem in London, or by the plan to arm the Western Germans, however "provocative" this may seem in Paris. The real source of the danger is in no way local. It is the general impulse of the Western allies to rebuild their strength needed, in order to defend their independence against Soviet imperialism.

Yugoslavia Key Nation

The evidence for this conclusion is plain enough. The new Soviet military dispositions in Europe do not chiefly threaten West Germany, or France, or Britain. As of today, the Soviet Union's intended first victim in Europe appears to be Yugoslavia—a nation innocent of any responsibility in China or Germany, but a nation so placed strategically that the fall of Belgrade will effectively defeat the purpose of the whole Western rearmament effort.

Indeed, the real motive of the Kremlin's agitation of the Chinese question in London and of the German question in Paris, is most probably to prepare for an attack on Yugoslavia by splitting the Western alliance. No more glittering politico-military coup can be imagined. With the Western allies split, Yugoslavia can be attacked, and Greece can later be overrun with perfect impunity.

At one stroke, the Yugoslav and Greek armies will be destroyed and the Turkish army will be neutralized—thus taking out of action the largest military forces now facing the Red Army in the West. The Middle East, already a mush, will be made ready to scoop up. In the ensuing general panic, the unstable French and Italian governments can easily be replaced by "neutraliste" regimes. The Mediterranean, with its invaluable airbases, will be denied to the remaining nations who choose to resist further Kremlin aggressions. And, in effect, a third world war will be lost without ever having been fought.

No one can say, of course, whether the military dispositions that suggest an intention to attack Yugoslavia really mean anything of the sort. Equally, no one can be sure these dispositions will not be changed overnight. But for the present at least, there is another aspect of the seeming choice of Yugoslavia as the intended victim in Europe, which it is highly unwise to overlook.

Precautionary Measures

In brief, the new Soviet military dispositions, besides seeming to mean danger for Yugoslavia, also seem to mean that the Kremlin wishes to avoid any frontal onslaught, on West Germany for instance, such as would automatically bring on a general war. To be sure, the Kremlin has also taken measures to be ready to move the 35 divisions in East Germany and Poland. But these improvements of road and rail lines, accumulations of military dumps in forward areas and programs of airfield construction, are not on a great scale and have not been accompanied by any

These Days

Call A Halt!

UNTIL it is decided what is to become of the United Nations, a halt should be called to some of the curious activities of that body.

For instance, a commission or something of UN is now engaged in defining the press. From what I can see of it, most of the efforts are designed to place limitations upon freedom of the press.

What most Americans forget is that the United Nations can lawfully legislate for the American people. A United Nations decision is binding upon us under the treaty which makes us a member of that body. Even should we vote against a measure, but not employ the veto, we are bound to adhere to it, if it is approved by the other members. In cases that have before our courts, they have so held, as in the California Alien Land Law case in 1948 (Oyama V. California).

The California Land Law may or may not be wrong, but California should make her laws, not the United Nations. In fact, by virtue of the treaty, the United Nations has a wider power over our states than the Constitution gives to Congress.

So, that amazing universal declaration of human rights can be destructive of our way of life, because we balance obligations against rights. For instance, take Article 25 of that document:

"Everyone has the right to a standard of living adequate for the health and well-being of himself and of his family, including food, clothing, housing, and medical care and necessary social services, and the right to security . . ."

Does that mean that we are to establish a socialist society in which every person is a slave to the state which levels all of us down to a minimum subsistence provided by the state?

And what are the obligations of the citiezn to the state? No reference is made to that. It could be total and abject obedience.

So, the genocide convention comes before us again. This is a measure which may have much justification. Its inspiration was the wiping out of whole peoples by antagonistic governments.

Whatever the intentions of the genocide convention, however noble its motives, it would be impossible under it for the United Nations to intervene in any state of our country on the assumption that the rights of a racial or a religious group were endangered.

Take, for instance, this provision in the covenant of human rights, which could become the law of our land:

"Freedom to manifest one's religion or beliefs shall be subject only to such limitations as are pursuant to law and are reasonable and necessary to protect public safety, order, health, or morals or the fundamental rights and freedoms of others."

Our system is incorporated in the First Amendment to the Constitution of the United Sates, which provides:

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances."

We have in this country some 265 religious groups, sects, cults. Our government interferes with none of them. Separation of church and state does not only mean that the church shall not interfere with government; it means even more that the government shall not interfere with the life of any church.

According to the covenant of human rights, however, the government becomes the ruler of every church. Suppose some bureaucrat were to decide that circumcision was unhealthful, or that holy water carried germs, or that baptism increased the incidence of pneumonia or that kosher meat was against public order!

Comparable ukases have been issued in the history of the human race. In the United States we say that the rites, rituals and disciplines of religious bodies are none of the business of the government, that for the state to interfere in such matters is a violation of the inalienable rights of the individual, bespoken in the Declaration of Independence.

But this you must note: If the Senate ratifies this covenant on human rights, it will have the force of an amendment to our Constitution. Can we afford to risk that?

The soundest procedure is to halt all these United Nations measures now. This is no time to give them consideration.

Perfect And Improving

General Ridgway did violence to the textbooks when he described the military situation on the central front in Korea. He said it was "perfect and getting better all the time." But only a Chinese Communist would take issue with his grammar. It sounded good to Americans, who would be happy to see perfection improved upon.

It is apparent, despite the tight censorship, that his statement was not pure optimism. U. S. forces are still holding the line they fell back on when they gave up Seoul. They have been aggressively feeling out the enemy by constant patrolling, which should be assurance that a new push would not take them by surprise. They have used reconnaissance in force to inflict punishing losses while keeping their own casualties light.

That is enough to show that the U. S. command is making full use of its superior weapons and superior transport. Another part is the war of attrition that has been carried on unceasingly by the Far East Air Force. The claim of 60,000 Chinese and North Koreans killed or wounded since November 24 may be somewhat exaggerated. But it is certain that the enemy has suffered heavily.

But the situation could change again. The increasing number of Russian-built jets in the Korean skies may be a portent. With air support the Chinese Communist armies would be a much greater threat than they are now. As of today the situation may be getting better than perfect but it could grow worse.

Grandparents enjoy a most enviable position. When they pick up the cuddly grandchild only to have him cry, kick and fuss, they can hand him back to his parents.

Russia Drives Wedge

Russia's handling of the recent American, British and French notes on possible four-power talks shows striking variations. The notes Moscow was answering were much alike. The American note, though not provocative, was probably the firmest of the three. The British note was somewhat more polite. The French communication was definitely conciliatory.

To the American note, Russia has thus far sent no reply at all.

To the British note, Moscow's reply was moderate in length and tone, merely reiterating without special emphasis what has been said in previous notes.

To the French, Russia's reply was long—and full of dark, vaguely menacing hints.

Although the Russian replies were the latest in a long exchange concerning details of a proposed four-power conference, they show no interest in such a conference. Instead, they are devoted to answering Western charges and inventing counter-charges. Apparently Russia has lost interest in discussions since the Western powers proposed broadening the talks to include other subjects than German rearmament. But she has not lost interest in making propaganda to pin the war guilt for any Bolshevik aggression on its eventual victims.

And it is notable that she has replied to firmness with silence, to formality with formality, and to a conciliatory attitude with a tone of intimidation. The prime purpose of Russia's dissimilar treatment of the three notes is clear. She is trying to drive a wedge between France, Britain and the United States.

Betting dollars to doughnuts once meant sure-fire winning odds. But the length of those odds is shrinking.

The Heart Of Malik

Jacob A. Malik, Soviet delegate to the UN, has been laid up with a heart ailment. Some Americans will regard this as propaganda for the dubious theory that Malik has a heart.

But, inhuman as his performance in the UN Security Council sometimes seems, Malik is a human being. If he is cut, he bleeds. If he goes without food, he is hungry. And if he tries to act as if he had no heart, his flesh and blood crack under the strain.

There are other causes of heart diseases, of course. But one of the important causes is the hypertension that is caused by asking flesh and blood to be as emotionless and tireless as a machine.

The Communist dogma and practice of conflict and intimidation, is imposed discipline that allows for no human flexibility, is cruelly hard on hearts. Under such a system the men who get to the top and stay there are those whose makeup is deficient in normal human feeling, the ones who have no heart.

Malik, by his illness, gives indication that he has more heart than a highranking Communist can afford. It might surprise him to be told that communism, America's deadly enemy, is his as well.

Polar Ice Cap To Blame?

An article in a recent Reader's Digest is rather discouraging for ice skating enthusiasts in the central latitudes. It cited evidence to support that group of geographers which says the temperate zone is getting warmer and the frigid zone less frigid. New York City has the kind of winters now that Washington formerly had, it is contended. Montreal's last few winters have been like New York's several generations ago.

The fact is that the polar ice cap is slowly receding again. Maybe another warm cycle is coming along.

If so, the changes are discernible only over many years, and wouldn't make much difference to anyone but a skater or a skier. Winter temperatures in a wide belt across the central part of the nation are highly "critical" where ice and snow are concerned. Let the average temperature be a degree or two higher than usaul, and there goes most of the skating.

Skating is so much fun that even a little of it is worth looking out for.

Eyes To Match Dresses

What won't the women do next? A late notion is to change the eye-color to match the ensemble. This is done through contact lenses, colored to suit. By paying merely $1,000 a woman can have eyes of four or five different hues.

How this will add to the disconcertment of the hapless male, who already has troubles enough! He takes a fancy to a blue-eyed blonde, and at the next moment of gazing soulfully into her eyes finds that they have become green or black. The shock might even cause him to lose his line of conversation.

HOW TO KEEP WELL

By Dr. Theodore R. Van Dellen

To the limit of space, questions pertaining to the prevention of disease will be answered. Personal replies will be made under proper limitations, when return stamped envelope is enclosed. Dr. Van Dellen will not make diagnosis or prescribe for individual diseases.

The Antihistaminics and Colds

THE antihistaminics are rapidly joining the ranks of a long list of drugs that fail to cure the common cold. The ballyhoo is over and in the interim many reports have appeared in medical journals to nullify the extravagant claims made for these chemicals.

Many of the early studies were poorly controlled; too much reliance was placed on the individual's ability to diagnose his own cold. This is not said to belittle anyone, but even a skilled physician has difficulty in determining whether or not a few sneezes or a scratchy sensation in the back of the throat mean that a cold is in the making. Consequently, anything that is taken at this stage may help because there is a good possibility that the condition will proceed no further. Moreover, many of us have had the experience of going to bed at night, believing that we are coming down with a cold, only to waken the next morning fit as a fiddle.

The research that disproved the value of the antihistaminics utilized tablets and capsules. For every individual who was given an antihistimanic to treat his cold an equal number received a placebo, a similar appearing tablet or capsule containing sugar instead of the antihistaminic. These carefully controlled studies were conducted by various investigators at the schools of medicine at Cornell, Western Reserve, and the Universities of Illinois and Minnesota as well as at West Point and the Naval Training center at Great Lakes.

The results were somewhat the same. The takers of the sugar capsules and pills were just as enthusiastic as the others and reported an equal number of good effects; in some instances, they were better with the placebos. At West Point cures within 24 hours were reported by 16 per cent of the young men in military service who were given antihistaminics orally; the same occurred in 27 per cent of those receiving the sugar products. At the University of Minnesota, students were handed a box of medicine with written instructions to take one dose every four hours until the cold was "cured" or the 10 doses of medicine were used up. Various antihistaminics were employed and some were mixed with Vitamin C. But in many of the boxes, placebos were substituted unbeknown to the students. When the data were tallied the results were the same; one preparation worked just as well as the other, including the sugar tablets.

●—●—●

At Western Reserve, even more daring experiments were performed. Volunteers were inoculated with the cold producing virus to make certain that the cold was "caught" at the earliest possible moment. Several types of experiments were made, each utilizing the antihistaminics and the sugar tablets. With some, the products were administered before the inoculations and for several days thereafter. The outcome revealed that the number of well established colds in the groups receiving the antihistaminic drugs and the placebos were equal.

At the present time we have no cure for a cold. It is possible to relieve symptoms and prevent complications with penicillin, chloromycetin, auremycin, and terramycin. Isolation, adequate diet, fluids, and good health habits also are helpful. Bed rest still is best of all and has stood the test of time.

Lights are burning in the price agency right now. This will be followed by specific price orders, and price rollbacks, in key cost-of-living and defense items. This is a victory for Mike Di Salle.

3. Action in the price field will pave the way for a wage freeze to prevent a round of wage increases this spring.

NOTE—Voluntary appeals against production-as-usual are not working, and orders limiting scarce materials and technical manpower are in the works. Nonessential production, especially in electronics, construction, and motor vehicles, will be curtailed.

MATTER OF FACT

By JOSEPH And STEWART ALSOP

The Chance of Peace

WASHINGTON

THE chance of peace, now ever-diminishing, entirely depends upon willingness to face facts. The first fact to face is that in going all-out to rebuild the defenses of the Western world, the United States and its allies are doing now what ought to have been done two years ago. The second fact to face is that the Kremlin has a deep interest in forestalling this Western rearmament, and is actually moving to do so.

The nature and possible motives of the Soviet Union's extensive preparations for new aggressions in Europe and Asia have been examined in two previous reports in this space. Two points stand out from the broad pattern of menace.

First, although Asia is now the most acutely inflamed area, the real danger is in Europe. Even if no settlement is reached in Korea, even if Indo-China falls to the Chinese Communists, it will still be possible to avoid a third world war. But if the Kremlin moves in Europe either a third world war, or a total surrender to Soviet imperialism, will then become inevitable. Thus the really significant event of the last six months has been the Kremlin's preparation to move in Europe.

Second, this danger has not been created by American hostility to the Chinese Communists, however "unwise" this may seem in London, or by the plan to arm the Western Germans, however "provocative" this may seem in Paris. The real source of the danger is in no way local. It is the general impulse of the Western allies to rebuild their strength needed, in order to defend their independence against Soviet imperialism.

Yugoslavia Key Nation

The evidence for this conclusion is plain enough. The new Soviet military dispositions in Europe do not chiefly threaten West Germany, or France, or Britain. As of today, the Soviet Union's intended first victim in Europe appears to be Yugoslavia—a nation innocent of any responsibility in China or Germany, but a nation so placed strategically that the fall of Belgrade will effectively defeat the purpose of the whole Western rearmament effort.

Indeed, the real motive of the Kremlin's agitation of the Chinese question in London and of the German question in Paris, is most probably to prepare for an attack on Yugoslavia by splitting the Western alliance. No more glittering politico-military coup can be imagined. With the Western allies split, Yugoslavia can be attacked, and Greece can later be overrun with perfect impunity.

At one stroke, the Yugoslav and Greek armies will be destroyed and the Turkish army will be neutralized—thus taking out of action the largest military forces now facing the Red Army in the West. The Middle East, already a mush, will be made ready to scoop up. In the ensuing general panic, the unstable French and Italian governments can easily be replaced by "neutraliste" regimes. The Mediterranean, with its invaluable airbases, will be denied to the remaining nations who choose to resist further Kremlin aggressions. And, in effect, a third world war will be lost without ever having been fought.

No one can say, of course, whether the military dispositions that suggest an intention to attack Yugoslavia really mean anything of the sort. Equally, no one can be sure these dispositions will not be changed overnight. But for the present at least, there is another aspect of the seeming choice of Yugoslavia as the intended victim in Europe, which it is highly unwise to overlook.

Precautionary Measures

In brief, the new Soviet military dispositions, besides seeming to mean danger for Yugoslavia, also seem to mean that the Kremlin wishes to avoid any frontal onslaught, on West Germany for instance, such as would automatically bring on a general war. To be sure, the Kremlin has also taken measures to be ready to move the 35 divisions in East Germany and Poland. But these improvements of road and rail lines, accumulations of military dumps in forward areas and programs of airfield construction, are not on a great scale and have not been accompanied by any

U. S. Initiative Can Clear Up "Cease Fire" Meaning

By DAVID LAWRENCE

WASHINGTON, Jan. 25 — The time for American initiative in the United Nations so as to raise the dignity of that organization would seem to have arrived.

All the maneuvers of the Communists thus far—to which some gullible governments abroad have succumbed — appear to place the United States in the position of being unwilling to "negotiate" with Red China and hence as obstructing a "cease fire" or a so-called "peace conference."

The United States should always be ready to talk peace, and the only weakness today in the Department of State's position is its reluctance to state to the whole world the conditions of peace which it favors. The whole complexion of things would be altered if, as a substitute for the resolution declaring Red China an aggressor, there were a new resolution setting forth specifically the terms under which the fighting could be brought to an end. The terms might follow these lines:

Suggested Terms

1. Immediate withdrawal by Red China and the puppet North Korean regime of all their troops to the Yalu River.

2. The United Nations forces, as the world authority, to take over the entire Republic of Korea and make arrangements for the holding of elections to supplement the administrative and legislative machinery of the Korean Republic.

3. Appointment of a commission to investigate the resistance to United Nations forces carried on by Red China and to place the blame for the aggression by the North Korean regime last June.

4. Appointment of a commission to investigate conditions inside China to determine to what extent the present Peiping government owes its military supremacy to the assistance given it by Soviet Russia.

5. Appointment of a commission to call for free elections in China uncoerced by the military forces of either the Nationalists or the Communists.

6. When a democratic government has been duly established in China, consideration to be given to the admission of its representatives to the UN.

Such proposals or peace terms would be, if adopted, the policy of the United Nations. This would restore the dignity of the United Nations and revive the sagging faith of the American people in the sincerity of the Nehru government in India and in other governments which have brazenly deserted the basic principles of the United Nations charter to condone aggression and to refuse help to those nations which, like the United States, have supplied military forces to fight aggression.

Would Clarify U. S. Position

These terms, moreover, would put the Communist regime of Red China in its place and show the Chinese people that the American government wants to see them permanently represented in the UN but by a government that is worthy of recognition and one that does not owe its control solely to military force or dictatorship but to free elections.

The UN sent its forces into Korea last June to resist aggression. The palpably craven statement of Prime Minister Nehru that Red China should have been recognized when it tried to bludgeon its way into the UN and that UN forces should have stopped at the 38th Parallel and paid homage to the aggressors is one of the most astonishing utterances made to date in the name of international solidarity and peace. What the Indian Prime Minister is doing is to encourage pacifism, which has usually led to bloodshed. For, when aggressors are condoned or appeased, they always grow more arrogant and drag the world into the very war which the appeasers sought to avoid.

India has lost prestige in the family of nations because she is unwilling to resist aggression. The Arab nations are trifling with American friendship. These nations should not be expected to receive the military or moral support of the UN any longer unless the UN is to be just a conference group, which formally repudiates its collective security policies and opens the way to a series of offensive and defensive alliances by groups of nations acting outside the UN machinery.

The sooner the United States brings about a showdown in the UN on the terms of peace in Korea, the quicker there will be a clearing of the air as to whether the "cease fire" device is to be just a cleverly manipulated surrender by the UN to Red China or an expression of the determination of the UN to see to it that aggression not only is not rewarded but actually is punished.

These Days

By GEORGE E. SOKOLSKY

Call A Halt!

UNTIL it is decided what is to become of the United Nations, a halt should be called to some of the curious activities of that body.

For instance, a commission or something of UN is now engaged in defining the press. From what I can see of it, most of the efforts are designed to place limitations upon freedom of the press.

What most Americans forget is that the United Nations can lawfully legislate for the American people. A United Nations decision is binding upon us under the treaty which makes us a member of that body. Even should we vote against a measure, but not employ the veto, we are bound to adhere to it, if it is approved by the other members. In cases that have before our courts, they have so held, as in the California Alien Land Law case in 1948 (Oyama V. California).

The California Land Law may or may not be wrong, but California should make her laws, not the United Nations. In fact, by virtue of the treaty, the United Nations has a wider power over our states than the Constitution gives to Congress.

So, that amazing universal declaration of human rights can be destructive of our way of life, because we balance obligations against rights. For instance, take Article 25 of that document:

"Everyone has the right to a standard of living adequate for the health and well-being of himself and of his family, including food, clothing, housing, and medical care and necessary social services, and the right to security . . ."

Does that mean that we are to establish a socialist society in which every person is a slave to the state which levels all of us down to a minimum subsistence provided by the state?

And what are the obligations of the citiezn to the state? No reference is made to that. It could be total and abject obedience.

So, the genocide convention comes before us again. This is a measure which may have much justification. Its inspiration was the wiping out of whole peoples by antagonistic governments.

Whatever the intentions of the genocide convention, however noble its motives, it would be impossible under it for the United Nations to intervene in any state of our country on the assumption that the rights of a racial or a religious group were endangered.

Take, for instance, this provision in the covenant of human rights, which could become the law of our land:

"Freedom to manifest one's religion or beliefs shall be subject only to such limitations as are pursuant to law and are reasonable and necessary to protect public safety, order, health, or morals or the fundamental rights and freedoms of others."

Our system is incorporated in the First Amendment to the Constitution of the United Sates, which provides:

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances."

We have in this country some 265 religious groups, sects, cults. Our government interferes with none of them. Separation of church and state does not only mean that the church shall not interfere with government; it means even more that the government shall not interfere with the life of any church.

According to the covenant of human rights, however, the government becomes the ruler of every church. Suppose some bureaucrat were to decide that circumcision was unhealthful, or that holy water carried germs, or that baptism increased the incidence of pneumonia or that the kosher meat was against public order!

Comparable ukases have been issued in the history of the human race. In the United States we say that the rites, rituals and disciplines of religious bodies are none of the business of the government, for that the state to interfere in such matters is a violation of the inalienable rights of the individual, bespoken in the Declaration of Independence.

But this you must note: If the Senate ratifies this covenant on human rights, it will have the force of an amendment to our Constitution. Can we afford to risk that?

The soundest procedure is to halt all these United Nations measures now. This is no time to give them consideration.

Does your conversation catch you in a net of things which you'd rather have left unsaid?

SECRETS OF CHARM

by JOHN ROBERT POWERS

IF, after mulling over any recent conversation, you frequently find yourself regretfully wondering, "Why did I ever say that?" you are not putting the conversational rules to use.

If you want others to remember your conversation with pleasure and to have only pleasant memories of it yourself, the rules must be applied before you say anything aloud. To check on your conversational smoothness, get out your sharp pencil and check the solution you think is the best in the following prevalent pitfalls:

Which Would You Do?

1. If you're the hostess and some one insists on taking over the entire conversation in a boring recital, you should: (a) Start talking to someone else and ignore the offender. (b) Show your boredom by yawning. (c) Ask some interested questions and in that way attempt to include others in the talk. (d) Start an argument.

2. If you are uninformed on the topic in discussion: (a) Try to change the subject. (b) Look bored so others will change the subject. (c) Ask questions and appear interested. (d) Pretend you understand the topic.

3. If a person not present is being discussed unkindly: (a) Show your eagerness to learn the latest. (b) Show your indignation by telling the others it isn't fair to gossip. (c) Show your disgust, but say nothing. (d) Change the subject as inconspicuously as possible.

4. If you are complimented on your new dress: (a) Act shy and say nothing. (b) Say thank you and change the subject. (c) Return the compliment. (d) Tell how old the dress is or how much you paid for it.

The Correct Solution

You're in the know, all right, if you answered:

1. (c). It's up to you as hostess, hard as the job may be, to direct the conversation and save your guests from bores. 2. (c). This answer includes two rules: You must be a good listener, and you must never pretend knowledge. Admit your ignorance of a subject and people will respect you. AND you might learn something!

3. (d). Enough said! 4. (b). Never return compliment for compliment, make excuses, or fail to say thank you!

You Can Have 'Em . . . We Don't Want 'Em . . .

Dollar Day Specials

We have a 100-year reputation for honesty, and we're not bogging down just because of Dollar Days, So, honestly . . . some of these specials really rate the name "value". Others — well, they're not strictly from hunger, but mighty close! Check over this list anyway. You might just possibly find some good deals!

FRIDAY, SATURDAY AND MONDAY – JANUARY 26, 27 & 29

THIS 'N THAT:

WITH gifts in mind, it's quite possible that you'll be interested in a fine assortment of BIBLES, TESTAMENTS and PRAYER BOOKS. We did have them priced up to $13. Now, you can take your pick from 50c to $5.

HAVING your own private cold war at home? Maybe you need one or two ROOM THERMOMETERS (by TAYLOR, of course) to prove to His Nibs that the thermostat should really be hiked up a notch or two. Were up to $1.25. Yours for 25c.

YOU'RE at the office when it rains . . . your lone UMBRELLA is home. How 'bout an extra? Our sale selection is slightly faded, but still waterproof! Once priced up to $7.50. Now a mere $3.

KEY CASES . . . Have we got Key Cases? Just ask us, and before you get your wallet open, you can have one or more at an unheard of 75c per. Believe it or not, they were *1.80!

CAN a guy find his cuff links 'n studs when he wants 'em? Generally not. They're in the top drawer on the right "under some things," on the floor under the bed or someplace. Gather 'em up and plunk 'em in a STUD BOX. Take it for 75c. Did cost about $3.

AT LAST! A place to put his pipes out of sight. A hanging LEATHER PIPE RACK that was $5 is yours at a steal . . . only 75c. A little dog-eared, to be sure, but you can hang it behind the door!

ONE lonesome LEATHER HUMIDOR has been hanging around here for ages. We were stuck with it at $7.50. Please take it off our hands. You can have it for $3.

WHY get nasty with that delinquent correspondent when you can send a subtle hint for more letters? Send a LEATHER WRITING PORTFOLIO! We have a few that were going for $10 and $12.50. No soap! So now, they're $5.

WHO wants a DESK STAND? It's genuine leather . . . one of those gadgets with a pen holder and perpetual calendar. This is really a bargain . . . in good condition too. Get this . . . It's worth $24, but we're letting it go at $5!

ROLL them bones! Yes, we mean DICE. $3 sets of 5 can be had for 50c each. Imagine! Dice in a jewelry store!

GAMES too! Not parlor games, silly . . . complete "fitted" GAME SETS . . . the kind service men like. Leather cases, too. In spite of the fact that they were priced up to $12.50, we're getting rid of them at $5.

STUD or draw, that's up to you, but take a gander at our assortment of POKER SETS. Here's another case where we're taking a good licking, and you're reaping the benefits. The darned things were bought to sell as high as $15. Now? $5.

SILVER 'N PLATE

FOR those flossy souls who smoke imported brands . . . or for anyone else . . . a STERLING TABLE LIGHTER. Quite swish! The price is peasant-like though. Only *$3. Was $5.

SILVER-PLATED Sugar and Creamer sets add a fancy touch. You might even palm them off as gifts. Just take 'em away! Were $6. Yours for *$3.

HEAVEN knows who'd want 'em, but we're stuck with quite a collection of STERLING WHAT-NOT MINIATURES. They're useless, but kinda cute. Does *$1 sound reasonable? We were selling 'em up to $2.75.

FIGHTING over whose napkin is whom's (er, uh . . . whose) every meal? Solve it with INITIALED STERLING NAPKIN RINGS. Were $2.50. Walk out with a couple for *$1 per.

MORE stuff for heavy smokers . . . a couple of sets of plated (SILVER PLATED, that is) ASH TRAYS and ASH TRAY-CIGARETTE BOX COMBINATIONS. Honest . . . they once sold for $12. We hope you want 'em for *$5.

FOR some lucky bride . . . how would she know you got it on sale? A very pretty SILVER PLATED BON BON DISH. How can you lose? It cost $6. once. We'll let you have it for *$3.

IF you're still formal (we're not), how about a SILVER PLATED card tray? Or maybe a sugar and creamer tray? They were both good buys at $8. Better now at *$3.

DOESN'T anybody do anything but smoke? You'd think not from our stock of STERLING ASH TRAYS. Come and get 'em. We're tired of looking them in the face. Once $4.25 each, as your Dollar-Day reward you can have them for *$2 each.

"ITTY-BITTY" spoons . . actually they're called 5 O'CLOCK SPOONS . . . for demi-tasse, tea or something. Anyway they're nice silver plate, and specially priced at *$2 for a set of 4.

NOTHING burns us more than a wet glass that sticks to a flimsy COASTER. We have some dillies—GLASS WITH SILVER RIMS—that are heavy enough to stay put. They're only reduced from $1.50 to *$1, but we're losing money just the same.

UTILITY FORKS—whatever they are. Somewhere between a salad fork and a serving fork we think. But they must be useful, else why the name? Silver plate special for only 50c each.

CHINA 'N CERAMICS GLASSWARE TOO!

IT'S all too seldom, but occasionally some kind soul sends you flowers. We have the VASES, also low bowls, you know . . . the usual things you put posies in. They're by Chadwick—also by Crownford, and very attractive. Look 'em over and choose! You'll pay anywhere from $1 to $3 according to your selection. People use to pay up to $10 for the same thing.

IF craftsmanship appeals to you, consider a HAND-CARVED PLATE for for a ridiculous $1. They were $3.50. Good for decoration, serving party junk and the like.

SOME really snazzy GLASSWARE has been sitting around on the shelves, and now's the time for you to pounce. It's called VIKING . . . occasional pieces, candle holders . . . you know the type. We tried to sell it from $1.50 to $7, and obviously, we didn't. Pieces are now going from $1 to $3. Take it away!

ONE whole group for the cultivated tippler or anyway for those who don't like to drink out of the bottle. WINE SETS, WHISKEY and CORDIAL SETS and DECANTERS . . . So help us, they were priced up to $15, and to try to get them moving, we're selling them at $5. Don't cry the blues to us if you miss this one. We warned you!

LOGAN STEMWARE AND PLATES . . . nice pattern . . . see for yourself. Was going from $1 to $1.50 a piece . . . now it's only 50c per.

SPECIAL ½ PRICE DEAL on Fostoria and Minton stemware. The Fostoria is made up of broken lots and discontinued patterns; namely St. Regis, Hawthorne and "Salon". Oh, yes, Greek Key too.

VASES to the right of us, vases to the left of us, vases all over our second floor. It's crawling with vases. If you don't believe us, stop in. And the first one that crawls by that you like . . . grab it. Like as not it'll cost you a dollar. No tax either. Big vases, little vases . . . but you just ask for Vase 10W111. We don't know what it means, but our buyer does.

Ever seen Vogue? All right, so you subscribe to the magazine. Well, smarty, that's not what we mean. We mean VOGUE STEMWARE and Vogue Plates. A pretty acceptable pattern if we do say so ourselves, and we do. So, set your table with glassware. And do it inexpensively. This here now stuff did cost from a dollar to $1.25 a piece. And for you . . . just for you, it's 50 cents per.

NEXT COL. PLEASE

MEN'S AND WOMEN'S JEWELRY from 50¢ to $5.00

We mentioned being honest a while back . . . and this is where it's really on the level. There's so much of this stuff that's been pawed and mauled over for the last umpty-oomp months that we haven't the heart to ask you much more than 50c or a couple of dollars for it. Yet there are other pieces that go on up to $20 ordinarily, and you get them for a trifling *$5. Earrings, cuff links, tie bars, bracelets, necklaces, chokers, charms —the whole works. Look it over carefully; you might find exactly what you want.

SPECIAL ASSORT. LUGGAGE ½ PRICE

Train cases, overnight cases, wardrobes, make-up jobs . . . These are real bargains . . . half-price (plus tax, of course)! Leather bound fabric models and a couple of rawhide numbers that are good-looking and good values! Second Floor for this.

We're not temperamental, but truthfully, Dollar Days are so hectic that we just cannot take time for our usual services. Sooo—no gift boxing or wrapping and no deliveries on sale merchandise. All sales final!

After a wedding trip through Virginia the couple will reside at the home of the bride's mother, who is entertaining in their honor February 3.

Miss Smith entertained in honor of the bride with a linen shower, Wednesday night at her home in LaVale. The bridal motif was carried out in the decorations. Guests were Miss Marian McKenty, Miss Jeaneen Hartley, Mrs. Roy Hansrote, Miss Mary Davis, Miss Edith Lewis, Miss Helen Borror, Miss Mary Straw, Miss Eleanor Durst, Miss Shirley Lester, Mrs. Ronald Catlett, Mrs. George Carney, Jr., Mrs. Hardman and Mrs. E. B. Smith.

Does your conversation catch you in a net of things which you'd rather have left unsaid?

SECRETS OF CHARM

by JOHN ROBERT POWERS

IF, after mulling over any recent conversation, you frequently find yourself regretfully wondering, "Why did I ever say that?" you are not putting the conversational rules to use.

If you want others to remember your conversation with pleasure and to have only pleasant memories of it yourself, the rules must be applied before you say anything aloud. To check on your conversational smoothness, get out your sharp pencil and check the solution you think is the best in the following prevalent pitfalls:

Which Would You Do?

1. If you're the hostess and some one insists on taking over the entire conversation in a boring recital, you should: (a) Start talking to someone else and ignore the offender. (b) Show your boredom by yawning. (c) Ask some interested questions and in that way attempt to include others in the talk. (d) Start an argument.

2. If you are uninformed on the topic in discussion: (a) Try to change the subject. (b) Look bored so others will change the subject. (c) Ask questions and appear interested. (d) Pretend you understand the topic.

3. If a person not present is being discussed unkindly: (a) Show your eagerness to learn the latest. (b) Show your indignation by telling the others it isn't fair to gossip. (c) Show your disgust, but say nothing. (d) Change the subject as inconspicuously as possible.

4. If you are complimented on your new dress: (a) Act shy and say nothing. (b) Say thank you and change the subject. (c) Return the compliment. (d) Tell how old the dress is or how much you paid for it.

The Correct Solution

You're in the know, all right, if you answered:

1. (c). It's up to you as hostess, hard as the job may be, to direct the conversation and save your guests from bores. 2. (c). This answer includes two rules: You must be a good listener, and you must never pretend knowledge. Admit your ignorance of a subject and people will respect you. AND you might learn something!

3. (d). Enough said! 4. (b). Never return compliment for compliment, make excuses, or fail to say thank you!

1851 GOOD GOODS COME IN LITTLE PACKAGES 1951

You Can Have 'Em . . . We Don't Want 'Em . . .

Dollar Day Specials

We have a 100-year reputation for honesty, and we're not bogging down just because of Dollar Days. So, honestly . . . some of these specials really rate the name "value". Others — well, they're not strictly from hunger, but mighty close! Check over this list anyway. You might just possibly find some good deals!

FRIDAY, SATURDAY AND MONDAY – JANUARY 26, 27 & 29

THIS 'N THAT:

WITH gifts in mind, it's quite possible that you'll be interested in a fine assortment of BIBLES, TESTAMENTS and PRAYER BOOKS. We did have them priced up to $13. Now, you can take your pick from 50c to $5.

HAVING your own private cold war at home? Maybe you need one or two ROOM THERMOMETERS (by TAYLOR, of course) to prove to His Nibs that the thermostat should really be hiked up a notch or two. Were up to $1.25. Yours for 25c.

YOU'RE at the office when it rains . . . your lone UMBRELLA is home. How 'bout an extra? Our sale selection is slightly faded, but still waterproof! Once priced up to $7.50. Now a mere $3.

KEY CASES . . . Have we got Key Cases? Just ask us, and before you get your wallet open, you can have one or more at an unheard of 75c per. Believe it or not, they were *1.80!

CAN a guy find his cuff links 'n studs when he wants 'em? Generally not. They're in the top drawer on the right "under some things," on the floor under the bed or someplace. Gather 'em up and plunk 'em in a STUD BOX. Take it for 75c. Did cost about $3.

AT LAST! A place to put his pipes out of sight. A hanging LEATHER PIPE RACK that was $5 is yours at a steal . . . only 75c. A little dog-eared, to be sure, but you can hang it behind the door!

ONE lonesome LEATHER HUMIDOR has been hanging around here for ages. We were stuck with it at $7.50. Please take it off our hands. You can have it for $3.

WHY get nasty with that delinquent correspondent when you can send a subtle hint for more letters? Send a LEATHER WRITING PORTFOLIO! We have a few that were going for $10 and $12.50. No soap! So now, they're $5.

WHO wants a DESK STAND? It's genuine leather . . . one of those gadgets with a pen holder and perpetual calendar. This is really a bargain . . . in good condition too. Get this . . . It's worth $24, but we're letting it go at $5!

ROLL them bones! Yes, we mean DICE. $3 sets of 5 can be had for 50c each. Imagine! Dice in a jewelry store!

GAMES too! Not parlor games, silly . . . complete "fitted" GAME SETS . . . the kind service men like. Leather cases, too. In spite of the fact that they were priced up to $12.50, we're getting rid of them at $5.

STUD or draw, that's up to you, but take a gander at our assortment of POKER SETS. Here's another case where we're taking a good licking, and you're reaping the benefits. The darned things were bought to sell as high as $15. Now? $5.

SILVER 'N PLATE

FOR those flossy souls who smoke imported brands . . . or for anyone else . . . a STERLING TABLE LIGHTER. Quite swish! The price is peasant-like though. Only *$3. Was $5.

SILVER-PLATED Sugar and Creamer sets add a fancy touch. You might even palm them off as gifts. Just take 'em away! Were $6. Yours for *$3.

HEAVEN knows who'd want 'em, but we're stuck with quite a collection of STERLING WHAT-NOT MINIATURES. They're useless, but kinda cute. Does *$1 sound reasonable? We were selling 'em up to $2.75.

FIGHTING over whose napkin is whom's (er, uh . . . whose) every meal? Solve it with INITIALED STERLING NAPKIN RINGS. Were $2.50. Walk out with a couple for *$1 per.

MORE stuff for heavy smokers . . . a couple of sets of plated (SILVER PLATED, that is) ASH TRAYS and ASH TRAY-CIGARETTE BOX COMBINATIONS. Honest . . . they once sold for $12. We hope you want 'em for *$5.

FOR some lucky bride . . . how would she know you got it on sale? A very pretty SILVER PLATED BON BON DISH. How can you lose? It cost $6. once. We'll let you have it for *$3.

IF you're still formal (we're not), how about a SILVER PLATED card tray? Or maybe a sugar and creamer tray? They were both good buys at $8. Better now at *$3.

DOESN'T anybody do anything but smoke? You'd think not from our stock of STERLING ASH TRAYS. Come and get 'em. We're tired of looking them in the face. Once $4.25 each, as your Dollar-Day reward you can have them for *$2 each.

"ITTY-BITTY" spoons . . . actually they're called 5 O'CLOCK SPOONS . . . for demi-tasse, tea or something. Anyway they're nice silver plate, and specially priced at *$2 for a set of 4.

NOTHING burns us more than a wet glass that sticks to a flimsy COASTER. We have some dillies—GLASS WITH SILVER RIMS—that are heavy enough to stay put. They're only reduced from $1.50 to *$1, but we're losing money just the same.

UTILITY FORKS—whatever they are. Somewhere between a salad fork and a serving fork we think. But they must be useful, else why the name? Silver plate special for only 50c each.

CHINA 'N CERAMICS GLASSWARE TOO!

IT'S all too seldom, but occasionally some kind soul sends you flowers. We have the VASES, also low bowls, you know . . . the usual things you put posies in. They're by Chadwick—also by Crownford, and very attractive. Look 'em over and choose! You'll pay anywhere from $1 to $3 according to your selection. People use to pay up to $10 for the same thing.

IF craftsmanship appeals to you, consider a HAND-CARVED PLATE for for a ridiculous $1. They were $3.50. Good for decoration, serving party junk and the like.

SOME really snazzy GLASSWARE has been sitting around on the shelves, and now's the time for you to pounce. It's called VIKING . . . occasional pieces, candle holders . . . you know the type. We tried to sell it from $1.50 to $7, and obviously, we didn't. Pieces are now going from $1 to $3. Take it away!

ONE whole group for the cultivated tippler or anyway for those who don't like to drink out of the bottle. WINE SETS, WHISKEY and CORDIAL SETS and DECANTERS . . . So help us, they were priced up to $15, and to try to get them moving, we're selling them at $5. Don't cry the blues to us if you miss this one. We warned you!

LOGAN STEMWARE AND PLATES . . . nice pattern . . . see for yourself. Was going from $1 to $1.50 a piece . . . now it's only 50c per.

SPECIAL ½ PRICE DEAL on Fostoria and Minton stemware. The Fostoria is made up of broken lots and discontinued patterns; namely St. Regis, Hawthorne and "Salon". Oh, yes, Greek Key too.

VASES to the right of us, vases to the left of us, vases all over our second floor. It's crawling with vases. If you don't believe us, stop in. And the first one that crawls by that you like . . . grab it. Like as not it'll cost you a dollar. No tax either. Big vases, little vases . . . but you just ask for Vase 10W111. We don't know what it means, but our buyer does.

Ever seen Vogue? All right, so you subscribe to the magazine. Well, smarty, that's not what we mean. We mean VOGUE STEMWARE and Vogue Plates. A pretty acceptable pattern if we do say so ourselves, and we do. So, set your table with glassware. And do it inexpensively. This here now stuff did cost from a dollar to $1.25 a piece. And for you . . . just for you, it's 50 cents per.

Woman's Poetic Legacy Can Not Be Carried Out

BRISTOL, Va.—(AP)—Miss Katherine R. McCormick died here with the hope that her eyes might give sight "to one who sits in darkness."

A sister of W. M. McCormick, founder of the world's largest firm processing spices and teas, Miss McCormick during her lifetime gave most of a substantial income to individuals and charity organizations.

Four years ago, she read a newspaper account of how a deceased persons eyes had been transplanted successfully after death to save the eyesight of another person.

Impressed, she sat down at a desk at her home here December 5, 1946, and wrote a legacy in the form of a poem. In verse, she willed that at her death her eyes should be given to an eye clinic so that another might see. The versified will read:

My Legacy

With joy I will my eyes; with keen delight
At thought that this through which I have had light
Will give to one who sits in darkness, sight.
The world is wondrous fair,
Sea, land and air
Show miracles of beauty everywhere.
These have I loved, and death doth lose its sting,
If I, through skill of science, can in passing bring
To darkened eyes the joy of watching nature fling
Her colors here, her shadows there,
Of watching motion, life in action everywhere,
And best of all, the love-light in a face by love made fair.
Devoutly do we thank thee, Lord,
That thou to human hands has given
The skill by which the bonds of night are riv'n
From sightless eyes and saddened souls, to meek submission driven,
And that to little folk like me,
Is given the godlike power to make men see.
And I do pray that with this new found sight,
They may see thee.

But Miss McCormick's poetic legacy could not be carried out. During the last four years, her eyes gradually grew weaker, and a few weeks before her death, one of them had to be removed.

Miss McCormick died Friday—almost totally blind.

"TERRIBLY EMBARRASSED by HOT FLUSHES
But I Get Wonderful Relief Now With Lydia Pinkham's Vegetable Compound"

"I hated the very thought of change of life. So many women I know from 38 to 52 years suffer from nervous, irritable, weak, tired feelings due to this functional middle-age period peculiar to women—the time when fertility ebbs away. I was terribly embarrassed by hot flushes, but I find that now I can get amazing relief by taking Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Lydia Pinkham's Compound also relieves miserable high-strung, cranky feelings when due to this cause.

"I find that by taking Lydia Pinkham's Compound faithfully, it helps build up resistance against such middle-age distress. I can well understand why it's called 'the woman's friend.' Me for Lydia Pinkham's Compound every day."

P.S. Pinkham's Compound is very tasty in a little fruit juice. Or you may prefer Lydia Pinkham's TABLETS with added iron. Handy to carry in your purse.

Woman's Poetic Legacy Can Not Be Carried Out

BRISTOL, Va.—(AP)—Miss Katherine R. McCormick died here with the hope that her eyes might give sight "to one who sits in darkness."

A sister of W. M. McCormick, founder of the world's largest firm processing spices and teas, Miss McCormick during her lifetime gave most of a substantial income to individuals and charity organizations.

Four years ago, she read a newspaper account of how a deceased persons eyes had been transplanted successfully after death to save the eyesight of another person.

Impressed, she sat down at a desk at her home here December 5, 1946, and wrote a legacy in the form of a poem. In verse, she willed that at her death her eyes should be given to an eye clinic so that another might see. The versified will read:

My Legacy

With joy I will my eyes; with
keen delight
At thought that this through
which I have had light
Will give to one who sits in
darkness, sight.
The world is wondrous fair,
Sea, land and air
Show miracles of beauty
everywhere.
These have I loved, and death
doth lose its sting,
If I, through skill of science,
can in passing bring
To darkened eyes the joy of
watching nature fling
Her colors here, her shadows
there,
Of watching motion, life in
action everywhere,
And best of all, the love-light in
a face by love made fair.
Devoutly do we thank thee,
Lord,
That thou to human hands has
given
The skill by which the bonds
of night are riv'n
From sightless eyes and saddened souls, to meek submission driven,
And that to little folk like me,
Is given the godlike power to
make men see.
And I do pray that with this
new found sight,
They may see thee.

But Miss McCormick's poetic legacy could not be carried out. During the last four years, her eyes gradually grew weaker, and a few weeks before her death, one of them had to be removed.

Miss McCormick died Friday—almost totally blind.

"TERRIBLY EMBARRASSED by HOT FLUSHES

But I Get Wonderful Relief Now With Lydia Pinkham's Vegetable Compound"

"I hated the very thought of change of life. So many women I know from 38 to 52 years suffer from nervous, irritable, weak, tired feelings due to this functional middle-age period peculiar to women—the time when fertility ebbs away. I was terribly embarrassed by hot flushes, but I find that now I can get amazing relief by taking Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Lydia Pinkham's Compound also relieves miserable high-strung, cranky feelings when due to this cause.

"I find that by taking Lydia Pinkham's Compound faithfully, it helps build up resistance against such middle-age distress. I can well understand why it's called 'the woman's friend.' Me for Lydia Pinkham's Compound every day."

P.S. Pinkham's Compound is very tasty in a little fruit juice. Or you may prefer Lydia Pinkham's TABLETS with added iron. Handy to carry in your purse.

THE PASSING SHOW.

A linotype operator with the Lynchburg (Va.) News accidentally touched a wrong key in setting up a recent column of mine, and if he can be located a lot of people who are disgusted with the United Nations might want to give him a medal.

He spelled it Untied Nations.

Henry C. Roberts, world's leading authority on Nostradamus, and collector of the ancient's sometimes astounding predictions, sends me an interestingly depressing note:

"Here are a few forecasts Nostradamus made in 1555—the Great Fire of London (1666), exact date and circumstances of the French Revolution, exact name and career of Napoleon, rise and fall of Japan as an empire, World Wars One and Two (almost to the day), American Revolution and career of John Paul Jones, rise and fall of Mussolini, radio, TV, submarines, autos, planes and the a-bomb."

Roberts has doped out the medieval physician's predictions as far as the year 3797 a. d. As for the immediate future, he says Nostradamus' writings predict:

A war between the U. S. and the rest of the world, which will be forced to fight for Russia. It will be in full bloom by 1952 and will be initiated by a tremendous explosion "of a cosmic nature" on the 48th parallel. It will continue sporadically until 1999, after which the survivors will form a world government that works—and peace and plenty will reign supreme from 2000 to 3797 a. d. I can hardly wait.

•—•—•

The New York law firm of Breed, Abbott and Morgan has been looking into the legal status of the shaving brush, in behalf of a client who makes those push-button lather machines for home and barber shops, and the indications are that the beloved old brush is getting the brush.

Shaving brushes are now illegal in Florida and Washington, D. C., which will come as a surprise to countless users of them there. In Arkansas a brush must be washed in hot water after each use. The State of Nebraska fired the first shot in the late war by confiscating a shipment of Japanese-made shaving brushes on the ground that they were carriers of anthrax.

Plane facts:—The U. S. deficit for handling air mail during the past 11 years is less than the deficit from penny postcards in a year. . . President Truman has flown 100,000 miles since taking office in 1945. . . Our new jets being used in Korea pack a punch equivalent to a salvo from a battery of thirty 105 mm. guns. . . Warplane produce is measured in pounds. At present we are producing four million pounds of planes (minus engine weights) per month. To live up to the President's promise of 1951-52 production, we'll have to build 20 million pounds a month. . . The Navy's new carrier-based a-bomb plane weighs 17 tons.

•—•—•

British diplomacy's timidity in the case against Red China stands in sharp contrast to the empire's contribution to U. N. forces in Korea. Britain now has 22,000 men in the theater, 10,000 of them attached to the Royal Navy's Far Eastern fleet. It has sent an aircraft carrier, two cruisers, six destroyers and four frigates, and some of its famed commandos to assist its approximately 12,000 ground troops.

•—•—•

There is a widespread feeling in the U. S., some of it inspired, that Nationalist China is a synonym for corruption. Here's another side of the story, an excerpt from a report to me by Norman Paige, war correspondent on Formosa:

"The economy wave here is unbelievable. The soldiers now in training get less than a dollar a month. Officials of the rank of foreign minister make about $20 a month. And yet with it all there is an efficiency of operation that is magnificent; there is definite purpose written in every face, and the determination is everywhere."

India Standing On Firmer Ground As It Enters 2nd Year As Republic

By STEPHEN V. DAVID

NEW DELHI —(AP)— India stands on firmer ground as it enters its second year as a republic with many of its growing pains behind it.

Much has been done by Prime Minister Jawaharlal Nehru's government since the constitution of the Republic of India was inaugurated on January 26, 1950, two and one-half years after independence. No one claims the long period of strain has ended, but the feeling is general that a good start has been made.

One of the most striking accomplishments was the restoration of communal peace. A year ago, Hindus and Moslems were fighting in West Bengal, India, and East Bengal, Pakistan. But Nehru and Prime Minister Liaquat Ali Khan of Pakistan concluded a pact guaranteeing the security of the Hindu minority in Pakistan and the Moslem minority in India. Thousands who had left their homes for safety across the border began to return in a movement that gathered momentum as the year progressed.

The Nehru government can also claim to have strengthened internal security by its unflagging fight against Communism. Terrorists activities persist but the government says it has broken the back of the movement in the worst-affected area, Southeastern Hyderabad state.

Indians find encouragement, too, in the improvement in this country's economic health. It is still far from robust, but two important indicators—foreign trade and sterling balance—are looking up.

The foreign trade picture began to brighten after devaluation in September, 1949. In the 14 months from October, 1949, to November, 1950, exports totaled 6,482,600,000 rupees ($1,361,346,000) and imports 6,136,000,000 rupees ($1,288,560,000) — a favorable balance of 346,600,000 rupees ($72,786,000). In the same period the year before the adverse balance was a staggering 3,329,000,000 rupees ($699,090,000).

Indian officials attribute the reversal of the downtrend to a number of factors: The effect of devaluation; severe restrictions on imports, including food; expansion of exports, particularly cotton textiles, and increased demand arising out of the war in Korea. The trend is still upward.

India began its independent existence with a lot of money in the bank — some 16,000,000,000 rupees ($3,360,000,000) owed by Great Britain for supplies furnished by India during the war. By the middle of 1949, India had slashed these sterling balances to 8,200,000,000 rupees ($1,724,000,000) and both Indians and the British were alarmed. That was the low point, however, in the year and one-half since India actually has increased its holdings to about 8,350,000,00 rupees ($1,753,500,000).

India will use $590,730,000 of its balances during the next six years for projects scheduled under the Colombo plan for Southeast Asian development. It is to add $1,570,800,000 of its own and hopes to find another $1,699,530,000 outside.

Not all aspects of India's economy are a source of satisfaction.

1. Inflation is still strong, although the government finds comfort in the fact that prices have not risen so sharply here since Korea as they have in many countries.

2. The shortage of food has necessitated big imports from both sterling and dollar countries, draining away foreign exchange that might have gone for projects designed to raise the standard of living. Natural catastrophes have hampered the government's "grow-more-food" campaign.

3. Trade with Pakistan is at a standstill because India devalued its rupee while Pakistan did not. There are indications, however, that India is prepared to renew trade on a barter basis.

4. The rate of industrialization is slow, and millions remain jobless, because domestic capital continues shy. A government official says capitalists prefer to speculate rather than invest. Capitalists complain of high taxes, low productivity of workers and uncertainty over government industrial policies.

Demand For Farms Near Baltimore, Washington Sends Prices Upward

By HENRY DECKER
City Editor, Frederick Post

FREDERICK, Md.—(AP)—Demand for farm properties within commuting distance of Washington and Baltimore has shot prices to an all-time high, with the end still not in sight, local real estate dealers report.

A number of reasons have been advanced for the demand.

One is the fear of an atomic bomb attack on such vital centers as Washington and Baltimore. Another is the desire of parents to get their young children away from crowded living conditions in large cities.

Some prospective buyers, the real estate dealers say, are interested in a farm as a possible "hedge" against inflation. Some families with draft-eligible sons also are seeking farms as a possible means of securing deferment from military service. Essential farm work served as an exemption in World War II.

Real estate men say they receive scores of requests weekly for small farms within driving range of the two cities.

Most are from persons with little or no farming experience, although some of them have family backgrounds associated with agriculture.

In most cases, the inquiries are turned away. The type of property they seek simply is not available. The demand is far in excess of supply, the dealers say.

"Most of the inquiries are from people looking for a bargain," said one dealer. "There are no such buys in Frederick County. Fairly priced buys are sold almost as quickly as we list them."

Some high-priced estates are available, however.

County Agent Henry R. Shoemaker reported he is besieged daily by mail and telephone inquiries about farms for sale.

"I'm not in the real estate business," he explained, "so I turn all requests for information over to the men who have real estate to sell."

The real estate men say the "sellers' market" in farm properties has existed since the outbreak of the fighting in Korea.

Antihistamine Study Reveals Drugs Have Little Effect On Common Cold

BOSTON, Jan. 25. (AP)—Three antihistamine cold remedies tried out by Boston University doctors in tests on 1,214 persons had about as much effect, the doctors said, as plain milk sugar pills.

The study by Professors Francis C. Lowell and Dr. Irving W. Schiller of the B. U. school of medicine, was described by the university as one of the largest of its type ever attempted in the United States. And the New England Journal of Medicine, publishing the survey, said the care taken in the study of an intelligent, co-operative group "left no doubt whatever of the results."

The Journal, in its editorial, said it was "an honest and conscientious attempt to determine the value of antihistamines in the common cold. . . . There was absolutely no evidence to indicate that the antihistamines had any effect on the occurrence, duration or severity of any of the symptoms ascribed to the common cold."

(On Monday of this week, two other studies of antihistaminic drugs improved some cold symptoms although no claim was made that the remedies cured the colds. One survey by four American doctors, printed in a Swiss medical publication, said reports of relief after antihistamine treatments were 18.5 per cent higher than reports of improvement from persons who received a "fake" remedy. The other study covered tests on 1,008 Lewton Reformatory inmates in Washington, D. C., where relief of symptoms and sometimes shortening of colds was reported.)

Dr. Lowell is associate professor of medicine at B. U. and a member of the staff of Evans Memorial Hospitals. Dr. Schiller is assistant professor of medicine at B. U.

The doctors said: "We were unable to distinguish any effect of the three drugs in the dosage used on the common cold that differed significantly from the placebo (milk sugar)."

Here's how the doctors made their study:

They set up an office in a main campus building on January 19, 1950, and called for volunteers among university personnel with colds. Each volunteer was given a packet of 13 "cold pills." Each filled out a questionnaire. Each was given instructions to use dosages like those in commercial preparations. These tests continued to April 18.

The pills, not identified to the users, were given out in rotation so that one in four got remedy A, or remedy B, or remedy C. And one in four got just plain lactose tablets—meaning milk sugar. At the end of four days, the volunteers returned and filled out more questionnaires.

The scientists weeded out questionnaires and came up with 729 they felt sure were "valid." Intensive analysis of the questions and answers then followed. The doctors found "no instance of statistically significant evidence to indicate an effect of any of thte three antihistamines differing significantly from that produced by milk sugar."

Ads Take 10% Of Video Time

WASHINGTON (INS)—A survey disclosed today that television addicts spend 10 per cent of their time watching commercials.

The study conducted by the National Association of Educational Broadcasters was the first of its kind and was submitted to the Federal Communications Commission by the educators to substantiate a request that more TV time be alloted to non-commercial educational programs.

The association said that all seven television stations in New York City were monitored constantly for a week to obtain their statistics.

In addition to the 10 per cent devoted to advertising, the study reported the following consumption of television time:

Drama shows, including crime and comboy programs, 25 per cent; news, five per cent; children's program, 12 per cent; homemaking, 10 per cent; sports, 10 per cent; quizzes and contests, seven per cent; variety, 15 per cent, religion; one per cent.

The educators claimed that the remaining six per cent of the time was allotted to programs dealing with information, public events and issues and music.

Dependent Children Top Welfare Expenses

The December report of the State Department of Public Welfare shows that aid to dependent children costs more than any of the various types of assistance given to residents of Allegany county.

A total of $24,914.18 was expended to care for 884 children of the 350 affected. The average grant per family was $71.18. There were seven new cases added to the rolls during the month and 17 others were cancelled.

Old age assistance payments totaled $23,980.91 with 719 individuals given aid. The average grant was $33.35 and nine new cases were added to the rolls and eight were cancelled.

The needy blind received $978.69 with an average grant of $34.95 to the 28 individuals assisted.

General public assistance was given 284 individuals at a cost of $10,041.44 with an average grant of $35.36. Boarding home care for 46 children cost $1,810.30.

There are at least two waterfalls in Brazil that are larger than Niagara Falls, the Iguassu falls and the Sete Quedas falls.

Antihistamine Study Reveals Drugs Have Little Effect On Common Cold

BOSTON, Jan. 25. (AP)—Three antihistamine cold remedies tried out by Boston University doctors in tests on 1,214 persons had about as much effect, the doctors said, as plain milk sugar pills.

The study by Professors Francis C. Lowell and Dr. Irving W. Schiller of the B. U. school of medicine, was described by the university as one of the largest of its type ever attempted in the United States. And the New England Journal of Medicine, publishing the survey, said the care taken in the study of an intelligent, co-operative group "left no doubt whatever of the results."

The Journal, in its editorial, said it was "an honest and conscientious attempt to determine the value of antihistamines in the common cold. . . . There was absolutely no evidence to indicate that the antihistamines had any effect on the occurrence, duration or severity of any of the symptoms ascribed to the common cold."

(On Monday of this week, two other studies of antihistaminic drugs improved some cold symptoms although no claim was made that the remedies cured the colds. One survey by four American doctors, printed in a Swiss medical publication, said reports of relief after antihistamine treatments were 18.5 per cent higher than reports of improvement from persons who received a "fake" remedy. The other study covered tests on 1,008 Lewton Reformatory inmates in Washington, D. C., where relief of symptoms and sometimes shortening of colds was reported.)

Dr. Lowell is associate professor of medicine at B. U. and a member of the staff of Evans Memorial Hospitals. Dr. Schiller is assistant professor of medicine at B. U.

The doctors said: "We were unable to distinguish any effect of the three drugs in the dosage used on the common cold that differed significantly from the placebo (milk sugar)."

Here's how the doctors made their study:

They set up an office in a main campus building on January 19, 1950, and called for volunteers among university personnel with colds. Each volunteer was given a packet of 13 "cold pills." Each filled out a questionnaire. Each was given instructions to use dosages like those in commercial preparations. These tests continued to April 18.

The pills, not identified to the users, were given out in rotation so that one in four got remedy A, or remedy B, or remedy C. And one in four got just plain lactose tablets—meaning milk sugar. At the end of four days, the volunteers returned and filled out more questionnaires.

The scientists weeded out questionnaires and came up with 729 they felt sure were "valid." Intensive analysis of the questions and answers then followed. The doctors found "no instance of statistically significant evidence to indicate an effect of any of thte three antihistamines differing significantly from that produced by milk sugar."

Baering Down On The News

Guess you folks have been reading a lot about the basketball scandals in Madison Square Garden. All the gamblers want is that slight edge that makes a razor out of a putty knife.

Ads Take 10% Of Video Time

WASHINGTON (INS)—A survey disclosed today that television addicts spend 10 per cent of their time watching commercials.

The study conducted by the National Association of Educational Broadcasters was the first of its kind and was submitted to the Federal Communications Commission by the educators to substantiate a request that more TV time be alloted to non-commercial educational programs.

The association said that all seven television stations in New York City were monitored constantly for a week to obtain their statistics.

In addition to the 10 per cent devoted to advertising, the study reported the following consumption of television time:

Drama shows, including crime and comboy programs, 25 per cent; news, five per cent; children's program, 12 per cent; homemaking, 10 per cent; sports, 10 per cent; quizzes and contests, seven per cent; variety, 15 per cent, religion; one per cent.

The educators claimed that the remaining six per cent of the time was allotted to programs dealing with information, public events and issues and music.

Dependent Children Top Welfare Expenses

The December report of the State Department of Public Welfare shows that aid to dependent children costs more than any of the various types of assistance given to residents of Allegany county.

A total of $24,914.18 was expended to care for 884 children of the 350 affected. The average grant per family was $71.18. There were seven new cases added to the rolls during the month and 17 others were cancelled.

Old age assistance payments totaled $23,980.91 with 719 individuals given aid. The average grant was $33.35 and nine new cases were added to the rolls and eight were cancelled.

The needy blind received $978.69 with an average grant of $34.95 to the 28 individuals assisted.

General public assistance was given 284 individuals at a cost of $10,041.44 with an average grant of $35.36. Boarding home care for 46 children cost $1,810.30.

Airline Makes 864 Safe Landings At Local Port

All American Airways made 864 landings in the past year at Cumberland Municipal Airport, all without an accident, Oscar Lewis, AAA station manager, reported yesterday.

The number of passengers having Cumberland as their destination totaled 1,073, while those leaving the Queen City by air amounted to 1,432, for an overall total of 2,505.

This means that about eight persons a day were transported to and from Cumberland by airline, the station manager said.

Since the airline began operations here in March, 1949, a total of 4,565 persons have been flown in or out.

In the first nine months, Lewis reported, 2,060 passengers had the city as a terminal, about the same average per day as for last year.

In the past year, operations have been handicapped somewhat by the lack of obstruction lights on Knobley Mountain and Irons Mountain, Lewis pointed out.

Thirty-eight scheduled airliners overflew Cumberland because of darkness settling early on the airport.

Because of weather—fog, rain and other local meteorological disturbances—a total of 56 ships passed over the field without landing.

Bad weather over the Pittsburgh-Washington segment forced the cancellation of only 54 flights during the year, while 14 additional were cancelled because All American ships were weathered in at fields along the route.

During 1950, AAA hauled 151,318 passengers, an increase of 105 per cent over 1949. The line's planes flew 21,200,000 revenue miles, an increase of 115 per cent without incident to passengers, personnel or equipment.

Baltimore Explosion Claims Two Lives

BALTIMORE, Jan. 25 (AP)—An explosion at a rubber heel plant killed two men here yesterday. Two other workers were burned, one critically.

The blast shook a large area at the south edge of the business district, near the Baltimore and Ohio's Camden station freight yards.

Two negro employes tentatively identified as Wilson Redfern and Willie Wetchel were trapped in the small two-story processing plant when the second floor was collapsed on top of them by the explosion.

Inflammables used in the processing caught fire and burned so furiously firemen could not get into the building for two hours.

Four planets are larger than the earth—Jupiter, Uranus, Saturn and Neptune.

China has the largest population of any country in the world.

Local K. Of C. Plans Father-Son Affair

Cumberland Council No. 586, Knights of Columbus, will hold a father - son communion breakfast Sunday in St. Patrick's Social Center, according to Grand Knight Peter J. Carpenti.

The event will get underway following the 7 o'clock mass in St. Patrick's Church and the Very Rev. J. Lawrence Kilkenny, pastor and rural dean of Western Maryland, will preside at the invocation.

George W. Sellers, district councilor of Boy Scouts, will speak. He is president of St. Mary's Catholic Youth Organization, past president of the Lions Club and a member of the executive board of Potomac Council of Boy Scouts. Carpenti will handle the introductions.

Committeemen are John Kreidler, John O'Rourke, Joseph H. Love and John Loibel.

INSIDE—Area Enlistments— . . .

P. Emmett Fahey, clerk co-ordinator of Cumberland draft boards, reported yesterday that more than 83 area men have enlisted in the armed forces so far this month.

During December, however, he received notice of only 23 enlistments.

Under Selective Service regulations, Fahey pointed out, draft registrants are prohibited to enlist in various branches of the service after they receive notice to report for pre-induction physical examinations.

He attributed the increase in enlistments during January to the Christmas holidays when many college students, apparently aware that they would be called soon for physicals, came home to visit their families. The majority of enlistees were registered.

By enlisting the men were able to choose any branch of the armed forces. When inducted, they are taken by the Army. A breakdown of statistics from the main recruiting office at Martinsburg, W. Va., shows:

Board No. 27—32 enlistments last month; Board No. 28—27, and Board No. 29—24, most of which entered the Air Forces or Navy.

Former Instructor Here To Head School

Maj. Gen. John H. Church, former National Guard instructor for Company G, is returning to this country from Korea to assume command of the Army infantry school at Fort Benning, Ga.

General Church has been in command of the 24th Division which engaged in the sacrificial mission of delaying the Southward advance of the North Koreans early in the Korean fighting.

General Church was instructor for Company G and the old First Infantry Battalion, with headquarters in Frederick, from 1922 to 1926 and from 1930 to 1933.

Washington Whirl

By AUSTINE

ACROSS the river and in Alexandria, there's a 25-year-old cabinetmaker who can waltz like a fool . . . In fact, his waltzing is so superb that the girl he's going to marry this St. Patrick's Day says, "The way he can whirl! That's what really won me!"

But the cabinetmaker, Ferenc Nagy, Jr., has a long tradition of graceful waltzing in his background . . . He's the son of the former premier of Hungary . . And, after all, waltzing was to Hungary and Budapest what rumbaing is to Cuba and Havana.

Of course, the music and waltzing have been curtailed since the ex-Premier came to this country and became a plain Virginia farmer . . . After March 17, he can start raising a crop of little American grandchildren when his son marries Anna Lee McMullan, a petite, young Washington-born brunette.

AUSTINE

Incidentally, the term "Diplomatic Relations" exists in books and on paper, but not in reality when it comes to dealings between our State Department and the Hungarian Embassy . . . For over two years the fellows at the department, handling Hungarian affairs, have done it almost entirely by mail and an occasional phone call . . . If a State Department expert on Hungary and a member of the Hungarian Legation passed each other on the street, they wouldn't know each other by sight . . . Consequently, when Miss Ida Gyulai, Hungarian counselor, was shot at the Legation two weeks ago by a fanatic Hungarian alien, a local newspaperman phoned the State Department's Hungarian desk to try to get a description of her.

"How would I know," shrugged the State Department's Hungarian expert, "I've never seen her!"

• — • — •

"A high kick is completely incorrect," chides Helen O'Neal. She saw the newspaper picture of Congressional wives rehearsing the Charleston they will do in the Women's National Press Club show last night . . . Miss O'Neal, it seems, worked her way through nurses' training school during the late 20's by doing the Charleston and the Black Botton at night spots when she wasn't pouring over textbooks . . . And she insists "the Charleston is never more than about five inches off the floor. In the Black Bottom you can go higher."

Obviously, this is a more decorous school of thought than that currently prevailing.

Maybe it's a tempest in a diplomatic mail pouch, but the Spanish Embassy has been criticized. Invitations to an exhibition of paintings by French-born Senora de Propper Callejon, wife of a high-up Spanish diplomat, were mailed through the Embassy and delivered free by Uncle Sam without stamps . . . One nosey wife of a Senator who got an invitation called up the State Department to protest, "Imagine what a fuss if a Senator's wife had used her husband's Congressional franking privilege to send out invitations to a cocktail party of hers?"

Where does the Spanish Embassy get off mailing letters free? The other embassies don't rate such privileges. Why, it's outrageous. Should be investigated, etc., etc.

The State Department had to politely but firmly explain that the Spanish Embassy and Latin American embassies all have that same privilege, and are the only ones who have it . . . They can sent any mail without stamps! It's courteously delivered by the U. S. Post Offices . . . Some while back at a Spanish-American Postal Conference the franking privilege was given to participating countries on a reciprocal basis.

So when you get letters from Spanish or any Latin American embassy don't go into a tailspin because they don't pay postage . . . Remember they do the same for us.

• — • — •

Some Democratic Party left-wingers nave been urging Eleanor Roosevelt to plug for Helen Gahagan Douglas . . . The left-wingers want defeated but not deflated Mrs. Douglas to be named one of the five alternate delegates to the United Nations . . . However, one California Republican, disgusted with the UN, quipped "Helen Gahagan Douglas named to the UN!—It's like adding a lame duck to a dead duck."

• — • — •

Editor of the Kansas City Star, rollicking Roy Roberts, called by many newsmen one of America's greatest living editors, rolled into town on his way back to the wide mid-West, his home and kingdom . . . King Roy The First rules with a pen mightier than a sword. . . Lacking only a plumed hat and a jeweled velvet coat ot look a living

Grapefruit Cobbler for Gilt Complex!

NOT the kind you need to avoid—rather, this delicious and economical dessert will bring raves!

Made with nutritious, plump canned Florida grapefruit sections, it's the type of dessert that men especially like. Use the canned sections now, later on substitute fresh Florida grapefruit if you wish. If you have fancy cookie cutters, the possibilities for the pastry topping are endless. Here's the recipe:

Florida Cobbler

2 No. 2 cans Florida grapefruit sections
⅓ cup firmly packed brown sugar
3 tablespoons flour
3 tablespoons butter or margarine
1¼ cups sifted all-purpose flour
3 tablespoons sugar
3 teaspoons baking powder
½ teaspoon salt
¼ cup shortening
⅓ to ½ cup milk

Place grapefruit sections with syrup in shallow baking dish approximately 11x7x1½ inches. Combine sugar and flour, sprinkle over fruit, dot with butter. Bake in a moderate oven (375°F.) for 15 minutes. While fruit mixture is being heated, sift together flour, sugar, baking powder and salt. Cut in shortening with 2 knives or pastry blender until mixture resembles coarse meal. Add enough milk to make a soft dough. Knead on a lightly floured board ½ minute. Roll dough approximately ½ inch thick. With 2-inch cookie cutters, cut into 6 stars and 6 rounds. Press several raisins in center of each round; arrange over hot fruit mixture. Bake in a moderate oven (375°F.) about 20 minutes or until brown. Serve with hard sauce. YIELD: 6 servings.

New Artificial Hands So Lifelike That They Even Have Fingerprints

LOS ANGELES.—(AP)— Artificial hands so amazingly lifelike that they even have fingerprints were described at a conference of makers of "spare parts" for the human body.

The hands, made of a new plastic are encased in soft plastic gloves which have the texture of living skin and are molded from the hands of live models.

These gloves carry fingerprints, scares or other peculiarities of the model's hands, therefore the fingerprints are registered with the Federal Bureau of Investigation. Experts can detect the difference between glove prints and natural fingerprints.

Lt. Col. M. J. Fletcher, director of the Army Prosthetics Research Laboratory, Forest Glen, Md., told of the artificial hands at a conference at University of California at Los Angeles of doctors, engineers and manufacturers of artificial limbs.

Col. Fletcher said the hands are 70 per cent efficient, as compared with 22 per cent efficiency in the best artificial hands made in 1945.

There is an automatic "clutch" which gives the amputee a finger touch so delicate that he can hold an egg without crushing it, or enough power to crack the bones in a human hand. A forward motion of the arm stump manipulates the hand.

Fifty to 70 per cent retarded readers have a seeing problem.

New Oil Leases Filed In Nearby Bedford County

Evidence that there is oil or gas in considerable quantity in nearby Bedford County was shown this week when oil leases were placed on record in the court house at Bedford, Pa.

The actual results of the natural gas strike January 3 on the Jesse Miller farm near Schellsburg have been kept a closely guarded secret by the South Penn Oil Company.

Company officials have declined to say how great is the pressure of gas escaping from the well. According to rumors, the pressure is still holding steady.

The first new lease to go on record this week involved land 15 miles from the Miller farm near the Somerset county line. It was negotiated between the People's Natural Gas Company, of Pittsburg, and Frank L. Benning, of Juniata Township.

Some of these leases are held by the South Penn Oil Company, which struck gas on the Miller farm while drilling for oil.

Prompt renewal of these leases might indicate drillers have unearthed promising evidence of oil or gas, or both, observers close to the situation predict.

The South Penn exploratory well on the Miller farm is in the center of a 20,000-acre tract leased for drilling purposes.

When drilling began three years ago, the president of the oil concern informed the residents of the area that the section had "outstanding geological indications."

More people in New York City are employed in the making of dresses and associated fashion jobs than in any other job.

New Artificial Hands So Lifelike That They Even Have Fingerprints

LOS ANGELES.—(AP)— Artificial hands so amazingly lifelike that they even have fingerprints were described at a conference of makers of "spare parts" for the human body.

The hands, made of a new plastic are encased in soft plastic gloves which have the texture of living skin and are molded from the hands of live models.

These gloves carry fingerprints, scares or other peculiarities of the model's hands, therefore the fingerprints are registered with the Federal Bureau of Investigation. Experts can detect the difference between glove prints and natural fingerprints.

Lt. Col. M. J. Fletcher, director of the Army Prosthetics Research Laboratory, Forest Glen, Md., told of the artificial hands at a conference at University of California at Los Angeles of doctors, engineers and manufacturers of artificial limbs.

Col. Fletcher said the hands are 70 per cent efficient, as compared with 22 per cent efficiency in the best artificial hands made in 1945.

There is an automatic "clutch" which gives the amputee a finger touch so delicate that he can hold an egg without crushing it, or enough power to crack the bones in a human hand. A forward motion of the arm stump manipulates the hand.

New Oil Leases Filed In Nearby Bedford County

Evidence that there is oil or gas in considerable quantity in nearby Bedford County was shown this week when oil leases were placed on record in the court house at Bedford, Pa.

The actual results of the natural gas strike January 3 on the Jesse Miller farm near Schellsburg have been kept a closely guarded secret by the South Penn Oil Company.

Company officials have declined to say how great is the pressure of gas escaping from the well. According to rumors, the pressure is still holding steady.

The first new lease to go on record this week involved land 15 miles from the Miller farm near the Somerset county line. It was negotiated between the People's Natural Gas Company, of Pittsburg, and Frank L. Benning, of Juniata Township.

Some of these leases are held by the South Penn Oil Company, which struck gas on the Miller farm while drilling for oil.

Prompt renewal of these leases might indicate drillers have unearthed promising evidence of oil or gas, or both, observers close to the situation predict.

The South Penn exploratory well on the Miller farm is in the center of a 20,000-acre tract leased for drilling purposes.

When drilling began three years ago, the president of the oil concern informed the residents of the area that the section had "outstanding geological indications."

More people in New York City are employed in the making of dresses and associated fashion jobs than in any other job.

Foundation Head Says Polio Control 'Is Not Too Far Off'

BY ALTON L. BLAKESLEE

NEW YORK—(AP)—Control of infantile paralysis "is not too far off," Basil O'Connor, president of the National Foundation for Infantile Paralysis, says.

Research supported by March of Dimes funds has brought that day "definitely nearer than ever before," he said.

But ironically, he added, the last three years have been the worst in number of polio victims, with more than 103,000 persons stricken. The foundation, helping to pay costs of patient care, has gone $5,000,000 into debt as a new appeal for funds begins.

Since 1938, the Dimes drive has channeled $102,000,000 into helping pay the costs of caring for polio victims, $13,100,000 into research, and $12,200,000 into professional education.

Thirteen years ago scientists started virtually from scratch to probe the mysteries of polio, O'Connor said. They investigated every line of approach, "like an army testing the enemy line to discover its most vulnerable points."

"Today we believe we have found vulnerable areas. Upon these spots we will train our heaviest weapons until the line cracks, or until we are sure it is impenetrable. We feel fully confident that our research efforts will culminate in control of infantile paralysis—and that that day is not too far off."

O'Connor said research now is concentrating on five main goals:

A preventive vaccine for polio.

An anti-serum to increase resistance to paralysis.

A chemical agent to prevent the polio virus from damaging nerve cells.

A diagnostic test for the disease.

The typing of all polio virus groups.

Major victories so far, said O'Connor ,include discovery of a way to grow the polio virus in test tubes containing other tissues than nerves. Another is discovery of three different groups of polio virus, and a project now is trying to classify all groups as a starter toward a vaccine. Monkeys have been protected by vaccines against one or more types of virus.

The $13 millions in research went into 805 projects carried on by 123 institutions and organizations over the nation, O'Connor said. The $12 millions for training was spent in educating physicians, nurses, technicians and others in treating polio or in working in laboratories and hospitals.

Matter Of Fact

large build-up of forces. The conclusion is reasonable that these measures are precautionary, and that this is not a planned main axis of attack.

The shrewd attempts to split and paralyze the Western allies, plus the seeming wish to avoid any frontal onslaught, in turn imply another vital fact. Despite the vast Soviet preponderance in all ordinary forms of military power, despite the fact that Western rearmament now threatens the whole program of Soviet imperialism, the Kremlin still appears desirous of keeping out of any general war. This can only mean that the great deterrent in the hands of the Western allies—the American atomic stockpile—still retains powerful influence.

The trouble today, however, is that this deterrent is not being used to the full. Certain flank moves, such as a move against Yugoslavia, offer the Kremlin the equivalent of victory in a third world war. These flank moves involve a risk of war, but they emphatically do not involve a certainty of war. The risk can be minimized by promoting dissension among the Western allies and in other ways. That is what the Kremlin is doing now. The result is a situation which more and more constitutes an open invitation to a Soviet move in Europe, just as our past follies constituted an open invitation to the move in Korea.

But it will be very different if the invitation is withdrawn, and the masters of the Kremlin are made to feel quite sure that their country will be reduced to a sub-medieval level within a few weeks after any new aggression. To impress that conviction on the masters of the Kremlin, to do it soon and do it firmly, and thus to gain time to complete Western rearmament, is now the best and perhaps the only chance of peace.

Trucker Killed While Taking Safety Course

WINSTON-SALEM, N. C., Jan. 25 (AP)—A truck driver was killed yesterday while taking a safe driving course.

The driver, John Joseph McGlen, 40, Bluefield, W. Va., was driving a McLean Trucking Company tractor-trailer loaded with 10 tons of aluminum ingots on a brake reaction test.

Riding with McGlen in the cab of the truck was Lee C. Cooper of Winston-Salem, instructor.

McGlen had made his run and slammed on the brakes when ordered to by Cooper. The 10 aluminum ingots shifted when the brakes were applied and crashed through the plywood back of the cab, pinning McGlen to the steering wheel. He was dead on arrival at a hospital.

Flogging in the United States Navy and merchant marine was discontinued in 1850; in the Army it was abolished in 1861.

No Action Taken On Long's Request To Recall Jury

It appeared certain yesterday that the January grand jury of Allegany county circuit court will not be recalled to consider a report by John J. Long, Cumberland police and fire commissioner, concerning a recent wave of robberies in downtown Cumberland and the inability of the Police Department to secure sufficient evidence to bring about the arrest of alleged race horse bookmakers in the city.

In a letter dated January 22 and addressed to Kenneth R. Malcolm, foreman of the grand jury, Commissioner Long outlined in detail the failure of city police to secure evidence necessary for warrants to be obtained, and concluded with the following paragraph:

"If you and the grand jury would be interested in names or any other information we have, the Police Department will cooperate to the fullest extent with you."

Copies of the letter were mailed to Judge George Henderson and State's Attorney Paul M. Fletcher.

Mr. Malcolm, Barton bank official and a resident of Westernport, yesterday released the following reply to Commissioner Long:

"This is to acknowledge your letter of the 22nd inst., concerning law enforcement in the City of Cumberland, in which you make specific reference of violations of the law in North Mechanic Street, Virginia Avenue and Decatur Street. As evidenced in your letter, you are unable to get information from individuals who frequent these places in order to prosecute.

"As you also mailed a copy of your letter to Judge George Henderson, I wish to advise that I telephoned the office of Judge Henderson this (Tuesday) morning, and was informed he was in Hagerstown. However, I too, am forwarding a copy of this letter to Judge Henderson, and will hear from him in due course.

"Inasmuch as the grand jury for the January 1951 term has been excused subject to the call of the court, if, in the opinion of the court, they deem it necessary from the information contained in your letter, we await the discretion for recall.

"I feel confident the grand jury, like myself, is most anxious to cooperate in all matters pertaining to law enforcement."

Industry Seeks New Consultant Contract

The important problem of obtaining an industrial consultant for this section will be aired at an executive meeting of the Cumberland and Allegany County Industrial Development Corporation Monday at 4:30 p. m. in the Chamber of Commerce office.

Harold W. Smith, manager of the Chamber, said Richardson Wood, of Richardson Wood, Inc., New York consultants will discuss terms and a possible contract.

Richardson Wood's present contract runs out in March, Smith said, and action on a new contract is deemed necessary at this time.

The meeting will be attended by the officers and committee chairman of the industrial promotion group.

Forger Gets Year In Bedford Trial

Donald Pittman, of Breezewood, Pa., who has been indicted here on charges of forgery, was sentenced in Bedford County Pa. Court recently to not less than one nor more than two years in Western State Penitentiary on three counts of forgery.

Judge J. Colvin Wright imposed sentence after Pittman pleaded guilty to the three charges. Judge Wright also ordered Pittman to make restitution and pay costs and a fine of $25 on each charge.

A retainer has been placed against Pittman by the state's attorney's office here and after he completes his term in the Pennsylvania prison he will be brought here for trial on several forgery cases.

Pittman passed bad checks on several Baltimore Pike service station operators. A total of $123.30 was obtained through the fraudulent checks.

The Pennsylvanian was arrested in that state upon information furnished by State Trooper William F. Baker of the LaVale barracks.

Local Woman Files Suit For Back Pay

Suit was filed in Circuit Court yesterday by Mary Hite against the Reserve Life Insurance Company, a Texas firm, in which she claims $2,000 as a result of allegedly not receiving monies due for work done as an employe of the company.

The bill of complaint, docketed by Thomas B. Finan, attorney for the woman, states that in September, 1948, she was employed by the insurance firm to sell health insurance polices in Cumberland. In December, 1949, she claims that the firm persuaded her to move to Hagerstown to be manager of the company's affairs.

The Hite woman claims $1,581 is due her for expenses and $431 in fees for policies sold.

Cobey Offers Finance Plan For Local Sewage Plants

The Maryland Municipal League has received a number of suggestions for state-wide legislative projects which members believe worthy of league support, among them one from Cumberland's city attorney on a method to finance sewage disposal systems.

At a recent meeting of the league's council at College Park, W. Earle Cobey proposed that Maryland municipalities be authorized to establish sewage disposal systems and to finance them on a revenue bond basis with the cost being paid from the sewer charges to the users.

Cobey's proposal continued, according to minutes of the meeting, that because of state pressure on municipalities to do something about sewage treatment and in view of the limited financial resources of the municipalities, such legislation would seem worthy of consideration.

Could Benefit City

Cumberland could reap benefits from such a plan it is claimed. The Water Pollution Commission has ordered the city to set up a disposal plant and plans for such a project are underway.

Mayor Thomas S. Post said yesterday morning that Robert T. Regester, Baltimore engineer, is compiling plans for a plant here and some report should be forthcoming in the near future.

It is estimated that the disposal plant will cost from $800,000 to $1,250,000, the Mayor said.

At the same meeting, Commissioner William H. Buchholtz, a member of the league council, was named a member of the group's Legislative Committee.

To Contact Legislature

The committee will serve the purpose of contacting leaders in the legislature at Annapolis on proposals believed pertinent to municipalities. The league previously had proposed to hire a lobbyist but considered the cost prohibitive.

Members of the committee are to be present at Annapolis when needed, and the group as a whole was empowered to convene a meeting of the council when necessary.

Buchholtz, vice-president for the league's District 6, will also serve as membership campaign captain for his area under a plan adopted by the council. Buchholtz is to name a committee from personnel in the district.

Story Has Happy Ending; Pet Parakeet Returned

The story has a happy ending!

The reunion of Pete, the pet Parakeet of 14-year-old Tommy Reinhart, and his young master was a happy one indeed when the straying bird was returned to the Reinhart household Tuesday morning after the parakeet has been missing for three days.

Pete had flown from the house Saturday while playing with Tommy and had been missing until Mr. and Mrs. Thomas A. Reinhart, Tommy's parents, began receiving telephone calls from residents in Ridgeley, W. Va., stating the little blue-colored bird had been seen in the vicinity of the West Virginia town. Tommy and his young 4-year-old brother, Michael, had been heartbroken at the loss of the family pet.

However, Tuesday morning, after Tommy had gone to school Mr. Reinhart and Michael made a trip to Ridgeley and identified the bird which had been cared for by a family there.

Michael was very excited when he and his father returned home, Mrs. Reinhart said, and exclaimed "It's Pete, Mommy, it's Pete."

When Tommy got home from school Tuesday evening the reunion was complete. "Even the other birds and Flip, our dog, seemed glad Pete was back," Mrs. Reinhart related, adding that "without the story written in Tuesday's Cumberland NEWS we probably never would have found him again. We are very grateful for the publicity and cooperation we received from the paper in our search for Pete."

The Reinhart home at 11 South Lee Street has two other parakeets, the dog, and many tropical fish as pets and Pete's loss had been a blow but his return gave the story a happy ending, after all!

This is the second time this month a NEWS story has resulted in the return of a family pet to a youngster who adored it.

A blue Maltese cat named "Whizzie" was returned to little three-year-old Donna Lee Metz, daughter of Mrs. Harold Metz, McMullen Highway, near Dawson, several days after the story of its disappearance New Years Day was printed in the morning paper.

Pulp Shortage Cuts Amcelle Production

H. C. Givens, Jr., plant manager of the Celanese Corporation of America operation at Amcelle, said yesterday that the shortage of wood pulp has been greater than anticipated and production at the plant here has been cut about 14 per cent.

When the shortage first developed some weeks ago the production cut was estimated at between five or six per cent.

Givens said that the company has been following a share the work program, but that some furloughs may be necessary.

Cobey Offers Finance Plan For Local Sewage Plants

The Maryland Municipal League has received a number of suggestions for state-wide legislative projects which members believe worthy of league support, among them one from Cumberland's city attorney on a method to finance sewage disposal systems.

At a recent meeting of the league's council at College Park, W. Earle Cobey proposed that Maryland municipalities be authorized to establish sewage disposal systems and to finance them on a revenue bond basis with the cost being paid from the sewer charges to the users.

Cobey's proposal continued, according to minutes of the meeting, that because of state pressure on municipalities to do something about sewage treatment and in view of the limited financial resources of the municipalities, such legislation would seem worthy of consideration.

Could Benefit City

Cumberland could reap benefits from such a plan it is claimed. The Water Pollution Commission has ordered the city to set up a disposal plant and plans for such a project are underway.

Mayor Thomas S. Post said yesterday morning that Robert T. Regester, Baltimore engineer, is compiling plans for a plant here and some report should be forthcoming in the near future.

It is estimated that the disposal plant will cost from $800,000 to $1,250,000, the Mayor said.

At the same meeting, Commissioner William H. Buchholtz, a member of the league council, was named a member of the group's Legislative Committee.

To Contact Legislature

The committee will serve the purpose of contacting leaders in the legislature at Annapolis on proposals believed pertinent to municipalities. The league previously had proposed to hire a lobbyist but considered the cost prohibitive.

Members of the committee are to be present at Annapolis when needed, and the group as a whole was empowered to convene a meeting of the council when necessary.

Buchholtz, vice-president for the league's District 6, will also serve as membership campaign captain for his area under a plan adopted by the council. Buchholtz is to name a committee from personnel in the district.

Fletcher To Attend Prosecutors' Meeting

State's Attorney Paul M. Fletcher is planning to attend a meeting of the Maryland State's Attorneys Association at the Hotel Emerson in Baltimore on February 2.

The meeting has been called by J. Bernard Wells, former Baltimore prosecutor and retiring president of the association, to consider legislative matters before the General Assembly and determine what bills they will support and oppose.

New officers of the association also are due to be elected.

Lashley To Graduate

Lashley will receive his degree in absentia as he is serving in the Navy.

Story Has Happy Ending; Pet Parakeet Returned

The story has a happy ending!

The reunion of Pete, the pet Parakeet of 14-year-old Tommy Reinhart, and his young master was a happy one indeed when the straying bird was returned to the Reinhart household Tuesday morning after the parakeet has been missing for three days.

Pete had flown from the house Saturday while playing with Tommy and had been missing until Mr. and Mrs. Thomas A. Reinhart, Tommy's parents, began receiving telephone calls from residents in Ridgeley, W. Va., stating the little blue-colored bird had been seen in the vicinity of the West Virginia town. Tommy and his young 4-year-old brother, Michael, had been heartbroken at the loss of the family pet.

However, Tuesday morning, after Tommy had gone to school Mr. Reinhart and Michael made a trip to Ridgeley and identified the bird which had been cared for by a family there.

Michael was very excited when he and his father returned home, Mrs. Reinhart said, and exclaimed "It's Pete, Mommy, it's Pete."

When Tommy got home from school Tuesday evening the reunion was complete. "Even the other birds and Flip, our dog, seemed glad Pete was back," Mrs. Reinhart related, adding that "without the story written in Tuesday's Cumberland NEWS we probably never would have found him again. We are very grateful for the publicity and cooperation we received from the paper in our search for Pete."

The Reinhart home at 11 South Lee Street has two other parakeets, the dog, and many tropical fish as pets and Pete's loss had been a blow but his return gave the story a happy ending, after all!

This is the second time this month a NEWS story has resulted in the return of a family pet to a youngster who adored it.

A blue Maltese cat named "Whizzie" was returned to little three-year-old Donna Lee Metz, daughter of Mrs. Harold Metz, McMullen Highway, near Dawson, several days after the story of its disappearance New Years Day was printed in the morning paper.

Pulp Shortage Cuts Amcelle Production

H. C. Givens, Jr., plant manager of the Celanese Corporation of America operation at Amcelle, said yesterday that the shortage of wood pulp has been greater than anticipated and production at the plant here has been cut about 14 per cent.

When the shortage first developed some weeks ago the production cut was estimated at between five or six per cent.

Givens said that the company has been following a share the work program, but that some furloughs may be necessary.

Judges, Lawyers Attending State Legal Parleys

Associate Judges George Henderson and Morgan C. Harris and a number of Cumberland attorneys are expected to be in Baltimore today and tomorrow attending annual meetings.

The jurists have been invited by Chief Judge Ogle Marbury of the Maryland Court of Appeals to attend the annual meeting of the Judicial Conference at 10 a. m. Friday at Sheraton-Belvedere Hotel, Baltimore. The operation of criminal rules and advisory instructions in practice in criminal courts of Maryland and how the proposed constitution amendment, if passed, will affect present rules with respect to advice instructions will be discussed, according to Judge Marbury. The judges' annual dinner will take place at 7 p. m. today.

Meanwhile, lawyers from here will attend the one-day conference on the Program of Continuing Legal Education, sponsored by the Maryland State Bar Association, also in the Sheraton-Belvedere Hotel.

A feature of the conference will be a mock trial from 2 until 4 p. m. involving an equity case with emphasis upon equity rules of practice and procedures. Attorneys William A. Gunter and William C. Walsh from Cumberland will participate in the mock trial. William L. Wilson, Jr., is a member of the State Bar Association's Committee on Continuing Legal Education.

Court Invalidates

(Continued from Page 36)

"We cannot require anyone to admit that he is guilty of sedition. We must prove such guilt in accordance with our laws.

"It will undoubtedly appear paradoxical to some that the provision against self-incrimination should be invoked in favor of two men who had already publicly stated they were members of the Communist Party. But we, as Judges, must pass on the validity of the ordinance with reference to its general application and effect, not merely with reference to Schusterman and Coleman.

In their defense, Coleman and Schusterman were represented by four Baltimore attorneys, I. Duke Avnet, Harold Buchman, Mitchell Dubow and William H. Murphy. City Attorney W. Earle Cobey was aided in the prosecution by C. William Gilchrist and Louis Fatkin.

Coleman and Schusterman both have announced that they have resigned from the Communist Party.

Placards Placed On Dump Areas

Placards are being placed on all dump areas along Allegany County highways, J. B. Dowling, city health inspector of the county health department, said yesterday.

The placards are being placed to stop a wave of dumping trash and refuse along the public highways and creating an eyesore along most of our county roads, Dowling related.

"No dumping on these premises by order of the Health Department" is the warning placed on the signs and approximately 20 have been placed at various dumps, the inspector said.

About 100 more signs will be placed before all the dumps have been posted, Dowling reported.

Dr. Winter R. Frantz, county health officer, announced the department is still considering offering a reward for information that results in the arrest and conviction of any person violating the notice.

Judges, Lawyers Attending State Legal Parleys

Associate Judges George Henderson and Morgan C. Harris and a number of Cumberland attorneys are expected to be in Baltimore today and tomorrow attending annual meetings.

The jurists have been invited by Chief Judge Ogle Marbury of the Maryland Court of Appeals to attend the annual meeting of the Judicial Conference at 10 a. m. Friday at Sheraton-Belvedere Hotel, Baltimore. The operation of criminal rules and advisory instructions in practice in criminal courts of Maryland and how the proposed constitution amendment, if passed, will affect present rules with respect to advice instructions will be discussed, according to Judge Marbury. The judges' annual dinner will take place at 7 p. m. today.

Meanwhile, lawyers from here will attend the one-day conference on the Program of Continuing Legal Education, sponsored by the Maryland State Bar Association, also in the Sheraton-Belvedere Hotel.

A feature of the conference will be a mock trial from 2 until 4 p. m. involving an equity case with emphasis upon equity rules of practice and procedures. Attorneys William A. Gunter and William C. Walsh from Cumberland will participate in the mock trial. William L. Wilson, Jr., is a member of the State Bar Association's Committee on Continuing Legal Education.

Court Invalidates

(Continued from Page 36)

"We cannot require anyone to admit that he is guilty of sedition. We must prove such guilt in accordance with our laws.

"It will undoubtedly appear paradoxical to some that the provision against self-incrimination should be invoked in favor of two men who had already publicly stated they were members of the Communist Party. But we, as Judges, must pass on the validity of the ordinance with reference to its general application and effect, not merely with reference to Schusterman and Coleman.

In their defense, Coleman and Schusterman were represented by four Baltimore attorneys, I. Duke Avnet, Harold Buchman, Mitchell Dubow and William H. Murphy. City Attorney W. Earle Cobey was aided in the prosecution by C. William Gilchrist and Louis Fatkin.

Coleman and Schusterman both have announced that they have resigned from the Communist Party.

Placards Placed On Dump Areas

Placards are being placed on all dump areas along Allegany County highways, J. B. Dowling, city health inspector of the county health department, said yesterday.

The placards are being placed to stop a wave of dumping trash and refuse along the public highways and creating an eyesore along most of our county roads, Dowling related.

"No dumping on these premises by order of the Health Department" is the warning placed on the signs and approximately 20 have been placed at various dumps, the inspector said.

About 100 more signs will be placed before all the dumps have been posted, Dowling reported.

Dr. Winter R. Frantz, county health officer, announced the department is still considering offering a reward for information that results in the arrest and conviction of any person violating the notice.

Rabbit Trapping Plans Completed By Sport Group

Traps To Be Set On Porter Game Refuge

FROSTBURG—Plans for trapping rabbits, scheduled to begin Thursday, February 1, were completed at the meeting of the Eckhart Square Circle Sportsmen's Association Tuesday night at the club house in Eckhart.

Traps will be set on the Porter game refuge as the trapping gets underway February 1. In past years, an officer of the club said, hundreds of rabbits were taken from this refuge and distributed on "overshot" areas. This area has recently been supplied with one dozen quail by Game Warden Joseph Minke who reports that they appear to be thriving in spite of the heavy snows.

The club is cooperating with the State Game Commission in an effort to trap as many local rabbits as possible. The commission in a recent bulletin stated that the importation of rabbits is practically out of the question due to the quarantine against bubonic plague, and that native rabbits, trapped where they are not wanted and released in suitable cover, should do much to improve hunting.

The Eckhart Club will hold a ham shoot Sunday at 1 p. m. Both 12 and 16 gauge matches will be held.

The business meetings of the club are held monthly on dates announced in the newspapers and are open to the public, Vice President Ralph Harvey said.

Newly elected officers of the association were in charge of Tuesday night's meeting. They are Charles Porter, president; Ralph Harvey, vice president; Richard Watson, secretary; Harold Holsinger, treasurer; Aaron Snyder, Benjamin Ort and Joseph Huber, trustees, and Ralph Harvey, publicity agent.

Woman Receives $2,500 Verdict

KEYSER, W. Va.—Mrs. Lillian F. Wagoner was given a verdict of $2,500 by the jury that heard the condemnation suit brought by the Potomac Light & Power Company, after deliberating about an hour and a half Thursday in Mineral County Circuit Court.

The action followed the filing of a commission's report on condemnation of property on order of the power company, in which the company would pay Mrs. Wagoner the sum of $530 for damages to her property along Pattersons Creek, the property later used by the power company for a continuation of a new high tension power line over the property.

Mrs. Wagoner refused to accept the commission's offer for a right of way, claiming that it had ruined her property of 26 acres which she said she had surveyed and laid out in large home site lots, five of which were promised for sale and another that had been sought at the time of the power company's alleged interference. This caused return of money in down payment on the lots to the persons who wanted to buy lots to build homes, she said in court, and resulted in a big loss to her.

On Monday at 6 p. m., the two lodges will assemble in the IOOF Temple for the regular quarterly covered dish supper which will be served by the Rebekah lodge members. Each of the Rebekahs will provide dishes of food for the dinner and the men have adopted a 50 cent uniform donation for the occasion.

If you are going to eat it, the best is none too good.

Loud Shirts And "Tall Stories" Mark Meeting

KEYSER, W. Va.—A novel entertainment calling for member participation was presented at the dinner meeting of Keyser Kiwanis Club Wednesday evening in the dining hall of First Methodist Church.

As a result of the program, it was disclosed that few members of the club would ever be able to join any of the "Liars' Clubs" scattered around the country. Carl Peterson, program director, had two "musts" for the entertainment part of the program, one being that each member must wear a "loud" shirt, and each member must tell a "tall story."

Following the dinner and business session, shirt inspection was called for and four members fined and punished for lack of "color" in their shirts. The story-telling followed with the prize for the best "tall story" going to Richard (Dick) Davis.

Director Peterson announced the birthdays of members for the month, as one of the club's features. One new member was received.

The club's weekly bulletin will come out next week under its new name, selected by vote from suggestions by the members.

Teachers Study Use Of Sodium Fluoride

KEYSER, W. Va. — The elementary school teachers of Keyser held a meeting recently to familiarize themselves with the sodium fluoride treatment of teeth to lessen the chance of decay. S. T. McGee, principal of Keyser Elementary School, explained the kits that will be given to each teacher. A mimeographed copy of all information will be distributed soon to parents.

Dr. Bruce Snider, secretary of the Upper Potomac Dental Society, answered two questions which parents have asked. "The two per cent solution of sodium fluoride can be compared to iodine which, if taken internally, would be fatal, but if applied to the teeth in small applications has no ill effects," he said. The second question applied to the amount of fluoride in Keyser water, and Dr. Snider, quoting Dr. N. H. Baker, health educator of the West Virginia Health Department, Charleston, said the local water contains no fluoride.

Before children can have their teeth treated at the demonstration, which tentatively has been set to start the last week in January or the first week in February, parents must sign consent blanks.

Teachers Study Use Of Sodium Fluoride

KEYSER, W. Va. — The elementary school teachers of Keyser held a meeting recently to familiarize themselves with the sodium fluoride treatment of teeth to lessen the chance of decay. S. T. McGee, principal of Keyser Elementary School, explained the kits that will be given to each teacher. A mimeographed copy of all information will be distributed soon to parents.

Dr. Bruce Snider, secretary of the Upper Potomac Dental Society, answered two questions which parents have asked. "The two per cent solution of sodium fluoride can be compared to iodine which, if taken internally, would be fatal, but if applied to the teeth in small applications has no ill effects," he said The second question applied to the amount of fluoride in Keyser water, and Dr. Snider, quoting Dr. N. H. Baker, health educator of the West Virginia Health Department, Charleston, said the local water contains no fluoride.

Before children can have their teeth treated at the demonstration, which tentatively has been set to start the last week in January or the first week in February, parents must sign consent blanks.

He Just Wanted To Fill Simple Job; Now Look At What His Ad Started

By SAUL PETT

NEW York—(AP)—The last thing G335 wanted was to stir up an uproar or pose a national problem or be called names.

All he wanted was to hire a messenger, someone unlikely to be drafted. So he places an ad in the New York Times.

"And now I almost wish I hadn't," said G335, who is a department head for a large New York firm. "I wish I was in Korea. Anywhere but here. They're throwing rocks at me for a problem I didn't start."

The ad appeared Jan. 14. It said: "Messenger, 40-hr., 5 day, $34, steady. Prefer retired man bet. 45-65. G335 Times."

The response was pitifully large. More than 250 older men were ready and anxious to work for $34 a week delivering messages. Many had retired on set incomes or pensions which they now needed to implement because of inflation. Many were unable to find jobs because of their age.

"Honest," said G335, "I thought if six or seven men answered the ad I'd be doing good. But not this avalanche. It scares me to think so many men of that age need this kind of money.

"Some of them even offered to work for $30 or less. And when I saw some of the applications, I felt terrible. There were ministers, and teachers and other college graduates all ready to work for $34 a week."

After studying the applications, G335 called in three men. One failed to show up. The second, a retired city fireman, made a good impression and eventually landed the job at $34. The third man didn't measure up.

"I gave him a buck for his trouble," said G335, "and told him I'd try to place him with a friend of mine. But I can't do anything for the other 247 guys. Can you?"

Among them were 25 retired firemen and policemen, including several officers, 20 former postal employes, dozens of ex-civil service employes, a retired Army master sergeant, partially disabled veterans, a former European manager for a motor firm, a former chemist, and two men who used to own their own grocery and real estate firms.

But the flood of applicants, which stirred up G335's conscience, wasn't the end of his troubles. The Times also received approximately 100 phone calls and letters, ranging from calm offers to help the surplus applicants to enraged statements about the general problem of employment for people of advanced age.

A steamship executive said anyone who would ask a man over 45 to work for $34 a week is a "pious, hypocritical old ghoul."

Such a person, the correspondent continued, "is living on human flesh. He is trying to wring out all that is left in the human soul by hiring old-age people at subsistence wages as he will not pay the going rate."

A woman called for a state investigation. All the blame, she said, lies with employment agencies. She said they screen all applicants and turn away all the older ones.

Another man of 52, an unemployed display manager, wrote:

". . . The main reason for such a disgraceful vacuum is the undisputable fact that the labor market is looked upon as an unsentimental hunting ground for the employers' self interest. After squeezing out the best years of our lives, one gets the pink slip and then—one is too old.

". . . I have won 18 national prizes but I am a has been. I can't get a job despite my background. I'm over 45. Well, shall we sit tight and hope and pray that about every five years we shall be engaged in some sort of war economy . . . so that we the has-beens may have a chance to work again?"

"Honest," moaned G335, "All I was trying to do was fill one simple job. Look what I started"

AHS-Fort Hill, Moorefield-Ridgeley Top Tonight's Card

Sentinels, Yellow Jackets Defend Long Win Streaks

Contest Here Is 31st In Series; Piedmont High Plays LaSalle

Leading contenders for the W. M. I. League and Potomac Valley Conference basketball titles will tangle tonight when undefeated Fort Hill High School plays host to Allegany High and Moorefield's Yellow Jackets, victorious in nine games, do battle with the Ridgeley High Blackhawks at Ridgeley.

Fort Hill is in the same position it was last year when it met AHS in the opener of their series. In 1950, the Sentinels had won 12 straight and had extended their two-year string to 25 games when the Campers barged into the picture and took a 37-36 decision at the Fort Hill gym. AHS also annexed the second game at Campobello, 43-35.

Coach Bobby Cavanaugh's team goes into tonight's crucial battle with a 4-0 record in the W. M. I. League and a 10-0 mark for the season. Allegany has a 3-1 league record and an overall five wins and six losses.

31st Game Of Series

Tonight's game is the 31st of the series between the city schools. Allegany holds a 20-10 edge in victories.

Van Roby and Eddie Diehl will officiate. The game will get under way at 8 o'clock.

In other league games on tap tonight, Beall plays in Barton and Central meets Bruce in Westernport. Bill Hahn and Jack Bittner (Johnstown, Pa.) will work the game on the Bruce court while Bob Pence and Bob Farny will do the whistle-tooting in Barton.

Seeks 10th Straight

Moorefield will be angling for its 10th straight win in the P.V.C. when it tackles the Blackhawks in Ridgeley tonight at 8. Ridgeley has a 5-1 record in the 17-team circuit and might make it interesting for the Hardy County quint. Moorefield's overall record is 11-1 and Ridgeley's 7-3.

Two of the conference's top scorers will tangle in this game. George Fisher of Moorefield has 165 points to his credit and Carl Hartman of Ridgeley has collected 151.

Other P.V.C. games tonight are Romney at Fort Ashby, Petersburg at Keyser, Franklin at Wardensville and Bayard at Elk Garden.

Piedmont At LaSalle

Coach William "Huck" Miers brings his Piedmont High Lions here tonight to play LaSalle's Explorers on SS. Peter and Paul court at 8 o'clock. It will be the locals' 12th contest of the season, six of the 11 games to date being victories. Piedmont has won four and lost seven.

Homer Fizer's University High cagers of Morgantown will play at Parsons High School, Berkeley Springs at Paw Paw, Davis at Green Bank, Kitzmiller at Oakland, Thomas at Circleville and Capon Bridge at Musselman to round out tonight's high school schedule.

Potomac State Home

Westinghouse Apprentice of Pittsburgh is carded to play Potomac State School at Keyser tonight at 8 o'clock. It will be the Catamounts' 14th game of the season. Coach Dana Lough's floormen have won eight and lost five.

Ball Retained By Washington

Expresses Confidence He Can Have Winner

WASHINGTON, Jan. 25 (INS) — The Washington Redskins pro football team rehired Herman Ball as head coach today despite his 1950 record of three wins and nine losses.

There had been speculation that Ball, former Cumberland high school coach, might be replaced. The Redskins ran into a disastrous regular season after winning all of their exhibition games.

A spokesman said, however, that Ball had the backing of an "overwhelming number" of season ticket holders and the unanimous support of the players.

Moreover, he added, Ball asked for another chance and expressed confidence that he can produce a winning team. Ball was promoted from line to head coach in 1949 succeeding Vice Admiral John E. Whelchel, USN, (ret.), whose contract was cancelled by mutual agreement.

Joe Louis' Attorney Files Answer To Suit

MIAMI, Fla., Jan. 25 (AP) — Former heavyweight boxing champion Joe Louis said today he had "no comment" on the $100,000 damage suit filed against him by a 25-year-old negro woman who charges the boxer hit her July 4 in a Cleveland, Ohio hotel room.

Louis, in training here for the Omelio Agramonte match Feb. 7, referred any reply he might have to his New York attorney, Sol Straus, who already has filed an answer to the suit in court.

He said he had nothing to add to that answer.

Plaintiff in the Supreme Court damage suit is Odessa Calloway, who alleged that Louis "violently and in a brutal manner, assaulted, struck and beat me about the head, face, body and limbs without provocation."

Ben Hogan Leads Field Of 125 In Phoenix Tourney

Posts 6-Under-Par 65, Leads By One Stroke

BY JACK STEVENSON

PHOENIX, Ariz., Jan. 25 (AP)—U. S. Open Champion Ben Hogan came back to competitive golf after a six months layoff today and promptly paced the 125 man field in the first round of the $10,000 Phoenix Open.

Hogan putted his way to the fore on the final hole with a 45 footer for an eagle three and a six-under-par 65.

It was a whirlwind finish for a man named golfer of the year in 1950, but who hasn't played competively since the Motor City Open in Detroit last July.

One stroke behind the champion were Lawson Little, former U. S. Open titlist from Monterey, Calif., and Chich Harbert of Northville, Mich. Harbert had a couple of long putts also.

He dropped one from 25 feet away and then watched one fall in from 50 feet on the next hole.

Jimmy Demaret of Ojai, Calif., turned in a disappointing four-over par 75 as he started after a third straight victory here. Dr. Cary Middlecoff of Memphis, Tenn., winner of last week's Long Beach Open, was also over par with 73.

Lloyd Mangrum, winner of this year's Los Angeles Open and also former U. S. Open champion, played with an aching back, but finished in a three-way tie for fourth place with 67.

Tied with Mangrum were Julius Boros of Mid Pines, N. C., and Johnny Bulla, who lives in Phoenix but plays out of Verona, Pa.

At 68 were Jack Burke, Jr. of Houston, Tex.; Charles Bassler, Catonsville, Md., and Ed Furgol of Royal Oak, Mich.

Marty Furgol of North Hollywood, Calif., no relation to Ed, was with six others at 69 as a total of 28 golfers broke the par 36-35—71 for the 6,698 yard Phoenix Country Club course.

Others with Marty were Jimmy Thomson of Chicopee, Mass.; Jim Ferrier, San Francisco; Emery Zimmerman of Portland, Ore.; John Langford, Portland, Ore.; Zell Eaton of Monte Bello, Calif.

Irvin "Irish" Alexander of Lonaconing and Baltimore, who has donated cash and merchandise prizes and trophies to high school athletes and players in district sandlot baseball league in past years, called by phone from the Monumental City to offer a reward to the lad winning the batting championships in the Little League next summer.

The offer is a trip to Baltimore with all expenses paid, tickets to a professional football or baseball game of the boy's choosing and a 10-minute interview on the Baltimore sports Parade which is on TV. Alexander will pay every cent of the expense.

"Irish" is hopeful that the Cumberland Dapper Dan Club, sponsor and organizer of the Little League, will accept this offer.

Kansas City Quits

KANSAS CITY, Jan. 25 (AP)—The Kansas City Hi-Spots of the National Professional Basketball League, have called it quits.

"We tried every way possible to keep the team here," Kurash said, "but it was just an impossible task."

Two Iowa Players Suspended For Delivering Parlay Cards

Green, Ruck Promised Fee For Work; Case To Be Investigated

IOWA CITY, Ia., Jan. 25 (AP)—Two Iowa U. varsity basketball guards were barred from intercollegiate competition today for delivering parlay cards to Davenport, Ia., last week.

Head Basketball Coach Rollie Williams disclosed that the men, Herald (Skip) Green and Fred Ruck, had been contacted by the Iowa City representative of a Chicago group which originated the gambling cards and asked to act as "delivery boys" to take them to a Davenport tavern operator.

Officials said the two players were suspended until investigation of the case could be completed and a final decision reached. Ruck and Green have been the guards in Iowa's starting lineup most of the season.

Williams said the two, both former Davenport High School athletes, "agreed innocently" to deliver the cards. They were promised a fee for the work.

But Athletic Director Paul Brechler said he didn't think the boys collected any money.

"The boys made a bad mistake. They forgot to think. That's all" he said. "But they were involved in transporting only. There was no attempt to fix a game nor influence the outcome of a game."

He discounted any connection between the incident and recent gambling exposures in the east.

To bet with a parlay card, you select a number of teams from those listed, with odds specified on the card, and collect if all your picks—three, five, or up to the maximum allowed—are winners.

The card distributor is favored by the points listed and games selected. If you put your money on the favored team, it must win by the points listed before you click.

On the Iowa-Illinois game last week, the parlay card favored Illinois by 10 points.

Ruck and Greene played part of the game in which Iowa lost to Illinois 69-53 at Champaign last Saturday night.

Both players turned out for practice with the varsity yesterday and Brechler said the pair would be permitted to continue practicing with the team.

Iowa's next game is not until Feb. 2 against Missouri at Iowa City.

Both boys were described as deeply remorseful. Only one delivery of the cards is involved.

In Des Moines, Iowa, Attorney General Robert L. Larson, who has been leading a statewide anti-gambling campaign, said there is nothing illegal in parlay cards themselves. He said they become illegal only when used for betting.

The club was authorized to send a telegram to Herman Ball, congratulating him on his reappointment as coach of the Washington Redskins.

Sentinels, Yellow Jackets Defend Long Win Streaks

Contest Here Is 31st In Series; Piedmont High Plays LaSalle

Leading contenders for the W. M. I. League and Potomac Valley Conference basketball titles will tangle tonight when undefeated Fort Hill High School plays host to Allegany High and Moorefield's Yellow Jackets, victorious in nine games, do battle with the Ridgeley High Blackhawks at Ridgeley.

Fort Hill is in the same position it was last year when it met AHS in the opener of their series. In 1950, the Sentinels had won 12 straight and had extended their two-year string to 25 games when the Campers barged into the picture and took a 37-36 decision at the Fort Hill gym. AHS also annexed the second game at Campobello, 43-35.

Coach Bobby Cavanaugh's team goes into tonight's crucial battle with a 4-0 record in the W. M. I. League and a 10-0 mark for the season. Allegany has a 3-1 league record and an overall five wins and six losses.

31st Game Of Series

Tonight's game is the 31st of the series between the city schools. Allegany holds a 20-10 edge in victories.

Seeks 10th Straight

Moorefield will be angling for its 10th straight win in the P.V.C. when it tackles the Blackhawks in Ridgeley tonight at 8. Ridgeley has a 5-1 record in the 17-team circuit and might make it interesting for the Hardy County quint. Moorefield's overall record is 11-1 and Ridgeley's 7-3.

Two of the conference's top scorers will tangle in this game. George Fisher of Moorefield has 165 points to his credit and Carl Hartman of Ridgeley has collected 151.

Joe Louis' Attorney Files Answer To Suit

MIAMI, Fla., Jan. 25 (AP) — Former heavyweight boxing champion Joe Louis said today he had "no comment" on the $100,000 damage suit filed against him by a 25-year-old negro woman who charges the boxer hit her July 4 in a Cleveland, Ohio hotel room.

Louis, in training here for the Omelio Agramonte match Feb. 7, referred any reply he might have to his New York attorney, Sol Straus, who already has filed an answer to the suit in court.

He said he had nothing to add to that answer.

Plaintiff in the Supreme Court damage suit is Odessa Calloway, who alleged that Louis "violently and in a brutal manner, assaulted, struck and beat me about the head, face, body and limbs without provocation."

Posts 6-Under-Par 65, Leads By One Stroke

BY JACK STEVENSON

PHOENIX, Ariz., Jan. 25 (AP)—U. S. Open Champion Ben Hogan came back to competitive golf after a six months layoff today and promptly paced the 125 man field in the first round of the $10,000 Phoenix Open.

Hogan putted his way to the fore on the final hole with a 45 footer for an eagle three and a six-under-par 65.

It was a whirlwind finish for a man named golfer of the year in 1950, but who hasn't played competively since the Motor City Open in Detroit last July.

One stroke behind the champion were Lawson Little, former U. S. Open titlist from Monterey, Calif., and Chich Harbert of Northville, Mich. Harbert had a couple of long putts also.

He dropped one from 25 feet away and then watched one fall in from 50 feet on the next hole.

Jimmy Demaret of Ojai, Calif., turned in a disappointing four-over par 75 as he started after a third straight victory here. Dr. Cary Middlecoff of Memphis, Tenn., winner of last week's Long Beach Open, was also over par with 73.

Lloyd Mangrum, winner of this year's Los Angeles Open and also former U. S. Open champion, played with an aching back, but finished in a three-way tie for fourth place with 67.

Tied with Mangrum were Julius Boros of Mid Pines, N. C., and Johnny Bulla, who lives in Phoenix but plays out of Verona, Pa.

At 68 were Jack Burke, Jr. of Houston, Tex.; Charles Bassler, Catonsville, Md., and Ed Furgol of Royal Oak, Mich.

Marty Furgol of North Hollywood, Calif., no relation to Ed, was with six others at 69 as a total of 28 golfers broke the par 36-35—71 for the 6,698 yard Phoenix Country Club course.

Others with Marty were Jimmy Thomson of Chicopee, Mass.; Jim Ferrier, San Francisco; Emery Zimmerman of Portland, Ore.; John Langford, Portland, Ore.; Zell Eaton of Monte Bello, Calif.

Good News To Anglers

By C. V. BURNS

Irvin "Irish" Alexander of Lonaconing and Baltimore, who has donated cash and merchandise prizes and trophies to high school athletes and players in district sandlot baseball league in past years, called by phone from the Monumental City to offer a reward to the lad winning the batting championships in the Little League next summer.

The offer is a trip to Baltimore with all expenses paid, tickets to a professional football or baseball game of the boy's choosing and a 10-minute interview on the Baltimore sports Parade which is on TV. Alexander will pay every cent of the expense.

"Irish" is hopeful that the Cumberland Dapper Dan Club, sponsor and organizer of the Little League, will accept this offer.

Kansas City Quits

KANSAS CITY, Jan. 25 (AP)—The Kansas City Hi-Spots of the National Professional Basketball League, have called it quits.

"We tried every way possible to keep the team here," Kurash said, "but it was just an impossible task."

Two Iowa Players Suspended For Delivering Parlay Cards

Green, Ruck Promised Fee For Work; Case To Be Investigated

IOWA CITY, Ia., Jan. 25 (AP)—Two Iowa U. varsity basketball guards were barred from intercollegiate competition today for delivering parlay cards to Davenport, Ia., last week.

Head Basketball Coach Rollie Williams disclosed that the men, Herald (Skip) Green and Fred Ruck, had been contacted by the Iowa City representative of a Chicago group which originated the gambling cards and asked to act as "delivery boys" to take them to a Davenport tavern operator.

Officials said the two players were suspended until investigation of the case could be completed and a final decision reached. Ruck and Green have been the guards in Iowa's starting lineup most of the season.

Williams said the two, both former Davenport High School athletes, "agreed innocently" to deliver the cards. They were promised a fee for the work.

But Athletic Director Paul Brechler said he didn't think the boys collected any money.

"The boys made a bad mistake. They forgot to think. That's all" he said. "But they were involved in transporting only. There was no attempt to fix a game nor influence the outcome of a game."

He discounted any connection between the incident and recent gambling exposures in the east.

To bet with a parlay card, you select a number of teams from those listed, with odds specified on the card, and collect if all your picks—three, five, or up to the maximum allowed—are winners.

The card distributor is favored by the points listed and games selected. If you put your money on the favored team, it must win by the points listed before you click.

On the Iowa-Illinois game last week, the parlay card favored Illinois by 10 points.

Ruck and Greene played part of the game in which Iowa lost to Illinois 69-53 at Champaign last Saturday night.

Both players turned out for practice with the varsity yesterday and Brechler said the pair would be permitted to continue practicing with the team.

Iowa's next game is not until Feb. 2 against Missouri at Iowa City.

Both boys were described as deeply remorseful. Only one delivery of the cards is involved.

In Des Moines, Iowa, Attorney General Robert L. Larson, who has been leading a statewide anti-gambling campaign, said there is nothing illegal in parlay cards themselves. He said they become illegal only when used for betting.

Cited For Contempt

PHILADELPHIA, Jan. 25 (INS)—A racket-probing federal grand jury today cited boxing promoter Frank (Blinky) Palermo for contempt.

Palermo, who appeared before the jurors as a witness, was charged with making replies which were "wilfully, deliberately evasive, irrelevant and impertinent . . ."

They said he answered several questions with:

"I filed my income tax for 1950."

Paul J. Gallen Elected Head Of Cumberland Dapper Dans

Four Teams Added To Little League

Paul J. Gallen was elected president of the Cumberland Dapper Dan Club at the annual meeting of the organization last night at the Knights of Columbus Home.

Gallen succeeds William V. Keegan, who served as president for the past year, and automatically becomes chairman of the executive board for 1951.

James Wilt was elected vice president and Harold J. "Hank" Rosenmarkel was named secretary-treasurer.

Other members of the executive board headed by Keegan are Albert S. Paye, Joseph K. Mooney, Willard Morrissey, Paul M. Fletcher, Peter J. Carpenti, Christ G. Charuhas and Alex J. Shute. Honorary members of the executive board are Charles Z. Heskett and David Kauffman.

The membership unanimously endorsed Daylight Saving Time for Cumberland and urged that it be submitted to a referendum.

Four teams will be added to the Little League this year, increasing the number of teams in each division (Dapper and Dan) from four to six teams. The 1951 league champions will be entered in the regional tournament, it was announced.

The club was authorized to send a telegram to Herman Ball, congratulating him on his reappointment as coach of the Washington Redskins.

Doubleheaders featuring Little League and Hot Stove League teams were proposed for the 1951 season and met with the approval of the membership.

The Dapper Dan Club's annual banquet is set for Sunday, February 25, at 6 p. m., at the Knights of Columbus Home. Tickets may be procured at the Wilson Hardware Company, Nu Way Shoe Shop, Sport Shoppe, Galen's Tavern or from any members of the executive board.

The monthly news flash of the Maryland Game and Inland Fish Commission, reports that under the new angling regulations, now in effect, there is no statewide closed season in non-tidal waters on carp, crappie, eels, fall-fish, all species of sunfish, suckers and white or yellow perch.

All fishing is prohibited in the waters of Deep Creek Lake during May and June.

The bass season in this section of the state opens July 1 and closes November 30. The open season on all species of trout is April 15 to July 15. The catfish season in Western Maryland opens February 15 and closes November 30.

KEEPING UP WITH HOLLYWOOD

By LOUELLA PARSONS

HOLLYWOOD, Jan. 25.—(INS)—Some of the Huntington Hartford A&P fortune is going right into a motion picture to be made at the Nassour Studios starting almost immediately.

I talked with Huntington, and he tells me that he will use "The Secret Sharer," Joseph Conrad's story, combined with two other stories and will produce them as "Quartette" and "Trio" were produced, in episodes. The title, "The Secret Sharer," however, will not be used even in the Conrad sequence.

Edmund Gwenn

Hartford has signed James Mason and Michael Pate, Australian actor who came here for "Bonaventure," as the stars for the Conrad episode, and John Brahms will direct them. It's about an 18th century clipper ship, and has plenty of melodrama and action as have all of Conrad's sea epics,

• — • — •

Here's good news for all of Edmund Gwenn's friends and admirers. He is not only on his feet and feeling well, he gets one of the top roles in "The Peking Express" for Hal Wallis. This will be the first time in over a year that Teddy, as his close friends call him, has played a heavy dramatic role. He usually goes in for comedy-drama.

The other stars in this exotic melodrama are Joseph Cotten and Corinne Calvet. But I am serving warning on them that that old scene stealer, Teddy, will give them plenty of competition.

• — • — •

Anita Loos left for New York Wednesday—sitting on top of the world. She has had three wonderful offers for "Gentlemen Prefer Blondes."

"But we don't have to be in a hurry about any deal on 'Blondes' because it cannot be made into a motion picture until 1953," said Anita.

"Paramount owns 14 per cent of our play, having made it in its silent day, but it seems unlikely that Paramount will buy it. Harry Cohn wants it for Judy Holiday, and she would be terrific. Darryl Zanuck wants it for Betty Grable, and she would be ditto. Then one of the other companies is interested in getting it for Carol Channing, but it looks as though Carol, who is booked for 1953 with the play, will still be on tour with it."

• — • — •

Humphrey Bogart and Lauren Bacall (Mrs. B. to you) have been taking yellow fever, cholera, typhus and what-have-you shots in preparation for their trip to Africa.

Bogey told me he and Baby leave here March 1 and sail on the Liberte for Africa where he and Katharine Hepburn will co-star in "Africa Queen." John Huston and Sam Speigel take off immediately to scout locations in Kenya.

Bogey says they are not taking their little son, Stephen, because he is afraid the cannibals might eat him!

"But we do not want to be separated from him all the months we will be away," said Bogey, "so we are having him meet us in London when we return there."

Snapshots of Hollywood collected at random:

Peggy Ann Garner's pals say she'll announce her plans to marry Richard Hayes before Valentine's Day.

Mario Lanza has been at the desert retreat in Palm Springs recovering from a recent illness, but also to take off weight.

Paul Louis Weiller, who bought Lady Mendl's Versailles chateau, will sponsor the exploitation of Tony Duquette's paintings in Paris. Tony, a well known Hollywood interior decorator, had an exhibition which was attended by Mrs. David Bruce, our American ambassador's wife, and many others.

Patrice Wymore, Errol Flynn's bride, returned with shoulder-length hair, and says she's going to keep it that way.

Bob Stack is off for New York to appear in "The Broken Dishes" on the Pulitzer Prize Playhouse. The playhouse just won the TV award for the finest dramatic presentations of the year.

Perc Westmore is fighting the demon flu. He's down with virus and has been bedded all week.

John Agar Mocamboing with Wendy Waldron, pretty red-head, and John wasn't drinking anything stronger than ginger ale.

Stan Laurel is back on his feet and has gained ten pounds. He's returned to picture-making in Paris.

Jackie Westrope and Terri Terry, tall, statuesque blonde who towers over him, a Windsor duo.

Gail Robbins has named her new baby Victoria in honor of Victor Young, who gave her her first job.

That's all today. See you tomorrow!

GI Calls Home, Then Kills Self

NEW ULM, Minn., (AP)—"I want to talk to Georgia; she can take shorthand," the voice on the telephone said.

So 17-year-old Georgia Karstad took the phone and copied in shorthand what her brother, Pvt. Lester O. Karstad, 19, had to say. He had been missing since leaving a 47th Division unit waiting for a train to take it to Camp Rucker, Ala., for training.

Georgia scribbled in shorthand:

"I have a good home and parents, but I am not going to wait and get tortured in any war or get killed right away. I don't believe in suffering.

"I am going to kill myself in a comfortable way that I won't have to suffer xxx."

Mrs. Ed Karstad took the phone and pleaded with her son to come home.

Later, a snowplow crew came upon a parked car in a rural area ten miles north of here. A hose went from the exhaust pipe through a window of the car. Pvt. Karstad was in the driver's seat—dead.

The name Phoebe means "shining."

Area Rabbit Traps Are Being Stolen

Regional Game Warden Joseph A. Minke said yesterday a number of rabbit traps being used in the Cumberland area to snare rabbits under the State Game and Inland Fish Commission on program have been stolen.

Youths of the area have been trapping the rabbits for redistribution in woodland sections. The boys are paid 75 cents for each rabbit. Only those boys who obtain permission of Minke or other game wardens are allowed to trap the rabbits.

If any of the state-owned traps are found in the possession of or operated by unauthorized persons they will be prosecuted.

Seven out of 10 people visiting Bermuda in 1948 traveled by air.

The chewing gum business in America dates back to 1860.

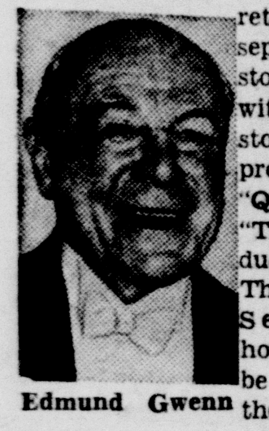
KEEPING UP WITH HOLLYWOOD

By LOUELLA PARSONS

HOLLYWOOD, Jan. 25.—(INS)—Some of the Huntington Hartford A&P fortune is going right into a motion picture to be made at the Nassour Studios starting almost immediately.



Edmund Gwenn

I talked with Huntington, and he tells me that he will use "The Secret Sharer," Joseph Conrad's story, combined with two other stories and will produce them as "Quartette" and "Trio" were produced, in episodes. The title, "The Secret Sharer," however, will not be used even in the Conrad sequence.

Hartford has signed James Mason and Michael Pate, Australian actor who came here for "Bonaventure," as the stars for the Conrad episode, and John Brahms will direct them. It's about an 18th century clipper ship, and has plenty of melodrama and action as have all of Conrad's sea epics.

●—●—●

Here's good news for all of Edmund Gwenn's friends and admirers. He is not only on his feet and feeling well, he gets one of the top roles in "The Peking Express" for Hal Wallis. This will be the first time in over a year that Teddy, as his close friends call him, has played a heavy dramatic role. He usually goes in for comedy-drama.

The other stars in this exotic melodrama are Joseph Cotten and Corinne Calvet. But I am serving warning on them that that old scene stealer, Teddy, will give them plenty of competition.

Anita Loos left for New York Wednesday—sitting on top of the world. She has had three wonderful offers for "Gentlemen Prefer Blondes."

"But we don't have to be in a hurry about any deal on 'Blondes' because it cannot be made into a motion picture until 1953," said Anita.

"Paramount owns 14 per cent of our play, having made it in its silent day, but it seems unlikely that Paramount will buy it. Harry Cohn wants it for Judy Holiday, and she would be terrific. Darryl Zanuck wants it for Betty Grable, and she would be ditto. Then one of the other companies is interested in getting it for Carol Channing, but it looks as though Carol, who is booked for 1953 with the play, will still be on tour with it."

●—●—●

Humphrey Bogart and Lauren Bacall (Mrs. B. to you) have been taking yellow fever, cholera, typhus and what-have-you shots in preparation for their trip to Africa.

Bogey told me he and Baby leave here March 1 and sail on the Liberte for Africa where he and Katharine Hepburn will co-star in "Africa Queen." John Huston and Sam Speigel take off immediately to scout locations in Kenya.

Bogey says they are not taking their little son, Stephen, because he is afraid the cannibals might eat him!

"But we do not want to be separated from him all the months we will be away," said Bogey, "so we are having him meet us in London when we return there."

Snapshots of Hollywood collected at random:

Peggy Ann Garner's pals say she'll announce her plans to marry Richard Hayes before Valentine's Day.

Mario Lanza has been at the desert retreat in Palm Springs recovering from a recent illness, but also to take off weight.

Paul Louis Weiller, who bought Lady Mendl's Versailles chateau, will sponsor the exploitation of Tony Duquette's paintings in Paris. Tony, a well known Hollywood interior decorator, had an exhibition which was attended by Mrs. David Bruce, our American ambassador's wife, and many others.

Patrice Wymore, Errol Flynn's bride, returned with shoulder-length hair, and says she's going to keep it that way.

Bob Stack is off for New York to appear in "The Broken Dishes" on the Pulitzer Prize Playhouse. The playhouse just won the TV award for the finest dramatic presentations of the year.

Perc Westmore is fighting the demon flu. He's down with virus and has been bedded all week.

John Agar Mocamboing with Wendy Waldron, pretty red-head, and John wasn't drinking anything stronger than ginger ale.

Stan Laurel is back on his feet and has gained ten pounds. He's returned to picture-making in Paris.

Jackie Westrope and Terri Terry, tall, statuesque blonde who towers over him, a Windsor duo.

Gail Robbins has named her new baby Victoria in honor of Victor Young, who gave her her first job.

That's all today. See you tomorrow!

GI Calls Home, Then Kills Self

NEW ULM, Minn., (AP)—"I want to talk to Georgia; she can take shorthand," the voice on the telephone said.

So 17-year-old Georgia Karstad took the phone and copied in shorthand what her brother, Pvt. Lester O. Karstad, 19, had to say. He had been missing since leaving a 47th Division unit waiting for a train to take it to Camp Rucker, Ala., for training.

Georgia scribbled in shorthand:

"I have a good home and parents, but I am not going to wait and get tortured in any war or get killed right away. I don't believe in suffering.

"I am going to kill myself in a comfortable way that I won't have to suffer xxx."

Mrs. Ed Karstad took the phone and pleaded with her son to come home.

Later, a snowplow crew came upon a parked car in a rural area ten miles north of here. A hose went from the exhaust pipe through a window of the car. Pvt. Karstad was in the driver's seat—dead.

The name Phoebe means "shining."

Area Rabbit Traps Are Being Stolen

Regional Game Warden Joseph A. Minke said yesterday a numbe of rabbit traps being used in the Cumberland area to snare rabbits under the State Game and Inland Fish Commission on program have been stolen.

Youths of the area have been trapping the rabbits for redistribution in woodland sections. The boys are paid 75 cents for each rabbit. Only those boys who obtain permission of Minke or other game wardens are allowed to trap the rabbits.

If any of the state-owned traps are found in the possession of or operated by unauthorized persons they will be prosecuted.

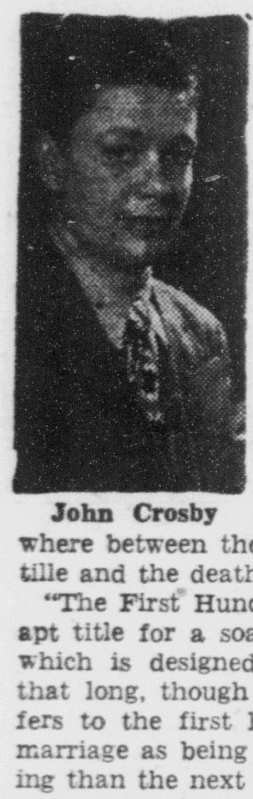
Radio And Television

By JOHN CROSBY

For Scholars Only



John Crosby

SCHOLARS of television history, a small but enormously erudite bunch of hard-drinking intellectuals, will never forget December 4, 1950. It dawned clear, bright and cold and somehow in the very air you could detect the odor of history about to be made an acrid smell if you've never noticed. December 4, 1950, is the day television's first soap opera, "The First Hundred Years," went on the air, thus instantly taking rank among historic dates somewhere between the fall of the Bastille and the death of Charlemagne.

"The First Hundred Years" is an apt title for a soap opera, each of which is designed to run at least that long, though of course, it refers to the first hundred years of marriage as being rather more trying than the next hundred. In soap opera, marriages, though fraught with every sort of peril from mothers-in-law to flirtations, endure for centuries. The particular marriage commemorated in this epic is that of Chris and Connie Thayer, a couple of misty-eyed youngsters whose wedded life is already beset by extraordinary tensions.

* * *

For one thing, Connie's mother-in-law, a flibberty gibbet, lives across the street, which will lead to endless trouble. Chris' in-laws live nearby. Across the street from them lives Scott Blair. Any student of soap opera will tell you that a man with a name like that is up to no good. The moment he walked on to my screen I distrusted him. Sleek good looks, curly hair and a moustache—obviously a scoundrel. He's a writer, too, and you know what those people are like.

One of the more striking characteristics of any soap opera is the pace of its plots, which are about half the speed of an aging snail. In his exhaustive treatise on the subject in "The New Yorker," James Thurber mentioned several specific examples of just how slow the action is in soap opera. In one case—if my memory is at all accurate—a man clambered into a barber chair to get shaved on Monday and hadn't even been lathered by Friday.

This tradition of slowing time almost to a halt is being nobly perpetuated in "The First Hundred Years." Two weeks ago, for example, the denizens of this opera started getting ready for a dance at the country club, a relatively simple operation anywhere except in soap opera, where tying a black tie can take quite awhile. They finally got to the dance last Monday. Elapsed time: eleven days. Getting them out of the country club is another matter. That may take up the rest of the winter.

* * *

Last week one day's plot consisted entirely of Connie and Chris getting into a spat over a girl he once knew named Mildred. Mildred crept into the discussion because Chris said she liked a song they were dancing to. Connie took umbrage and fled to her mother's house. The next day's episode was largely devoted to Connie telling her mother what Chris had said about Mildred, just in case anyone had missed it the day before.

Another soap opera tradition carried forward on this program is that of giving the listener the minimum of plot and the maximum of commercial. "The First Hundred Years" opens with an extensive paean to Tide, a detergent, set in prose and in song and including both live action and cartoons. This elaborate operation takes about three minutes. There is a reprise just before closing. Altogether, this leaves about ten minutes to investigate the marital woes of Chris and Connie.

* * *

To be quite fair to the show, there has yet been little of the mood of sustained anxiety which is both the curse and stock in trade of heroines are perpetually on the brink of losing something valuable—their careers, their husbands, their homes, their virtues—to list them more or less in the order of their soap opera importance. Chris and Connie are relatively free of worries so far but I wouldn't bank on their continuing to be for long.

About the only other thing to tell you about this historic show is that it is set—according to a press release—in a middle-sized town "somewhere east of the Rockies and west of the Alleghenies"—which takes in an awful lot of real estate. The lead on this press release, incidentally, is a classic of press agentry. "Television, the young giant, reaches maturity with the start of a new day-time dramatic serial show . . ." Reaches what?

BARCLAY ON BRIDGE

"The Authority on Authorities"

BEATEN AT THE OUTSET

PLAYING to the opening trick, without first sizing up your entire problem, can sometimes cause your contract to be beaten at the very outset. Two steps should always be taken by a declarer before he acts at all. After seeing the opening lead and the dummy, he should figure out what has to be done to win the necessary number of tricks or—which in the net is the same—to limit his losing tricks to the number he can afford. Next he should take careful note of the assets he has to accomplish his task. Important in this part is the counting up of needed entries into his own hand or the dummy.

Little did South sense it at the time, but he beat himself by his play to the opening trick. West led the heart 4, on which the 7 was played from dummy, East coming up with the A and South making the "natural" play of the 6. That play ruined him.

Before making it, South had gone through one of the standard processes of a No Trump game declarer, counting up the tricks he expected to win. He noted two in spades, two in clubs, one certain in hearts, so that four in diamonds would give him success if the finesse was on and the suit divided no worse than three and two in the defenders' hands.

East returned the heart 3 to the second trick, the 10 forcing the Q and the 2 coming back to the K. Now South went to dummy with the spade K and successfully finessed the diamond Q. Noting that he had no dummy entry left to repeat the finesse, he had to try to drop the K with the A. When that failed, he had no earthly way to win, so was a victim of his own initial error.

Simple study would have shown him that playing the heart K under the A on the first trick would not have cost him a trick. It would merely have placed him in position to have a sure heart entry to the dummy. That would have enabled him to finesse diamonds twice and so make his contract.

Radio And Television

By JOHN CROSBY

For Scholars Only

SCHOLARS of television history, a small but enormously erudite bunch of hard-drinking intellectuals, will never forget December 4, 1950. It dawned clear, bright and cold and somehow in the very air you could detect the odor of history about to be made an acrid smell if you've never noticed. December 4, 1950, is the day television's first soap opera, "The First Hundred Years," went on the air, thus instantly taking rank among historic dates somewhere between the fall of the Bastille and the death of Charlemagne.

John Crosby

"The First Hundred Years" is an apt title for a soap opera, each of which is designed to run at least that long, though of course, it refers to the first hundred years of marriage as being rather more trying than the next hundred. In soap opera, marriages, though fraught with every sort of peril from mothers-in-law to flirtations, endure for centuries. The particular marriage commemorated in this epic is that of Chris and Connie Thayer, a couple of misty-eyed youngsters whose wedded life is already beset by extraordinary tensions.

* * *

For one thing, Connie's mother-in-law, a flibberty gibbet, lives across the street, which will lead to endless trouble. Chris' in-laws live nearby. Across the street from them lives Scott Blair. Any student of soap opera will tell you that a man with a name like that is up to no good. The moment he walked on to my screen I distrusted him. Sleek good looks, curly hair and a moustache—obviously a scoundrel. He's a writer, too, and you know what those people are like.

One of the more striking characteristics of any soap opera is the pace of its plots, which are about half the speed of an aging snail. In his exhaustive treatise on the subject in "The New Yorker," James Thurber mentioned several specific examples of just how slow the action is in soap opera. In one case—if my memory is at all accurate—a man clambered into a barber chair to get shaved on Monday and hadn't even been lathered by Friday.

This tradition of slowing time almost to a halt is being nobly perpetuated in "The First Hundred Years." Two weeks ago, for example, the denizens of this opera started getting ready for a dance at the country club, a relatively simple operation anywhere except in soap opera, where tying a black tie can take quite awhile. They finally got to the dance last Monday. Elapsed time: eleven days. Getting them out of the country club is another matter. That may take up the rest of the winter.

* * *

Last week one day's plot consisted entirely of Connie and Chris getting into a spat over a girl he once knew named Mildred. Mildred crept into the discussion because Chris said she liked a song they were dancing to. Connie took umbrage and fled to her mother's house. The next day's episode was largely devoted to Connie telling her mother what Chris had said about Mildred, just in case anyone had missed it the day before.

Another soap opera tradition carried forward on this program is that of giving the listener the minimum of plot and the maximum of commercial. "The First Hundred Years" opens with an extensive paean to Tide, a detergent, set in prose and in song and including both live action and cartoons. This elaborate operation takes about three minutes. There is a reprise just before closing. Altogether, this leaves about ten minutes to investigate the marital woes of Chris and Connie.

* * *

To be quite fair to the show, there has yet been little of the mood of sustained anxiety which is both the curse and stock in trade of heroines are perpetually on the brink of losing something valuable—their careers, their husbands, their homes, their virtues—to list them more or less in the order of their soap opera importance. Chris and Connie are relatively free of worries so far but I wouldn't bank on their continuing to be for long.

About the only other thing to tell you about this historic show is that it is set—according to a press release—in a middle-sized town "somewhere east of the Rockies and west of the Alleghenies"—which takes in an awful lot of real estate. The lead on this press release, incidentally, is a classic of press agentry. "Television, the young giant, reaches maturity with the start of a new day-time dramatic serial show . . ." Reaches what?

BARCLAY ON BRIDGE

"The Authority on Authorities"

BEATEN AT THE OUTSET

PLAYING to the opening trick, without first sizing up your entire problem, can sometimes cause your contract to be beaten at the very outset. Two steps should always be taken by a declarer before he acts at all. After seeing the opening lead and the dummy, he should figure out what has to be done to win the necessary number of tricks or—which in the net is the same—to limit his losing tricks to the number he can afford. Next he should take careful note of the assets he has to accomplish his task. Important in this part is the counting up of needed entries into his own hand or the dummy.

North:
♠ K 9 4
♥ J 9 7
♦ 7 6 5 2

West:

East:

♥ A 3
♦ K 9 3
♣ J 7 6 2

South:
♠ A 8 7
♥ K 10 6
♦ A Q J 8
♣ A K 5

(Dealer: East. Both sides vulnerable.)

East	South	West	North
Pass	2 NT	Pass	3 NT

Little did South sense it at the time, but he beat himself by his play to the opening trick. West led the heart 4, on which the 7 was played from dummy, East coming up with the A and South making the "natural" play of the 6. That play ruined him.

Before making it, South had gone through one of the standard processes of a No Trump game declarer, counting up the tricks he expected to win. He noted two in spades, two in clubs, one certain in hearts, so that four in diamonds would give him success if the finesse was on and the suit divided no worse than three and two in the defenders' hands.

East returned the heart 3 to the second trick, the 10 forcing the Q and the 2 coming back to the K. Now South went to dummy with the spade K and successfully finessed the diamond Q. Noting that he had no dummy entry left to repeat the finesse, he had to try to drop the K with the A. When that failed, he had no earthly way to win, so was a victim of his own initial error.

Simple study would have shown him that playing the heart K under the A on the first trick would not have cost him a trick. It would merely have placed him in position to have a sure heart entry to the dummy. That would have enabled him to finesse diamonds twice and so make his contract.

If North opens with a psychic 1-Spade on this rubber deal, what action would follow, among good players?

Cards of Thanks

We wish to thank our many friends and relatives for their kindness to us during the illness and following the death of our mother and grandmother, Marjorie Virginia Rice. We especially wish to thank Rev. Thomas Alderton, members and friends of the Baptist Church, Rev. Robert McCoy and Mineral Baptist Quartet.
MRS. MILDRED HUMBERTSON,
ROBERT & BILLY.

In Memoriam

In loving memory of our dear Mother, Mrs. Lydia Schod, who passed away five years ago today, January 26, 1946.

We've missed the sound of her
footsteps,
And her voice since she has gone,
And though we no longer see her,
In our minds she still lives on.

MIRROR OF YOUR MIND

By LAWRENCE GOULD
Consulting Psychologist

May pride take the joy out of life?

Answer: Yes. The false pride that expresses an inflated "ego-ideal" is one of the most effective of all joy-killers. If your underlying self-doubt makes you afraid to do anything "undignified," or associate with people you consider your social inferiors, you will miss a lot of good times, and get no real satisfaction in return. For pride of this sort, having no solid self-confidence behind it, brings no lasting feeling of security, and the higher you build up the "front" it prompts you to put on, the shakier it becomes.

May a philanderer be an "idealist"?

Answer: In a sense, yes. There are men who think that what makes them keep flitting from woman to woman is their dream of finding an ideal mate, whom they hope each time they have discovered, only to be "disillusioned." But what such men call "ideals" are really childish ways of justifying their refusal to accept the harsh facts of adult life, such as that no one will give you the unwavering devotion you got (or craved) from your mother as a baby. Equally childish resentment at not getting this explains their cruelty to the women they discard.

Do recruits need more careful "screening"?

Answer: Yes, writes Dr. R. S. Clark in The Military Surgeon In World War II, forty per cent of all discharges from the Army for physical or mental disability were "neuropsychiatric casualties," and in half these cases later study by the Veterans Administration revealed previous neurotic trends which, if recognized, would have led to the man's rejection before being inducted. Stricter psychiatric screening would not only have produced a more efficient Army, but have saved the cost of subsequent treatment of these patients.

Tickets Bring $25 For Oklahoma Aggies, Bradley Cage Game

PEARIA, Ill., Jan. 25 (AP) — Tickets are going on the street for $25 apiece for tomorrow night's basketball scorcher between Bradley and Oklahoma A. & M.

Robertson field house will be packed with a capacity 8,300 persons, and Bradley officials say they could have sold 25,000 ducats for the contest which pits the third and fourth nationally ranked quintets in the Associated Press weekly poll.

The lure is a scrap for the Missouri Valley Conference lead between two teams with completely opposite styles of attack. Oklahoma A. & M. with a 4-0 conference record and a 16-1 season mark features a plodding, but relentless control game.

Bradley's Braves have ridden to an 18-2 season record on a firewagon attack which has averaged 76.5 points a game, third high in the nation. In the Missouri Valley loop, the Braves have a 4-1 record. In the A. P. poll, the Aggies are third and Bradley fourth.

Protests Boxers Using Headgear

BOSTON, Jan. 25 (AP)—Proposals to force boxers to wear headgear and to place wrestling under state regulation drew protests at a state house hearing today.

Myer Nadelberg who fought more than 300 professional bouts under the name of "Billy Myers" told a legislative committee:

"If you are going to make boxers wear headgear, you might as well have them put on lace panties and take up tennis."

Burst Of Buying Strength Halts Stock Market Retreat

NEW YORK, Jan. 25 (AP)—An unexpected burst of buying strength today in the stock market blocked a price retreat that was nearing the breaking point.

The net result was to hold losses at the close to only a bit more than $1 a share at the outside among the leaders.

At the worst part of the decline the fall carried to around the $3 level, one of the most severe shakeouts in weeks.

Throughout most of the day the market did little more than fall back gradually without any particular selling pressure. The volume of trading was comparatively light.

The railroads reacted well with five of the 15 most active issues among the rails. The radio-television section, however, moved into the plus column strongly. Zenith was up 2⅛ at 63⅜, and Radio Corp. up ¼ at 18⅜ was second most active.

Associated Press average of 60 stocks lost 50 cents at $91.10. A similar sized decline occurred yesterday. The industrial component was off 70 cents, rails down 50 cents, and utilities 20 cents.

The volume of trading expanded to 2,520,000 shares as compared with 1,990,000 shares yesterday.

After the market closed, Bethlehem Steel declared a $1 dividend on common. Payments in 1950 were 60 cents in March, 75 cents each in June and September and $2 in December. Earnings amounted to $12.15 a share in 1950 as against $9.68 in 1949.

Bethlehem closed off ⅛ at 55⅜.

American Telephone was the fourth most active issue off ⅛ at 150⅛ ex-rights. The rights closed up 1/32 at 11/16.

New York Central was the most active issue up ⅛ at 23¼. At one time it was off a point.

Among others on the active list were Baltimore & Ohio off ⅜ at 22, Pepsi Cola off ⅛ at 11⅝, and Jones & Laughlin Steel (new) off ⅜ at 28⅛.

Patton and Berlin DeWard Towler were married on May 7, 1950, at Cumberland, Maryland, and they have provided for the said child down to the time of the filing of this Bill; and that they believe themselves to be competent and responsible persons to adopt said child; further that the said Earl J. MIRROR OF YOUR MIND

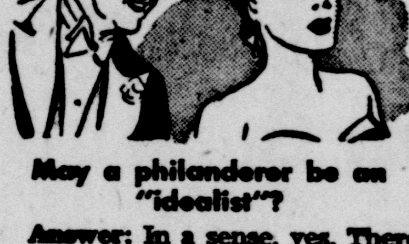
By LAWRENCE GOULD
Consulting Psychologist

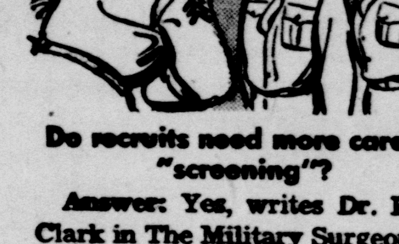
May pride take the joy out of life?

Answer: Yes. The false pride that expresses an inflated "ego-ideal" is one of the most effective of all joy-killers. If your underlying self-doubt makes you afraid to do anything "undignified," or associate with people you consider your social inferiors, you will miss a lot of good times, and get no real satisfaction in return. For pride of this sort, having no solid self-confidence behind it, brings no lasting feeling of security, and the higher you build up the "front" it prompts you to put on, the shakier it becomes.



May a philanderer be an "idealist"?

Answer: In a sense, yes. There are men who think that what makes them keep flitting from woman to woman is their dream of finding an ideal mate, whom they hope each time they have discovered, only to be "disillusioned." But what such men call "ideals" are really childish ways of justifying their refusal to accept the harsh facts of adult life, such as that no one will give you the unwavering devotion you got (or craved) from your mother as a baby. Equally childish resentment at not getting this explains their cruelty to the women they discard.



Do recruits need more careful "screening"?

Answer: Yes, writes Dr. R. S. Clark in The Military Surgeon In World War II, forty per cent of all discharges from the Army for physical or mental disability were "neuropsychiatric casualties," and in half these cases later study by the Veterans Administration revealed previous neurotic trends which, if recognized, would have led to the man's rejection before being inducted. Stricter psychiatric screening would not only have produced a more efficient Army, but have saved the cost of subsequent treatment of these patients.

Tickets Bring $25 For Oklahoma Aggies, Bradley Cage Game

PEARIA, Ill., Jan. 25 (AP) — Tickets are going on the street for $25 apiece for tomorrow night's basketball scorcher between Bradley and Oklahoma A. & M.

Robertson field house will be packed with a capacity 8,300 persons, and Bradley officials say they could have sold 25,000 ducats for the contest which pits the third and fourth nationally ranked quintets in the Associated Press weekly poll.

The lure is a scrap for the Missouri Valley Conference lead between two teams with completely opposite styles of attack. Oklahoma A. & M. with a 4-0 conference record and a 16-1 season mark features a plodding, but relentless control game.

Bradley's Braves have ridden to an 18-2 season record on a fire-wagon attack which has averaged 76.5 points a game, third high in the nation. In the Missouri Valley loop, the Braves have a 4-1 record. In the A. P. poll, the Aggies are third and Bradley fourth.

Protests Boxers Using Headgear

BOSTON, Jan. 25 (AP)—Proposals to force boxers to wear headgear and to place wrestling under state regulation drew protests at a state house hearing today.

Myer Nadelberg who fought more than 300 professional bouts under the name of "Billy Myers" told a legislative committee:

"If you are going to make boxers wear headgear, you might as well have them put on lace panties and take up tennis."

Burst Of Buying Strength Halts Stock Market Retreat

NEW YORK, Jan. 25 (AP)—An unexpected burst of buying strength today in the stock market blocked a price retreat that was nearing the breaking point.

The net result was to hold losses at the close to only a bit more than $1 a share at the outside among the leaders.

At the worst part of the decline the fall carried to around the $3 level, one of the most severe shakeouts in weeks.

Throughout most of the day the market did little more than fall back gradually without any particular selling pressure. The volume of trading was comparatively light.

The railroads reacted well with five of the 15 most active issues among the rails. The radio-television section, however, moved into the plus column strongly. Zenith was up 2⅛ at 63⅜, and Radio Corp. up ¼ at 18⅜ was second most active.

Associated Press average of 60 stocks lost 50 cents at $91.10. A similar sized decline occurred yesterday. The industrial component was off 70 cents, rails down 50 cents, and utilities 20 cents.

The volume of trading expanded to 2,520,000 shares as compared with 1,990,000 shares yesterday.

After the market closed, Bethlehem Steel declared a $1 dividend on common. Payments in 1950 were 60 cents in March, 75 cents each in June and September and $2 in December. Earnings amounted to $12.15 a share in 1950 as against $9.68 in 1949.

Bethlehem closed off ⅛ at 55⅜.

American Telephone was the fourth most active issue off ⅛ at 150⅛ ex-rights. The rights closed up 1/32 at 11/16.

New York Central was the most active issue up ⅛ at 23¼. At one time it was off a point.

Among others on the active list were Baltimore & Ohio off ⅜ at 22, Pepsi Cola off ⅛ at 11⅝, and Jones & Laughlin Steel (new) off ⅜ at 28⅛.

Court Invalidates City's Anti-Communist Law

Coleman-Schusterman Win Appeal In Circuit Court Upsetting City Red Law

Judges Henderson, Schnauffer Suggest Possible Action Under State's Ober Law

Cumberland's ordinance requiring Communists living within the city limits to register was declared unconstitutional by Associate Judges George Henderson and Patrick M. Schnauffer in a 15-page opinion and decision filed in Allegany County Circuit Court yesterday afternoon. They ordered the convictions under it must be set aside.

The opinion was written concerning appeals from Police Magistrate Frank A. Perdew, taken last September by William Boyd Coleman and Arthur M. Schusterman. Magistrate Perdew had fined them $100 each shortly after City Council passed the ordinance last September 5. They have been the only convictions under the measure.

Coleman and Schusterman, both former presidents of the CIO-Textile Workers of America local at the Celanese plant here, were arrested last September 16. They were fined by Magistrate Perdew two days later. They were both defense witnesses in the long trial of 11 Communist leaders in New York in 1949.

Arguments Heard

Arguments concerning the ordinance were delivered in Allegany County Circuit Court last October 7 before Judges Henderson and Schnauffer. The latter came here from Frederick to sit with Judge Henderson in the controversial cases because of illness of other judges here.

Although they ruled that the ordinance was in violation of the Fifth Amendment to the United States Constitution and of Article 22 of the Declaration of Rights of the Constitution of Maryland, in requiring Communists to register, they observed that the Attorney General of Maryland should be forwarded the facts for such action as may be warranted under the Ober Law.

Their decision read in part:

"Since it is apparent the main purpose of the ordinance was to require Communists to register, and since this cannot legally be done, the ordinance as a whole must be declared invalid, and the convictions under it must be set aside.

"The City officials cannot prosecute Coleman and Schusterman under the City Ordinance in question. But they can — and it may well be their duty so to do — report the facts to the Attorney General of Maryland for such action as may be warranted under the Ober Law.

Rise Of Communism

"The rise of Communism, with its cynical disregard of principles and morals which are the basis of our legal and governmental systems, may in the future require a temporary and partial restriction of certain human rights."

The document then quotes from an opinion by the late Justice Oliver Wendell Holmes in Cox vs. New Hampshire:

"Civil liberties, as guaranteed, imply the existence of an organized society maintaining public order without which liberty itself would be lost in the excesses of unrestrained abuses."

Then, the judges conclude their decision with these words:

"But, if this is necessary, such change must be made by some higher authority that the Mayor and City Council of Cumberland or the Circuit Court for Allegany County."

Attorney-General Hall Hammond said he had not heard of the decision and could only say he would "study the court's opinion and the facts, and take such action as we deem necessary." He expressed keen interest in the ruling.

The lengthy legal document begins with the court's opinion, then discusses Communists aims, the Communist conspiracy and the local angle, then quotes the ordinance in full, discussing it by sections and finally discusses the question of self-incrimination.

Writs Of Certiorari

Coleman and Schusterman sued out writs of certiorari last September asking the Allegany County Circuit Court to pass on the constitutionality of the ordinance.

Early in the opinion the jurists offer an explanation to the citizens. It reads:

"The average citizen is apt to misunderstand the rules by which courts are governed in deciding these cases. He sees Communists and their "fellow travelers" appealing for the protection of certain Constitutional rights, such as the freedom of speech, of the press, of religion and of assembly, and the privilege against self-incrimination. He knows that none of these rights is permitted to exist in Communist countries, and he thinks it strange that Communists should be allowed to invoke the protection of a Constitution they are endeavoring to destroy.

"But citizens of our country, living, as we do, under a constitutional government, have a different conception of our rights and duties. Because our forefathers had experienced the results of uncontrolled governmental power, it was deemed wise to limit the power of the State, and to set forth in a "Bill of Rights" certain basic freedoms which were conferred upon all citizens, rich and poor alike.

"Theories Differ"

"And so this ordinance must be passed upon by this Court in accordance with those theories of constitutional government which we have established — not in accordance with the theories Communists would follow were they in control. Our constitution stands as a bulwark; it has so stood in the past; it will so stand in the future if we do our part in upholding it. A ukase from the Kremlin changes the principles and policies of Communism here and elsewhere in the world. Only a duly adopted amendment can change our Constitution.

In succeeding sections the judges make clear that they are aware of the Communist aims and the Communist conspiracy. They quote extensively from the Doubs case decided by the United States Supreme Court last May. In that case it was ruled that unless each official of a labor union takes an oath that he is not a Communist, the union would be barred from utilizing certain privileges granted to labor unions under the Labor-Management Relations Act.

Under the section entitled "The Local Angle," the judges wrote in part:

"Cumberland was and is suffering from an unemployment problem, possibly caused partly by labor difficulties. And the Mayor and City Council may have concluded that those who are members of the Communist Party should be required publicly to acknowledge such allegiance lest in the future they be elected to positions of union leadership by members who would not select them if their Communist party affiliations were known."

Admitted Communists

In this case it was testified that both defendants were admitted members of both the Maryland and United States Communist parties.

The ordinance in question, besides requiring registration of Communists, prohibited dissemination or sale of literature issued by the Communist Party and provided that no one should be eligible for city employment until signing an oath required under the Ober Act. A fine of not less than $10 and not more than $100 was stipulated. For default in payment of fine the defendant was to have been confined in the City Jail for not less than 10 days nor more than 30 days.

Declaration Of Rights

The opinion observes that the section of the ordinance involving dissemination of Communist Party publication is illegal. "Its wording is broad enough to prohibit even the giving away of copies of the Bible, the Constitution of the United States or the Declaration of Independence if these bore the imprint of the Communist party," the judges said. However, they said that the section providing for oath under the Ober Law for all city employes was within the power of City Council.

Greatest emphasis in the opinion is given to the section of the ordinance requiring registration by Communists. They observe that the Fifth Amendment to the United States Constitution provides: "No person . . . . shall be compelled in any criminal case to be a witness against himself . . . ."—Similarly, Article 22 of the Declaration of Rights of the Maryland Constitution provides: "That no man ought to be compelled to give evidence against himself in a criminal case."

The jurists wrote that a number of decisions have upheld these provisions. They go into some detail in quoting from the recent Blau case decided last December 11 by the United States Supreme Court.

Blau Case Cited

In the case Patricia Blau had been summoned as a witness before a Federal Grand Jury in Denver, Colo. She was asked several questions concerning the Communist Party in Colorado and her employment by it.

She refused to answer on grounds that they might tend to incriminate her. She later refused to testify before the district judge, who found her guilty of contempt of court and sentenced her to one year imprisonment. In an unanimous decision the United States Supreme Court ruled that she had the privilege of remaining silent.

The judges emphasize in their opinion that in Maryland there also is a possibility of prosecution in the State Courts under the Ober Law.

They wrote:

"The ordinance does not attempt to, nor could it legally do so, grant immunity from prosecution under the Ober Law.

World-Wide Conspiracy

"And, if, as seems more and more apparent day by day, the Communist Party is a world-wide conspiracy striving to overthrow the government of this and other countries by force and violence, then membership in it, with knowledge of its nature, its aims, its principles and its methods, is nothing more or less than sedition (which is so closely allied to treason.)

Train Kills Railroad Employe

William J. Emerick, 62-year-old Hyndman, Pa., telegraph operator for the Baltimore and Ohio Railroad met his death ironically yesterday afternoon at the Hyndman crossing when a B & O passenger train struck his new automobile. Emerick, who was off duty yesterday, had been visiting in the Hollywood section of Hyndman shortly before the accident. He often had cautioned relatives and friends to exercise care crossing the tracks where he met his death. In the picture Hyndman residents are shown around the virtually demolished auto. The car had been driven only 344 miles by the veteran railroad employe. The train was bound from Cumberland to Pittsburgh.

5,000 State Youths Will Be Reexamined

Physical Standards For Draft Lowered

BALTIMORE, Jan. 25 (AP)—About 5,000 Marylanders may be subject to reexamination under lowered physical and mental qualifications for military service, the State Selective Service director estimated today.

Col Henry C. Stanwood announced the estimate after Mrs. Anna Rosenberg, assistant secretary of defense, said in Washington that the department proposes to lower the standards for induction "as far as security will permit."

Mrs. Rosenberg also said that an estimated 150,000 men might be accepted for limited service under the revised standards.

Col. Stanwood estimated that Maryland's share of this total would amount to about 2,250 men.

However, the state director said he would take no steps toward implementing the new program in Maryland until he has received a directive from National Selective Service headquarters.

Fire Damages Grove Dwelling In Bowling Green

Three Companies Save Most Of Residence

A fire of undetermined origin caused about $1200 damage to the home of Mr. and Mrs. Theodore L. Grove, Bowling Avenue, Bowling Green yesterday afternoon. The blaze was fought by volunteer firemen from Bowling Green, Cresaptown, and LaVale companies.

Mrs. Grove stated she was working in the kitchen of the six-room structure about 3:30 p. m. when she smelled smoke. She immediately went upstairs and found the rear bedroom full of smoke from a fire in a closet. Taylor Carder, rubber worker who lives next door noticed smoke about the same time and brought his garden hose to play on the flames, holding it in check until the firemen arrived.

The house, covered by rubber shingles, was burned through at one point on the rear wall and the roof was weakened by the blaze. Efforts of the firemen confined the flames to one room, but water damage was extensive throughout the house.

Arthur Winters, Chief of Cresaptown Volunteer Fire Company estimated the damage to be in excess of $1200 and stated the walls and ceilings throughout the structure would have to be repaired.

Grove, operator of a hauling business, said the damage was covered by insurance.

Regulations Govern Building Permits

Building permits being issued here are granted subject to Federal building regulations, Ralph L. Rizer, city engineer, announced yesterday.

Each of the permits are so stamped, as was done in World War II, to show that the work is in compliance with NPA directive prohibiting non essential construction.

Rizer said the city, in issuing a permit for the work, assumes no obligation to assist in securing materials.

B. & O. Employe Dies When Train Hits His Auto

Emerick Killed In Hyndman, Pa.

A 62-year old Hyndman, Pa., man who had worked most of his life as a telegraph operator for the Baltimore and Ohio Railroad there, ironically met his death late yesterday when his almost new automobile was demolished by a Pittsburgh-bound B&O passenger train at the Hyndman crossing.

He was William J. Emerick, who had been an employe of the B&O for at least 45 years, according to H. H. Clark, B&O superintendent in Hyndman.

Friends of the dead man said that he often cautioned relatives and friends to be careful in crossing the B&O tracks in Hyndman.

Emerick had a day off from work yesterday and had been visiting in the Hollywood section of the Pennsylvania town shortly before the tragedy occurred. His car, which had been driven only 344 miles, was struck by Train No. 9, bound from Cumberland to Pittsburgh at 5:31 p. m. yesterday. Emerick apparently was killed instantly.

The train, on which Roy Tharp, of Cumberland, was engineer, delayed 25 minutes before continuing on its journey, Clark said. Witnesses said that a freight train was stopped on the siding at the Hyndman crossing. The train had been split so that automobiles could use the crossing. Emerick apparently thought the signal lights were blinking simply because the freight train was on the tracks there.

Born May 1, 1888, in Bedford county, Pa., Emerick had lived in the Hyndman area all of his life. Surviving are his father, Benjamin, Hyndman; his widow, Mrs. Elsie Hartzell Emerick; a son, Richard, Hyndman; two daughters, Mrs. William Heit, Bedford, and Mrs. Carl Carpenter, Hyndman; three grandchildren and a sister, Mrs. Grace Close, Bethlehem, Pa.

He was a member of the Hyndman Methodist Church, the Hyndman Masonic lodge and the Williamsport Consistory of the Masonic Lodge. The body was at the Ziegler Funeral Home, Hyndman, pending funeral arrangements.

Hercules Powder Pays Dividend

The 1950 annual report of Hercules Powder Company, issued to stockholders today, showed net income after all charges and preferred dividends equal to $5.31 a share on 2,654,710 shares of common stock, the average number of shares outstanding. In 1949, net income of the company was equal after preferred dividends to $3.60 a share on 2,645,224 shares of common stock then outstanding.

The past year saw a reversal of 1949's downward business trend, and closed with industry operating at top levels, the report said. Physical quantity of sales increased 27% while income before taxes gained 75% over 1949. The dollar volume of company sales at the year end was running about 57% higher than it was a year ago.

Net income applicable to the common stock increased 48% over the previous year. The company's Federal income tax rate increased 27%, and as a result net income was $1.17 a share lower than it would have been at the 1949 tax rate.

The company estimates that quarterly earnings per share of common stock, adjusted to the increased Federal taxes, were: first quarter $.92; second quarter $1.12; third quarter $1.46; fourth quarter $1.81.

2,688 Votes Cast; Five Offices Open

Heavy but close balloting in the annual election of officers for Local 1874, Textile Workers here this week, resulted in the calling of a run-off vote next week.

None of the candidates seeking the offices of president, vice-president, secretary-treasurer and business manager; and recording secretary received more than the necessary 51 percent of the votes cast to win election. Four of five to be chosen for the executive board must be named from eight remaining candidates.

Aldridge Vs. Snyder

Runoffs will be between Playford Aldridge and Earl L. Snyder for president; John M. Fatkin and William E. Meagher for vice president; Melvin Harris and John G. Thomas for secretary-treasurer; and Charles F. Davis and John L. Estes for recording secretary.

Harry Wright received enough votes to assure a position on the new executive board but the remaining four seats must be filled by four of the following: Ishmiel Adams, William J. Atkinson, Robert Baker, Lillian Burch, Lindley Dye, Richard Jenkins, John G. Kreitzburg and Ira McBride.

Elected without opposition were Walter Hymes, James McGann and David E. Rennie to the auditing committee.

Harvey Named Warden

Francis Harvey defeated Walter Mahaney for warden.

The board of trustees with eight candidates will not figure in the run-off since five received the necessary majorities. They are Roy T. Craze, John Frances Fatkin, George P. Harris, Charles E. Jones and James Roby.

George Abrams of the Honest Ballot Association which conducted the election said yesterday that voting in the election for the past three days was the heaviest ever recorded in the four years the association has been handling the affair. He reported a total of 2,688 votes were cast from a membership of 4,500 in the TWUA local.

Abrams announced the runoff will be conducted next Monday, Tuesday and Wednesday in the same manner as the election just completed and ballots may be cast at the union hall, North Mechanic Street, and at the Celanese Corporation of America plant. Ballot boxes will be open from 9 a. m. to 5 p. m. at the union hall and at shift changes and during lunch hours at the Amcelle plant, he said.

Counties Reject Yearly Property Assessment Plan

Commissioners Voice Strong Opposition

ANNAPOLIS, Jan. 25 (AP) — Commissioners of 19 Maryland Counties turned thumbs down today on a plan for property reassessment at full cash value every year.

They made it clear to state senators now considering legislation to put the plan into effect that they want none of it.

Their action came as opposition mounted in the Senate itself.

At issue was a recommendation of the Case Tax Survey Commission to throw out the rotational system followed in Maryland since 1944.

The vote was taken at a meeting called especially to demonstrate the counties' position to the Legislature. Two counties — Montgomery and Baltimore — abstained. St. Mary's and Dorchester were not represented.

County spokesmen were polled after Richard W. Case, chairman of the survey commission, H. Vernon Eney, his chief assessment adviser, and Albert W. Ward, secretary of the State Tax Commission, all defended the annual assessment idea.

"It would be absurd to think that state tax assessors are super people that could go out and satisfy us in one year's assessment," replied Clarence E. Tyler, an Anne Arundel county commissioner and former member of the House of Delegates.

The Senate bill compiling commission recommendations would authorize assessment supervision at a state level.

Some county spokesmen complained it concentrated too much power in the State Tax Commission. Ward contended boards of county commissioners would retain their right to review an assessment.

U. Grant Hooper, president of the Frederick County Commissioners who conducted the meeting, named Tyler to head a committee to confer with a Senate finance subcommittee. The two groups will try to reconcile differences.

Several county spokesmen asserted they were just as dissatisfied with the current system whereby each of five county districts is reassessed only once every five years.

Hoffa Again To Head Board

Arthur P. Hoffa, Barton, last night was reelected chairman of the Allegany County District Forestry Conservancy Board at its annual meeting at the Court House.

Blair Welsh was again named vice-chairman. Other members are Arthur J. Weber, J. Stanley Espy and Charles L. Kopp. All were present last night except Kopp, who is out of town.

The board reported that there were 41 Conservancy District Law violations during 1950. In each case the violator was a first offender, who was simply given a warning. Second offenders are prosecuted, according to District Forester William H. Johnson, who met with the board.

In other actions last night the board voted to meet quarterly during 1951 and to report to the Commission of State Forest and Parks on its 1950 activities. The board reported that compliance with cutting requirements during the past year generally was satisfactory.

Judge Suspends Sentence In Appeal

Martin McKenzie, convicted last Friday by Associate Judge Morgan C. Harris in Allegany County Circuit Court on a charge of being drunk and disorderly, received a suspended sentence from the judge and was paroled for one year, provided he keeps the peace, observes good behavior, abstains from the use of alcohol, seeks employment and supports his children.

McKenzie had appealed from a decision by Trial Magistrate James P. Kenney, Frostburg, who had given him six months at the House of Correction. McKenzie was arrested on complaint of his wife, Mrs. Betty McKenzie, who contended he was drunk and disorderly last May 14.

Court Invalidates City's Anti-Communist Law

Coleman-Schusterman Win Appeal In Circuit Court Upsetting City Red Law

Judges Henderson, Schnauffer Suggest Possible Action Under State's Ober Law

Cumberland's ordinance requiring Communists living within the city limits to register was declared unconstitutional by Associate Judges George Henderson and Patrick M. Schnauffer in a 15-page opinion and decision filed in Allegany County Circuit Court yesterday afternoon. They ordered the convictions under it must be set aside.

The opinion was written concerning appeals from Police Magistrate Frank A. Perdew, taken last September by William Boyd Coleman and Arthur M. Schusterman. Magistrate Perdew had fined them $100 each shortly after City Council passed the ordinance last September 5. They have been the only convictions under the measure.

Coleman and Schusterman, both former presidents of the CIO-Textile Workers of America local at the Celanese plant here, were arrested last September 16. They were fined by Magistrate Perdew two days later. They were both defense witnesses in the long trial of 11 Communist leaders in New York in 1949.

Arguments Heard

Arguments concerning the ordinance were delivered in Allegany County Circuit Court last October 7 before Judges Henderson and Schnauffer. The latter came here from Frederick to sit with Judge Henderson in the controversial cases because of illness of other judges here.

Although they ruled that the ordinance was in violation of the Fifth Amendment to the United States Constitution and of Article 22 of the Declaration of Rights of the Constitution of Maryland, in requiring Communists to register, they observed that the Attorney General of Maryland should be forwarded the facts for such action as may be warranted under the Ober Law.

Their decision read in part:

"Since it is apparent the main purpose of the ordinance was to require Communists to register, and since this cannot legally be done, the ordinance as a whole must be declared invalid, and the convictions under it must be set aside.

"The City officials cannot prosecute Coleman and Schusterman under the City Ordinance in question. But they can — and it may well be their duty so to do — report the facts to the Attorney General of Maryland for such action as may be warranted under the Ober Law.

Rise Of Communism

"The rise of Communism, with its cynical disregard of principles and morals which are the basis of our legal and governmental systems, may in the future require a temporary and partial restriction of certain human rights."

The document then quotes from an opinion by the late Justice Oliver Wendell Holmes in Cox vs. New Hampshire:

"Civil liberties, as guaranteed, imply the existence of an organized society maintaining public order without which liberty itself would be lost in the excesses of unrestrained abuses."

Then, the judges conclude their decision with these words:

"But, if this is necessary, such change must be made by some higher authority that the Mayor and City Council of Cumberland or the Circuit Court for Allegany County."

Attorney-General Hall Hammond said he had not heard of the decision and could only say he would "study the court's opinion and the facts, and take such action as we deem necessary." He expressed keen interest in the ruling.

The lengthy legal document begins with the court's opinion, then discusses Communists aims, the Communist conspiracy and the local angle, then quotes the ordinance in full, discussing it by sections and finally discusses the question of self-incrimination.

Writs Of Certiorari

Coleman and Schusterman sued out writs of certiorari last September asking the Allegany County Circuit Court to pass on the constitutionality of the ordinance.

Early in the opinion the jurists offer an explanation to the citizens. It reads:

"The average citizen is apt to misunderstand the rules by which courts are governed in deciding these cases. He sees Communists and their "fellow travelers" appealing for the protection of certain Constitutional rights, such as the freedom of speech, of the press, of religion and of assembly, and the privilege against self-incrimination. He knows that none of these rights is permitted to exist in Communist countries, and he thinks it strange that Communists should be allowed to invoke the protection of a Constitution they are endeavoring to destroy.

"But citizens of our country, living, as we do, under a constitutional government, have a different conception of our rights and duties. Because our forefathers had experienced the results of uncontrolled governmental power, it was deemed wise to limit the power of the State, and to set forth in a "Bill of Rights" certain basic freedoms which were conferred upon all citizens, rich and poor alike.

"Theories Differ"

"And so this ordinance must be passed upon by this Court in accordance with those theories of constitutional government which we have established — not in accordance with the theories Communists would follow were they in control. Our constitution stands as a bulwark; it has so stood in the past; it will so stand in the future if we do our part in upholding it. A ukase from the Kremlin changes the principles and policies of Communism here and elsewhere in the world. Only a duly adopted amendment can change our Constitution.

In succeeding sections the judges make clear that they are aware of the Communist aims and the Communist conspiracy. They quote extensively from the Doubs case decided by the United States Supreme Court last May. In that case it was ruled that unless each official of a labor union takes an oath that he is not a Communist, the union would be barred from utilizing certain privileges granted to labor unions under the Labor-Management Relations Act.

Under the section entitled "The Local Angle," the judges wrote in part:

"Cumberland was and is suffering from an unemployment problem, possibly caused partly by labor difficulties. And the Mayor and City Council may have concluded that those who are members of the Communist Party should be required publicly to acknowledge such allegiance lest in the future they be elected to positions of union leadership by members who would not select them if their Communist party affiliations were known."

Admitted Communists

In this case it was testified that both defendants were admitted members of both the Maryland and United States Communist parties.

The ordinance in question, besides requiring registration of Communists, prohibited dissemination or sale of literature issued by the Communist Party and provided that no one should be eligible for city employment until signing an oath required under the Ober Act. A fine of not less than $10 and not more than $100 was stipulated. For default in payment of fine the defendant was to have been confined in the City Jail for not less than 10 days nor more than 30 days.

Declaration Of Rights

The opinion observes that the section of the ordinance involving dissemination of Communist Party publication is illegal. "Its wording is broad enough to prohibit even the giving away of copies of the Bible, the Constitution of the United States or the Declaration of Independence if these bore the imprint of the Communist party," the judges said. However, they said that the section providing for oath under the Ober Law for all city employes was within the power of City Council.

Greatest emphasis in the opinion is given to the section of the ordinance requiring registration by Communists. They observe that the Fifth Amendment to the United States Constitution provides: "No person . . . . shall be compelled in any criminal case to be a witness against himself . . . ."—Similarly, Article 22 of the Declaration of Rights of the Maryland Constitution provides: "That no man ought to be compelled to give evidence against himself in a criminal case."

The jurists wrote that a number of decisions have upheld these provisions. They go into some detail in quoting from the recent Blau case decided last December 11 by the United States Supreme Court.

Blau Case Cited

In the case Patricia Blau had been summoned as a witness before a Federal Grand Jury in Denver, Colo. She was asked several questions concerning the Communist Party in Colorado and her employment by it.

She refused to answer on grounds that they might tend to incriminate her. She later refused to testify before the district judge, who found her guilty of contempt of court and sentenced her to one year imprisonment. In an unanimous decision the United States Supreme Court ruled that she had the privilege of remaining silent.

The judges emphasize in their opinion that in Maryland there also is a possibility of prosecution in the State Courts under the Ober Law. They wrote:

"The ordinance does not attempt to, nor could it legally do so, grant immunity from prosecution under the Ober Law.

World-Wide Conspiracy

"And, if, as seems more and more apparent day by day, the Communist Party is a world-wide conspiracy striving to overthrow the government of this and other countries by force and violence, then membership in it, with knowledge of its nature, its aims, its principles and its methods, is nothing more or less than sedition (which is so closely allied to treason.)

5,000 State Youths Will Be Reexamined

Physical Standards For Draft Lowered

BALTIMORE, Jan. 25 (AP)—About 5,000 Marylanders may be subject to reexamination under lowered physical and mental qualifications for military service, the State Selective Service director estimated today.

Col Henry C. Stanwood announced the estimate after Mrs. Anna Rosenberg, assistant secretary of defense, said in Washington that the department proposes to lower the standards for induction "as far as security will permit."

Mrs. Rosenberg also said that an estimated 150,000 men might be accepted for limited service under the revised standards.

Col. Stanwood estimated that Maryland's share of this total would amount to about 2,250 men.

However, the state director said he would take no steps toward implementing the new program in Maryland until he has received a directive from National Selective Service headquarters.

Fire Damages Grove Dwelling In Bowling Green

Three Companies Save Most Of Residence

A fire of undetermined origin caused about $1200 damage to the home of Mr. and Mrs. Theodore L. Grove, Bowling Avenue, Bowling Green yesterday afternoon. The blaze was fought by volunteer firemen from Bowling Green, Cresaptown, and LaVale companies.

Mrs. Grove stated she was working in the kitchen of the six-room structure about 3:30 p. m. when she smelled smoke. She immediately went upstairs and found the rear bedroom full of smoke from a fire in a closet. Taylor Carder, rubber worker who lives next door noticed smoke about the same time and brought his garden hose to play on the flames, holding it in check until the firemen arrived.

The house, covered by rubber shingles, was burned through at one point on the rear wall and the roof was weakened by the blaze. Efforts of the firemen confined the flames to one room, but water damage was extensive throughout the house.

Arthur Winters, Chief of Cresaptown Volunteer Fire Company estimated the damage to be in excess of $1200 and stated the walls and ceilings throughout the structure would have to be repaired.

Grove, operator of a hauling business, said the damage was covered by insurance.

B. & O. Employe Dies When Train Hits His Auto

Emerick Killed In Hyndman, Pa.

A 62-year old Hyndman, Pa., man who had worked most of his life as a telegraph operator for the Baltimore and Ohio Railroad there, ironically met his death late yesterday when his almost new automobile was demolished by a Pittsburgh-bound B&O passenger train at the Hyndman crossing.

He was William J. Emerick, who had been an employe of the B&O for at least 45 years, according to H. H. Clark, B&O superintendent in Hyndman.

Friends of the dead man said that he often cautioned relatives and friends to be careful in crossing the B&O tracks in Hyndman.

Emerick had a day off from work yesterday and had been visiting in the Hollywood section of the Pennsylvania town shortly before the tragedy occurred. His car, which had been driven only 344 miles, was struck by Train No. 9, bound from Cumberland to Pittsburgh at 5:31 p. m. yesterday. Emerick apparently was killed instantly.

The train, on which Roy Tharp, of Cumberland, was engineer, delayed 25 minutes before continuing on its journey, Clark said. Witnesses said that a freight train was stopped on the siding at the Hyndman crossing. The train had been split so that automobiles could use the crossing. Emerick apparently thought the signal lights were blinking simply because the freight train was on the tracks there.

Born May 1, 1888, in Bedford county, Pa., Emerick had lived in the Hyndman area all of his life. Surviving are his father, Benjamin, Hyndman; his widow, Mrs. Elsie Hartzell Emerick; a son, Richard, Hyndman; two daughters, Mrs. William Heit, Bedford, and Mrs. Carl Carpenter, Hyndman; three grandchildren and a sister, Mrs. Grace Close, Bethlehem, Pa.

He was a member of the Hyndman Methodist Church, the Hyndman Masonic lodge and the Williamsport Consistory of the Masonic Lodge. The body was at the Ziegler Funeral Home, Hyndman, pending funeral arrangements.

In 1949, net income of the company was equal after preferred dividends to $3.60 a share on 2,645,224 shares of common stock then outstanding.

The past year saw a reversal of 1949's downward business trend, and closed with industry operating at top levels, the report said. Physical quantity of sales increased 27% while income before taxes gained 75% over 1949. The dollar volume of company sales at the year end was running about 57% higher than it was a year ago.

Net income applicable to the common stock increased 48% over the previous year. The company's Federal income tax rate increased 27%, and as a result net income was $1.17 a share lower than it would have been at the 1949 tax rate.

2,688 Votes Cast; Five Offices Open

Heavy but close balloting in the annual election of officers for Local 1874, Textile Workers here this week, resulted in the calling of a run-off vote next week.

None of the candidates seeking the offices of president, vice-president, secretary-treasurer and business manager; and recording secretary received more than the necessary 51 percent of the votes cast to win election. Four of five to be chosen for the executive board must be named from eight remaining candidates.

Aldridge Vs. Snyder

Runoffs will be between Playford Aldridge and Earl L. Snyder for president; John M. Fatkin and William E. Meagher for vice president; Melvin Harris and John G. Thomas for secretary-treasurer; and Charles F. Davis and John L. Estes for recording secretary.

Harry Wright received enough votes to assure a position on the new executive board but the remaining four seats must be filled by four of the following: Ishmiel Adams, William J. Atkinson, Robert Baker, Lillian Burch, Lindley Dye, Richard Jenkins, John G. Kreitzburg and Ira McBride.

Elected without opposition were Walter Hymes, James McGann and David E. Rennie to the auditing committee.

Harvey Named Warden

Francis Harvey defeated Walter Mahaney for warden.

The board of trustees with eight candidates will not figure in the run-off since five received the necessary majorities. They are Roy T. Craze, John Frances Fatkin, George P. Harris, Charles E. Jones and James Roby.

George Abrams of the Honest Ballot Association which conducted the election said yesterday that voting in the election for the past three days was the heaviest ever recorded in the four years the association has been handling the affair. He reported a total of 2,688 votes were cast from a membership of 4,500 in the TWUA local.

Abrams announced the runoff will be conducted next Monday, Tuesday and Wednesday in the same manner as the election just completed and ballots may be cast at the union hall, North Mechanic Street, and at the Celanese Corporation of America plant. Ballot boxes will be open from 9 a. m. to 5 p. m. at the union hall and at shift changes and during lunch hours at the Amcelle plant, he said.

Counties Reject Yearly Property Assessment Plan

Commissioners Voice Strong Opposition

ANNAPOLIS, Jan. 25 (AP) — Commissioners of 19 Maryland Counties turned thumbs down today on a plan for property reassessment at full cash value every year.

They made it clear to state senators now considering legislation to put the plan into effect that they want none of it.

Their action came as opposition mounted in the Senate itself.

At issue was a recommendation of the Case Tax Survey Commission to throw out the rotational system followed in Maryland since 1944.

The vote was taken at a meeting called especially to demonstrate the counties' position to the Legislature. Two counties — Montgomery and Baltimore — abstained. St. Mary's and Dorchester were not represented.

County spokesmen were polled after Richard W. Case, chairman of the survey commission, H. Vernon Eney, his chief assessment adviser, and Albert W. Ward, secretary of the State Tax Commission, all defended the annual assessment idea.

"It would be absurd to think that state tax assessors are super people that could go out and satisfy us in one year's assessment," replied Clarence E. Tyler, an Anne Arundel county commissioner and former member of the House of Delegates.

The Senate bill compiling commission recommendations would authorize assessment supervision at a state level.

Some county spokesmen complained it concentrated too much power in the State Tax Commission. Ward contended boards of county commissioners would retain their right to review an assessment.

U. Grant Hooper, president of the Frederick County Commissioners who conducted the meeting, named Tyler to head a committee to confer with a Senate finance subcommittee. The two groups will try to reconcile differences.

Several county spokesmen asserted they were just as dissatisfied with the current system whereby each of five county districts is reassessed only once every five years.

Hoffa Again To Head Board

Arthur P. Hoffa, Barton, last night was reelected chairman of the Allegany County District Forestry Conservancy Board at its annual meeting at the Court House.

Blair Welsh was again named vice-chairman. Other members are Arthur J. Weber, J. Stanley Espy and Charles L. Kopp. All were present last night except Kopp, who is out of town.

The board reported that there were 41 Conservancy District Law violations during 1950. In each case the violator was a first offender, who was simply given a warning. Second offenders are prosecuted, according to District Forester William H. Johnson, who met with the board.

In other actions last night the board voted to meet quarterly during 1951 and to report to the Commission of State Forest and Parks on its 1950 activities. The board reported that compliance with cutting requirements during the past year generally was satisfactory.

Judge Suspends Sentence In Appeal

Martin McKenzie, convicted last Friday by Associate Judge Morgan C. Harris in Allegany County Circuit Court on a charge of being drunk and disorderly, received a suspended sentence from the judge and was paroled for one year, provided he keeps the peace, observes good behavior, abstains from the use of alcohol, seeks employment and supports his children.

McKenzie had appealed from a decision by Trial Magistrate James P. Kenney, Frostburg, who had given him six months at the House of Correction. McKenzie was arrested on complaint of his wife, Mrs. Betty McKenzie, who contended he was drunk and disorderly last May 14.

Rau Suggests Warfront Lull Timed By Reds

Termed Chance To Launch Talks

LAKE SUCCESS, Jan. 25 (AP) — India hinted today that the lull on the Korean warfront may be an indication of Chinese Communist readiness at a moment's notice to order a cease-fire, and implored the United Nations to seize upon the lull as an opportunity to launch peace negotiations.

Backed by Britain's Sir Gladwyn Jebb, Sir Benegal N. Rau of India demanded priority consideration by the 60-nation Political Committee of an Asian-Arab bloc proposal calling for an immediate conference of seven nations on the Korean crisis. He said it should take preceding over the U. S. resolution to brand Communist China an aggressor.

Russia Accepts Proposal

Although the 12-nation Arab-Asian proposal as originally presented had made no mention of a cease-fire, Rau said the sponsors had this in mind as the first order of business of the projected seven-nation conference.

Soviet Delegate Semyon K. Tsarapkin said Russia accepted the Asian-Arab proposal. However, he proposed an amendment which would delete a section of the proposal calling upon the U. N. Assembly president to set the time and place of the first session of the proposed seven-nation conference. He proposed that "the conferees" do this. Observers noted this would make the time of the meeting subject to the wishes of Communist China.

Jebb, urging a go-slow policy, said Peiping's newest message on the Korean situation did not reject the principle of cease-fire before negotiations. He said the suggestion of a "limited" cease-fire should at least be a subject for talks, at least as to the length of the truce period.

Nothing To Lose, Jebb Says

Jebb said Peiping now had made it "at least reasonably clear" that the Red Chinese proposal for the withdrawal of foreign troops was meant to include the "so-called Chinese volunteers" in Korea. He said it was likewise made clear that the question of the internal affairs of the Korean people should be a matter for discussion at an eventual conference, "whereas previously it had appeared that Peiping's intention was to leave this question entirely to the Koreans."

There should be no objections, Jebb said, to further sounding out the Peiping regime in an effort to prevent the spread of the Korean war.

Red China Wins Over Nationalists

CAIRO, Egypt, Jan. 25 (AP)—Communist China was chosen by secret ballot over Nationalist China today to sit in a conference of the Universal Postal Union, a specialized agency of the United Nations. The union's executive committee is meeting here to discuss air freight tariffs.

The vote was five for Red China and three for the Nationalists. There were three abstentions and one spoiled ballot. The votes were not identified by nations.

John M. Redding, United States assistant postmaster general, told the delegates the vote was "appeasement and a show of weakness." Earlier, Red China's chief delegate, Su Yu Nung, warned he would represent his government "unless expelled by force," according to a reliable informant.

Actress Joan Fontaine Divorces Producer

SANTA MONICA, Calif., Jan. 25 (AP) — Joan Fontaine, Academy Award winning actress, quickly won a divorce today, testifying that her film producer husband, William Dozier, walked out of her life and didn't come back.

"He walked out of the house Aug. 4, 1949 and failed to return," testified the blonde, 33-year-old actress, in a low, husky voice. "Mr. Dozier said the marriage did not suit him." She charged desertion.

Price Of Hides Set Back; Shoe Price Cuts Seen

WASHINGTON, Jan. 25 (AP)—The Office of Price Stabilization today ordered the price of cattle hides rolled back to the highest level prevailing last November. The cutback was estimated at 15 per cent or more, and was designed "to stabilize retail shoe prices."

Spokesmen for leading shoe manufacturers and retailers predicted the action would help hold shoe prices at their present levels. Officials in the price stabilization office said there is a chance some retailers may voluntarily cut their prices.

Minister Tells Crime Probers Of Bribe Offer

Committee Is Defied By Four Witnesses

NEW ORLEANS, Jan. 25 (AP)—The Senate Crime Investigating Committee heard testimony today that New Orleans gamblers, tried to bribe a churchman by offer of a new Sunday school building.

The Rev. Dana Dawson, 33-year-old minister in adjoining Jefferson Parish (county), told the committee that gamblers offered him a new Sunday school building if he would withdraw from suits filed against the gaudy and openly flourishing casinos.

Four Defy Committee

The Methodist pastor was a plaintiff in a series of "padlock" suits filed in state courts in an effort to close down the nightclub gambling palaces on the grounds they violated gambling laws.

The minister said he turned down the offer and the congregation erected their own building at a cost of $80,000.

The churchman testified after four witnesses defied the committee, and Chairman Estes Kefauver, lanky Tennessee Democrat, immediately threatened contempt action.

The four were:

Costello Associate

Carlo Marcello, one of the "principal criminals of the United States," and a co-owner with New York Gambler Frank Costello and "Dandy" Phil Kastel of the plush Beverly Country Club in adjacent Jefferson Parish (county).

Edward M. (St. Louis Red) Allen, identified to the committee by New Orleans Mayor deLesseps Morrison as an ex-convict, lottery, pinball and handbook operator.

Joe Poretto, a partner in a horse racing news service for bookies, who struck Kefauver as "one of the worst characters this committee has had before it."

J. J. Fogarty, partner with Poretto since 1946 in the Daily Sports News published in New Orleans when Poretto and Anthony Marcello—brother of Carlo Marcello—"muscled in" on him.

Pilgrimage Reenacted

CANTERBURY, Eng., Jan. 25 (AP) — Thousands of Christians reenacted today the pilgrimages of medieval times to say a prayer in Canterbury for the triumph of Christianity over Communism.

The pilgrimage has been described as an act of worship to bring people to an awareness of the dangers threatening Christianity today.

Truman Blasts China, Opposes "Rash Action"

Attempts To Mend Rift With Allies

WASHINGTON, Jan. 25 (AP) — President Truman personally branded Red China an aggressor today and told the world that the United States as a whole takes the same stand.

But at the same time he spoke out against "rash or unwise action" and promised full consultation with "all other friendly nations" to decide "what can and should be done about the aggression in Korea."

This was apparently an effort to mend the breach that has been driven between this country and some of its allies — notably Britain and India — by the United Nations controversy over Red China's push into Korea.

Backs Austin's Stand

By implication he assured other countries that the United States has no intention of involving itself, or them, in a bigger Far Eastern conflict.

And, as if to give America's allies further reassurance, he said: "Obviously this is no time for rash or unwise action. This is a time for clear thinking and firmness."

"For my part," Mr. Truman said, "I believe in calling an aggressor an aggressor."

And he said the stand taken by Chief U. S. Delegate Warren Austin in the United Nations — to call the Chinese Reds aggressors, despite misgivings by Britain and others—had "the solid support of the executive, the Congress, and the people of the United States."

Mr. Truman read his statement at the beginning of his weekly news conference.

Names Security Commission

He also announced the appointment of eight members to serve, under the chairmanship of Fleet Adm. Chester W. Nimitz, on a new commission he set up to study the problem of guarding the nation's security "without sacrificing freedoms."

Mr. Truman had nothing new to say about when price and wage controls may be imposed — a step expected in the next few days.

He said, however, that he doesn't agree with Sen. Maybank (D-SC), who has declared that delay in imposing them has brought the country to the brink of disaster. Mr. Truman said he doesn't think the country is anywhere near that point.

VA May Close Some Of Its Contact Offices

WASHINGTON, Jan. 25 (AP)—The Veterans Administration said today a cut in funds may force the closing of some of the 300 offices it maintains in small towns to provide at-home advice and help to veterans.

These offices are known as one-man contact offices, staffed with a contact officer and a stenographer. Those employes wuold be discharged or transferred if the offices are closed.

There are also 141 other contact offices, with larger staffs, which would not be affected.

20 New Defense Agencies Jostle For Alphabet Space

WASHINGTON, Jan. 25 (AP) — Twenty new defense agencies are jostling for alphabet room in this initial-conscious capital.

The DPA, DTA, DMB, DFA and DMA already are lined up right after the A-B-C's.

But even though the Congressional Directory listed 173 separate boards, bureaus, administrations, offices and other divisions of government before the Korean war, the newcomers won't be too hard pressed for distinctive tags.

The Library of Congress gives assurance that the 26-letter English alphabet is capable of almost innumerable combinations. It probably will be a long time before you meet the chief clerk of anything called the YQX

Some of the new agencies, authorities and boards are booming concerns already. Others scarcely exist except on paper. But some will develop and expand in the months ahead until their abbreviations become familiar to every schoolchild.

Of the 20 new agencies last counted (and there may be more by the time you read this). 19 were fathered by the Defense Production Act.

The twentieth is a grim by-product of the same national emergency. The Federal Civil Defense Administration (FCDA) was established to prepare shelter and emergency aid in the event of an enemy bombing.

Pay-Price Freeze Due Today Despite Eleventh-Hour Hitch

Wage Order Draws Fire From Labor

Officials At Odds On Price Rollback Date

WASHINGTON, Jan. 25 (AP)—An eleventh-hour hitch developed tonight in the government's drive for wage-price controls when labor leaders indicated strong opposition to a wage "freeze."

It was not expected to delay issuance of the general freeze order tomorrow, however.

Informants said Wage Stabilizer Cyrus Ching wanted a unanimous vote on wage policy from his nine-man wage board, but that the order might have to go out without complete unanimity. There are three labor representatives on the board.

In another late development, some officials advised newsmen that the widely heralded Jan. 2 date for the rollback on prices was outdated. They refused to say whether the date would be shifted ahead or back.

There was unofficial speculation that the new date might be Jan. 15.

International repercussions also cropped in advance of the projected freeze.

Latin American coffee-producing countries urged the administration to adopt a "flexible" policy on any ceilings clamped on coffee prices. They said adjustments should be permitted for any increases in their production costs.

Moving at a fast clip, the mobilization campaign brought these other actions into focus:

Metals—Plans to put rigid federal controls over steel, copper and aluminum were outlined by Walter C. Skuce of the National Production Authority at a meeting with industry representatives.

Under the plan, the use of the three key defense metals would be controlled by the government much more completely than at present. It was indicated the plan may go into effect about mid-year.

Gasoline—The oil and auto industries agreed that tetra-ethyl lead for anti-knock gasoline must be cut back, but disagreed on how it should be done.

Despite some difficulties, officials said the dual price-wage control order could still be expected within 24 hours.

Qualified informants said prices of nearly all goods and services will be frozen. They estimated that nearly 4,000,000 businesses and about 8,000,000 individual items—including meat and some other foods—will be affected.

Wages and salaries are expected to go under "flexible" controls—most pegged to present levels, but with leeway for some increases.

Chairman Charles E. Wilson and his Defense Mobilization Board unanimously approved plans for the general orders, acting against a background of the highest cost-of-living index in American history.

Reds Wrong About This Yank

No one was more surprised than Staff Sgt. Oliver Frawley to learn he was a "prisoner" of the Chinese Communists. The Peiping radio reported Frawley was in good health. He was captured by the Reds but freed Nov. 25 and has been getting medical treatment at Valley Forge (Pa.) Hospital. He was visiting his wife and children yesterday when informed the Chinese still were listing him as a prisoner.

Draft Standards To Be Lowered, Congress Told

WASHINGTON, Jan. 25 (AP) — Draft standards will be cut to take in perhaps 150,000 men now barred for physical and mental reason, a Defense Department official said today.

Reporting this to Congress, Mrs. Anna M. Rosenberg, assistant secretary of defense, told reporters that draft boards may recheck all the 799,000 already rejected for these reasons.

Chairman Vinson (D-Ga) of the House Armed Services Committee remarked that he had heard reports $10,000 a year athletes have been turned down. Mrs. Rosenberg said occupation is not the criterion in passing on a man's ability to serve.

The rush to mobilize also brought these developments:

1. Chairman Johnston (D-SC) of the Senate Civil Service Committee asked the Senate to authorize an investigation by his group of government use of its manpower. He seeks to promote efficiency—"and to hammer out a manpower policy for the government" for the emergency.

Johnston said half the jobs done by military personnel are civilian in nature. Putting civilians in them would save $1,500,000,000 a year, he said, because it costs so much more to maintain a soldier in uniform than to pay a salary.

2. J. S. Nicholas, a Yale University scientist, told the Senate Armed Services Preparedness Subcommittee that many student scientists, doctors, engineers and other pre-professionals were rushing to enlist in order to choose their own branch of the service before being drafted.

The committee heard proposals for wide deferments for these youths to conserve the nation's short supply of scientific manpower; for drafting recently married non-veterans; and college students who do not pass high in the armed services intelligence tests.

Wool Boycott

NEW YORK, Jan. 25 (AP) — Bigelow-Sanford Carpet Company, largest of the nation's carpet and rug manufacturers, said tonight it does not intend to buy any more wool at current prices.

James D. Wise, company president, said Bigelow now is selling carpets at prices based on wool costing $1.40 a pound, although carpet wool now costs about $2.15 a pound.

Ends Life In Car Display Window

HORSEHEADS, N. Y., Jan. 25 (AP) — An automobile salesman ended his life in an auto display window today.

A coroner reported that George T. Shull, 44, ran a hose fgrom the exhaust pipe of a new model into a side window of the car, then sat inside until he was asphyxiated.

Coroner M. E. Pittman issued a verdict of suicide.

"Ike" To Report To Nation Feb. 2

WASHINGTON, Jan. 25 (AP) — America and the world will get a first-hand report from Gen. Dwight D. Eisenhower Friday night, Feb. 2 after his on-the spot check of Western Europe's defense preparations.

Due back in this country Wednesday, the supreme commander of the North Atlantic treaty allies will report first to President Truman and his Cabinet, the treaty organization and the members of the House and Senate in the first two days.

He will follow up with a 15-minute broadcast at 10:45 p. m. (EST) Friday over all major radio networks. His appearance also will be televised.

Mr. Truman, who personally announced Eisenhower's broadcast, said the General also would appear before the Senate and House Armed Services and Foreign Affairs Committees Thursday and Friday.

After shuttling for two weeks by plane among the Western European pact signers, Eisenhower landed in Iceland today, en route home by way of Canada.

Sen. Ellender Blocks Subversive Inquiry

WASHINGTON, Jan. 25 (AP) — Senate action on a proposal for a $75,000 investigation of subversive activities was blocked at least temporarily today in an economy move by Sen. Ellender (D-La).

The Louisiana lawmaker objected when Sen. Hayden (D-Ariz) asked the Senate to approve a resolution authorizing a Senate Judiciary subcommittee to conduct the inquiry.

Under the parliamentary situation the objection of one senator was enough to sidetrack the resolution. It can be brought up again—and undoubtedly will be.

Plot To Murder 4 Los Angeles Judges Nipped

LOS ANGELES, Jan. 25 (AP)—A plot to kill four Los Angeles judges, a former judge and former district attorney has been nipped by a tip, Sheriff Eugene W. Biscailuz announced today.

The sheriff identified the plotter as Arthur Emil Hansen, now in San Quentin Prison after his conviction in 1938 on a charge of killing two attorneys, Irving Hancock and R. J. McLaughlin.

Marked for death, the sheriff said, were Superior Judges Charles W. Fricke, Arthur Crum and Frank G. Swain, Municipal Judge Lewis Drucker, Attorney and ex-Superior Court Judge Isaac Pacht and former District Attorney Buron Fitts.

The sheriff said the plot was uncovered after a tip to Thad Brown, deputy police chief, and investigation disclosed that Hansen had offered a fellow convict $10,000 to commit one of the murders. The victim was not identified.

Hansen, the sheriff said, told the other convict he would take care of the other five—when he was released—and at each killing would leave the print of one finger so that when all were dead, police would have a complete set of the prints of one of his hands.

Fitts disclosed that Hansen has been threatening him for sometime.

Fitts said the judges all tried various criminal and civil actions in connection with the 1938 slayings.

Ginny Seeks Divorce

SANTA MONICA, Calif., Jan. 25 (AP) — Singer Ginny Simms, 32, sued for a divorce today and asked that her husband, Hyatt Robert Dehn, 42, be restrained from disposing of their community property.

Schools Closed By Strike, Youngsters Learn Via TV

MINNEAPOLIS, Jan. 25 (AP)—The kids got a dose of learnin' in deluxe style today, right off the TV screen.

And instead of Johnny being told to "shut that thing off and study your books," he was persuasively invited to watch to his heart's content.

There will be more tomorrow, and as long as the janitors' strike keeps the public schools closed.

The janitors walked out last Tuesday, demanding raises of $39 to $50 a month. The present scale ranges from $2,370 to $4,140 annually. The Minneapolis board of education, having offered an increase of three per cent, said "no" and dismissed classes.

The temperature stays close to zero in Minneapolis at this season, and mothers were dismayed at the thought of finding something for the children to do. Miss Madeline S. Long, the school's consultant in radio and television education, and station WTCN-TV stepped into the breach.

A series of 15-minute television school room programs was telecast between 9 and 11 a. m. today. There was story telling for the little tots. For the older pupils there were lessons in geography, speech, science, arithmetic, music, art, vocabulary building and homemaking. Teachers made idle by the strike volunteered to conduct the television classes.

Allied Vessels Silence Enemy Guns At Inchon

Planes Smash Two Highway Convoys

TOKYO, Fiday, Jan. 26 (AP)—Allied hunter-killer patrols with fixed bayonets and tanks advanced today to within 19 miles of Seoul despite increasing enemy pressure.

They boldly hunted for the apparently pulled-back Chinese Communist army. At last reports, they were within two miles of Suwon which is 17 miles below the Red-held South Korean capital.

By land, sea and air, Allied forces were stepping up the pressure on Red forces south of the 38th parallel throughout Korea.

Thursday the U. S. heavy cruiser St. Paul and two Canadian destroyers, the Cayuga and Nootka, shelled Seoul's port of Inchon and silenced a Communist battery which fired on them from Wolmi island. Wolmi is just off Inchon.

In the air, Allied planes smashed at two enemy highway convoys, totalling 250 vehicles, north of Seoul before dawn today.

Results were not disclosed.

Reds Promise "Bloody Nose"

A U. S. Eighth Army briefing officer said that U. N. patrols stabbing north around Suwon at one point drove off an enemy force with bayonets.

At another point, Allied tanks fought Reds dug in on a hill four miles southwest of Suwon. The tanks forced the enemy to withdraw.

One Allied unit heard cymbals, whistles and bugles—in the past the signal for a Communist attack. But the enemy force did not attack.

Gen. MacArthur, the United Nations commander, said in a pre-birthday interview that the Chinese Reds in Korea now were hindered by extended supply lines.

"We're going to give the Chinese a bloody nose somewhere in the south," MacArthur declared.

On the ground only one Allied patrol reported action. It clashed with a pocket of Reds near Yoju, 40 miles southeast of Seoul, and killed 15 of the enemy.

The U. S. Eighth Army reported 3,000 Chinese and Korean Reds were digging in 11 miles northwest of Yoju. Contact apparently had not yet been made with this force.

Patrol Enters Hoengsong

For the second day in a row, a tank-led Allied patrol rumbled ten miles north from Wonju on the central front. It entered the village of Hoengsong, 33 miles south of the 38th parallel boundary of South Korea, against no opposition.

Hoengsong is 55 miles due east of Seoul. It represents the northernmost Allied thrust since United Nations troops abandoned the South Korean capital of Seoul on Jan. 4.

Allied troops first reoccupied the town Wednesday then pulled back south Wednesday night.

In Thursday's chief air action, Allied bombers wrecked the rail hub town of Chunchon, 30 miles northwest of Hoengsong and about eight miles south of the 38th parallel.

5 Die, 4 Injured In Arsenal Fire

DOVER, N. J., Jan. 25 (AP) — A flash fire in a smokeless powder drying house at Picatinny Arsenal killed five workers today and injured four others.

The arsenal public information office said only nine men were in the small building when the fire broke out about 3:30 p. m. (EST).

The burned building was one of many small powder houses scattered through the sprawling arsenal just outside this city. They are used primarily for research and development of all types of ammunition.

No other buildings were affected and there was no explosion after the fire, the public information office said.

The New Jersey Bell Telephone Company reported it received emergency phone calls for fire fighting aid and for a priest shortly after the blaze broke out.

Col. J. P. Harris, commanding officer of the arsenal, immediately appointed a board of officers to investigate the cause of the fire.

Assault Charge Faces Man Who Wounded Rockne

WICHITA, Kas., Jan. 25 (AP)—Joe Novacek, used car dealer, was charged today with assault with intent to kill William D. Rockne, son of the late Knute Rockne, famed Notre Dame coach.

Rockne, 35, signed the assault complaint in his hospital room.

Rockne's physician said he is not yet past the critical stage but, barring complications, will recover. Rockne's mother, who flew here from South Bend, Ind., sees him daily.

Deputy County Attorney Robert Morrison said discrepancies between the stories of Novacek and Rockne led to Novacek's prosecution.

Arraigned in city court, the 33-year-old Wichitan was released under $1,000 bond until preliminary hearing Feb. 9. Conviction, Morrison said, could mean imprisonment for not more than ten years.

Morrison said Novacek has changed his account of the shooting some since first questioned but still contends he shot Rockne after he had forced entry to the Novacek home late Saturday night.

Morrison said Rockne tells that he had been drinking with three men in a tavern and he went to the Novacek home twice "because he had been told he could buy liquor there after 11 p. m., when liquor stores close."

Workers Walk Out At Four Pittsburgh Area Breweries

PITTSBURGH, Jan. 25 (AP)—Some 1,200 plant workers walked out today at four major breweries in the Pittsburgh district.

Scattered pickets appeared at the Duquesne Brewing Company's South Side plant but union officials said the picketing was unauthorized.

Other breweries affected by the walkout of plant workers are Pittsburgh Brewing Company, Fort Pitt at Sharpsburg and Jeannette, and Eberhard and Ober, North Side.

The plant workers are members of Local 22, CIO International Brewers Union.

Union officials reported the "work stoppage is not a strike," adding:

"The men are just staying off the job while we try to negotiate a wage increase."

Hoffman And McShane Head Md. ESA Office

BALTIMORE, Jan. 25 (AP)—Hugo Hoffman, campaign manager for George P. Mahoney in last summer's Democratic primary, and Edgar McShane, a member of Sen. O'Conor's staff in Washington, today were named district consultants in charge of a new price stabilization office in Baltimore.

The district office here is to be under a regional office at Richmond. The Baltimore branch will administer price stabilization affairs in Maryland.

Battle Joined Over University's Power To Issue Building Bonds

ANNAPOLIS, Md., Jan. 25 (AP) — The battle over the University of Maryland's power to erect its own buildings and pay for them on a self-liquidating basis was joined today.

Sen. Crothers (D-Cecil) submitted a measure to amend the 1950 University Building Authority Act, under which bonds have never been issued. Some legal experts have held that the present law is of doubtful constitutionality because of technicalities. No other state agency has that power.

Crothers' bill would amend the act to change the questioned clauses and thus erase any constitutional doubts.

But there is another bill before the Senate to cancel altogether the power of the university to issue its own construction bonds.

It was introduced yesterday by Sen. Hoff (R-Carroll), who led the unsuccessful fight last year to block what was then familiarly referred to as the "Byrd building bill," after Dr. H. C. Byrd, president of the University of Maryland.

After brief sessions, both houses voted to adjourn until Monday night.

One of the 28 pieces of legislation introduced at today's session would allow transfer of race meetings from one track to another only in case of an emergency or if "unusual conditions" arise.

The bill, by Delegate Robinson (D-Balto 4th), would also limit any one track owner to 25 days of racing a year. The present maximum is 50 days.

Delegate Jackson (D-Baltimore County) introduced a measure to allow the blind and the aged to appeal to the circuit courts, and to the court of appeals, if necessary, if the State Department of Welfare turns down their request for public assistance.

It would also allow county welfare boards to appeal the department's decisions.

Suspect Arrested In Baltimore Holdup

BALTIMORE, Jan. 25 (AP)—Detectives tonight announced the arrest of a suspect and the recovery of more than half the money taken in today's $2,000 holdup of a West Baltimore savings association.

Acting on a tip, the detectives picked up a 26-year-old (negro) laborer, found a cash box containing $1,280 and located a loaded automatic pistol, two blackjacks and some rope.

Today's robbery was staged by four negroes armed with automatic pistols. Shortly after the holdup, police and FBI agents arrested four men in the area, but they were released after several hours of questioning.

The armed holdup was at the Occident Savings and Loan Association, just west of the downtown business district. Four employes were business district.

Republicans Eye '52 With Mixture Of Gloom And Hope

WASHINGTON, Jan. 25 (AP)—Republicans eyed the 1952 elections today with a mixture of gloom and hope—gloom that high taxes might curtail campaign funds and hope that "fighting candidates" will be chosen to head the GOP ticket.

That was the tenor of comments from early arrivals for tomorrow's Republican National Committee meeting. Resolutions are expected to be adopted to set up committees to recommend the time and place for the 1952 national presidential nominating convention.

There was some talk of Sen. Taft of Ohio and Gen. Dwight D. Eisenhower as likely choices for top place on the GOP ticket next year. But most members said it was too early to discuss candidate prospects.

Marshall Says UMT Could Prevent War

WASHINGTON, Jan. 25 (INS)—Defense Secretary Marshall declared tonight that universal military training launched through a blanket draft of 18-year-olds can make war "highly improbable."

Marshall said "near tragedy" developed in Korea because of lack of such a program, and suggested that universal training could have prevented both world wars.

Marshall delivered his strong speech before the Women's Patriotic Conference in Washington, in an effort to answer what he referred to as "many protests" concerning the proposed blanket draft of 18-year-olds.

The Railroads RESPECT...

The Union Leaders seek to REPUDIATE...

this agreement!

What is the TRUTH?

At various stages in the present dispute with the brotherhoods of railroad operating employees

... the railroads agreed to arbitrate. The union leaders refused.

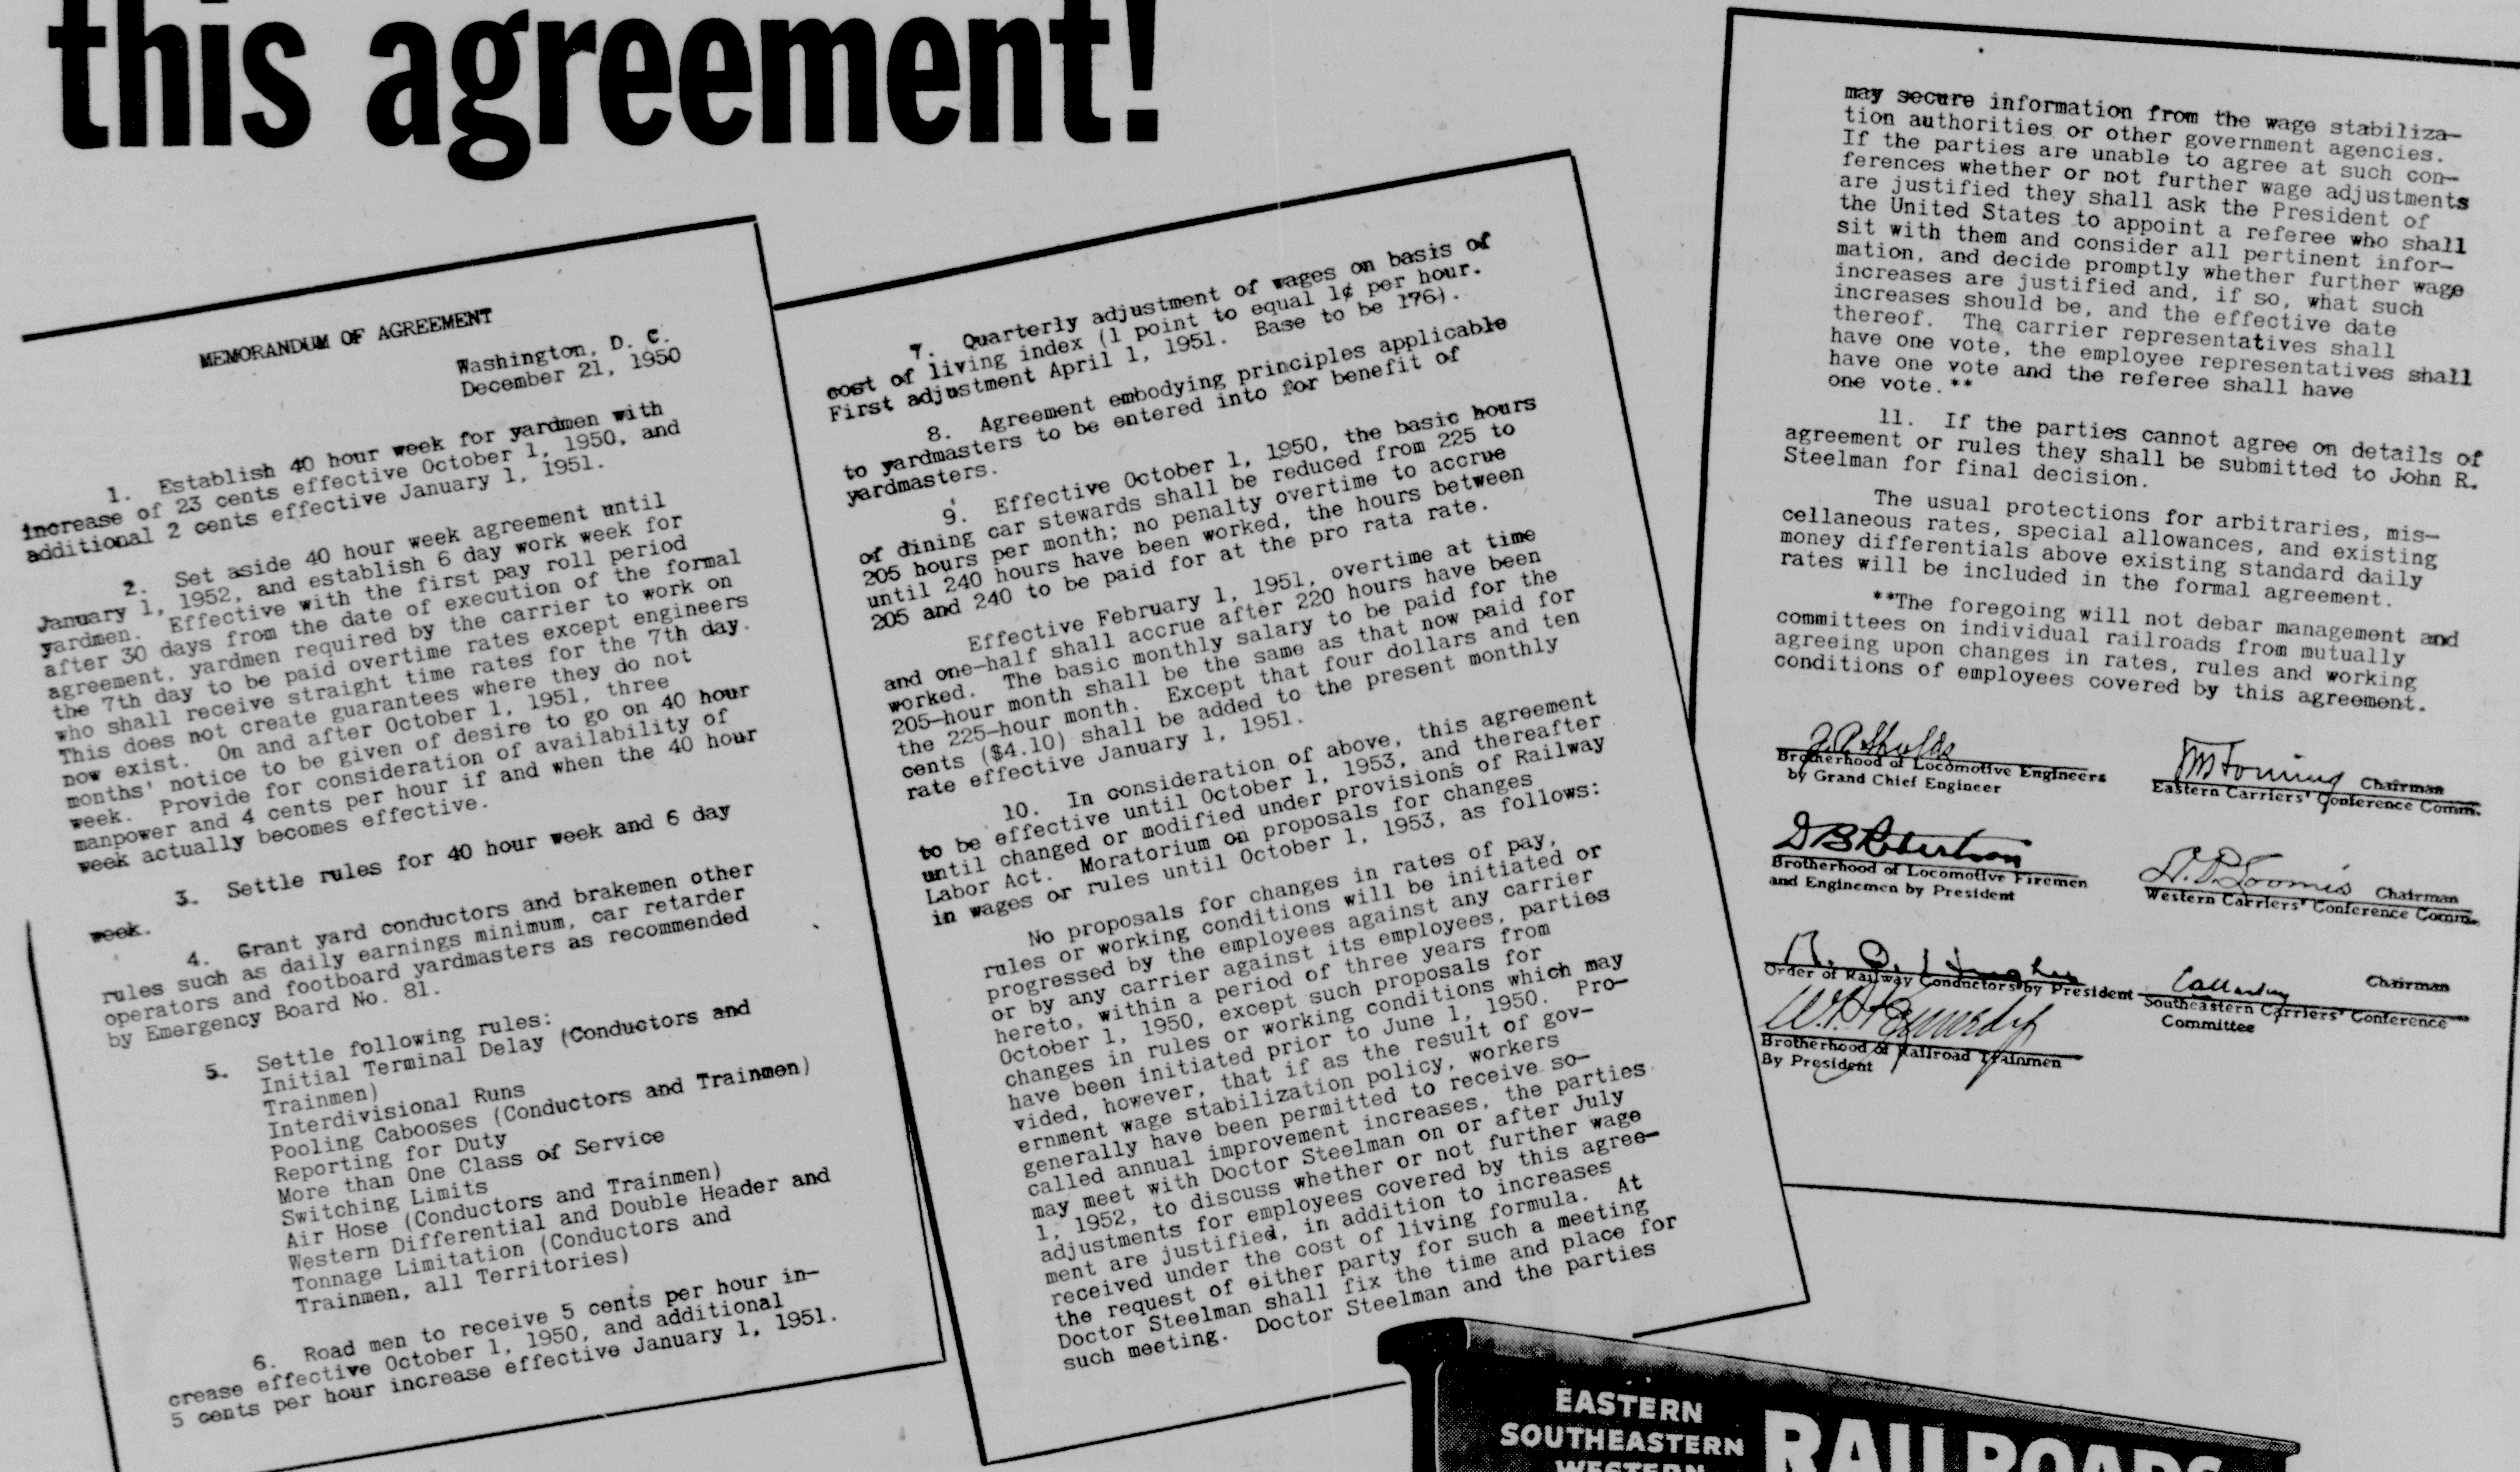
... the railroads accepted the recommendations of President Truman's Emergency Board. The union leaders refused.

... the railroads accepted the White House proposal of August 19, 1950. The union leaders refused.

Finally an Agreement was signed at the White House on December 21, 1950. Now the union leaders seek to repudiate the Agreement.

The railroads stand ready to put the terms of this Agreement into effect immediately, with back pay at the rates and dates indicated.

The Agreement is given in full below.



MEMORANDUM OF AGREEMENT

Washington, D. C.
December 21, 1950

1. Establish 40 hour week for yardmen with increase of 23 cents effective October 1, 1950, and additional 2 cents effective January 1, 1951.

2. Set aside 40 hour week agreement until January 1, 1952, and establish 6 day work week for yardmen. Effective with the first pay roll period after 30 days from the date of execution of the formal agreement, yardmen required by the carrier to work on the 7th day to be paid overtime rates except engineers who shall receive straight time rates for the 7th day. This does not create guarantees where they do not now exist. On and after October 1, 1951, three months' notice to be given of desire to go on 40 hour week. Provide for consideration of availability of manpower and 4 cents per hour if and when the 40 hour week actually becomes effective.

3. Settle rules for 40 hour week and 6 day week.

4. Grant yard conductors and brakemen other rules such as daily earnings minimum, car retarder operators and footboard yardmasters as recommended by Emergency Board No. 81.

5. Settle following rules:
Initial Terminal Delay (Conductors and Trainmen)
Interdivisional Runs
Pooling Cabooses (Conductors and Trainmen)
Reporting for Duty
More than One Class of Service
Switching Limits
Air Hose (Conductors and Trainmen)
Western Differential and Double Header and Tonnage Limitation (Conductors and Trainmen, all Territories)

6. Road men to receive 5 cents per hour increase effective October 1, 1950, and additional 5 cents per hour increase effective January 1, 1951.

7. Quarterly adjustment of wages on basis of cost of living index (1 point to equal 1¢ per hour. First adjustment April 1, 1951. Base to be 176).

8. Agreement embodying principles applicable to yardmasters to be entered into for benefit of yardmasters.

9. Effective October 1, 1950, the basic hours of dining car stewards shall be reduced from 225 to 205 hours per month; no penalty overtime to accrue until 240 hours have been worked, the hours between 205 and 240 to be paid for at the pro rata rate.

Effective February 1, 1951, overtime at time and one-half shall accrue after 220 hours have been worked. The basic monthly salary to be paid for the 205-hour month shall be the same as that now paid for the 225-hour month. Except that four dollars and ten cents ($4.10) shall be added to the present monthly rate effective January 1, 1951.

10. In consideration of above, this agreement to be effective until October 1, 1953, and thereafter until changed or modified under provisions of Railway Labor Act. Moratorium on proposals for changes in wages or rules until October 1, 1953, as follows:

No proposals for changes in rates of pay, rules or working conditions will be initiated or progressed by the employees against any carrier or by any carrier against its employees, parties hereto, within a period of three years from October 1, 1950, except such proposals for changes in rules or working conditions which may have been initiated prior to June 1, 1950. Provided, however, that if as the result of government wage stabilization policy, workers generally have been permitted to receive so-called annual improvement increases, the parties may meet with Doctor Steelman on or after July 1, 1952, to discuss whether or not further wage adjustments for employees covered by this agreement are justified, in addition to increases received under the cost of living formula. At the request of either party for such a meeting Doctor Steelman shall fix the time and place for such meeting. Doctor Steelman and the parties may secure information from the wage stabilization authorities or other government agencies. If the parties are unable to agree at such conferences whether or not further wage adjustments are justified they shall ask the President of the United States to appoint a referee who shall sit with them and consider all pertinent information, and decide promptly whether further wage increases are justified and, if so, what such increases should be, and the effective date thereof. The carrier representatives shall have one vote, the employee representatives shall have one vote and the referee shall have one vote.**

11. If the parties cannot agree on details of agreement or rules they shall be submitted to John R. Steelman for final decision.

The usual protections for arbitraries, miscellaneous rates, special allowances, and existing money differentials above existing standard daily rates will be included in the formal agreement.

**The foregoing will not debar management and committees on individual railroads from mutually agreeing upon changes in rates, rules and working conditions of employees covered by this agreement.

Perfect And Improving

General Ridgway did violence to the textbooks when he described the military situation on the central front in Korea. He said it was "perfect and getting better all the time." But only a Chinese Communist would take issue with his grammar. It sounded good to Americans, who would be happy to see perfection improved upon.

It is apparent, despite the tight censorship, that his statement was not pure optimism. U. S. forces are still holding the line they fell back on when they gave up Seoul. They have been aggressively feeling out the enemy by constant patrolling, which should be assurance that a new push would not take them by surprise. They have used reconnaissance in force to inflict punishing losses while keeping their own casualties light.

That is enough to show that the U. S. command is making full use of its superior weapons and superior transport. Another part is the war of attrition that has been carried on unceasingly by the Far East Air Force. The claim of 60,000 Chinese and North Koreans killed or wounded since November 24 may be somewhat exaggerated. But it is certain that the enemy has suffered heavily.

But the situation could change again. The increasing number of Russian-built jets in the Korean skies may be a portent. With air support the Chinese Communist armies would be a much greater threat than they are now. As of today the situation may be getting better than perfect but it could grow worse.

Grandparents enjoy a most enviable position. When they pick up the cuddly grandchild only to have him cry, kick and fuss, they can hand him back to his parents.

Russia Drives Wedge

Russia's handling of the recent American, British and French notes on possible four-power talks shows striking variations. The notes Moscow was answering were much alike. The American note, though not provocative, was probably the firmest of the three. The British note was somewhat more polite. The French communication was definitely conciliatory.

To the American note, Russia has thus far sent no reply at all.

To the British note, Moscow's reply was moderate in length and tone, merely reiterating without special emphasis what has been said in previous notes.

To the French, Russia's reply was long—and full of dark, vaguely menacing hints.

Although the Russian replies were the latest in a long exchange concerning details of a proposed four-power conference, they show no interest in such a conference. Instead, they are devoted to answering Western charges and inventing counter-charges. Apparently Russia has lost interest in discussions since the Western powers proposed broadening the talks to include other subjects than German rearmament. But she has not lost interest in making propaganda to pin the war guilt for any Bolshevik aggression on its eventual victims.

And it is notable that she has replied to firmness with silence, to formality with formality, and to a conciliatory attitude with a tone of intimidation. The prime purpose of Russia's dissimilar treatment of the three notes is clear. She is trying to drive a wedge between France, Britain and the United States.

Betting dollars to doughnuts once meant sure-fire winning odds. But the length of those odds is shrinking.

The Heart Of Malik

Jacob A. Malik, Soviet delegate to the UN, has been laid up with a heart ailment. Some Americans will regard this as propaganda for the dubious theory that Malik has a heart.

But, inhuman as his performance in the UN Security Council sometimes seems, Malik is a human being. If he is cut, he bleeds. If he goes without food, he is hungry. And if he tries to act as if he had no heart, his flesh and blood crack under the strain.

There are other causes of heart diseases, of course. But one of the important causes is the hypertension that is caused by asking flesh and blood to be as emotionless and tireless as a machine.

The Communist dogma and practice of conflict and intimidation, is imposed discipline that allows for no human flexibility, is cruelly hard on hearts. Under such a system the men who get to the top and stay there are those whose makeup is deficient in normal human feeling, the ones who have no heart.

Malik, by his illness, gives indication that he has more heart than a highranking Communist can afford. It might surprise him to be told that communism, America's deadly enemy, is his as well.

Polar Ice Cap To Blame?

An article in a recent Reader's Digest is rather discouraging for ice skating enthusiasts in the central latitudes. It cited evidence to support that group of geographers which says the temperate zone is getting warmer and the frigid zone less frigid. New York City has the kind of winters now that Washington formerly had, it is contended. Montreal's last few winters have been like New York's several generations ago.

The fact is that the polar ice cap is slowly receding again. Maybe another warm cycle is coming along.

If so, the changes are discernible only over many years, and wouldn't make much difference to anyone but a skater or a skier. Winter temperatures in a wide belt across the central part of the nation are highly "critical" where ice and snow are concerned. Let the average temperature be a degree or two higher than usaul, and there goes most of the skating.

Skating is so much fun that even a little of it is worth looking out for.

Eyes To Match Dresses

What won't the women do next? A late notion is to change the eye-color to match the ensemble. This is done through contact lenses, colored to suit. By paying merely $1,000 a woman can have eyes of four or five different hues.

How this will add to the disconcertment of the hapless male, who already has troubles enough! He takes a fancy to a blue-eyed blonde, and at the next moment of gazing soulfully into her eyes finds that they have become green or black. The shock might even cause him to lose his line of conversation.

HOW TO KEEP WELL

By Dr. Theodore R. Van Dellen

To the limit of space, questions pertaining to the prevention of disease will be answered. Personal replies will be made under proper limitations, when return stamped envelope is enclosed. Dr. Van Dellen will not make diagnosis or prescribe for individual diseases.

The Antihistaminics and Colds

THE antihistaminics are rapidly joining the ranks of a long list of drugs that fail to cure the common cold. The ballyhoo is over and in the interim many reports have appeared in medical journals to nullify the extravagant claims made for these chemicals.

Many of the early studies were poorly controlled; too much reliance was placed on the individual's ability to diagnose his own cold. This is not said to belittle anyone, but even a skilled physician has difficulty in determining whether or not a few sneezes or a scratchy sensation in the back of the throat mean that a cold is in the making. Consequently, anything that is taken at this stage may help because there is a good possibility that the condition will proceed no further. Moreover, many of us have had the experience of going to bed at night, believing that we are coming down with a cold, only to waken the next morning fit as a fiddle.

The research that disproved the value of the antihistaminics utilized tablets and capsules. For every individual who was given an antihistimanic to treat his cold an equal number received a placebo, a similar appearing tablet or capsule containing sugar instead of the antihistaminic. These carefully controlled studies were conducted by various investigators at the schools of medicine at Cornell, Western Reserve, and the Universities of Illinois and Minnesota as well as at West Point and the Naval Training center at Great Lakes.

The results were somewhat the same. The takers of the sugar capsules and pills were just as enthusiastic as the others and reported an equal number of good effects; in some instances, they were better with the placebos. At West Point cures within 24 hours were reported by 16 per cent of the young men in military service who were given antihistaminics orally; the same occurred in 27 per cent of those receiving the sugar products. At the University of Minnesota, students were handed a box of medicine with written instructions to take one dose every four hours until the cold was "cured" or the 10 doses of medicine were used up. Various antihistaminics were employed and some were mixed with Vitamin C. But in many of the boxes, placebos were substituted unbeknown to the students. When the data were tallied the results were the same; one preparation worked just as well as the other, including the sugar tablets.

• — • — •

At Western Reserve, even more daring experiments were performed. Volunteers were inoculated with the cold producing virus to make certain that the cold was "caught" at the earliest possible moment. Several types of experiments were made, each utilizing the antihistaminics and the sugar tablets. With some, the products were administered before the inoculations and for several days thereafter. The outcome revealed that the number of well established colds in the groups receiving the antihistaminic drugs and the placebos were equal.

At the present time we have no cure for a cold. It is possible to relieve symptoms and prevent complications with penicillin, chloromycetin, auremycin, and terramycin. Isolation, adequate diet, fluids, and good health habits also are helpful. Bed rest still is best of all and has stood the test of time.

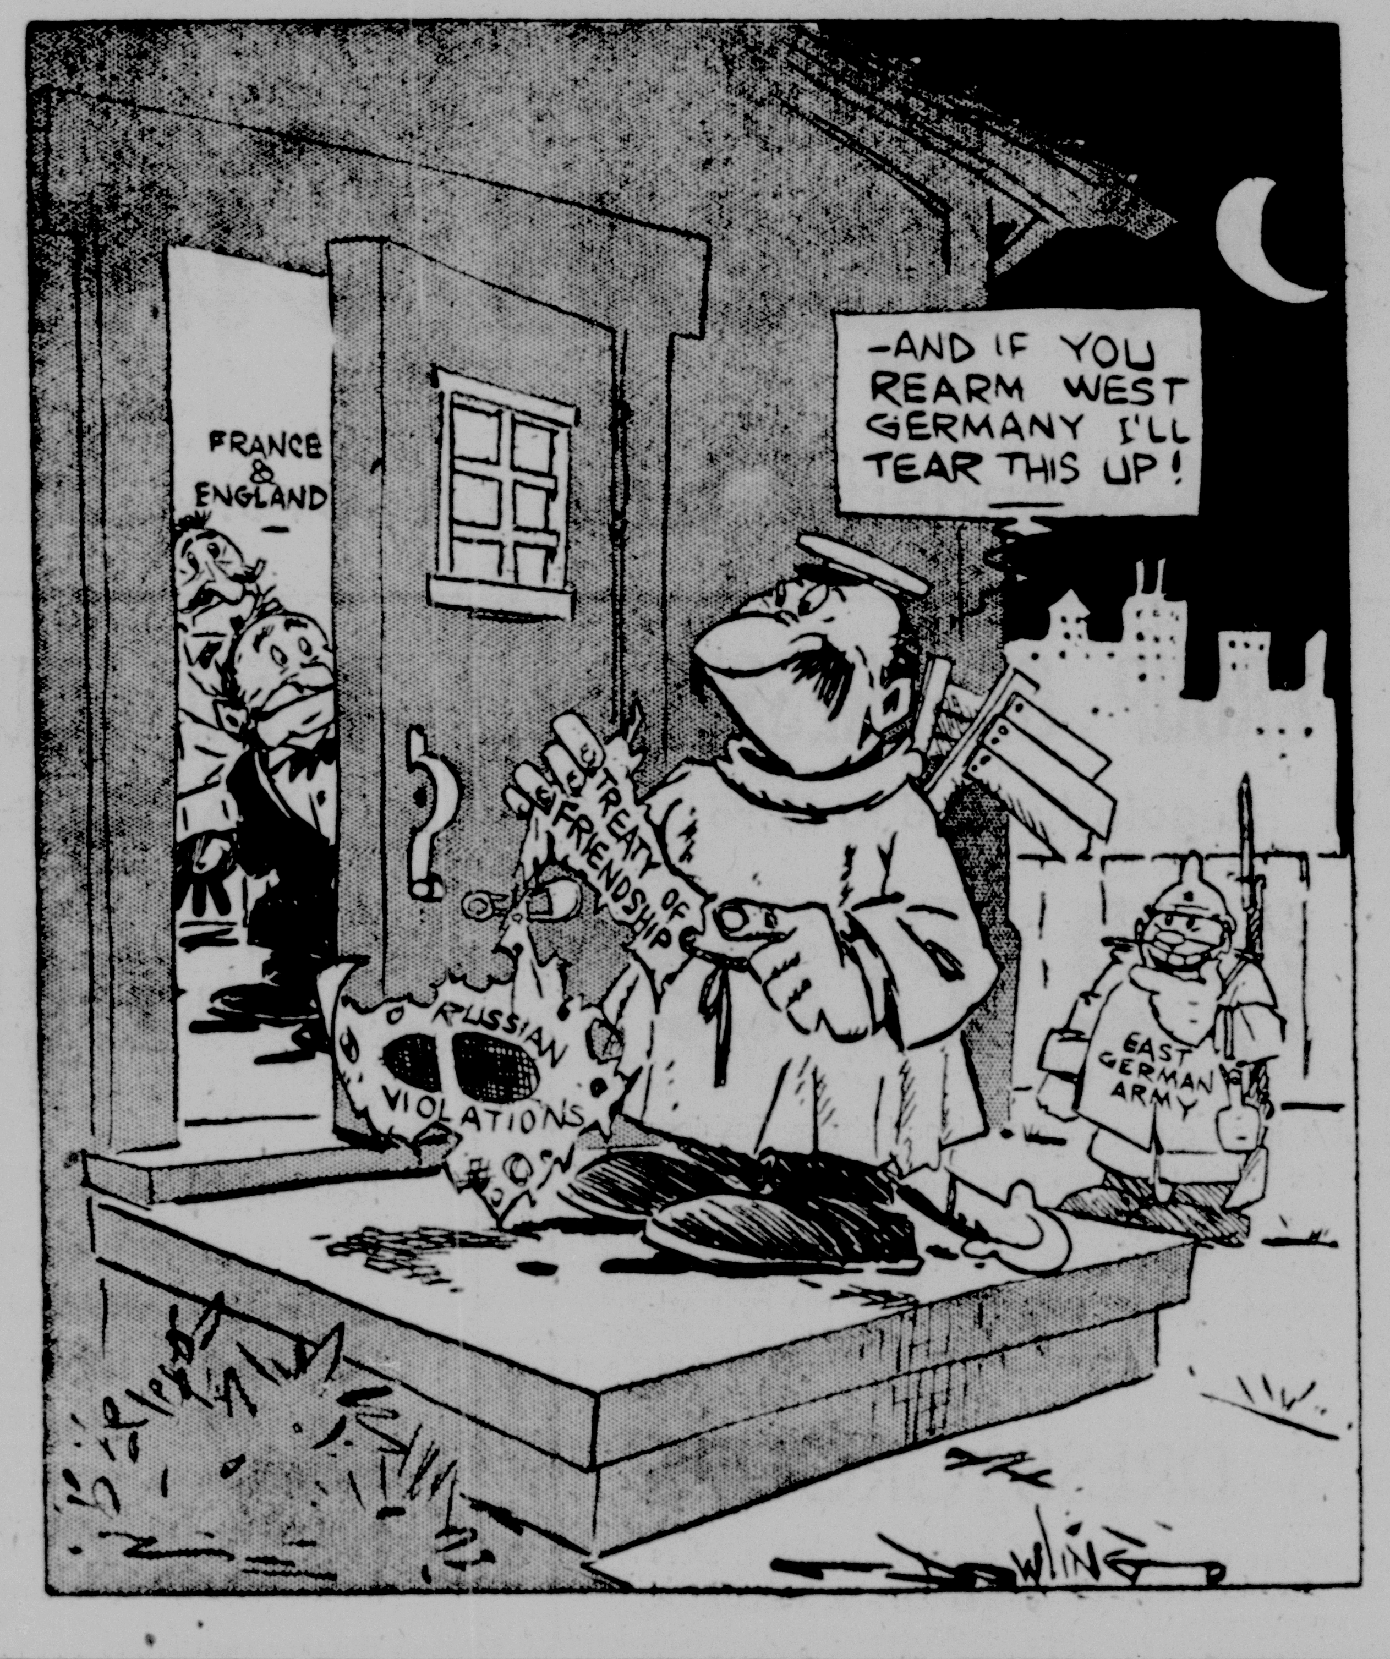
PUFFY JAWS

H. J. L. writes: What other disease besides mumps makes the jaws swell?

REPLY

The partoid glands often become inflamed and swollen in local infections of the area as well as in general diseases such as typhoid fever, after injury, and subsequent to operation of the intestinal and urinary tracts. Obstruction of the salivary ducts can do the same. Mumps is a specific inflammation of these glands, caused by virus infection. A distinction is made because of the contagious nature of mumps and the fact that this disease confers everlasting immunity whereas other disorders do not.

LATE DEVELOPMENTS IN THE WAR OF NERVES



The Washington Merry-Go-Round

Sen. Robertson Counsels Wisely Senatorial Worshipers; Russians Mass-Producing Faster Jet Planes; Johnston, Di Salle Want Price Freeze Soon

Says DREW PEARSON

WASHINGTON—Every Wednesday morning, a handful of senators gathers quietly in the Senate dining room for prayer and worship. They try to keep this meeting secret between themselves and their Maker, and the words they speak usually are more poignant and straight-from-the-heart than their speeches on the Senate floor. Such were the remarks last week of Virginia's Democratic Sen. A. Willis Robertson.

"A cynic has described the Old Testament as being a history of wars wrapped up in a prayer for peace," Robertson told the little band of senatorial worshipers. Then he outlined the wars that have raged over tiny Palestine, the cradle of Christianity.

Robertson thoughtfully added: "History teaches and science confirms that human nature in all races and in all ages has been very much the same, with a percentage of good people and a percentage of evil ones. History likewise teaches us that no nation has ever achieved lasting peace by superiority of arms . . .

"The Jews of the First Century wanted and expected a Messiah who would by force release them from bondage.

"In the present emergency," Robertson continued, "democratic nations may be able to assemble sufficient force to defeat the Communists on the battlefield. But such a victory would not settle the fundamental conflict between truth and error, between good and evil.

"Peace will, in my humble opinion, continue to escape the chancellories of the world until it finds a home in the hearts of men," counseled the Senator from Virginia.

Capital News Capsules

Byrnes and Acheson — Ex-Secretary of State Jimmie Byrnes, now governor of South Carolina, has assured Dean Acheson he will support him 100 per cent in his campaign to send six divisions of American troops to Europe this year. Byrnes passed along this news to Acheson through a North Carolinian, Undersecretary Webb, when Webb went to South Carolina to attend Byrnes's inauguration. Webb told Byrnes he would be welcome in Washington for consultations with Acheson on foreign policy.

RUSSIAN JET PLANES—General Vandenberg, Air Force Chief of Staff, is worried about the high quality of Russian jet fighters now in action over Korea. Despite the news headlines telling of American air victories, Vandenberg has a report on his desk indicating that the Russian MIG-15 and LA-17 fighters are highly maneuverable. What's even more disturbing is that the Russians are now getting into mass production of an even faster jet—the TU-10.

AUSTERITY FOR BRASS HATS?—Secretary of Defense Marshall has suggested that we are spoiling our G.I.'s with too much transportation, recreation, and costly coddling. However, why not let the army's austerity program begin with the brass hats—including their private airplanes and limousines.

KU KLUX KLAN — Maj. Gen. George Van Horn Moseley, U. S. Army Retired, appealed to the Georgia Parole Board to release Emory Burke, leader of super-Ku Klux Klanism, the Columbians. In contrast, South Carolina's new governor, Jimmy Byrnes, has taken a forthright stand against the Klan while the Georgia Legislature has legislatively ripped the hoods from all Klansmen.

SHAKESPEARE TO THE RESCUE—Archie Alexander, live-wire assistant secretary of the Army, tried to recall a Biblical quotation which he said he wanted to use in a speech. Scouring the Pentagon, he couldn't find one Protestant Bible in the entire building. He even tried the office of Maj. Gen. Roy Parker, Army Chief of Chaplains, but after a frantic search, a red-faced underling explained that General Parker was out and had taken his Bible with him. Finally Alexander found a Bible on top of the desk of Gen J. Lawton Collins, Army Chief of Staff, but this turned out to be a Catholic Bible and didn't contain the quote Alexander had in mind. The harassed assistant secretary finally decided to quote Shakespeare instead.

FAMILY FEUD — Mobilization Boss Charlie Wilson really wanted to get rid of Price Administrator Mike Di Salle, not Economic Stabilization Director Alan Valentine. However, Di Salle was in too solid with President Truman, so Valentine got bounced instead. Angrily, Valentine wrote three sizzling letters to Truman but tore up each of them before writing his mild letter of resignation. Meanwhile, Wilson is still calling Di Salle incompetent behind his back.

Rigid Controls

An important meeting on economic policy was held last week across the street from the White House, and, with the blessing of the President, these decisions were made.

1. A really tough program of price, wage, and scarce material controls will be instituted. Defense Mozilizer Charlie Wilson is afraid the defense program will be destroyed by inflation and production as usual, therefore wants strict controls soon.

2. First will be the price freeze. New economic policy-maker Eric Johnston and Price Administrator Mike Di Salle hope to get the order out immediately. Lights are burning in the price agency right now. This will be followed by specific price orders, and price rollbacks, in key cost-of-living and defense items. This is a victory for Mike Di Salle.

3. Action in the price field will pave the way for a wage freeze to prevent a round of wage increases this spring.

NOTE—Voluntary appeals against production-as-usual are not working, and orders limiting scarce materials and technical manpower are in the works. Nonessential production, especially in electronics, construction, and motor vehicles, will be curtailed.

Senate GOP Secretary Mark Trice built a blazing fire in his office fireplace the other day though the temperature outside was nearly 80. Reason: He was burning a stack of secret Republican papers. MATTER OF FACT

By JOSEPH And STEWART ALSOP

The Chance of Peace

WASHINGTON

THE chance of peace, now ever-diminishing, entirely depends upon willingness to face facts. The first fact to face is that in going all-out to rebuild the defenses of the Western world, the United States and its allies are doing now what ought to have been done two years ago. The second fact to face is that the Kremlin has a deep interest in forestalling this Western rearmament, and is actually moving to do so.

The nature and possible motives of the Soviet Union's extensive preparations for new aggressions in Europe and Asia have been examined in two previous reports in this space. Two points stand out from the broad pattern of menace.

First, although Asia is now the most acutely inflamed area, the real danger is in Europe. Even if no settlement is reached in Korea, even if Indo-China falls to the Chinese Communists, it will still be possible to avoid a third world war. But if the Kremlin moves in Europe either a third world war, or a total surrender to Soviet imperialism, will then become inevitable. Thus the really significant event of the last six months has been the Kremlin's preparation to move in Europe.

Second, this danger has not been created by American hostility to the Chinese Communists, however "unwise" this may seem in London, or by the plan to arm the Western Germans, however "provocative" this may seem in Paris. The real source of the danger is in no way local. It is the general impulse of the Western allies to rebuild their strength needed, in order to defend their independence against Soviet imperialism.

Yugoslavia Key Nation

The evidence for this conclusion is plain enough. The new Soviet military dispositions in Europe do not chiefly threaten West Germany, or France, or Britain. As of today, the Soviet Union's intended first victim in Europe appears to be Yugoslavia—a nation innocent of any responsibility in China or Germany, but a nation so placed strategically that the fall of Belgrade will effectively defeat the purpose of the whole Western rearmament effort.

Indeed, the real motive of the Kremlin's agitation of the Chinese question in London and of the German question in Paris, is most probably to prepare for an attack on Yugoslavia by splitting the Western alliance. No more glittering politico-military coup can be imagined. With the Western allies split, Yugoslavia can be attacked, and Greece can later be overrun with perfect impunity.

At one stroke, the Yugoslav and Greek armies will be destroyed and the Turkish army will be neutralized—thus taking out of action the largest military forces now facing the Red Army in the West. The Middle East, already a mush, will be made ready to scoop up. In the ensuing general panic, the unstable French and Italian governments can easily be replaced by "neutraliste" regimes. The Mediterranean, with its invaluable airbases, will be denied to the remaining nations who choose to resist further Kremlin aggressions. And, in effect, a third world war will be lost without ever having been fought.

No one can say, of course, whether the military dispositions that suggest an intention to attack Yugoslavia really mean anything of the sort. Equally, no one can be sure these dispositions will not be changed overnight. But for the present at least, there is another aspect of the seeming choice of Yugoslavia as the intended victim in Europe, which it is highly unwise to overlook.

Precautionary Measures

In brief, the new Soviet military dispositions, besides seeming to mean danger for Yugoslavia, also seem to mean that the Kremlin wishes to avoid any frontal onslaught, on West Germany for instance, such as would automatically bring on a general war. To be sure, the Kremlin has also taken measures to be ready to move the 35 divisions in East Germany and Poland. But these improvements of road and rail lines, accumulations of military dumps in forward areas and programs of airfield construction, are not on a great scale and have not been accompanied by any

U. S. Initiative Can Clear Up "Cease Fire" Meaning

By DAVID LAWRENCE

WASHINGTON, Jan. 25 — The time for American initiative in the United Nations so as to raise the dignity of that organization would seem to have arrived.

All the maneuvers of the Communists thus far—to which some gullible governments abroad have succumbed — appear to place the United States in the position of being unwilling to "negotiate" with Red China and hence as obstructing a "cease fire" or a so-called "peace conference."

The United States should always be ready to talk peace, and the only weakness today in the Department of State's position is its reluctance to state to the whole world the conditions of peace which it favors. The whole complexion of things would be altered if, as a substitute for the resolution declaring Red China an aggressor, there were a new resolution setting forth specifically the terms under which the fighting could be brought to an end. The terms might follow these lines:

Suggested Terms

1. Immediate withdrawal by Red China and the puppet North Korean regime of all their troops to the Yalu River.

2. The United Nations forces, as the world authority, to take over the entire Republic of Korea and make arrangements for the holding of elections to supplement the administrative and legislative machinery of the Korean Republic.

3. Appointment of a commission to investigate the resistance to United Nations forces carried on by Red China and to place the blame for the aggression by the North Korean regime last June.

4. Appointment of a commission to investigate conditions inside China to determine to what extent the present Peiping government owes its military supremacy to the assistance given it by Soviet Russia.

5. Appointment of a commission to call for free elections in China uncoerced by the military forces of either the Nationalists or the Communists.

6. When a democratic government has been duly established in China, consideration to be given to the admission of its representatives to the UN.

Such proposals or peace terms would be, if adopted, the policy of the United Nations. This would restore the dignity of the United Nations and revive the sagging faith of the American people in the sincerity of the Nehru government in India and in other governments which have brazenly deserted the basic principles of the United Nations charter to condone aggression and to refuse help to those nations which, like the United States, have supplied military forces to fight aggression.

Would Clarify U. S. Position

These terms, moreover, would put the Communist regime of Red China in its place and show the Chinese people that the American government wants to see them permanently represented in the UN but by a government that is worthy of recognition and one that does not owe its control solely to military force or dictatorship but to free elections.

The UN sent its forces into Korea last June to resist aggression. The palpably craven statement of Prime Minister Nehru that Red China should have been recognized when it tried to bludgeon its way into the UN and that UN forces should have stopped at the 38th Parallel and paid homage to the aggressors is one of the most astonishing utterances made to date in the name of international solidarity and peace. What the Indian Prime Minister is doing is to encourage pacifism, which has usually led to bloodshed. For, when aggressors are condoned or appeased, they always grow more arrogant and drag the world into the very war which the appeasers sought to avoid.

India has lost prestige in the family of nations because she is unwilling to resist aggression. The Arab nations are trifling with American friendship. These nations should not be expected to receive the military or moral support of the UN any longer unless the UN is to be just a conference group, which formally repudiates its collective security policies and opens the way to a series of offensive and defensive alliances by groups of nations acting outside the UN machinery.

The sooner the United States brings about a showdown in the UN on the terms of peace in Korea, the quicker there will be a clearing of the air as to whether the "cease fire" device is to be just a cleverly manipulated surrender by the UN to Red China or an expression of the determination of the UN to see to it that aggression not only is not rewarded but actually is punished.

These Days

By GEORGE E. SOKOLSKY

Call A Halt!

UNTIL it is decided what is to become of the United Nations, a halt should be called to some of the curious activities of that body.

For instance, a commission or something of UN is now engaged in defining the press. From what I can see of it, most of the efforts are designed to place limitations upon freedom of the press.

What most Americans forget is that the United Nations can lawfully legislate for the American people. A United Nations decision is binding upon us under the treaty which makes us a member of that body. Even should we vote against a measure, but not employ the veto, we are bound to adhere to it, if it is approved by the other members. In cases that have before our courts, they have so held, as in the California Alien Land Law case in 1948 (Oyama V. California).

The California Land Law may or may not be wrong, but California should make her laws, not the United Nations. In fact, by virtue of the treaty, the United Nations has a wider power over our states than the Constitution gives to Congress.

So, that amazing universal declaration of human rights can be destructive of our way of life, because we balance obligations against rights. For instance, take Article 25 of that document:

"Everyone has the right to a standard of living adequate for the health and well-being of himself and of his family, including food, clothing, housing, and medical care and necessary social services, and the right to security . . ."

Does that mean that we are to establish a socialist society in which every person is a slave to the state which levels all of us down to a minimum subsistence provided by the state?

And what are the obligations of the citiezn to the state? No reference is made to that. It could be total and abject obedience.

So, the genocide convention comes before us again. This is a measure which may have much justification. Its inspiration was the wiping out of whole peoples by antagonistic governments.

Whatever the intentions of the genocide convention, however noble its motives, it would be impossible under it for the United Nations to intervene in any state of our country on the assumption that the rights of a racial or a religious group were endangered.

Take, for instance, this provision in the covenant of human rights, which could become the law of our land:

"Freedom to manifest one's religion or beliefs shall be subject only to such limitations as are pursuant to law and are reasonable and necessary to protect public safety, order, health, or morals or the fundamental rights and freedoms of others."

Our system is incorporated in the First Amendment to the Constitution of the United Sates, which provides:

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances."

We have in this country some 265 religious groups, sects, cults. Our government interferes with none of them. Separation of church and state does not only mean that the church shall not interfere with government; it means even more that the government shall not interfere with the life of any church.

According to the covenant of human rights, however, the government becomes the ruler of every church. Suppose some bureaucrat were to decide that circumcision was unhealthful, or that holy water carried germs, or that baptism increased the incidence of pneumonia or that kosher meat was against public order!

Comparable ukases have been issued in the history of the human race. In the United States we say that the rites, rituals and disciplines of religious bodies are none of the business of the government, that for the state to interfere in such matters is a violation of the inalienable rights of the individual, bespoken in the Declaration of Independence.

But this you must note: If the Senate ratifies this covenant on human rights, it will have the force of an amendment to our Constitution. Can we afford to risk that?

The soundest procedure is to halt all these United Nations measures now. This is no time to give them consideration.

Guests were Miss Marian McKenty, Miss Jeaneen Hartley, Mrs. Roy Hansrote, Miss Mary Davis, Miss Edith Lewis, Miss Helen Borror, Miss Mary Straw, Miss Eleanor Durst, Miss Shirley Lester, Mrs. Ronald Catlett, Mrs. George Carney, Jr., Mrs. Hardman and Mrs. E. Serve Yourself and Save

Does your conversation catch you in a net of things which you'd rather have left unsaid?

SECRETS OF CHARM

by JOHN ROBERT POWERS

IF, after mulling over any recent conversation, you frequently find yourself regretfully wondering, "Why did I ever say that?" you are not putting the conversational rules to use.

If you want others to remember your conversation with pleasure and to have only pleasant memories of it yourself, the rules must be applied before you say anything aloud. To check on your conversational smoothness, get out your sharp pencil and check the solution you think is the best in the following prevalent pitfalls:

Which Would You Do?

1. If you're the hostess and some one insists on taking over the entire conversation in a boring recital, you should: (a) Start talking to someone else and ignore the offender. (b) Show your boredom by yawning. (c) Ask some interested questions and in that way attempt to include others in the talk. (d) Start an argument.

2. If you are uninformed on the topic in discussion: (a) Try to change the subject. (b) Look bored so others will change the subject. (c) Ask questions and appear interested. (d) Pretend you understand the topic.

3. If a person not present is being discussed unkindly: (a) Show your eagerness to learn the latest. (b) Show your indignation by telling the others it isn't fair to gossip. (c) Show your disgust, but say nothing. (d) Change the subject as inconspicuously as possible.

4. If you are complimented on your new dress: (a) Act shy and say nothing. (b) Say thank you and change the subject. (c) Return the compliment. (d) Tell how old the dress is or how much you paid for it.

The Correct Solution

You're in the know, all right, if you answered:

1. (c). It's up to you as hostess, hard as the job may be, to direct the conversation and save your guests from bores. 2. (c). This answer includes two rules: You must be a good listener, and you must never pretend knowledge. Admit your ignorance of a subject and people will respect you. AND you might learn something!

3. (d). Enough said! 4. (b). Never return compliment for compliment, make excuses, or fail to say thank you!

You Can Have 'Em . . . We Don't Want 'Em . . .

Dollar Day Specials

We have a 100-year reputation for honesty, and we're not bogging down just because of Dollar Days. So, honestly . . . some of these specials really rate the name "value". Others — well, they're not strictly from hunger, but mighty close! Check over this list anyway. You might just possibly find some good deals!

FRIDAY, SATURDAY AND MONDAY – JANUARY 26, 27 & 29

THIS 'N THAT:

WITH gifts in mind, it's quite possible that you'll be interested in a fine assortment of BIBLES, TESTAMENTS and PRAYER BOOKS. We did have them priced up to $13. Now, you can take your pick from 50c to $5.

HAVING your own private cold war at home? Maybe you need one or two ROOM THERMOMETERS (by TAYLOR, of course) to prove to His Nibs that the thermostat should really be hiked up a notch or two. Were up to $1.38. Yours for 25c.

YOU'RE at the office when it rains . . . your lone UMBRELLA is home. How 'bout an extra? Our sale selection is slightly faded, but still waterproof! Once priced up to $7.50. Now a mere $3.

KEY CASES . . . Have we got Key Cases? Just ask us, and before you get your wallet open, you can have one or more at an unheard of 75c per. Believe it or not, they were *1.80!

CAN a guy find his cuff links 'n studs when he wants 'em? Generally not. They're in the top drawer on the right "under some things," on the floor under the bed or someplace. Gather 'em up and plunk 'em in a STUD BOX. Take it for 75c. Did cost about $3.

AT LAST! A place to put his pipes out of sight. A hanging LEATHER PIPE RACK that was $5 is yours at a steal . . . only 75c. A little dog-eared, to be sure, but you can hang it behind the door!

ONE lonesome LEATHER HUMIDOR has been hanging around here for ages. We were stuck with it at $7.50. Please take it off our hands. You can have it for $3.

WHY get nasty with that delinquent correspondent when you can send a subtle hint for more letters? Send a LEATHER WRITING PORTFOLIO! We have a few that were going for $10 and $12.50. No soap! So now, they're $5.

WHO wants a DESK STAND? It's genuine leather . . . one of those gadgets with a pen holder and perpetual calendar. This is really a bargain . . . in good condition too. Get this . . . It's worth $24, but we're letting it go at $5!

ROLL them bones! Yes, we mean DICE. $3 sets of 5 can be had for 50c each. Imagine! Dice in a jewelry store!

GAMES too! Not parlor games, silly . . . complete "fitted" GAME SETS . . . the kind service men like. Leather cases, too. In spite of the fact that they were priced up to $12.50, we're getting rid of them at $5.

STUD or draw, that's up to you, but take a gander at our assortment of POKER SETS. Here's another case where we're taking a good licking, and you're reaping the benefits. The darned things were bought to sell as high as $15. Now? $5.

SILVER 'N PLATE

FOR those flossy souls who smoke imported brands . . . or for anyone else . . . a STERLING TABLE LIGHTER. Quite swish! The price is peasant-like though. Only *$3. Was $5.

SILVER-PLATED Sugar and Creamer sets add a fancy touch. You might even palm them off as gifts. Just take 'em away! Were $6. Yours for *$3.

HEAVEN knows who'd want 'em, but we're stuck with quite a collection of STERLING WHAT-NOT MINIATURES. They're useless, but kinda cute. Does *$1 sound reasonable? We were selling 'em up to $2.75.

FIGHTING over whose napkin is whom's (er, uh . . . whose) every meal? Solve it with INITIALED STERLING NAPKIN RINGS. Were $2.50. Walk out with a couple for *$1 per.

MORE stuff for heavy smokers . . . a couple of sets of plated (SILVER PLATED, that is) ASH TRAYS and ASH TRAY-CIGARETTE BOX COMBINATIONS. Honest . . . they once sold for $12. We hope you want 'em for *$5.

FOR some lucky bride . . . how would she know you got it on sale? A very pretty SILVER PLATED BON BON DISH. How can you lose? It cost $6, once. We'll let you have it for *$3.

IF you're still formal (we're not), how about a SILVER PLATED card tray? Or maybe a sugar and creamer tray? They were both good buys at $8. Better now at *$3.

DOESN'T anybody do anything but smoke? You'd think not from our stock of STERLING ASH TRAYS. Come and get 'em. We're tired of looking them in the face. Once $4.25 each, as your Dollar-Day reward you can have them for *$2 each.

"ITTY-BITTY" spoons . . . actually they're called 5 O'CLOCK SPOONS . . . for demi-tasse, tea or something. Anyway they're nice silver plate, and specially priced at *$2 for a set of 4.

NOTHING burns us more than a wet glass that sticks to a flimsy COASTER. We have some dillies—GLASS WITH SILVER RIMS—that are heavy enough to stay put. They're only reduced from $1.50 to *$1, but we're losing money just the same.

UTILITY FORKS—whatever they are. Somewhere between a salad fork and a serving fork we think. But they must be useful, else why the name? Silver plate special for only 50c each.

CHINA 'N CERAMICS GLASSWARE TOO!

IT'S all too seldom, but occasionally some kind soul sends you flowers. We have the VASES, also low bowls, you know . . . the usual things you put posies in. They're by Chadwick—also by Crownford, and very attractive. Look 'em over and choose! You'll pay anywhere from $1 to $3 according to your selection. People use to pay up to $16 for the same thing.

IF craftsmanship appeals to you, consider a HAND-CARVED PLATE for for a ridiculous $1. They were $3.50. Good for decoration, serving party junk and the like.

SOME really snazzy GLASSWARE has been sitting around on the shelves, and now's the time for you to pounce. It's called VIKING . . . occasional pieces, candle holders . . . you know the type. We tried to sell it from $1.50 to $7, and obviously, we didn't. Pieces are now going from $1 to $3. Take it away!

ONE whole group for the cultivated tippler or anyway for those who don't like to drink out of the bottle. WINE SETS, WHISKEY and CORDIAL SETS and DECANTERS . . . So help us, they were priced up to $15, and to try to get them moving, we're selling them at $5. Don't cry the blues to us if you miss this one. We warned you!

LOGAN STEMWARE AND PLATES . . . nice pattern . . . see for yourself. Was going from $1 to $1.50 a piece . . . now it's only 50c per.

SPECIAL ½ PRICE DEAL on Fostoria and Minton stemware. The Fostoria is made up of broken lots and discontinued patterns; namely St. Regis, Hawthorne and "Salon". Oh, yes, Greek Key too.

VASES to the right of us, vases to the left of us, vases all over our second floor. It's crawling with vases. If you don't believe us, stop in. And the first one that crawls by that you like . . . grab it. Like as not it'll cost you a dollar. No tax either. Big vases, little vases . . . but you just ask for Vase 10W111. We don't know what it means, but our buyer does.

Ever seen Vogue? All right, so you subscribe to the magazine. Well, smarty, that's not what we mean. We mean VOGUE STEMWARE and Vogue Plates. A pretty acceptable pattern if we do say so ourselves, and we do. So, set your table with glassware. And do it inexpensively. This here now stuff did cost from a dollar to $1.25 a piece. And for you . . . just for you, it's 50 cents per.

NEXT COL. PLEASE

MEN'S AND WOMEN'S JEWELRY from 50¢ to $5.00

We mentioned being honest a while back . . . and this is where it's really on the level. There's so much of this stuff that's been pawed and mauled over for the last umpty-oomp months that we haven't the heart to ask you much more than 50c or a couple of dollars for it. Yet there are other pieces that go on up to $20 ordinarily, and you get them for a trifling *$5. Earrings, cuff links, tie bars, bracelets, necklaces, chokers, charms—the whole works. Look it over carefully; you might find exactly what you want.

SPECIAL ASSORT. LUGGAGE ½ PRICE

Train cases, overnight cases, wardrobes, make-up jobs . . . These are real bargains . . . half-price (plus tax, of course)! Leather bound fabric models and a couple of rawhide numbers that are good-looking and good values! Second Floor for this.

We're not temperamental, but truthfully, Dollar Days are so hectic that we just cannot take time for our usual services. Sooo—no gift boxing or wrapping and no deliveries on sale merchandise. All sales final!

Woman's Poetic Legacy Can Not Be Carried Out

BRISTOL, Va.—(AP)—Miss Katherine R. McCormick died here with the hope that her eyes might give sight "to one who sits in darkness."

A sister of W. M. McCormick, founder of the world's largest firm processing spices and teas, Miss McCormick during her lifetime gave most of a substantial income to individuals and charity organizations.

Four years ago, she read a newspaper account of how a deceased persons eyes had been transplanted successfully after death to save the eyesight of another person.

Impressed, she sat down at a desk at her home here December 5, 1946, and wrote a legacy in the form of a poem. In verse, she willed that at her death her eyes should be given to an eye clinic so that another might see. The versified will read:

My Legacy

With joy I will my eyes; with keen delight
At thought that this through which I have had light
Will give to one who sits in darkness, sight.
The world is wondrous fair,
Sea, land and air
Show miracles of beauty everywhere.
These have I loved, and death doth lose its sting,
If I, through skill of science, can in passing bring
To darkened eyes the joy of watching nature fling
Her colors here, her shadows there,
Of watching motion, life in action everywhere,
And best of all, the love-light in a face by love made fair.
Devoutly do we thank thee, Lord,
That thou to human hands has given
The skill by which the bonds of night are riv'n
From sightless eyes and saddened souls, to meek submission driven,
And that to little folk like me,
Is given the godlike power to make men see.
And I do pray that with this new found sight,
They may see thee.

But Miss McCormick's poetic legacy could not be carried out. During the last four years, her eyes gradually grew weaker, and a few weeks before her death, one of them had to be removed.

Miss McCormick died Friday—almost totally blind.

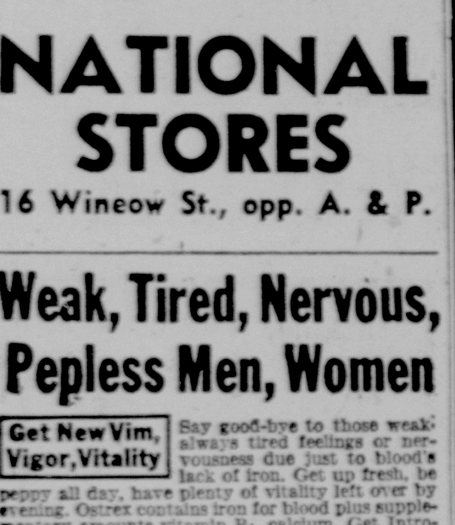
"TERRIBLY EMBARRASSED by HOT FLUSHES

But I Get Wonderful Relief Now With Lydia Pinkham's Vegetable Compound"



"I hated the very thought of change of life. So many women I know from 38 to 52 years suffer from nervous, irritable, weak, tired feelings due to this functional middle-age period peculiar to women—the time when fertility ebbs away. I was terribly embarrassed by hot flushes, but I find that now I can get amazing relief by taking Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Lydia Pinkham's Compound also relieves miserable high-strung, cranky feelings when due to this cause.

"I find that by taking Lydia Pinkham's Compound faithfully, it helps build up resistance against such middle-age distress. I can well understand why it's called 'the woman's friend.' Me for Lydia Pinkham's Compound every day."

P.S. Pinkham's Compound is very tasty in a little fruit juice. Or you may prefer Lydia Pinkham's TABLETS with added iron. Handy to carry in your purse.

Henry C. Roberts, world's leading authority on Nostradamus, and collector of the ancient's sometimes astounding predictions, sends me an interestingly depressing note:

"Here are a few forecasts Nostradamus made in 1555—the Great Fire of London (1666), exact date and circumstances of the French Revolution, exact name and career of Napoleon, rise and fall of Japan as an empire, World Wars One and Two (almost to the day), American Revolution and career of John Paul Jones, rise and fall of Mussolini, radio, TV, submarines, autos, planes and the a-bomb."

Roberts has doped out the medieval physician's predictions as far as the year 3797 a. d. As for the immediate future, he says Nostradamus' writings predict:

A war between the U. S. and the rest of the world, which will be forced to fight for Russia. It will be in full bloom by 1952 and will be initiated by a tremendous explosion "of a cosmic nature" on the 48th parallel. It will continue sporadically until 1999, after which the survivors will form a world government that works—and peace and plenty will reign supreme from 2000 to 3797 a. d. I can hardly wait.

The New York law firm of Breed, Abbott and Morgan has been looking into the legal status of the shaving brush, in behalf of a client who makes those push-button lather machines for home and barber shops, and the indications are that the beloved old brush is getting the brush.

Shaving brushes are now illegal in Florida and Washington, D. C., which will come as a surprise to countless users of them there. In Arkansas a brush must be washed in hot water after each use. The State of Nebraska fired the first shot in the late war by confiscating a shipment of Japanese-made shaving brushes on the ground that they were carriers of anthrax.

Plane facts:—The U. S. deficit for handling air mail during the past 11 years is less than the deficit from penny postcards in a year. . . President Truman has flown 100,000 miles since taking office in 1945. . . Our new jets being used in Korea pack a punch equivalent to a salvo from a battery of thirty 105 mm. guns. . . Warplane produce is measured in pounds. At present we are producing four million pounds of planes (minus engine weights) per month. To live up to the President's promise of 1951-52 production, we'll have to build 20 million pounds a month. . . The Navy's new carrier-based a-bomb plane weighs 17 tons.

British diplomacy's timidity in the case against Red China stands in sharp contrast to the empire's contribution to U. N. forces in Korea. Britain now has 22,000 men in the theater, 10,000 of them attached to the Royal Navy's Far Eastern fleet. It has sent an aircraft carrier, two cruisers, six destroyers and four frigates, and some of its famed commandos to assist its approximately 12,000 ground troops.

There is a widespread feeling in the U. S., some of it inspired, that Nationalist China is a synonym for corruption. Here's another side of the story, an excerpt from a report to me by Norman Paige, war correspondent on Formosa:

"The economy wave here is unbelievable. The soldiers now in training get less than a dollar a month. Officials of the rank of foreign minister make about $20 a month. And yet with it all there is an efficiency of operation that is magnificent; there is definite purpose written in every face, and the determination is everywhere."

India Standing On Firmer Ground As It Enters 2nd Year As Republic

By STEPHEN V. DAVID

NEW DELHI —(AP)— India stands on firmer ground as it enters its second year as a republic with many of its growing pains behind it.

Much has been done by Prime Minister Jawaharlal Nehru's government since the constitution of the Republic of India was inaugurated on January 26, 1950, two and one-half years after independence. No one claims the long period of strain has ended, but the feeling is general that a good start has been made.

One of the most striking accomplishments was the restoration of communal peace. A year ago, Hindus and Moslems were fighting in West Bengal, India, and East Bengal, Pakistan. But Nehru and Prime Minister Liaquat Ali Khan of Pakistan concluded a pact guaranteeing the security of the Hindu minority in Pakistan and the Moslem minority in India. Thousands who had left their homes for safety across the border began to return in a movement that gathered momentum as the year progressed.

The Nehru government can also claim to have strengthened internal security by its unflagging fight against Communism. Terrorists activities persist but the government says it has broken the back of the movement in the worst-affected area, Southeastern Hyderabad state.

Indians find encouragement, too, in the improvement in this country's economic health. It is still far from robust, but two important indicators—foreign trade and sterling balance—are looking up.

The foreign trade picture began to brighten after devaluation in September, 1949. In the 14 months from October, 1949, to November, 1950, exports totaled 6,482,600,000 rupees ($1,361,346,000) and imports 6,136,000,000 rupees ($1,288,560,000) — a favorable balance of 346,600,000 rupees ($72,786,000). In the same period the year before the adverse balance was a staggering 3,329,000,000 rupees ($699,090,000).

Indian officials attribute the reversal of the downtrend to a number of factors: The effect of devaluation; severe restrictions on imports, including food; expansion of exports, particularly cotton textiles, and increased demand arising out of the war in Korea. The trend is still upward.

India began its independent existence with a lot of money in the bank — some 16,000,000,000 rupees ($3,360,000,000) owed by Great Britain for supplies furnished by India during the war. By the middle of 1949, India had slashed these sterling balances to 8,200,000,000 rupees ($1,724,000,000) and both Indians and the British were alarmed. That was the low point, however, in the year and one-half since India actually has increased its holdings to about 8,350,000,00 rupees ($1,753,500,000).

India will use $590,730,000 of its balances during the next six years for projects scheduled under the Colombo plan for Southeast Asian development. It is to add $1,570,800,000 of its own and hopes to find another $1,699,530,000 outside.

Not all aspects of India's economy are a source of satisfaction.

1. Inflation is still strong, although the government finds comfort in the fact that prices have not risen so sharply here since Korea as they have in many countries.

2. The shortage of food has necessitated big imports from both sterling and dollar countries, draining away foreign exchange that might have gone for projects designed to raise the standard of living. Natural catastrophes have hampered the government's "grow-more-food" campaign.

3. Trade with Pakistan is at a standstill because India devalued its rupee while Pakistan did not. There are indications, however, that India is prepared to renew trade on a barter basis.

4. The rate of industrialization is slow, and millions remain jobless, because domestic capital continues shy. A government official says capitalists prefer to speculate rather than invest. Capitalists complain of high taxes, low productivity of workers and uncertainty over government industrial policies.

Demand For Farms Near Baltimore, Washington Sends Prices Upward

By HENRY DECKER
City Editor, Frederick Post

FREDERICK, Md.—(AP)—Demand for farm properties within commuting distance of Washington and Baltimore has shot prices to an all-time high, with the end still not in sight, local real estate dealers report.

A number of reasons have been advanced for the demand.

One is the fear of an atomic bomb attack on such vital centers as Washington and Baltimore. Another is the desire of parents to get their young children away from crowded living conditions in large cities.

Some prospective buyers, the real estate dealers say, are interested in a farm as a possible "hedge" against inflation. Some families with draft-eligible sons also are seeking farms as a possible means of securing deferment from military service. Essential farm work served as an exemption in World War II.

Real estate men say they receive scores of requests weekly for small farms within driving range of the two cities.

Most are from persons with little or no farming experience, although some of them have family backgrounds associated with agriculture.

In most cases, the inquiries are turned away. The type of property they seek simply is not available. The demand is far in excess of supply, the dealers say.

"Most of the inquiries are from people looking for a bargain," said one dealer. "There are no such buys in Frederick County. Fairly priced buys are sold almost as quickly as we list them."

Some high-priced estates are available, however.

County Agent Henry R. Shoemaker reported he is besieged daily by mail and telephone inquiries about farms for sale.

"I'm not in the real estate business," he explained, "so I turn all requests for information over to the men who have real estate to sell."

The real estate men say the "sellers' market" in farm properties has existed since the outbreak of the fighting in Korea.

Antihistamine Study Reveals Drugs Have Little Effect On Common Cold

BOSTON, Jan. 25. (AP)—Three antihistamine cold remedies tried out by Boston University doctors in tests on 1,214 persons had about as much effect, the doctors said, as plain milk sugar pills.

The study by Professors Francis C. Lowell and Dr. Irving W. Schiller of the B. U. school of medicine, was described by the university as one of the largest of its type ever attempted in the United States. And the New England Journal of Medicine, publishing the survey, said the care taken in the study of an intelligent, co-operative group "left no doubt whatever of the results."

The Journal, in its editorial, said it was "an honest and conscientious attempt to determine the value of antihistamines in the common cold. . . . There was absolutely no evidence to indicate that the antihistamines had any effect on the occurrence, duration or severity of any of the symptoms ascribed to the common cold."

(On Monday of this week, two other studies of antihistaminic drugs improved some cold symptoms although no claim was made that the remedies cured the colds. One survey by four American doctors, printed in a Swiss medical publication, said reports of relief after antihistamine treatments were 18.5 per cent higher than reports of improvement from persons who received a "fake" remedy. The other study covered tests on 1,008 Lewton Reformatory inmates in Washington, D. C., where relief of symptoms and sometimes shortening of colds was reported.)

Dr. Lowell is associate professor of medicine at B. U. and a member of the staff of Evans Memorial Hospitals. Dr. Schiller is assistant professor of medicine at B. U.

The doctors said: "We were unable to distinguish any effect of the three drugs in the dosage used on the common cold that differed significantly from the placebo (milk sugar)."

Here's how the doctors made their study:

They set up an office in a main campus building on January 19, 1950, and called for volunteers among university personnel with colds. Each volunteer was given a packet of 13 "cold pills." Each filled out a questionnaire. Each was given instructions to use dosages like those in commercial preparations. These tests continued to April 18.

The pills, not identified to the users, were given out in rotation so that one in four got remedy A, or remedy B, or remedy C. And one in four got just plain lactose tablets—meaning milk sugar. At the end of four days, the volunteers returned and filled out more questionnaires.

The scientists weeded out questionnaires and came up with 729 they felt sure were "valid." Intensive analysis of the questions and answers then followed. The doctors found "no instance of statistically significant evidence to indicate an effect of any of thte three antihistamines differing significantly from that produced by milk sugar."

Ads Take 10% Of Video Time

WASHINGTON (INS)—A survey disclosed today that television addicts spend 10 per cent of their time watching commercials.

The study conducted by the National Association of Educational Broadcasters was the first of its kind and was submitted to the Federal Communications Commission by the educators to substantiate a request that more TV time be alloted to non-commercial educational programs.

The association said that all seven television stations in New York City were monitored constantly for a week to obtain their statistics.

In addition to the 10 per cent devoted to advertising, the study reported the following consumption of television time:

Drama shows, including crime and cowboy programs, 25 per cent; news, five per cent; children's program, 12 per cent; homemaking, 10 per cent; sports, 10 per cent; quizzes and contests, seven per cent; variety, 15 per cent, religion; one per cent.

The educators claimed that the remaining six per cent of the time was allotted to programs dealing with information, public events and issues and music.

Dependent Children Top Welfare Expenses

The December report of the State Department of Public Welfare shows that aid to dependent children costs more than any of the various types of assistance given to residents of Allegany county.

A total of $24,914.48 was expended to care for 884 children of the 350 affected. The average grant per family was $71.18. There were seven new cases added to the rolls during the month and 17 others were cancelled.

Old age assistance payments totaled $23,980.91 with 719 individuals given aid. The average grant was $32.35 and nine new cases were added to the rolls and eight were cancelled.

The needy blind received $978.69 with an average grant of $34.95 to the 28 individuals assisted.

General public assistance was given 284 individuals at a cost of $10,041.44 with an average grant of $35.36. Boarding home care for 46 children cost $1,810.30.

Airline Makes 864 Safe Landings At Local Port

All American Airways made 864 landings in the past year at Cumberland Municipal Airport, all without an accident, Oscar Lewis, AAA station manager, reported yesterday.

The number of passengers having Cumberland as their destination totaled 1,073, while those leaving the Queen City by air amounted to 1,432, for an overall total of 2,505.

This means that about eight persons a day were transported to and from Cumberland by airline, the station manager said.

Since the airline began operations here in March, 1949, a total of 4,565 persons have been flown in or out.

In the first nine months, Lewis reported, 2,060 passengers had the city as a terminal, about the same average per day as for last year.

In the past year, operations have been handicapped somewhat by the lack of obstruction lights on Knobley Mountain and Irons Mountain, Lewis pointed out.

Thirty-eight scheduled airliners overflew Cumberland because of darkness settling early on the airport.

Because of weather—fog, rain and other local meteorological disturbances—a total of 56 ships passed over the field without landing.

Bad weather over the Pittsburgh-Washington segment forced the cancellation of only 54 flights during the year, while 14 additional were cancelled because All American ships were weathered in at fields along the route.

During 1950, AAA hauled 151,318 passengers, an increase of 105 per cent over 1949. The line's planes flew 21,200,000 revenue miles, an increase of 115 per cent without incident to passengers, personnel or equipment.

Baltimore Explosion Claims Two Lives

BALTIMORE, Jan. 25 (AP)—An explosion at a rubber heel plant killed two men here yesterday. Two other workers were burned, one critically.

The blast shook a large area at the south edge of the business district, near the Baltimore and Ohio's Camden station freight yards.

Two negro employes tentatively identified as Wilson Redfern and Willie Wetchel were trapped in the small two-story processing plant when the second floor was collapsed on top of them by the explosion.

Inflammables used in the processing caught fire and burned so furiously firemen could not get into the building for two hours.

Four planets are larger than the earth—Jupiter, Uranus, Saturn and Neptune.

China has the largest population of any country in the world.

Local K. Of C. Plans Father-Son Affair

Cumberland Council No. 586, Knights of Columbus, will hold a father - son communion breakfast Sunday in St. Patrick's Social Center, according to Grand Knight Peter J. Carpenti.

The event will get underway following the 7 o'clock mass in St. Patrick's Church and the Very Rev. J. Lawrence Kilkenny, pastor and rural dean of Western Maryland, will preside at the invocation.

George W. Sellers, district councilor of Boy Scouts, will speak. He is president of St. Mary's Catholic Youth Organization, past president of the Lions Club and a member of the executive board of Potomac Council of Boy Scouts. Carpenti will handle the introductions.

Committeemen are John Kreidler, John O'Rourke, Joseph H. Love and John Loibel.

INSIDE—Area Enlistments— .. ..

P. Emmett Fahey, clerk co-ordinator of Cumberland draft boards, reported yesterday that more than 83 area men have enlisted in the armed forces so far this month.

During December, however, he received notice of only 23 enlistments.

Under Selective Service regulations, Fahey pointed out, draft registrants are prohibited to enlist in various branches of the service after they receive notice to report for pre-induction physical examinations.

He attributed the increase in enlistments during January to the Christmas holidays when many college students, apparently aware that they would be called soon for physicals, came home to visit their families. The majority of enlistees were registered.

By enlisting the men were able to choose any branch of the armed forces. When inducted, they are taken by the Army. A breakdown of statistics from the main recruiting office at Martinsburg, W. Va., shows:

Board No. 27—32 enlistments last month; Board No. 28—27, and Board No. 29—24, most of which entered the Air Forces or Navy.

Former Instructor Here To Head School

Maj. Gen. John H. Church, former National Guard instructor for Company G, is returning to this country from Korea to assume command of the Army infantry school at Fort Benning, Ga.

General Church has been in command of the 24th Division which engaged in the sacrificial mission of delaying the Southward advance of the North Koreans early in the Korean fighting.

General Church was instructor for Company G and the old First Infantry Battalion, with headquarters in Frederick, from 1922 to 1926 and from 1930 to 1933.

Washington Whirl

By AUSTINE

ACROSS the river and in Alexandria, there's a 25-year-old cabinetmaker who can waltz like a fool . . . In fact, his waltzing is so superb that the girl he's going to marry this St. Patrick's Day says, "The way he can whirl! That's what really won me!"

But the cabinetmaker, Ferenc Nagy, Jr., has a long tradition of graceful waltzing in his background . . . He's the son of the former premier of Hungary . . And, after all, waltzing was to Hungary and Budapest what rumbaing is to Cuba and Havana.

AUSTINE

Of course, the music and waltzing have been curtailed since the ex-Premier came to this country and became a plain Virginia farmer . . . After March 17, he can start raising a crop of little American grandchildren when his son marries Anna Lee McMullan, a petite, young Washington-born brunette.

Incidentally, the term "Diplomatic Relations" exists in books and on paper, but not in reality when it comes to dealings between our State Department and the Hungarian Embassy . . . For over two years the fellows at the department, handling Hungarian affairs, have done it almost entirely by mail and an occasional phone call . . . If a State Department expert on Hungary and a member of the Hungarian Legation passed each other on the street, they wouldn't know each other by sight . . . Consequently, when Miss Ida Gyulai, Hungarian counselor, was shot at the Legation two weeks ago by a fanatic Hungarian alien, a local newspaperman phoned the State Department's Hungarian desk to try to get a description of her.

"How would I know," shrugged the State Department's Hungarian expert, "I've never seen her!"

•—•—•

"A high kick is completely incorrect," chides Helen O'Neal. She saw the newspaper picture of Congressional wives rehearsing the Charleston they will do in the Women's National Press Club show last night . . . Miss O'Neal, it seems, worked her way through nurses' training school during the late 20's by doing the Charleston and the Black Bottom at night spots when she wasn't pouring over textbooks . . . And she insists "the Charleston is never more than about five inches off the floor. In the Black Bottom you can go higher."

Obviously, this is a more decorous school of thought than that currently prevailing.

Maybe it's a tempest in a diplomatic mail pouch, but the Spanish Embassy has been criticized. Invitations to an exhibition of paintings by French-born Senora de Propper Callejon, wife of a high-up Spanish diplomat, were mailed through the Embassy and delivered free by Uncle Sam without stamps . . . One nosey wife of a Senator who got an invitation called up the State Department to protest, "Imagine what a fuss if a Senator's wife had used her husband's Congressional franking privilege to send out invitations to a cocktail party of hers?"

Where does the Spanish Embassy get off mailing letters free? The other embassies don't rate such privileges. Why, it's outrageous. Should be investigated, etc., etc.

The State Department had to politely but firmly explain that the Spanish Embassy and Latin American embassies all have that same privilege, and are the only ones who have it . . . They can sent any mail without stamps! It's courteously delivered by the U. S. Post Offices . . . Some while back at a Spanish-American Postal Conference the franking privilege was given to participating countries on a reciprocal basis.

So when you get letters from Spanish or any Latin American embassy don't go into a tailspin because they don't pay postage . . . Remember they do the same for us.

Some Democratic Party left-wingers have been urging Eleanor Roosevelt to plug for Helen Gahagan Douglas . . . The left-wingers want defeated but not deflated Mrs. Douglas to be named one of the five alternate delegates to the United Nations . . . However, one California Republican, disgusted with the UN, quipped "Helen Gahagan Douglas named to the UN!—It's like adding a lame duck to a dead duck."

Editor of the Kansas City Star, rollicking Roy Roberts, called by many newsmen one of America's greatest living editors, rolled into town on his way back to the wide mid-West, his home and kingdom . . . Pancakes With a Double Life

Popular pancakes have won their way into all our hearts, not only as a first rate breakfast dish but for lunch and dinner, too. They've been rolled and stacked, made delicately thin and of he-man thickness, served with sweet, tart fruit sauces and creamed mixtures — and with each new recipe pancakes increase in popularity.

Here's a new version that can lead a double life, individual stacks of Cottage Cheese Pancakes with Apple Sauce. The protein-rich cottage cheese makes them a welcome luncheon main dish; the spicy apple sauce topping insures their success as a dessert. Try this variation for dessert: Make large pancakes and stack them high, spreading buttter and apple sauce between each layer. To serve, cut in wedges and top with ice cream or whipped cream.

COTTAGE CHEESE PANCAKES WITH APPLESAUCE

2 eggs
½ cup sieved cottage cheese
¾ cup thin sour cream
¾ cup all-purpose flour
½ teaspoon baking soda

Beat eggs and blend with cottage cheese; stir in sour cream. Sift flour, measure, and sift with baking soda and salt. Add to egg mixture and beat thoroughly. Let batter stand a few minutes before baking. Cook on hot, lightly greased griddle until browned, turning once. Serve hot with butter and apple sauce. Makes 10 to 12 pancakes 3½ to 4 inches in diameter.

IT'S AN INDIAN LOAF

Cream-style corn and corn meal are added to ground pork and beef for this unusual and tasty Indian meat loaf.

Chocolate Icing

One tablespoon butter, 1 cup confectioner's sugar, 1 egg, or 2 yolks, ¼ cup milk, ¼ teaspoon vanilla, ⅛ teaspoon allspice, ¼ teaspoon nutmeg, ½ teaspoon cinnamon, 3 squares unsweetened chocolate, melted.

Cream butter. Blend in sugar gradually. Add egg, milk, vanilla, spices and chocolate. Beat with rotary beater until right consistency to spread. Setting bowl in ice water will hasten the process some.

Celery Bread Stuffing For Meat, Fish Or Poultry

¼ cup drippings or shortening
½ cup chopped onion
2 cups chopped celery
2 quarts ½" bread cubes
1 teaspoon chopped parsley
1 teaspoon salt
⅛ teaspoon pepper
1 teaspoon sage
2 eggs, beaten
½ cup bouillon or milk

Melt drippings in a skillet; add onion and celery and saute' until tender. Pour over bread cubes, parsley, salt, pepper and sage. Add beaten egg and bouillon and mix well.

Yield: 1¼ quarts Celery Bread Stuffing.

Old-Fashioned Spice Cake

Three cups sifted cake flour, 4 teaspoons baking powder, ½ teaspoon salt, ¾ cup shortening, 1-½ cups sugar, 3 eggs, well beaten, 1 cup light cream, 1-½ teaspoons cinnamon, ¾ teaspoon cloves, ¾ teaspoon nutmeg, ½ teaspoon allspice, 3 tablespoons molasses.

Sift flour, baking powder and salt together. Cream shortening until fluffy. Blend in sugar and beat well. Add eggs and beat thoroughly. Add sifted dry ingredients alternately with cream, beating well after each addition. Divide batter in half. Mix molasses and spices to smooth paste. Add to half the batter. Turn into 3 greased 8-inch layer pans—alternating spoonsful of white and spice batter. Bake in 375°F. oven 20 to 25 minutes (cake when done will spring back when gently touched with finger tip and edges will pull away from sides of pan slightly). Let stand 5 minutes and turn onto cake racks to cool. When cold, frost with Chocolate Icing and a Cream Filling.

3 eggs, lightly beaten
⅓ cup brown sugar
⅔ cup white sugar
½ teaspoon salt
½ teaspoon cinnamon
½ teaspoon nutmeg
½ teaspoon ginger
¼ teaspoon cloves
1½ cups milk
2 tablespoons butter
1½ cups sieved cooked pumpkin
Extra nutmeg

Combine eggs, seasonings and sugars. Place milk and butter in saucepan and scald. Add gradually to egg mixture. Fold in pumpkin. Turn into Raisin Crust. Bake in moderate oven (350° F.) about 35 minutes or until knife comes out clean when inserted in center.

New Artificial Hands So Lifelike That They Even Have Fingerprints

LOS ANGELES.—(AP)—Artificial hands so amazingly lifelike that they even have fingerprints were described at a conference of makers of "spare parts" for the human body.

The hands, made of a new plastic are encased in soft plastic gloves which have the texture of living skin and are molded from the hands of live models.

These gloves carry fingerprints, scares or other peculiarities of the model's hands, therefore the fingerprints are registered with the Federal Bureau of Investigation. Experts can detect the difference between glove prints and natural fingerprints.

Lt. Col. M. J. Fletcher, director of the Army Prosthetics Research Laboratory, Forest Glen, Md., told of the artificial hands at a conference at University of California at Los Angeles of doctors, engineers and manufacturers of artificial limbs.

Col. Fletcher said the hands are 70 per cent efficient, as compared with 22 per cent efficiency in the best artificial hands made in 1945.

There is an automatic "clutch" which gives the amputee a finger touch so delicate that he can hold an egg without crushing it, or enough power to crack the bones in a human hand. A forward motion of the arm stump manipulates the hand.

New Oil Leases Filed In Nearby Bedford County

Evidence that there is oil or gas in considerable quantity in nearby Bedford County was shown this week when oil leases were placed on record in the court house at Bedford, Pa.

The actual results of the natural gas strike January 3 on the Jesse Miller farm near Schellsburg have been kept a closely guarded secret by the South Penn Oil Company.

Company officials have declined to say how great is the pressure of gas escaping from the well. According to rumors, the pressure is still holding steady.

The first new lease to go on record this week involved land 15 miles from the Miller farm near the Somerset county line. It was negotiated between the People's Natural Gas Company, of Pittsburg, and Frank L. Benning, of Juniata Township.

Some of these leases are held by the South Penn Oil Company, which struck gas on the Miller farm while drilling for oil.

Prompt renewal of these leases might indicate drillers have unearthed promising evidence of oil or gas, or both, observers close to the situation predict.

The South Penn exploratory well on the Miller farm is in the center of a 20,000-acre tract leased for drilling purposes.

When drilling began three years ago, the president of the oil concern informed the residents of the area that the section had "outstanding geological indications."

More people in New York City are employed in the making of dresses and associated fashion jobs than in any other job.

Foundation Head Says Polio Control 'Is Not Too Far Off'

BY ALTON L. BLAKESLEE

NEW YORK—(AP)—Control of infantile paralysis "is not too far off," Basil O'Connor, president of the National Foundation for Infantile Paralysis, says.

Research supported by March of Dimes funds has brought that day "definitely nearer than ever before," he said.

But ironically, he added, the last three years have been the worst in number of polio victims, with more than 103,000 persons stricken. The foundation, helping to pay costs of patient care, has gone $5,000,000 into debt as a new appeal for funds begins.

Since 1938, the Dimes drive has channeled $102,000,000 into helping pay the costs of caring for polio victims, $13,100,000 into research and $12,200,000 into professional education.

Thirteen years ago scientists started virtually from scratch to probe the mysteries of polio, O'Connor said. They investigated every line of approach, "like an army testing the enemy line to discover its most vulnerable points."

"Today we believe we have found vulnerable areas. Upon these spots we will train our heaviest weapons until the line cracks, or until we are sure it is impenetrable. We feel fully confident that our research efforts will culminate in control of infantile paralysis—and that that day is not too far off."

O'Connor said research now is concentrating on five main goals:

A preventive vaccine for polio.

An anti-serum to increase resistance to paralysis.

A chemical agent to prevent the polio virus from damaging nerve cells.

A diagnostic test for the disease.

The typing of all polio virus groups.

Major victories so far, said O'Connor ,include discovery of a way to grow the polio virus in test tubes containing other tissues than nerves. Another is discovery of three different groups of polio virus, and a project now is trying to classify all groups as a starter toward a vaccine. Monkeys have been protected by vaccines against one or more types of virus.

The $13 millions in research went into 805 projects carried on by 123 institutions and organizations over the nation, O'Connor said. The $12 millions for training was spent in educating physicians, nurses, technicians and others in treating polio or in working in laboratories and hospitals.

EIGHTEEN-MONTHS-OLD Connie Hughes is attended by Nurse Anne Odlivak at a Chicago hospital after a hair clip had been removed from the child's viscera by a difficult surgical operation. Matter Of Fact

(Continued from Page 4)

large build-up of forces. The conclusion is reasonable that these measures are precautionary, and that this is not a planned main axis of attack.

The shrewd attempts to split and paralyze the Western allies, plus the seeming wish to avoid any frontal onslaught, in turn imply another vital fact. Despite the vast Soviet preponderance in all ordinary forms of military power, despite the fact that Western rearmament now threatens the whole program of Soviet imperialism, the Kremlin still appears desirous of keeping out of any general war. This can only mean that the great deterrent in the hands of the Western allies—the American atomic stockpile—still retains powerful influence.

The trouble today, however, is that this deterrent is not being used to the full. Certain flank moves, such as a move against Yugoslavia, offer the Kremlin the equivalent of victory in a third world war. These flank moves involve a risk of war, but they emphatically do not involve a certainty of war. The risk can be minimized by promoting dissension among the Western allies and in other ways. That is what the Kremlin is doing now. The result is a situation which more and more constitutes an open invitation to a Soviet move in Europe, just as our past follies constituted an open invitation to the move in Korea.

But it will be very different if the invitation is withdrawn, and the masters of the Kremlin are made to feel quite sure that their country will be reduced to a sub-medieval level within a few weeks after any new aggression. To impress that conviction on the masters of the Kremlin, to do it soon and do it firmly, and thus to gain time to complete Western rearmament, is now the best and perhaps the only chance of peace.

Trucker Killed While Taking Safety Course

WINSTON-SALEM, N. C., Jan. 25 (AP)—A truck driver was killed yesterday while taking a safe driving course.

The driver, John Joseph McGlen, 40, Bluefield, W. Va., was driving a McLean Trucking Company tractor-trailer loaded with 10 tons of aluminum ingots on a brake reaction test.

Riding with McGlen in the cab of the truck was Lee C. Cooper of Winston-Salem, instructor.

McGlen had made his run and slammed on the brakes when ordered to by Cooper. The 10 aluminum ingots shifted when the brakes were applied and crashed through the plywood back of the cab, pinning McGlen to the steering wheel. He was dead on arrival at a hospital.

Flogging in the United States Navy and merchant marine was discontinued in 1850; in the Army it was abolished in 1861.

No Action Taken On Long's Request To Recall Jury

It appeared certain yesterday that the January grand jury of Allegany county circuit court will not be recalled to consider a report by John J. Long, Cumberland police and fire commissioner, concerning a recent wave of robberies in downtown Cumberland and the inability of the Police Department to secure sufficient evidence to bring about the arrest of alleged race horse bookmakers in the city.

In a letter dated January 22 and addressed to Kenneth R. Malcolm, foreman of the grand jury, Commissioner Long outlined in detail the failure of city police to secure evidence necessary for warrants to be obtained, and concluded with the following paragraph:

"If you and the grand jury would be interested in names or any other information we have, the Police Department will cooperate to the fullest extent with you."

Copies of the letter were mailed to Judge George Henderson and State's Attorney Paul M. Fletcher.

Mr. Malcolm, Barton bank official and a resident of Westernport, yesterday released the following reply to Commissioner Long:

"This is to acknowledge your letter of the 22nd inst., concerning law enforcement in the City of Cumberland, in which you make specific reference of violations of the law in North Mechanic Street, Virginia Avenue and Decatur Street. As evidenced in your letter, you are unable to get information from individuals who frequent these places in order to prosecute.

"As you also mailed a copy of your letter to Judge George Henderson, I wish to advise that I telephoned the office of Judge Henderson this (Tuesday) morning, and was informed he was in Hagerstown. However, I too, am forwarding a copy of this letter to Judge Henderson, and will hear from him in due course.

"Inasmuch as the grand jury for the January 1951 term has been excused subject to the call of the court, if, in the opinion of the court, they deem it necessary from the information contained in your letter, we await the discretion for recall.

"I feel confident the grand jury, like myself, is most anxious to cooperate in all matters pertaining to law enforcement."

Industry Seeks New Consultant Contract

The important problem of obtaining an industrial consultant for this section will be aired at an executive meeting of the Cumberland and Allegany County Industrial Development Corporation Monday at 4:30 p. m. in the Chamber of Commerce office.

Harold W. Smith, manager of the Chamber, said Richardson Wood, of Richardson Wood, Inc., New York consultants will discuss terms and a possible contract.

Richardson Wood's present contract runs out in March, Smith said, and action on a new contract is deemed necessary at this time.

The meeting will be attended by the officers and committee chairman of the industrial promotion group.

Forger Gets Year In Bedford Trial

Donald Pittman, of Breezewood, Pa., who has been indicted here on charges of forgery, was sentenced in Bedford County Pa. Court recently to not less than one nor more than two years in Western State Penitentiary on three counts of forgery.

Judge J. Colvin Wright imposed sentence after Pittman pleaded guilty to the three charges. Judge Wright also ordered Pittman to make restitution and pay costs and a fine of $25 on each charge.

A retainer has been placed against Pittman by the state's attorney's office here and after he completes his term in the Pennsylvania prison he will be brought here for trial on several forgery cases.

Pittman passed bad checks on several Baltimore Pike service station operators. A total of $123.30 was obtained through the fraudulent checks.

The Pennsylvanian was arrested in that state upon information furnished by State Trooper William F. Baker of the LaVale barracks.

Local Woman Files Suit For Back Pay

Suit was filed in Circuit Court yesterday by Mary Hite against the Reserve Life Insurance Company, a Texas firm, in which she claims $2,000 as a result of allegedly not receiving monies due for work done as an employe of the company.

The bill of complaint, docketed by Thomas B. Finan, attorney for the woman, states that in September, 1948, she was employed by the insurance firm to sell health insurance polices in Cumberland. In December, 1949, she claims that the firm persuaded her to move to Hagerstown to be manager of the company's affairs.

The Hite woman claims $1,581 is due her for expenses and $431 in fees for policies sold.

Cobey Offers Finance Plan For Local Sewage Plants

The Maryland Municipal League has received a number of suggestions for state-wide legislative projects which members believe worthy of league support, among them one from Cumberland's city attorney on a method to finance sewage disposal systems.

At a recent meeting of the league's council at College Park, W. Earle Cobey proposed that Maryland municipalities be authorized to establish sewage disposal systems and to finance them on a revenue bond basis with the cost being paid from the sewer charges to the users.

Cobey's proposal continued, according to minutes of the meeting, that because of state pressure on municipalities to do something about sewage treatment and in view of the limited financial resources of the municipalities, such legislation would seem worthy of consideration.

Could Benefit City

Cumberland could reap benefits from such a plan it is claimed. The Water Pollution Commission has ordered the city to set up a disposal plant and plans for such a project are underway.

Mayor Thomas S. Post said yesterday morning that Robert T. Regester, Baltimore engineer, is compiling plans for a plant here and some report should be forthcoming in the near future.

It is estimated that the disposal plant will cost from $800,000 to $1,250,000, the Mayor said.

At the same meeting, Commissioner William H. Buchholtz, a member of the league council, was named a member of the group's Legislative Committee.

To Contact Legislature

The committee will serve the purpose of contacting leaders in the legislature at Annapolis on proposals believed pertinent to municipalities. The league previously had proposed to hire a lobbyist but considered the cost prohibitive.

Members of the committee are to be present at Annapolis when needed, and the group as a whole was empowered to convene a meeting of the council when necessary.

Buchholtz, vice-president for the league's District 6, will also serve as membership campaign captain for his area under a plan adopted by the council. Buchholtz is to name a committee from personnel in the district.

Fletcher To Attend Prosecutors' Meeting

State's Attorney Paul M. Fletcher is planning to attend a meeting of the Maryland State's Attorneys Association at the Hotel Emerson in Baltimore on February 2.

The meeting has been called by J. Bernard Wells, former Baltimore prosecutor and retiring president of the association, to consider legislative matters before the General Assembly and determine what bills they will support and oppose.

New officers of the association also are due to be elected.

Lashley To Graduate

Ralph E. Lashley, Jr., son of Mr. and Mrs. Ralph E. Lashley, 622 Camden Avenue, will be graduated from West Virginia Wesleyan College in winter commencement exercises Sunday at Buckhannon.

Lashley will receive his degree in absentia as he is serving in the Navy.

Story Has Happy Ending; Pet Parakeet Returned

The story has a happy ending!

The reunion of Pete, the pet Parakeet of 14-year-old Tommy Reinhart, and his young master was a happy one indeed when the straying bird was returned to the Reinhart household Tuesday morning after the parakeet has been missing for three days.

Pete had flown from the house Saturday while playing with Tommy and had been missing until Mr. and Mrs. Thomas A. Reinhart, Tommy's parents, began receiving telephone calls from residents in Ridgeley, W. Va., stating the little blue-colored bird had been seen in the vicinity of the West Virginia town. Tommy and his young 4-year-old brother, Michael, had been heartbroken at the loss of the family pet.

However, Tuesday morning, after Tommy had gone to school Mr. Reinhart and Michael made a trip to Ridgeley and identified the bird which had been cared for by a family there.

Michael was very excited when he and his father returned home, Mrs. Reinhart said, and exclaimed "It's Pete, Mommy, it's Pete."

When Tommy got home from school Tuesday evening the reunion was complete. "Even the other birds and Flip, our dog, seemed glad Pete was back," Mrs. Reinhart related, adding that "without the story written in Tuesday's Cumberland NEWS we probably never would have found him again. We are very grateful for the publicity and cooperation we received from the paper in our search for Pete."

The Reinhart home at 11 South Lee Street has two other parakeets, the dog, and many tropical fish as pets and Pete's loss had been a blow but his return gave the story a happy ending, after all!

This is the second time this month a NEWS story has resulted in the return of a family pet to a youngster who adored it.

A blue Maltese cat named "Whizzie" was returned to little three-year-old Donna Lee Metz, daughter of Mrs. Harold Metz, McMullen Highway, near Dawson, several days after the story of its disappearance New Years Day was printed in the morning paper.

Pulp Shortage Cuts Amcelle Production

H. C. Givens, Jr., plant manager of the Celanese Corporation of America operation at Amcelle, said yesterday that the shortage of wood pulp has been greater than anticipated and production at the plant here has been cut about 14 per cent.

When the shortage first developed some weeks ago the production cut was estimated at between five or six per cent.

Givens said that the company has been following a share the work program, but that some furloughs may be necessary.

Judges, Lawyers Attending State Legal Parleys

Associate Judges George Henderson and Morgan C. Harris and a number of Cumberland attorneys are expected to be in Baltimore today and tomorrow attending annual meetings.

The jurists have been invited by Chief Judge Ogle Marbury of the Maryland Court of Appeals to attend the annual meeting of the Judicial Conference at 10 a. m. Friday at Sheraton-Belvedere Hotel, Baltimore. The operation of criminal rules and advisory instructions in practice in criminal courts of Maryland and how the proposed constitution amendment, if passed, will affect present rules with respect to advice instructions will be discussed, according to Judge Marbury. The judges' annual dinner will take place at 7 p. m. today.

Meanwhile, lawyers from here will attend the one-day conference on the Program of Continuing Legal Education, sponsored by the Maryland State Bar Association, also in the Sheraton-Belvedere Hotel.

A feature of the conference will be a mock trial from 2 until 4 p. m. involving an equity case with emphasis upon equity rules of practice and procedures. Attorneys William A. Gunter and William C. Walsh from Cumberland will participate in the mock trial. William L. Wilson, Jr., is a member of the State Bar Association's Committee on Continuing Legal Education.

Court Invalidates

(Continued from Page 36)

"We cannot require anyone to admit that he is guilty of sedition. We must prove such guilt in accordance with our laws.

"It will undoubtedly appear paradoxical to some that the provision against self-incrimination should be invoked in favor of two men who had already publicly stated they were members of the Communist Party. But we, as Judges, must pass on the validity of the ordinance with reference to its general application and effect, not merely with reference to Schusterman and Coleman.

In their defense, Coleman and Schusterman were represented by four Baltimore attorneys, I. Duke Avnet, Harold Buchman, Mitchell Dubow and William H. Murphy. City Attorney W. Earle Cobey was aided in the prosecution by C. William Gilchrist and Louis Fatkin.

Coleman and Schusterman both have announced that they have resigned from the Communist Party.

Placards Placed On Dump Areas

Placards are being placed on all dump areas along Allegany County highways, J. B. Dowling, city health inspector of the county health department, said yesterday.

The placards are being placed to stop a wave of dumping trash and refuse along the public highways and creating an eyesore along most of our county roads, Dowling related.

"No dumping on these premises by order of the Health Department" is the warning placed on the signs and approximately 20 have been placed at various dumps, the inspector said.

About 100 more signs will be placed before all the dumps have been posted, Dowling reported.

Dr. Winter R. Frantz, county health officer, announced the department is still considering offering a reward for information that results in the arrest and conviction of any person violating the notice.

Rabbit Trapping Plans Completed By Sport Group

Traps To Be Set On Porter Game Refuge

FROSTBURG—Plans for trapping rabbits, scheduled to begin Thursday, February 1, were completed at the meeting of the Eckhart Square Circle Sportsmen's Association Tuesday night at the club house in Eckhart.

Traps will be set on the Porter game refuge as the trapping gets underway February 1. In past years, an officer of the club said, hundreds of rabbits were taken from this refuge and distributed on "overshot" areas. This area has recently been supplied with one dozen quail by Game Warden Joseph Minke who reports that they appear to be thriving in spite of the heavy snows.

The club is cooperating with the State Game Commission in an effort to trap as many local rabbits as possible. The commission in a recent bulletin stated that the importation of rabbits is practically out of the question due to the quarantine against bubonic plague, and that native rabbits, trapped where they are not wanted and released in suitable cover, should do much to improve hunting.

The Eckhart Club will hold a ham shoot Sunday at 1 p. m. Both 12 and 16 gauge matches will be held.

The business meetings of the club are held monthly on dates announced in the newspapers and are open to the public, Vice President Ralph Harvey said.

Newly elected officers of the association were in charge of Tuesday night's meeting. They are Charles Porter, president; Ralph Harvey, vice president; Richard Watson, secretary; Harold Holsinger, treasurer; Aaron Snyder, Benjamin Ort and Joseph Huber, trustees, and Ralph Harvey, publicity agent.

Woman Receives $2,500 Verdict

KEYSER, W. Va.—Mrs. Lillian F. Wagoner was given a verdict of $2,500 by the jury that heard the condemnation suit brought by the Potomac Light & Power Company, after deliberating about an hour and a half Thursday in Mineral County Circuit Court.

The action followed the filing of a commission's report on condemnation of property on order of the power company, in which the company would pay Mrs. Wagoner the sum of $530 for damages to her property along Pattersons Creek, the property later used by the power company for a continuation of a new high tension power line over the property.

Mrs. Wagoner refused to accept the commission's offer for a right of way, claiming that it had ruined her property of 26 acres which she said she had surveyed and laid out in large home site lots, five of which were promised for sale and another that had been sought at the time of the power company's alleged interference. This caused return of money in down payment on the lots to the persons who wanted to buy lots to build homes, she said in court, and resulted in a big loss to her.

Loud Shirts And "Tall Stories" Mark Meeting

KEYSER, W. Va.—A novel entertainment calling for member participation was presented at the dinner meeting of Keyser Kiwanis Club Wednesday evening in the dining hall of First Methodist Church.

As a result of the program, it was disclosed that few members of the club would ever be able to join any of the "Liars' Clubs" scattered around the country. Carl Peterson, program director, had two "musts" for the entertainment part of the program, one being that each member must wear a "loud" shirt, and each member must tell a "tall story."

Following the dinner and business session, shirt inspection was called for and four members fined and punished for lack of "color" in their shirts. The story-telling followed with the prize for the best "tall story" going to Richard (Dick) Davis.

Director Peterson announced the birthdays of members for the month, as one of the club's features. One new member was received.

The club's weekly bulletin will come out next week under its new name, selected by vote from suggestions by the members.

Teachers Study Use Of Sodium Fluoride

KEYSER, W. Va. — The elementary school teachers of Keyser held a meeting recently to familiarize themselves with the sodium fluoride treatment of teeth to lessen the chance of decay. S. T. McGee, principal of Keyser Elementary School, explained the kits that will be given to each teacher. A mimeographed copy of all information will be distributed soon to parents.

Dr. Bruce Snider, secretary of the Upper Potomac Dental Society, answered two questions which parents have asked. "The two per cent solution of sodium fluoride can be compared to iodine which, if taken internally, would be fatal, but if applied to the teeth in small applications has no ill effects," he said. The second question applied to the amount of fluoride in Keyser water, and Dr. Snider, quoting Dr. N. H. Baker, health educator of the West Virginia Health Department, Charleston, said the local water contains no fluoride.

Before children can have their teeth treated at the demonstration, which tentatively has been set to start the last week in January or the first week in February, parents must sign consent blanks.

He Just Wanted To Fill Simple Job; Now Look At What His Ad Started

By SAUL PETT

NEW York—(AP)—The last thing G335 wanted was to stir up an uproar or pose a national problem or be called names.

All he wanted was to hire a messenger, someone unlikely to be drafted. So he places an ad in the New York Times.

"And now I almost wish I hadn't," said G335, who is a department head for a large New York firm. "I wish I was in Korea. Anywhere but here. They're throwing rocks at me for a problem I didn't start."

The ad appeared Jan. 14. It said: "Messenger, 40-hr., 5 day, $34, steady. Prefer retired man bet. 45-65. G335 Times."

The response was pitifully large. More than 250 older men were ready and anxious to work for $34 a week delivering messages. Many had retired on set incomes or pensions which they now needed to implement because of inflation. Many were unable to find jobs because of their age.

"Honest," said G335, "I thought if six or seven men answered the ad I'd be doing good. But not this avalanche. It scares me to think so many men of that age need this kind of money.

"Some of them even offered to work for $30 or less. And when I saw some of the applications, I felt terrible. There were ministers, and teachers and other college graduates all ready to work for $34 a week."

After studying the applications, G335 called in three men. One failed to show up. The second, a retired city fireman, made a good impression and eventually landed the job at $34. The third man didn't measure up.

"I gave him a buck for his trouble," said G335, "and told him I'd try to place him with a friend of mine. But I can't do anything for the other 247 guys. Can you?"

Among them were 25 retired firemen and policemen, including several officers, 20 former postal employes, dozens of ex-civil service employes, a retired Army master sergeant, partially disabled veterans, a former European manager for a motor firm, a former chemist, and two men who used to own their own grocery and real estate firms.

But the flood of applicants, which stirred up G335's conscience, wasn't the end of his troubles. The Times also received approximately 100 phone calls and letters, ranging from calm offers to help the surplus applicants to enraged statements about the general problem of employment for people of advanced age.

A steamship executive said anyone who would ask a man over 45 to work for $34 a week is a "pious, hypocritical old ghoul."

Such a person, the correspondent continued, "is living on human flesh. He is trying to wring out all that is left in the human soul by hiring old-age people at subsistence wages as he will not pay the going rate."

A woman called for a state investigation. All the blame, she said, lies with employment agencies. She said they screen all applicants and turn away all the older ones.

Another man of 52, an unemployed display manager, wrote:

". . . The main reason for such a disgraceful vacuum is the undisputable fact that the labor market is looked upon as an unsentimental hunting ground for the employers' self interest. After squeezing out the best years of our lives, one gets the pink slip and then—one is too old.

". . . I have won 18 national prizes but I am a has been. I can't get a job despite my background. I'm over 45. Well, shall we sit tight and hope and pray that about every five years we shall be engaged in some sort of war economy . . . so that we the has-beens may have a chance to work again?"

"Honest," moaned G335, "All I was trying to do was fill one simple job. Look what I started."

AHS-Fort Hill, Moorefield-Ridgeley Top Tonight's Card

Sentinels, Yellow Jackets Defend Long Win Streaks

Contest Here Is 31st In Series; Piedmont High Plays LaSalle

Leading contenders for the W. M. I. League and Potomac Valley Conference basketball titles will tangle tonight when undefeated Fort Hill High School plays host to Allegany High and Moorefield's Yellow Jackets, victorious in nine games, do battle with the Ridgeley High Blackhawks at Ridgeley.

Fort Hill is in the same position it was last year when it met AHS in the opener of their series. In 1950, the Sentinels had won 12 straight and had extended their two-year string to 25 games when the Campers barged into the picture and took a 37-36 decision at the Fort Hill gym. AHS also annexed the second game at Campobello, 43-35.

Coach Bobby Cavanaugh's team goes into tonight's crucial battle with a 4-0 record in the W. M. I. League and a 10-0 mark for the season. Allegany has a 3-1 league record and an overall five wins and six losses.

31st Game Of Series

Tonight's game is the 31st of the series between the city schools. Allegany holds a 20-10 edge in victories.

Van Roby and Eddie Diehl will officiate. The game will get under way at 8 o'clock.

In other league games on tap tonight, Beall plays in Barton and Central meets Bruce in Westernport. Bill Hahn and Jack Bittner (Johnstown, Pa.) will work the game on the Bruce court while Bob Pence and Bob Farny will do the whistle-tooting in Barton.

Seeks 10th Straight

Moorefield will be angling for its 10th straight win in the P.V.C. when it tackles the Blackhawks in Ridgeley tonight at 8. Ridgeley has a 5-1 record in the 17-team circuit and might make it interesting for the Hardy County quint. Moorefield's overall record is 11-1 and Ridgeley's 7-3.

Two of the conference's top scorers will tangle in this game. George Fisher of Moorefield has 165 points to his credit and Carl Hartman of Ridgeley has collected 151.

Other P.V.C. games tonight are Romney at Fort Ashby, Petersburg at Keyser, Franklin at Wardensville and Bayard at Elk Garden.

Piedmont At LaSalle

Coach William "Huck" Miers brings his Piedmont High Lions here tonight to play LaSalle's Explorers on SS. Peter and Paul court at 8 o'clock. It will be the locals' 12th contest of the season, six of the 11 games to date being victories. Piedmont has won four and lost seven.

Homer Fizer's University High cagers of Morgantown will play at Parsons High School, Berkeley Springs at Paw Paw, Davis at Green Bank, Kitzmiller at Oakland, Thomas at Circleville and Capon Bridge at Musselman to round out tonight's high school schedule.

Potomac State Home

Westinghouse Apprentice of Pittsburgh is carded to play Potomac State School at Keyser tonight at 8 o'clock. It will be the Catamounts' 14th game of the season. Coach Dana Lough's floormen have won eight and lost five.

Ball Retained By Washington

Expresses Confidence He Can Have Winner

WASHINGTON, Jan. 25 (INS) — The Washington Redskins pro football team rehired Herman Ball as head coach today despite his 1950 record of three wins and nine losses.

There had been speculation that Ball, former Cumberland high school coach, might be replaced. The Redskins ran into a disastrous regular season after winning all of their exhibition games.

A spokesman said, however, that Ball had the backing of an "overwhelming number" of season ticket holders and the unanimous support of the players.

Moreover, he added, Ball asked for another chance and expressed confidence that he can produce a winning team. Ball was promoted from line to head coach in 1949 succeeding Vice Admiral John E. Whelchel, USN, (ret.), whose contract was cancelled by mutual agreement.

Joe Louis' Attorney Files Answer To Suit

MIAMI, Fla., Jan. 25 (AP) — Former heavyweight boxing champion Joe Louis said today he had "no comment" on the $100,000 damage suit filed against him by a 25-year-old negro woman who charges the boxer hit her July 4 in a Cleveland, Ohio hotel room.

Louis, in training here for the Omelio Agramonte match Feb. 7, referred any reply he might have to his New York attorney, Sol Straus, who already has filed an answer to the suit in court.

He said he had nothing to add to that answer.

Plaintiff in the Supreme Court damage suit is Odessa Calloway, who alleged that Louis "violently and in a brutal manner, assaulted, struck and beat me about the head, face, body and limbs without provocation."

Ben Hogan Leads Field Of 125 In Phoenix Tourney

Posts 6-Under-Par 65, Leads By One Stroke

BY JACK STEVENSON

PHOENIX, Ariz., Jan. 25 (AP)—U. S. Open Champion Ben Hogan came back to competitive golf after a six months layoff today and promptly paced the 125 man field in the first round of the $10,000 Phoenix Open.

Hogan putted his way to the fore on the final hole with a 45 footer for an eagle three and a six-under-par 65.

It was a whirlwind finish for a man named golfer of the year in 1950, but who hasn't played competively since the Motor City Open in Detroit last July.

One stroke behind the champion were Lawson Little, former U. S. Open titlist from Monterey, Calif., and Chich Harbert of Northville, Mich. Harbert had a couple of long putts also.

He dropped one from 25 feet away and then watched one fall in from 50 feet on the next hole.

Jimmy Demaret of Ojai, Calif., turned in a disappointing four-over par 75 as he started after a third straight victory here. Dr. Cary Middlecoff of Memphis, Tenn., winner of last week's Long Beach Open, was also over par with 73.

Lloyd Mangrum, winner of this year's Los Angeles Open and also former U. S. Open champion, played with an aching back, but finished in a three-way tie for fourth place with 67.

Tied with Mangrum were Julius Boros of Mid Pines, N. C., and Johnny Bulla, who lives in Phoenix but plays out of Verona, Pa.

At 68 were Jack Burke, Jr. of Houston, Tex.; Charles Bassler, Catonsville, Md., and Ed Furgol of Royal Oak, Mich.

Marty Furgol of North Hollywood, Calif., no relation to Ed, was with six others at 69 as a total of 28 golfers broke the par 36-35—71 for the 6,698 yard Phoenix Country Club course.

Others with Marty were Jimmy Thomson of Chicopee, Mass.; Jim Ferrier, San Francisco; Emery Zimmerman of Portland, Ore.; John Langford, Portland, Ore.; Zell Eaton of Monte Bello, Calif.

Good News To Anglers

By C. V. BURNS

Irvin "Irish" Alexander of Lonaconing and Baltimore, who has donated cash and merchandise prizes and trophies to high school athletes and players in district sandlot baseball league in past years, called by phone from the Monumental City to offer a reward to the lad winning the batting championships in the Little League next summer.

The offer is a trip to Baltimore with all expenses paid, tickets to a professional football or baseball game of the boy's choosing and a 10-minute interview on the Baltimore sports Parade which is on TV. Alexander will pay every cent of the expense.

"Irish" is hopeful that the Cumberland Dapper Dan Club, sponsor and organizer of the Little League, will accept this offer.

Kansas City Quits

KANSAS CITY, Jan. 25 (AP)—The Kansas City Hi-Spots of the National Professional Basketball League, have called it quits.

Coach Gene Kurash announced that the club would play no more games here, but the franchise might be transferred to Marion, Ind.

"We tried every way possible to keep the team here," Kurash said, "but it was just an impossible task."

Two Iowa Players Suspended For Delivering Parlay Cards

Green, Ruck Promised Fee For Work; Case To Be Investigated

IOWA CITY, Ia., Jan. 25 (AP)—Two Iowa U. varsity basketball guards were barred from intercollegiate competition today for delivering parlay cards to Davenport, Ia., last week.

Head Basketball Coach Rollie Williams disclosed that the men, Herald (Skip) Green and Fred Ruck, had been contacted by the Iowa City representative of a Chicago group which originated the gambling cards and asked to act as "delivery boys" to take them to a Davenport tavern operator.

Officials said the two players were suspended until investigation of the case could be completed and a final decision reached. Ruck and Green have been the guards in Iowa's starting lineup most of the season.

Williams said the two, both former Davenport High School athletes, "agreed innocently" to deliver the cards. They were promised a fee for the work.

But Athletic Director Paul Brechler said he didn't think the boys collected any money.

"The boys made a bad mistake. They forgot to think. That's all" he said. "But they were involved in transporting only. There was no attempt to fix a game nor influence the outcome of a game."

He discounted any connection between the incident and recent gambling exposures in the east.

To bet with a parlay card, you select a number of teams from those listed, with odds specified on the card, and collect if all your picks—three, five, or up to the maximum allowed—are winners.

The card distributor is favored by the points listed and games selected. If you put your money on the favored team, it must win by the points listed before you click.

On the Iowa-Illinois game last week, the parlay card favored Illinois by 10 points.

Ruck and Greene played part of the game in which Iowa lost to Illinois 69-53 at Champaign last Saturday night.

Both players turned out for practice with the varsity yesterday and Brechler said the pair would be permitted to continue practicing with the team.

Iowa's next game is not until Feb. 2 against Missouri at Iowa City.

Both boys were described as deeply remorseful. Only one delivery of the cards is involved.

In Des Moines, Iowa, Attorney General Robert L. Larson, who has been leading a statewide anti-gambling campaign, said there is nothing illegal in parlay cards themselves. He said they become illegal only when used for betting.

Cited For Contempt

PHILADELPHIA, Jan. 25 (INS)—A racket-probing federal grand jury today cited boxing promoter Frank (Blinky) Palermo for contempt.

Palermo, who appeared before the jurors as a witness, was charged with making replies which were "wilfully, deliberately evasive, irrelevant and impertinent . . ."

They said he answered several questions with:

"I filed my income tax for 1950."

Paul J. Gallen Elected Head Of Cumberland Dapper Dans

Four Teams Added To Little League

Paul J. Gallen was elected president of the Cumberland Dapper Dan Club at the annual meeting of the organization last night at the Knights of Columbus Home.

Gallen succeeds William V. Keegan, who served as president for the past year, and automatically becomes chairman of the executive board for 1951.

James Wilt was elected vice president and Harold J. "Hank" Rosenmarkel was named secretary-treasurer.

Other members of the executive board headed by Keegan are Albert S. Paye, Joseph K. Mooney, Willard Morrissey, Paul M. Fletcher, Peter J. Carpenti, Christ G. Charuhas and Alex J. Shute. Honorary members of the executive board are Charles Z. Heskett and David Kauffman.

The membership unanimously endorsed Daylight Saving Time for Cumberland and urged that it be submitted to a referendum.

Four teams will be added to the Little League this year, increasing the number of teams in each division (Dapper and Dan) from four to six teams. The 1951 league champions will be entered in the regional tournament, it was announced.

The club was authorized to send a telegram to Herman Ball, congratulating him on his reappointment as coach of the Washington Redskins.

Doubleheaders featuring Little League and Hot Stove League teams were proposed for the 1951 season and met with the approval of the membership.

The Dapper Dan Club's annual banquet is set for Sunday, February 25, at 6 p. m., at the Knights of Columbus Home. Tickets may be procured at the Wilson Hardware Company, Nu Way Shoe Shop, Sport Shoppe, Galen's Tavern or from any members of the executive board.

Have you noticed what Carver High School has been doing in basketball this season?

LaSalle beat Allegany, 35-34.

Berlin (Pa.) High School edged LaSalle here, 47-45, in an overtime period.

Then Coach Crawford took his Frederick Street schoolboys into Pennsylvania and hung it on Berlin by the margin of 20 points—66 to 44. Wow!

Two colleges and approximately 30 high school boys' teams of the tri-state area file reports on their games with the Times-News and the only girl reporter is Esther Lechliter who does a commendable job for Fort Ashby High's quint.

West Virginia University's freshman cagers have scored over 100 points in four games and three were with Potomac State and Frostburg Teachers' College.

The Little Mountaineers whipped Frostburg 104-47 and 112-67, Potomac State 111-87 and Wash-Jeff frosh, 110-107 and have a 7-0 record.

Eddie Becker, brother of Gerald "Gee" Becker, top scorer in the All-American League with Wheeling last year, is the team's high point man with 172.

Coach Barnette's outfit has rolled up 670 points for the phenomenal average of 95.7.

The monthly news flash of the Maryland Game and Inland Fish Commission, reports that under the new angling regulations, now in effect, there is no statewide closed season in non-tidal waters on carp, crappie, eels, fall-fish, all species of sunfish, suckers and white or yellow perch.

All fishing is prohibited in the waters of Deep Creek Lake during May and June.

The bass season in this section of the state opens July 1 and closes November 30. The open season on all species of trout is April 15 to July 15. The catfish season in Western Maryland opens February 15 and closes November 30.

Texas Wesleyan College was scheduled to play St. Francis College of Loretto, Pa., last Sunday at the War Memorial in Johnstown but the game was postponed until Monday at Loretto because the Texas team refused to play on Sunday. St. Francis won by the score of 86 to 61.

Noting a few sport slang expressions in this column several days ago, a baseball fan told us he was familiar with all of those but Dick Smith and a can of corn.

Dick Smith is a player who keeps to himself and never treats while a can of corn is a high, lazy fly.

We might toss in a few more for good measure:

Rubber Bat—Bat used by one who gets a lot of fluke hits.

County Fair—Grandstand player.

Line Drive To Catcher—Missing third strike.

Pretty—A player easily injured.

Goal Tender—Good waiter at plate who offers at no bad balls.

A La Carte—Playing the ball with one hand.

Uncle Charlie's Got Him—He can't hit a curve.

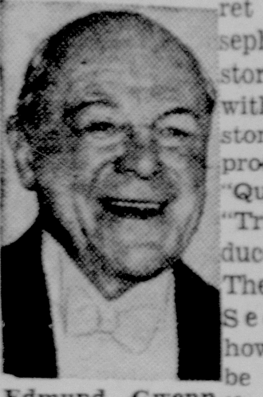
KEEPING UP WITH HOLLYWOOD

By LOUELLA PARSONS

HOLLYWOOD, Jan. 25.—(INS)—Some of the Huntington Hartford A&P fortune is going right into a motion picture to be made at the Nassour Studios starting almost immediately.

I talked with Huntington, and he tells me that he will use "The Secret Sharer," Joseph Conrad's story, combined with two other stories and will produce them as "Quartette" and "Trio" were produced, in episodes. The title, "The Secret Sharer," however, will not be used even in the Conrad sequence.



Edmund Gwenn

Hartford has signed James Mason and Michael Pate, Australian actor who came here for "Bonaventure," as the stars for the Conrad episode, and John Brahms will direct them. It's about an 18th century clipper ship, and has plenty of melodrama and action as have all of Conrad's sea epics.

•—•—•

Here's good news for all of Edmund Gwenn's friends and admirers. He is not only on his feet and feeling well, he gets one of the top roles in "The Peking Express" for Hal Wallis. This will be the first time in over a year that Teddy, as his close friends call him, has played a heavy dramatic role. He usually goes in for comedy-drama.

The other stars in this exotic melodrama are Joseph Cotten and Corinne Calvet. But I am serving warning on them that that old scene stealer, Teddy, will give them plenty of competition.

Anita Loos left for New York Wednesday—sitting on top of the world. She has had three wonderful offers for "Gentlemen Prefer Blondes."

"But we don't have to be in a hurry about any deal on 'Blondes' because it cannot be made into a motion picture until 1953," said Anita.

"Paramount owns 14 per cent of our play, having made it in its silent day, but it seems unlikely that Paramount will buy it. Harry Cohn wants it for Judy Holiday, and she would be terrific. Darryl Zanuck wants it for Betty Grable, and she would be ditto. Then one of the other companies is interested in getting it for Carol Channing, but it looks as though Carol, who is booked for 1953 with the play, will still be on tour with it."

Humphrey Bogart and Lauren Bacall (Mrs. B. to you) have been taking yellow fever, cholera, typhus and what-have-you shots in preparation for their trip to Africa.

Bogey told me he and Baby leave here March 1 and sail on the Liberte for Africa where he and Katharine Hepburn will co-star in "Africa Queen." John Huston and Sam Speigel take off immediately to scout locations in Kenya.

Bogey says they are not taking their little son, Stephen, because he is afraid the cannibals might eat him!

"But we do not want to be separated from him all the months we will be away," said Bogey, "so we are having him meet us in London when we return there."

Snapshots of Hollywood collected at random:

Peggy Ann Garner's pals say she'll announce her plans to marry Richard Hayes before Valentine's Day.

Mario Lanza has been at the desert retreat in Palm Springs recovering from a recent illness, but also to take off weight.

Paul Louis Weiller, who bought Lady Mendl's Versailles chateau, will sponsor the exploitation of Tony Duquette's paintings in Paris. Tony, a well known Hollywood interior decorator, had an exhibition which was attended by Mrs. David Bruce, our American ambassador's wife, and many others.

Patrice Wymore, Errol Flynn's bride, returned with shoulder-length hair, and says she's going to keep it that way.

Bob Stack is off for New York to appear in "The Broken Dishes" on the Pulitzer Prize Playhouse. The playhouse just won the TV award for the finest dramatic presentations of the year.

Perc Westmore is fighting the demon flu. He's down with virus and has been bedded all week.

John Agar Mocamboing with Wendy Waldron, pretty red-head, and John wasn't drinking anything stronger than ginger ale.

Stan Laurel is back on his feet and has gained ten pounds. He's returned to picture-making in Paris.

Jackie Westrope and Terri Terry, tall, statuesque blonde who towers over him, a Windsor duo.

Gail Robbins has named her new baby Victoria in honor of Victor Young, who gave her her first job.

That's all today. See you tomorrow!

GI Calls Home, Then Kills Self

NEW ULM, Minn., (AP)—"I want to talk to Georgia; she can take shorthand," the voice on the telephone said.

So 17-year-old Georgia Karstad took the phone and copied in shorthand what her brother, Pvt. Lester O. Karstad, 19, had to say. He had been missing since leaving a 47th Division unit waiting for a train to take it to Camp Rucker, Ala., for training.

Georgia scribbled in shorthand:

"I have a good home and parents, but I am not going to wait and get tortured in any war or get killed right away. I don't believe in suffering.

"I am going to kill myself in a comfortable way that I won't have to suffer xxx."

Mrs. Ed Karstad took the phone and pleaded with her son to come home.

Later, a snowplow crew came upon a parked car in a rural area ten miles north of here. A hose went from the exhaust pipe through a window of the car. Pvt. Karstad was in the driver's seat—dead.

Area Rabbit Traps Are Being Stolen

Regional Game Warden Joseph A. Minke said yesterday a numbe of rabbit traps being used in the Cumberland area to snare rabbits under the State Game and Inland Fish Commission on program have been stolen.

Youths of the area have been trapping the rabbits for redistribution in woodland sections. The boys are paid 75 cents for each rabbit. Only those boys who obtain permission of Minke or other game wardens are allowed to trap the rabbits.

If any of the state-owned traps are found in the possession of or operated by unauthorized persons they will be prosecuted.

Radio And Television

By JOHN CROSBY

For Scholars Only

SCHOLARS of television history, a small but enormously erudite bunch of hard-drinking intellectuals, will never forget December 4, 1950. It dawned clear, bright and cold and somehow in the very air you could detect the odor of history about to be made an acrid smell if you've never noticed. December 4, 1950, is the day television's first soap opera, "The First Hundred Years," went on the air, thus instantly taking rank among historic dates somewhere between the fall of the Bastille and the death of Charlemagne.

John Crosby

"The First Hundred Years" is an apt title for a soap opera, each of which is designed to run at least that long, though of course, it refers to the first hundred years of marriage as being rather more trying than the next hundred. In soap opera, marriages, though fraught with every sort of peril from mothers-in-law to flirtations, endure for centuries. The particular marriage commemorated in this epic is that of Chris and Connie Thayer, a couple of misty-eyed youngsters whose wedded life is already beset by extraordinary tensions.

* * *

For one thing, Connie's mother-in-law, a flibberty gibbet, lives across the street, which will lead to endless trouble. Chris' in-laws live nearby. Across the street from them lives Scott Blair. Any student of soap opera will tell you that a man with a name like that is up to no good. The moment he walked on to my screen I distrusted him. Sleek good looks, curly hair and a moustache — obviously a scoundrel. He's a writer, too, and you know what those people are like.

One of the more striking characteristics of any soap opera is the pace of its plots, which are about half the speed of an aging snail. In his exhaustive treatise on the subject in "The New Yorker," James Thurber mentioned several specific examples of just how slow the action is in soap opera. In one case—if my memory is at all accurate—a man clambered into a barber chair to get shaved on Monday and hadn't even been lathered by Friday.

This tradition of slowing time almost to a halt is being nobly perpetuated in "The First Hundred Years." Two weeks ago, for example, the denizens of this opera started getting ready for a dance at the country club, a relatively simple operation anywhere except in soap opera, where tying a black tie can take quite awhile. They finally got to the dance last Monday. Elapsed time: eleven days. Getting them out of the country club is another matter. That may take up the rest of the winter.

* * *

Last week one day's plot consisted entirely of Connie and Chris getting into a spat over a girl he once knew named Mildred. Mildred crept into the discussion because Chris said she liked a song they were dancing to. Connie took umbrage and fled to her mother's house. The next day's episode was largely devoted to Connie telling her mother what Chris had said about Mildred, just in case anyone had missed it the day before.

Another soap opera tradition carried forward on this program is that of giving the listener the minimum of plot and the maximum of commercial. "The First Hundred Years" opens with an extensive paean to Tide, a detergent, set in prose and in song and including both live action and cartoons. This elaborate operation takes about three minutes. There is a reprise just before closing. Altogether, this leaves about ten minutes to investigate the marital woes of Chris and Connie.

* * *

To be quite fair to the show, there has yet been little of the mood of sustained anxiety which is both the curse and stock in trade of heroines are perpetually on the brink of losing something valuable—their careers, their husbands, their homes, their virtues—to list them more or less in the order of their soap opera importance. Chris and Connie are relatively free of worries so far but I wouldn't bank on their continuing to be for long.

About the only other thing to tell you about this historic show is that it is set—according to a press release—in a middle-sized town "somewhere east of the Rockies and west of the Alleghenies"—which takes in an awful lot of real estate. The lead on this press release, incidentally, is a classic of press agentry. "Television, the young giant, reaches maturity with the start of a new day-time dramatic serial show . . ." Reaches what?

BARCLAY ON BRIDGE

By Shepard Barclay
"The Authority on Authorities"

BEATEN AT THE OUTSET

PLAYING to the opening trick, without first sizing up your entire problem, can sometimes cause your contract to be beaten at the very outset. Two steps should always be taken by a declarer before he acts at all. After seeing the opening lead and the dummy, he should figure out what has to be done to win the necessary number of tricks or—which in the net is the same—to limit his losing tricks to the number he can afford. Next he should take careful note of the assets he has to accomplish his task. Important in this part is the counting up of needed entries into his own hand or the dummy.

Little did South sense it at the time, but he beat himself by his play to the opening trick. West led the heart 4, on which the 7 was played from dummy, East coming up with the A and South making the "natural" play of the 6. That play ruined him.

Before making it, South had gone through one of the standard processes of a No Trump game declarer, counting up the tricks he expected to win. He noted two in spades, two in clubs, one certain in hearts, so that four in diamonds would give him success if the finesse was on and the suit divided no worse than three and two in the defenders' hands.

East returned the heart 3 to the second trick, the 10 forcing the Q and the 2 coming back to the K. Now South went to dummy with the spade K and successfully finessed the diamond Q. Noting that he had no dummy entry left to repeat the finesse, he had to try to drop the K with the A. When that failed, he had no earthly way to win, so was a victim of his own initial error.

Simple study would have shown him that playing the heart K under the A on the first trick would not have cost him a trick. It would merely have placed him in position to have a sure heart entry to the dummy. That would have enabled him to finesse diamonds twice and so make his contract.

DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

BVHYK SMPTE YKT SMF, MFR BMFY VG LY, YKT GTWWVB—UVUT.

Yesterday's Cryptoquote: THEIR NAMES, UNSUNG, UNWEPT, UNRECORDED, LOST AND GONE, LONG IN ENDLESS NIGHT HAVE SLEPT—SWIFT.

MIRROR OF YOUR MIND

By LAWRENCE GOULD
Consulting Psychologist

May pride take the joy out of life?

Answer: Yes. The false pride that expresses an inflated "ego-ideal" is one of the most effective of all joy-killers. If your underlying self-doubt makes you afraid to do anything "undignified," or associate with people you consider your social inferiors, you will miss a lot of good times, and get no real satisfaction in return. For pride of this sort, having no solid self-confidence behind it, brings no lasting feeling of security, and the higher you build up the "front" it prompts you to put on, the shakier it becomes.

May a philanderer be an "idealist"?

Answer: In a sense, yes. There are men who think that what makes them keep flitting from woman to woman is their dream of finding an ideal mate, whom they hope each time they have discovered, only to be "disillusioned." But what such men call "ideals" are really childish ways of justifying their refusal to accept the harsh facts of adult life, such as that no one will give you the unwavering devotion you got (or craved) from your mother as a baby. Equally childish resentment at not getting this explains their cruelty to the women they discard.

Do recruits need more careful "screening"?

Answer: Yes, writes Dr. R. S. Clark in The Military Surgeon In World War II, forty per cent of all discharges from the Army for physical or mental disability were "neuropsychiatric casualties," and in half these cases later study by the Veterans Administration revealed previous neurotic trends which, if recognized, would have led to the man's rejection before being inducted. Stricter psychiatric screening would not only have produced a more efficient Army, but have saved the cost of subsequent treatment of these patients.

Tickets Bring $25 For Oklahoma Aggies, Bradley Cage Game

PEARIA, Ill., Jan. 25 (AP) — Tickets are going on the street for $25 apiece for tomorrow night's basketball scorcher between Bradley and Oklahoma A. & M.

Robertson field house will be packed with a capacity 8,300 persons, and Bradley officials say they could have sold 25,000 ducats for the contest which pits the third and fourth nationally ranked quintets in the Associated Press weekly poll.

The lure is a scrap for the Missouri Valley Conference lead between two teams with completely opposite styles of attack. Oklahoma A. & M. with a 4-0 conference record and a 16-1 season mark features a plodding, but relentless control game.

Bradley's Braves have ridden to an 18-2 season record on a firewagon attack which has averaged 76.5 points a game, third high in the nation. In the Missouri Valley loop, the Braves have a 4-1 record. In the A. P. poll, the Aggies are third and Bradley fourth.

Protests Boxers Using Headgear

BOSTON, Jan. 25 (AP)—Proposals to force boxers to wear headgear and to place wrestling under state regulation drew protests at a state house hearing today.

Myer Nadelberg who fought more than 300 professional bouts under the name of "Billy Myers" told a legislative committee:

"If you are going to make boxers wear headgear, you might as well have them put on lace panties and take up tennis."

Burst Of Buying Strength Halts Stock Market Retreat

NEW YORK, Jan. 25 (AP)—An unexpected burst of buying strength today in the stock market blocked a price retreat that was nearing the breaking point.

The net result was to hold losses at the close to only a bit more than $1 a share at the outside among the leaders.

At the worst part of the decline the fall carried to around the $3 level, one of the most severe shakeouts in weeks.

Throughout most of the day the market did little more than fall back gradually without any particular selling pressure. The volume of trading was comparatively light.

The railroads reacted well with five of the 15 most active issues among the rails. The radio-television section, however, moved into the plus column strongly. Zenith was up 2⅛ at 63⅜, and Radio Corp. up ¼ at 18⅜ was second most active.

Associated Press average of 60 stocks lost 50 cents at $91.10. A similar sized decline occurred yesterday. The industrial component was off 70 cents, rails down 50 cents, and utilities 20 cents.

The volume of trading expanded to 2,520,000 shares as compared with 1,990,000 shares yesterday.

After the market closed, Bethlehem Steel declared a $1 dividend on common. Payments in 1950 were 60 cents in March, 75 cents each in June and September and $2 in December. Earnings amounted to $12.15 a share in 1950 as against $9.68 in 1949.

Bethlehem closed off ⅛ at 55⅜.

American Telephone was the fourth most active issue off ⅛ at 150⅛ ex-rights. The rights closed up 1/32 at 11/16.

New York Central was the most active issue up ⅛ at 23¼. At one time it was off a point.

Among others on the active list were Baltimore & Ohio off ⅜ at 22, Pepsi Cola off ⅛ at 11⅝, and Jones & Laughlin Steel (new) off ⅜ at 28⅛.

Court Invalidates City's Anti-Communist Law

Coleman-Schusterman Win Appeal In Circuit Court Upsetting City Red Law

Judges Henderson, Schnauffer Suggest Possible Action Under State's Ober Law

Cumberland's ordinance requiring Communists living within the city limits to register was declared unconstitutional by Associate Judges George Henderson and Patrick M. Schnauffer in a 15-page opinion and decision filed in Allegany County Circuit Court yesterday afternoon. They ordered the convictions under it must be set aside.

The opinion was written concerning appeals from Police Magistrate Frank A. Perdew, taken last September by William Boyd Coleman and Arthur M. Schusterman. Magistrate Perdew had fined them $100 each shortly after City Council passed the ordinance last September 5. They have been the only convictions under the measure.

Coleman and Schusterman, both former presidents of the CIO-Textile Workers of America local at the Celanese plant here, were arrested last September 16. They were fined by Magistrate Perdew two days later. They were both defense witnesses in the long trial of 11 Communist leaders in New York in 1949.

Arguments Heard

Arguments concerning the ordinance were delivered in Allegany County Circuit Court last October 7 before Judges Henderson and Schnauffer. The latter came here from Frederick to sit with Judge Henderson in the controversial cases because of illness of other judges here.

Although they ruled that the ordinance was in violation of the Fifth Amendment to the United States Constitution and of Article 22 of the Declaration of Rights of the Constitution of Maryland, in requiring Communists to register, they observed that the Attorney General of Maryland should be forwarded the facts for such action as may be warranted under the Ober Law.

Their decision read in part:

"Since it is apparent the main purpose of the ordinance was to require Communists to register, and since this cannot legally be done, the ordinance as a whole must be declared invalid, and the convictions under it must be set aside.

"The City officials cannot prosecute Coleman and Schusterman under the City Ordinance in question. But they can — and it may well be their duty so to do — report the facts to the Attorney General of Maryland for such action as may be warranted under the Ober Law.

Rise Of Communism

"The rise of Communism, with its cynical disregard of principles and morals which are the basis of our legal and governmental systems, may in the future require a temporary and partial restriction of certain human rights."

The document then quotes from an opinion by the late Justice Oliver Wendell Holmes in Cox vs. New Hampshire:

"Civil liberties, as guaranteed, imply the existence of an organized society maintaining public order without which liberty itself would be lost in the excesses of unrestrained abuses."

Then, the judges conclude their decision with these words:

"But, if this is necessary, such change must be made by some higher authority that the Mayor and City Council of Cumberland or the Circuit Court for Allegany County."

Attorney-General Hall Hammond said he had not heard of the decision and could only say he would "study the court's opinion and the facts, and take such action as we deem necessary." He expressed keen interest in the ruling.

The lengthy legal document begins with the court's opinion, then discusses Communists aims, the Communist conspiracy and the local angle, then quotes the ordinance in full, discussing it by sections and finally discusses the question of self-incrimination.

Writs Of Certiorari

Coleman and Schusterman sued out writs of certiorari last September asking the Allegany County Circuit Court to pass on the constitutionality of the ordinance.

Early in the opinion the jurists offer an explanation to the citizens. It reads:

"The average citizen is apt to misunderstand the rules by which courts are governed in deciding these cases. He sees Communists and their "fellow travelers" appealing for the protection of certain Constitutional rights, such as the freedom of speech, of the press, of religion and of assembly, and the privilege against self-incrimination. He knows that none of these rights is permitted to exist in Communist countries, and he thinks it strange that Communists should be allowed to invoke the protection of a Constitution they are endeavoring to destroy.

"But citizens of our country, living, as we do, under a constitutional government, have a different conception of our rights and duties. Because our forefathers had experienced the results of uncontrolled governmental power, it was deemed wise to limit the power of the State, and to set forth in a "Bill of Rights" certain basic freedoms which were conferred upon all citizens, rich and poor alike.

"Theories Differ"

"And so this ordinance must be passed upon by this Court in accordance with those theories of constitutional government which we have established — not in accordance with the theories Communists would follow were they in control. Our constitution stands as a bulwark; it has so stood in the past; it will so stand in the future if we do our part in upholding it. A ukase from the Kremlin changes the principles and policies of Communism here and elsewhere in the world. Only a duly adopted amendment can change our Constitution.

In succeeding sections the judges make clear that they are aware of the Communist aims and the Communist conspiracy. They quote extensively from the Doubs case decided by the United States Supreme Court last May. In that case it was ruled that unless each official of a labor union takes an oath that he is not a Communist, the union would be barred from utilizing certain privileges granted to labor unions under the Labor-Management Relations Act.

Under the section entitled "The Local Angle," the judges wrote in part:

"Cumberland was and is suffering from an unemployment problem, possibly caused partly by labor difficulties. And the Mayor and City Council may have concluded that those who are members of the Communist Party should be required publicly to acknowledge such allegiance lest in the future they be elected to positions of union leadership by members who would not select them if their Communist party affiliations were known."

Admitted Communists

In this case it was testified that both defendants were admitted members of both the Maryland and United States Communist parties.

The ordinance in question, besides requiring registration of Communists, prohibited dissemination or sale of literature issued by the Communist Party and provided that no one should be eligible for city employment until signing an oath required under the Ober Act. A fine of not less than $10 and not more than $100 was stipulated. For default in payment of fine the defendant was to have been confined in the City Jail for not less than 10 days nor more than 30 days.

Declaration Of Rights

The opinion observes that the section of the ordinance involving dissemination of Communist Party publication is illegal. "Its wording is broad enough to prohibit even the giving away of copies of the Bible, the Constitution of the United States or the Declaration of Indepedence if these bore the imprint of the Communist party," the judges said. However, they said that the section providing for oath under the Ober Law for all city employes was within the power of City Council.

Greatest emphasis in the opinion is given to the section of the ordinance requiring registration by Communists. They observe that the Fifth Amendment to the United States Constitution provides: "No person . . . . shall be compelled in any criminal case to be a witness against himself . . . ."—Similarly, Article 22 of the Declaration of Rights of the Maryland Constitution provides: "That no man ought to be compelled to give evidence against himself in a criminal case."

The jurists wrote that a number of decisions have upheld these provisions. They go into some detail in quoting from the recent Blau case decided last December 11 by the United States Supreme Court.

Blau Case Cited

In the case Patricia Blau had been summoned as a witness before a Federal Grand Jury in Denver, Colo. She was asked several questions concerning the Communist Party in Colorado and her employment by it.

She refused to answer on grounds that they might tend to incriminate her. She later refused to testify before the district judge, who found her guilty of contempt of court and sentenced her to one year imprisonment. In an unanimous decision the United States Supreme Court ruled that she had the privilege of remaining silent.

The judges emphasize in their opinion that in Maryland there also is a possibility of prosecution in the State Courts under the Ober Law.

They wrote:

"The ordinance does not attempt to, nor could it legally do so, grant immunity from prosecution under the Ober Law.

World-Wide Conspiracy

"And, if, as seems more and more apparent day by day, the Communist Party is a world-wide conspiracy striving to overthrow the government of this and other countries by force and violence, then membership in it, with knowledge of its nature, its aims, its principles and its methods, is nothing more or less than sedition (which is so closely allied to treason.)

Train Kills Railroad Employe

William J. Emerick, 62-year-old Hyndman, Pa., telegraph operator for the Baltimore and Ohio Railroad met his death ironically yesterday afternoon at the Hyndman crossing when a B & O passenger train struck his new automobile. Emerick, who was off duty yesterday, had been visiting in the Hollywood section of Hyndman shortly before the accident. He often had cautioned relatives and friends to exercise care crossing the tracks where he met his death. In the picture Hyndman residents are shown around the virtually demolished auto. The car had been driven only 344 miles by the veteran railroad employe. The train was bound from Cumberland to Pittsburgh.

5,000 State Youths Will Be Reexamined

Physical Standards For Draft Lowered

BALTIMORE, Jan. 25 (AP)—About 5,000 Marylanders may be subject to reexamination under lowered physical and mental qualifications for military service, the State Selective Service director estimated today.

Col Henry C. Stanwood announced the estimate after Mrs. Anna Rosenberg, assistant secretary of defense, said in Washington that the department proposes to lower the standards for induction "as far as security will permit."

Mrs. Rosenberg also said that an estimated 150,000 men might be accepted for limited service under the revised standards.

Col. Stanwood estimated that Maryland's share of this total would amount to about 2,250 men.

However, the state director said he would take no steps toward implementing the new program in Maryland until he has received a directive from National Selective Service headquarters.

Fire Damages Grove Dwelling In Bowling Green

Three Companies Save Most Of Residence

A fire of undetermined origin caused about $1200 damage to the home of Mr. and Mrs. Theodore L. Grove, Bowling Avenue, Bowling Green yesterday afternoon. The blaze was fought by volunteer firemen from Bowling Green, Cresaptown, and LaVale companies.

Mrs. Grove stated she was working in the kitchen of the six-room structure about 3:30 p. m. when she smelled smoke. She immediately went upstairs and found the rear bedroom full of smoke from a fire in a closet. Taylor Carder, rubber worker who lives next door noticed smoke about the same time and brought his garden hose to play on the flames, holding it in check until the firemen arrived.

The house, covered by rubber shingles, was burned through at one point on the rear wall and the roof was weakened by the blaze. Efforts of the firemen confined the flames to one room, but water damage was extensive throughout the house.

Arthur Winters, Chief of Cresaptown Volunteer Fire Company estimated the damage to be in excess of $1200 and stated the walls and ceilings throughout the structure would have to be repaired.

Grove, operator of a hauling business, said the damage was covered by insurance.

B. & O. Employe Dies When Train Hits His Auto

Emerick Killed In Hyndman, Pa.

A 62-year old Hyndman, Pa., man who had worked most of his life as a telegraph operator for the Baltimore and Ohio Railroad there, ironically met his death late yesterday when his almost new automobile was demolished by a Pittsburgh-bound B&O passenger train at the Hyndman crossing.

He was William J. Emerick, who had been an employe of the B&O for at least 45 years, according to H. H. Clark, B&O superintendent in Hyndman.

Friends of the dead man said that he often cautioned relatives and friends to be careful in crossing the B&O tracks in Hyndman.

Emerick had a day off from work yesterday and had been visiting in the Hollywood section of the Pennsylvania town shortly before the tragedy occurred. His car, which had been driven only 344 miles, was struck by Train No. 9, bound from Cumberland to Pittsburgh at 5:31 p. m. yesterday. Emerick apparently was killed instantly.

The train, on which Roy Tharp, of Cumberland, was engineer, delayed 25 minutes before continuing on its journey, Clark said. Witnesses said that a freight train was stopped on the siding at the Hyndman crossing. The train had been split so that automobiles could use the crossing. Emerick apparently thought the signal lights were blinking simply because the freight train was on the tracks there.

Born May 1, 1888, in Bedford county, Pa., Emerick had lived in the Hyndman area all of his life. Surviving are his father, Benjamin, Hyndman; his widow, Mrs. Elsie Hartzell Emerick; a son, Richard, Hyndman; two daughters, Mrs. William Heit, Bedford, and Mrs. Carl Carpenter, Hyndman; three grandchildren and a sister, Mrs. Grace Close, Bethlehem, Pa.

He was a member of the Hyndman Methodist Church, the Hyndman Masonic lodge and the Williamsport Consistory of the Masonic Lodge. The body was at the Ziegler Funeral Home, Hyndman, pending funeral arrangements.

The 1950 annual report of Hercules Powder Company, issued to stockholders today, showed net income after all charges and preferred dividends equal to $5.31 a share on 2,654,710 shares of common stock, the average number of shares outstanding. In 1949, net income of the company was equal after preferred dividends to $3.60 a share on 2,645,224 shares of common stock then outstanding.

The past year saw a reversal of 1949's downward business trend, and closed with industry operating at top levels, the report said. Physical quantity of sales increased 27% while income before taxes gained 75% over 1949. The dollar volume of company sales at the year end was running about 57% higher than it was a year ago.

Net income applicable to the common stock increased 48% over the previous year. The company's Federal income tax rate increased 27%, and as a result net income was $1.17 a share lower than it would have been at the 1949 tax rate.

2,688 Votes Cast; Five Offices Open

Heavy but close balloting in the annual election of officers for Local 1874, Textile Workers here this week, resulted in the calling of a run-off vote next week.

None of the candidates seeking the offices of president, vice-president, secretary-treasurer and business manager; and recording secretary received more than the necessary 51 percent of the votes cast to win election. Four of five to be chosen for the executive board must be named from eight remaining candidates.

Aldridge Vs. Snyder

Runoffs will be between Playford Aldridge and Earl L. Snyder for president; John M. Fatkin and William E. Meagher for vice president; Melvin Harris and John G. Thomas for secretary-treasurer; and Charles F. Davis and John L. Estes for recording secretary.

Harry Wright received enough votes to assure a position on the new executive board but the remaining four seats must be filled by four of the following: Ishmiel Adams, William J. Atkinson, Robert Baker, Lillian Burch, Lindley Dye, Richard Jenkins, John G. Kreitzburg and Ira McBride.

Elected without opposition were Walter Hymes, James McGann and David E. Rennie to the auditing committee.

Harvey Named Warden

Francis Harvey defeated Walter Mahaney for warden.

The board of trustees with eight candidates will not figure in the run-off since five received the necessary majorities. They are Roy T. Craze, John Frances Fatkin, George P. Harris, Charles E. Jones and James Roby.

George Abrams of the Honest Ballot Association which conducted the election said yesterday that voting in the election for the past three days was the heaviest ever recorded in the four years the association has been handling the affair. He reported a total of 2,688 votes were cast from a membership of 4,500 in the TWUA local.

Abrams announced the runoff will be conducted next Monday, Tuesday and Wednesday in the same manner as the election just completed and ballots may be cast at the union hall, North Mechanic Street, and at the Celanese Corporation of America plant. Ballot boxes will be open from 9 a. m. to 5 p. m. at the union hall and at shift changes and during lunch hours at the Amcelle plant, he said.

Counties Reject Yearly Property Assessment Plan

Commissioners Voice Strong Opposition

ANNAPOLIS, Jan. 25 (AP) — Commissioners of 19 Maryland Counties turned thumbs down today on a plan for property reassessment at full cash value every year.

They made it clear to state senators now considering legislation to put the plan into effect that they want none of it.

Their action came as opposition mounted in the Senate itself.

At issue was a recommendation of the Case Tax Survey Commission to throw out the rotational system followed in Maryland since 1944.

The vote was taken at a meeting called especially to demonstrate the counties' position to the Legislature. Two counties — Montgomery and Baltimore — abstained. St. Mary's and Dorchester were not represented.

County spokesmen were polled after Richard W. Case, chairman of the survey commission, H. Vernon Eney, his chief assessment adviser, and Albert W. Ward, secretary of the State Tax Commission, all defended the annual assessment idea.

"It would be absurd to think that state tax assessors are super people that could go out and satisfy us in one year's assessment," replied Clarence E. Tyler, an Anne Arundel county commissioner and former member of the House of Delegates.

The Senate bill compiling commission recommendations would authorize assessment supervision at a state level.

Some county spokesmen complained it concentrated too much power in the State Tax Commission. Ward contended boards of county commissioners would retain their right to review an assessment.

U. Grant Hooper, president of the Frederick County Commissioners who conducted the meeting, named Tyler to head a committee to confer with a Senate finance subcommittee. The two groups will try to reconcile differences.

Several county spokesmen asserted they were just as dissatisfied with the current system whereby each of five county districts is reassessed only once every five years.

Hoffa Again To Head Board

Arthur P. Hoffa, Barton, last night was reelected chairman of the Allegany County District Forestry Conservancy Board at its annual meeting at the Court House.

Blair Welsh was again named vice-chairman. Other members are Arthur J. Weber, J. Stanley Espy and Charles L. Kopp. All were present last night except Kopp, who is out of town.

The board reported that there were 41 Conservancy District Law violations during 1950. In each case the violator was a first offender, who was simply given a warning. Second offenders are prosecuted, according to District Forester William H. Johnson, who met with the board.

In other actions last night the board voted to meet quarterly during 1951 and to report to the Commission of State Forest and Parks on its 1950 activities. The board reported that compliance with cutting requirements during the past year generally was satisfactory.

Judge Suspends Sentence In Appeal

Martin McKenzie, convicted last Friday by Associate Judge Morgan C. Harris in Allegany County Circuit Court on a charge of being drunk and disorderly, received a suspended sentence from the judge and was paroled for one year, provided he keeps the peace, observes good behavior, abstains from the use of alcohol, seeks employment and supports his children.

McKenzie had appealed from a decision by Trial Magistrate James P. Kenney, Frostburg, who had given him six months at the House of Correction. McKenzie was arrested on complaint of his wife, Mrs. Betty McKenzie, who contended he was drunk and disorderly last May 14.

Detective Thomas J. See said Virgie's Tavern, 1614 Ford Avenue and the 7-11 Confectionery, 711 Maryland Avenue were entered Wednesday night as the recent wave of burglaries continued.
